2017 investment in
youth mental
health

FGG impact on children and youth mental health

Development and implementation of online clinical assessment tools for 500 young people experiencing suicidal thoughts and behaviours.

Establishment of Australia's first intensive outpatient program for young people aged 14-24 with eating disorders.

Development and trial of a mobile phone-based messaging system for suicide prevention across three hospitals.

Research project to improve a help centre supporting young adults with complex mental illness.

Development and promotion of a website assisting parents and carers on raising healthy resilient children aged 0-12 years.

Research project to investigate barriers in seeking mental health services across rural and regional Australia.

FGG impact on children and youth mental health

Trial of an app to collect data about young people's social connectedness to identify those most at risk of mental illness.

A targeted national awareness campaign via mainstream press and social media, reaching 4.7 million young adults.

500 'share plans' created for young people and their families for highly personalised treatments by clinicians.

Research project on defining and measuring resilience in children.

Development of place-based research project for youth suicide and self-harm prevention.

Aboriginal and Torres Strait Islander Traineeship Program assisting 300 Aboriginal and Torres Strait Islanders access culturally relevant mental health services.
