KEY EVENTS ASX: NCC

9 HOLDINGS

PORTFOLIO CASH WEIGHT 2.14% as at 31 March 2018

- **ASX: CGR** continues to grow organically well ahead of market expectations. Opportunity to acquire a business that was created by a forced sale.
- **ASX: WNR** announced a significant acquisition of a blast freezing and cold storage business for meat products.
- **ASX: BSA** provided a more disappointing market update on their non core legacy construction division, offsetting excellent performance of the telecommunications division.
- **ASX: BRI** solid result from the core distribution business was offset by the poor performing manufacturing division.

KEY EVENTS ASX: NSC

14 HOLDINGS

PORTFOLIO CASH WEIGHT 18.58% as at 31 March 2018

- **ASX: MNF** first large core position for NSC, opportunity provided by the market reaction from the acquisition of the Pennytel business.
- **ASX: SSM** reported a standout result and announced an on market share buy-back of up to 10% of issued capital.
- **ASX: COG** announced an on-market buyback highlighting the boards view that their own equity is undervalued. Disintermediation of the market place continues providing an opportunity for funding alternatives such as COG.
- **ASX: TOT** large stake acquired due to an opportunistic liquidity event, void left by big-4 banks in commercial lending has created a market share opportunity for TOT.

KEY EVENTS ASX: NAC

11 HOLDINGS

PORTFOLIO CASH WEIGHT 4.62% as at 31 March 2018

NAOS

- **ASX: SIQ** recent capital raising, management have proven themselves to be excellent capital allocators having successfully completed four key acquisitions over the last 12 months.
- **ASX: JHC** a one off statutory deduction highlighted a significantly stronger second half, Riviera Health acquisition announced, assets are majority freehold and two are very new.
- **ASX: MNF** the market announcement regarding the acquisition of Pennytel caused the stock to be sold off aggressively. We believe the market continues to discount MNF's software capabilities, tier-1 client base, the continued focus on voice products from the likes of Amazon and Twilio and finally their net cash balance sheet.

2. Market Outlook

"We steer clear of the foolhardy academic definition of risk and volatility, recognizing, instead, that volatility is a welcome creator of opportunity"

Seth Karlman

NAOS Risk Management & Volatility

1. All the NAOS LICs have the ability to hold up to 100% cash.
2. We are not currently holding large cash balances in our LICs, our approach is to invest in quality companies with conservative balance sheets.
3. Although NCC has 3% cash the look through cash balance for the portfolio is circa 25%.
4. We cannot control market noise and short term market volatility, however we can control investing based on value and stock specific fundamentals over a 3-5 year view.
5. Short term volatility can create long term opportunities.

VOLATILITY ANALYSIS NCC

STOCK SPECIFIC RISK AND OPPORTUNITY

Long Term Opportunities Created via Recent Volatility

ASX: MNF	Net cash balance sheet with annuity like revenue that is billed monthly with a high recurring user base.
ASX: JHC	High recurring revenue streams with a large property asset base that is valued conservatively at cost.
ASX: TOT	Cash vehicle providing short term loans with little duration and/or security risk.
ASX: COG	Significant net cash balance with a large broking network that will benefit from industry disintermediation.

LISTED INVESTMENT COMPANIES

Why the Continued Rise of LICs as an Investment Vehicle?

1. Company structure enables consistent income stream via dividends
2. Transparency of investment approach and portfolio structure
3. Manager and Director alignment as well as fee alignment
4. Dividend reserves and franking
5. Marketing strategy and market awareness
6. Best of breed investment strategies that add value
