On behalf of the Board of Tlou Energy, I invite you to participate in the Company's partly underwritten non-renounceable pro-rata entitlement offer of 1 Offer Share for every 6 Shares held at the Record Date, at an Issue Price of \$0.10 per Offer Share.

The net proceeds of the Offer and Placement, together with the Company's existing cash, will be used to fund the drilling of new production pods, core-hole operations, regulatory approvals, as well as general working capital requirements.

The Placing Shares will be issued and admitted to trading on the ASX (in CHESS) and AIM (in the form of Depositary Interests) on Wednesday, 20 June 2018, following the Record Date. The holders of the Placing Shares will not be entitled to participate in the Offer.

Details of the Underwriting Agreement and sub-underwriting arrangements referred to above are set out in paragraph 4 of Part 4 of this Offer Booklet.

Entitlements are non-renounceable and will not be tradeable on ASX, AIM or BSE or otherwise transferrable. Eligible Shareholders who do not take up their Entitlement will not receive any value in respect of those Entitlements.

The Placing Price and Issue Price represents a 23.1 % discount to the last traded price of Shares on 6 June 2018, being the last trading day prior to the announcement of the Placement and Offer, and also represents a 20.5 % discount to the theoretical ex-rights price.

The Offer is scheduled to close at 7.00p.m. (AEST) on Friday, 6 July 2018.

Full details of the Offer and how to participate can be found in this Offer Booklet. Part 2 of this document and, where relevant, the Entitlement and Acceptance Form (which is being sent to all Eligible Shareholders), contain the formal terms and conditions of the Offer. I encourage you to read this document before deciding whether or not to take up your Entitlement. If you have any questions in respect of the Offer please consult your stockbroker, accountant or other professional adviser.

As a Board, we appreciate the support of our existing Shareholders and we have been mindful of providing existing Shareholders, the opportunity to increase their investment in the Company.

Mr. Martin McIver  
Non-Executive Chairman

## 2. Details of the Placement

On 6 June 2018, the Company announced that it had raised approximately \$2.47 million (before expenses) by way of a firm placement of 24,752,582 Placing Shares at a price of \$0.10 (£0.0575) per Placing Share. The Placing Shares will be admitted to trading on AIM and the ASX on Wednesday, 20 June 2018. The Placing Shares are expected to be issued after the Record Date for the Offer and will not be included in the number of issued Shares for the purposes of determining Entitlements to subscribe for Shares pursuant to this Offer.

## 3. Use of Funds From Offer

Completion of the Offer, provided it is taken up in full, will result in an increase in cash at hand of up to approximately \$5.49 million (before the payment of the costs associated with the Offer).

The Company intends to apply the funds raised under the Offer, along with existing cash and the proceeds of the Placement, towards the drilling of new production pods, core-hole operations, regulatory approvals and working capital requirements of the Company.

The above is a statement of the Board's current intentions as at the date of this Offer Booklet. However, Shareholders should note that, as with any budget, the allocation of funds set out above may change depending on a number of factors, including the outcome of operational and development activities, regulatory developments, market and general economic conditions and environmental factors. In light of this, the Board reserves the right to alter the way the funds are applied.

## 4. Principal Terms of the Offer

Maximum amount to be raised under the Offer	\$5,491,194 (approximately)

Eligible Holders who are recorded on the Company's share register at 7.00pm (AEST) on Friday, 15 June 2018, being the Record Date, will be entitled to subscribe for 1 Offer Share for every 6 Shares held on the Record Date. The Issue Price for each Offer Share is A\$0.10, which is payable in full on application. Fractional Entitlements are being rounded down to the next whole Offer Share.

To participate in the Offer, Eligible Holders need to ensure that Entitlement and Acceptance Forms and/or payment of Application Monies is received by the Company on or before the Closing Date, in accordance with the instructions in Part 2.

The Offer is being structured so as to allow Eligible Holders to subscribe for any whole number of Offer Shares at the Issue Price up to their maximum entitlement. In the case of Eligible Shareholders, this maximum entitlement shall be equal to the number of Offer Shares as shown in their Entitlement and Acceptance Form. In the case of Eligible Depository Interest Holders, this maximum entitlement shall be equal to the number of Offer Entitlements standing to the credit of their stock account in CREST. Eligible Holders may also make applications in excess of their pro rata initial entitlement pursuant to the Excess Application Facility. To the extent that pro rata entitlements to Offer Shares are not subscribed by Eligible Holders, such Offer Shares will be available to satisfy such excess applications. The action to be taken in relation to the Offer depends on whether, at the time at which application and payment is made, you have an Entitlement and Acceptance Form in respect of your entitlement to Offer Shares or have Offer Entitlements credited to your stock account in CREST in respect of such entitlement.

The maximum number of Offer Shares to be issued under the Offer will be approximately 54,911,938 to raise up to approximately \$5.49 million (before costs). The details of the use of the proceeds of the Offer are set out in paragraph 3 (Use of funds) above.

All of the Offer Shares offered under this Offer Booklet will rank equally with the Shares on issue at the date of this Offer Booklet, on and from their date of issue.

If you have received an Entitlement and Acceptance Form with this document, please refer to paragraph 4.1 of Part 2.

If you have Depository Interests and have received a credit or Offer Entitlements to your CREST stock account, please refer to paragraph 4.2 of Part 2 and also the CREST Manual for further information on the CREST procedures referred to below.

For clarity for those Shareholders who are in Australia, New Zealand and the UK, the Offer is a non-renounceable pro rata rights offer, as that term is used in Australia, and will be offered under section 708AA of the Corporations Act and the mutual recognition laws in New Zealand. Accordingly, there will be no trading of rights on the ASX and you may not dispose of your rights to subscribe for Offer Shares under the Offer to any other party. If you do not take up your Entitlement to Offer Shares by the Closing Date, your Entitlement will lapse.

The Offer is not a rights issue, as that term is used in England and Wales. Eligible Depository Interest Holders should note that although the Offer Entitlements will be admitted to CREST and be enabled for settlement, applications in respect of entitlements under the Offer may only be made by the Eligible Holder originally entitled or by a person entitled by virtue of a *bona fide* market claim raised by Euroclear UK & Ireland's Claims Processing Unit. Eligible Shareholders should note that the Entitlement and Acceptance Form is not a negotiable document and cannot be traded. Eligible Holders should be aware that in the Offer, unlike in a rights issue (as this term is used in England

and Wales), any Offer Shares not applied for will not be sold in the market or placed for the benefit of Eligible Holders who do not apply under the Offer.

Eligible Holders are referred to paragraph 2 of Part 2: "Terms and Conditions of the Offer" and in particular to the dilutive effect of the Placement and Offer on Shareholders.

Performance rights holders are not entitled to participate in the Offer.

Certain of the Directors who are Eligible Shareholders or Eligible Depositary Interest Holders have undertaken to participate in the Offer for all or part of their Entitlements as an indication of their ongoing support for the Company; further details are set out in paragraph 8 below. As prescribed by the ASX Listing Rules, they are generally not entitled to receive any additional Offer Shares above their entitlement without shareholder approval.

The Directors may, at any time, decide to withdraw this Offer Booklet and the offers of Offer Shares made under it, in which case the Company will return all Application Monies (without interest) within 28 days of giving such notice of withdrawal.

## **5. Eligibility to participate in Offer**

The Offer is being offered to Eligible Shareholders only. Eligible Shareholders are persons who are registered as a holder of Shares as at the Record Date that:

- have a Registered Address in the United Kingdom, Australia or New Zealand or are a Shareholder that Tlou Energy has otherwise determined (in its absolute discretion) is eligible to participate in the Offer; and
- is not located in the United States and are not a US Person or acting for the account of or benefit of a person in the United States or a US Person.

Shareholders, who are not Eligible Shareholders, will not be entitled to participate in the Offer or to subscribe for Offer Shares. The restrictions upon eligibility to participate in the Entitlement Offer arise because Tlou Energy has determined, pursuant to ASX Listing Rule 7.7.1(a) and section 9A(3)(a) of the Corporations Act, This decision has been made after taking into account that it would be unreasonable to extend the Offer to Ineligible Shareholders as it is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas shareholders, the number and value of Shares these shareholder would be offered and the cost of complying with the regulatory compliance in each relevant jurisdiction in which the Ineligible Shareholders are located.

## **6. Excess Application Facility**

Eligible Shareholders, who apply for their full Entitlement, may apply for Excess Shares in excess of their Entitlement, provided that the issue of those Excess Shares will not result in a breach of the Listing Rules or any applicable law. Any Excess Shares will be limited to the extent that there are sufficient Offer Shares available after satisfying all Applications received from Eligible Shareholders pursuant to the Offer (i.e. there is a shortfall between the number of Offer Shares applied for under the Offer and the total number of Offer Shares offered to Eligible Shareholders under the Offer).

It is your responsibility to ensure that you will not breach the takeovers provisions in the Corporations Act by applying for Excess Shares.

If you apply for Excess Shares, then, subject to the Directors retaining discretion to refuse to accept applications (in whole or in part) for Excess Shares where the effect of issuing Excess Shares will result

in the applicant's, or another person's, Voting Power in the Company increasing from 20% or below to more than 20%, applicants under the Excess Application Facility will be allocated the lesser of:

- the number of Excess Shares applied for; and
- if the number of Excess Shares available for subscription is less than the aggregate number of Excess Shares applied for by all unsatisfied applicants, the number of Excess Shares applied for, scaled back on a pro rata basis according to all unsatisfied applicants' respective shareholdings in the Company as at the Closing Date for the Offer.

If, following the allocation process referred to immediately above, there are any remaining Excess Shares, that allocation process will be repeated continuously until all applications for Excess Shares have been satisfied in full or there are no further Excess Shares.

Following completion of the above process, any remaining Excess Shares will be issued to the Underwriter or its nominees in accordance with the Underwriting Agreement.

Tlou Energy's decision as to the number of Excess Shares to be allocated to you will be final and binding. If scaling back occurs, Application Monies in relation to Excess Shares applied for but not issued will be refunded by cheque or CREST payment, as appropriate, without interest. There is no guarantee that Eligible Holders will receive any or all of the Excess Shares they apply for as the Company retains the discretion to allocate Excess Shares as it sees fit.

Eligible Shareholders who wish to apply for Excess Shares should insert the number of Excess Shares that they want to apply for in the appropriate Section of the Entitlement and Acceptance Form or otherwise, following the instructions in that form if paying via BPAY®. Eligible Depositary Interest Holders should follow the instructions in paragraph 4.2(f) of Part 2. Any Excess Shares that are applied for must be paid for at the same time, and in the same way, that the Offer Shares to be issued pursuant to the acceptance of Entitlements are paid for.

Offer Shares, including Excess Shares issued under the Excess Application Facility will rank equally with the Company's existing Shares.

## **7. Offer partly Underwritten**

The Offer is partly underwritten by the Underwriters. Subject to the terms of the Underwriting Agreement, the Underwriters will lodge or cause to be lodged with the Company, Applications for up to 13,700,000 Offer Shares not subscribed for by Eligible Shareholders. The Underwriters are entitled to nominate all the Applicants.

A summary of the other material terms of the Underwriting Agreement is set out in paragraph 4 of Part 4.

## **8. Directors' intentions and participation**

Tony Gilby, Martin McIver, Colm Cloonan, and Hugh Swire, being Directors of the Company, have undertaken to make an application to participate in the Offer and will make an application to subscribe for at least 3,328,326 Offer Shares, as detailed in the table below.

\*Includes interests held by the directors, related parties and entities in which the directors have a controlling interest.

In respect of the sub-underwriting arrangement, each of the sub-underwriters will receive a fee of 3% of the sub-underwritten amount.

## 9. Capital structure

The principal effect of the Offer will be to increase the total number of Shares and to increase the cash reserves by up to approximately \$5.49 million (before deducting the costs of the Offer).

The following table shows the capital structure of the Company before, and after completion of the Placement and Offer<sup>1</sup>:

---

Shares	Number
Shares on issue at the date of this Offer Booklet	329,471,693
Shares to be issued under the Placement	24,752,582
Total number of Shares expected to be on issue on the Record Date	329,471,693 (approx.)
Maximum number of Offer Shares to be issued under the Offer <sup>1 2</sup>	54,911,938 (approx.)
Maximum number of Shares on issue following the Offer and Placement <sup>2</sup>	409,136,213 (approx.)

<sup>1</sup> A small number of additional Offer Shares may be issued due to rounding of individual entitlements.

<sup>2</sup> Assuming all of the Offer Shares under the Offer are taken up and issued and there are no Ineligible Shareholders, and none of the performance rights are exercised prior to completion of the Offer.

The performance rights issued by the Company will not be affected by the Offer and the below table sets out the performance rights issued by the Company before the Offer and immediately after the allotment of Offer Shares pursuant to the Offer.

Performance Rights	Exercise Price	Expiry Date	Number
Performance Rights	NIL	31 Jan 2024	2,275,000

## 10. Impact of the Offer on your Shareholding and Possible Dilutive Effect

The dilutionary effect of the Offer on your shareholding will depend on whether you are an Eligible Holder and if so, whether you elect to subscribe for some or all of your Entitlement.

An Eligible Holder who takes up their entitlement under the Offer pro rata to their current holding will suffer a dilution of approximately 6.9% per cent. of their interest in the Company as a result of the Placement and on the basis that all Eligible Holders take up their entitlements under the Offer pro rata to their current holdings.

If the same Eligible Holder does not take up any of his entitlement under the Offer, they will suffer a dilution between a range of approximately 6% and 19.47% of their interest in the Company dependent on the level of take up and excess applications under the Offer by other Eligible Holders.

## 11. Effect of Offer on Voting Power in the Company

As the acquisition of Shares under the Offer and Excess Application Facility does not satisfy the requirements of exception 10 of section 611 of the Corporations Act, no person (including the Underwriters or any sub-underwriter) shall be entitled to acquire Shares pursuant to the Offer or Excess Application Facility if to do so would result in theirs, or another person's, Voting Power in the Company increasing from 20% or below to more than 20%, or from a starting point above 20% to below 90%, unless an exception to the restrictions contained in section 606 of the Corporations Act applies.

Accordingly, as there are currently no exceptions to the restrictions contained in section 606 of the Corporations Act and in light of the size of the Offer, the Offer is not expected to have any material effect or consequence on the control of Tlou Energy<sup>3</sup>.

The following table set out the possible effects of the Offer on the Underwriters' or any sub-underwriters' Voting Power in the Company on Completion of the Offer, under two potential scenarios (depending on the level of acceptances received pursuant to the Offer and Excess Application Facility).

Voting Power <sup>2</sup>	No Shortfall Amount		50% Shortfall Amount	
	Number of Shares	Shares %	Number of Shares	Shares %
Underwriters or Sub-underwriters	24,856,684	6.07%	38,556,684	9.7%
Existing Shareholders (Post Placement and Offer)	384,279,529	93.93%	358,670,978	90.3%
<b>Total</b>	409,136,213	<b>100.00</b>	397,227,662	<b>100.00</b>

Whether the Underwriter or sub-underwriters are required to subscribe for Offer Shares pursuant to the Underwriting Agreement and, therefore, any consequential increase in their Voting Power in the Company on the close of the Offer, is dependent on the size of the Shortfall, the extent to which Eligible Shareholders subscribe for Excess Shares pursuant to the Excess Application Facility, the number of Offer Shares subscribed for by any sub-underwriters and whether the Underwriters' or any sub-underwriters increase their Voting Power in the Company between the date of this Offer Booklet and Completion of the Offer.

The potential effect, that the issue of Offer Shares will have on the control of the Company, and the consequences of that effect, will depend on a number of factors, including investor demand. However, given the structure of the Offer as a pro-rata issue, it is not expected to have any material effect or consequence on the control of the Company. However, to the extent that any shareholder fails to take up their entitlement to Offer Shares under the Entitlement Offer, that shareholder's percentage holding in the Company will be diluted by those other shareholders who take up some or all of their Entitlement.

## 12. Risk Factors

There are various risks associated with investing in Tlou Energy, as with any stock market investment, and, specifically, because of the nature of Tlou Energy's exploration business and the present stage of development of Tlou Energy's operations. Potential investors should consider whether the securities are a suitable investment having regard to their own personal investment objectives and financial circumstances and the risk factors set out in Part 3 of this Offer Booklet. Many of those risk factors are outside the control of the Company.

## 13. Admission, Settlement and CREST

Application will be made to the London Stock Exchange for the Offer Shares to be admitted to trading on AIM and to the ASX for the Offer Shares to be admitted to trading on the ASX. It is expected that Admission will become effective on Monday, 16 July 2018 and that dealings in the Offer Shares will commence at 8:00 a.m. (BST) on that date.

If the Offer does not proceed the Existing Shares (which include the Placing Shares) will continue to be traded on AIM and the ASX.

<sup>2</sup> Assuming that neither the Underwriters nor any sub-underwriters (or their Associates) have, or do not acquire prior to the close of the Offer, any voting power in the Company;

The Depositary Interests are already admitted to CREST. No further applications will need to be made in respect of the admission to CREST of the Depositary Interests representing the Offer Shares. All such Depositary Interests, when issued and fully paid, may be held and transferred by means of CREST.

Offer Entitlements held in CREST are expected to be disabled in all respects after 11.00 a.m. (BST) on Tuesday, 3 July 2018 (being the latest practicable date for applications under the Offer). If the conditions to the Offer described above are satisfied, the Depositary Interests representing Offer Shares will be issued in uncertificated form to those persons who submitted a valid application for the Offer Shares by utilising the CREST application procedures and whose applications have been accepted by the Company. The Share Registry will instruct Euroclear to credit the appropriate stock accounts of such persons with such persons' entitlements to Offer Shares with effect from Admission (expected to be on 16 July 2018). The stock accounts to be credited will be accounts under the same CREST participant IDs and CREST member account IDs in respect of which the USE instruction was given.

Notwithstanding any other provision of this document, the Company reserves the right to send Eligible Depositary Interest Holders an Entitlement and Acceptance Form instead of crediting the relevant stock account with Offer Entitlements, and to allot and/or issue any Offer Shares.

If the conditions to the Offer described above are satisfied, the Offer Shares will be issued in uncertificated form to those persons who submitted a valid Entitlement and Acceptance Form or made a valid BPAY Payment for the Offer Shares by utilising the CHES application procedures and whose applications have been accepted by the Company.

For more information as to the procedure for application, Eligible Shareholders are referred to in paragraph 4 of Part 2, and where applicable the Entitlement and Acceptance Form.

Settlement on the Australian register will be conducted under the ASX's electronic CHES system. Under CHES, Applicants will not receive a certificate but will receive a statement of their holding of Offer Shares.

If you are registered in the Issuer Sponsored Sub-register, your statement will be despatched by 16 July 2018 and will contain the number of Offer Shares issued to you under this Offer Booklet and your security holder reference number.

A CHES statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their holding changes. Shareholders may request a statement at any other time; however, there may be a charge associated with the provision of this service.

## Part 2

### TERMS AND CONDITIONS OF THE OFFER

#### 1. Introduction

As explained in the "Letter from the Chairman" and the other details set out in Part 1 of this document, the Company is offering existing Shareholders the opportunity to acquire up to 1 Offer Shares for every 6 Shares at the Issue Price. If fully subscribed the total consideration under the Offer will be \$5,491,194.00.

The Record Date for entitlements under the Offer is Friday, 15 June 2018 at 7.00pm p.m. (AEST) in respect of Eligible Shareholders and at 6.00 p.m. (BST) in respect of Eligible Depository Interest Holders. Entitlement and Acceptance Forms for use by Eligible Shareholders accompany this document and Offer Entitlements and Excess CREST Offer Entitlements are expected to be credited to stock accounts of Eligible Depository Interest Holders Shareholders in CREST on Wednesday, 20 June 2018.

Subject to availability, the Excess Application Facility will enable Eligible Holders to apply for further Offer Shares. Further details in relation to the Excess Application Facility are set out in this paragraph 1 of this Part 2: "Terms and Conditions of the Offer" in this document and, for Eligible Shareholders, the Entitlement and Acceptance Form.

The latest time and date for receipt of completed Entitlement and Acceptance Forms and payment in full under the Offer is expected to be 5.00 p.m. (AEST) on Friday, 6 July 2018 and settlement of relevant CREST instructions and payment in full is expected to be 11 a.m. (BST) on Tuesday, 3 July 2018, with Admission and commencement of dealings in Offer Shares (in the form of Depository Interests) expected to take place at 8 a.m. (BST) on Monday, 16 July on AIM.

This document and, for Eligible Shareholders only, the Entitlement and Acceptance Form, contains the formal terms and conditions of the Offer. Your attention is drawn to paragraphs 4.1 and 4.2 of this Part 2: "Terms and Conditions of the Offer" which gives details of the procedure for application and payment for the Offer Shares and any additional shares applied for pursuant to the Excess Application Facility.

The Offer Shares will, when issued and fully paid, rank *pari passu* in all respects with the Existing Shares, including the right to receive all dividends and other distributions declared, made or paid after the date of Admission.

The Company is proposing to issue under the Offer up to 54,911,938 Offer Shares at the Issue Price, subject to Admission, in respect of valid applications by Eligible Holders.

The Existing Shares are admitted to trading on AIM, BSE and the ASX. Application will be made to the London Stock Exchange for the Offer Shares to be admitted to trading on AIM and to the ASX for the Offer Shares to be admitted to trading on the ASX. It is expected that Admission will become effective at 8 a.m. (BST) on Monday, 16 July 2018 and that dealings in the Offer Shares (in the form of Depository Interests) will commence at 8 a.m. (BST) on AIM on that date.

The Offer is an opportunity for Eligible Holders to apply for up to one (1) for every six (6) Offer Shares *pro rata* to their current holdings at the Issue Price in accordance with the terms of the Offer. Eligible Holders are being offered the opportunity to apply for additional Offer Shares in excess of their Offer Entitlement to the extent that other Eligible Holders do not take up their Offer Entitlement in full.

In the event that Eligible Holders apply, in aggregate, for an amount that is greater than the \$5,491,194 (54,911,938 Offer Shares), the Directors will use their discretion to scale back such applications such that this threshold is not exceeded.

The Shares allotted in the Placement will not be eligible to participate in the Offer.

The Company proposes to adopt the following allocation policy for Excess Shares subscribed pursuant to the Excess Entitlement Facility, subject to the Directors retaining discretion to refuse to accept applications (in whole or in part) for Excess Shares where the effect of issuing Excess Shares will result in the applicant's, or another person's, Voting Power in the Company increasing from 20% or below to more than 20%, applicants under the Excess Application Facility will be allocated the lesser of:

- the number of Excess Shares applied for; and
- if the number of Excess Shares available for subscription is less than the aggregate number of Excess Shares applied for by all unsatisfied applicants, the number of Excess Shares applied for, scaled back on a pro rata basis according to all unsatisfied applicants' respective shareholdings in the Company as at the Closing Date for the Offer.

If, following the allocation process referred to immediately above, there are any remaining Excess Shares, that allocation process will be repeated continuously until all applications for Excess Shares have been satisfied in full or there are no further Excess Shares.

Following completion of the above process, any remaining Excess Shares may be issued to the Underwriter or its nominees in accordance with the Underwriting Agreement or placed by the Company within 3 months of the completion.

Accordingly, Eligible Holders who apply for Excess Shares may be allocated a lesser number of Excess Shares than applied for (whether wholly or partially) in which case excess application money will be refunded without interest in accordance with the Corporations Act. There is no guarantee that Eligible Holders will receive any or all of the Excess Shares which they apply for. New Shares, including Excess Shares issued under the Offer will rank equally with Existing Shares.

After allowing for the demand of Eligible Holders under the Offer, the Directors reserve the right to place any shortfall under the Offer within 3 months at a price no lower than the Issue Price.

Any Eligible Holder who has sold or transferred all or part of his/her registered holding(s) of Depository Interests prior to the Record Date is advised to consult his or her stockbroker, bank or other agent through or to whom the sale or transfer was effected as soon as possible since the invitation to apply for Offer Shares under the Offer may be a benefit which may be claimed from him/her by the purchasers under the rules of the London Stock Exchange.

## **2. The Offer**

Subject to the terms and conditions set out below (and, in the case of Eligible Shareholders, in the Entitlement and Acceptance Form), Eligible Holders are being given the opportunity under the Offer to apply for any number of Offer Shares at the Issue Price pro rata to their holdings, which represents a discount of approximately 26.8 per cent. to the closing middle market price of 7.85 pence per Share on Tuesday, 5 June 2018, being the last trading day prior to the publication of the announcement of the Offer, on the following basis:

### **1 Offer Share for every 6 Existing Shares**

Fractions of Offer Shares will not be allotted to Eligible Holders in the Offer and entitlements under the Offer will be rounded down to the nearest whole number of Offer Shares.

If you are an Eligible Shareholder, the Entitlement and Acceptance Form shows the number of Existing Shares registered in your name at 7.00 p.m. (AEST) on the Record Date.

Subject to availability, the Excess Application Facility will enable Eligible Holders, provided they have taken up their Offer Entitlement in full, to apply for further Offer Shares in excess of their Offer Entitlement. Further details in relation to the Excess Application Facility are set out in paragraph 1 of this

Part 2: "Terms and Conditions of the Offer" and, for Eligible Shareholders, the Entitlement and Acceptance Form.

The Offer is being made only to Eligible Holders.

Eligible Shareholders will have received an Entitlement and Acceptance Form with this document which sets out their Offer Entitlement for which they can apply. Those Eligible Shareholders who are acting as a nominee or custodian for multiple beneficial holders are permitted to participate in the Excess Application Facility even if they do not take up their entire Offer Entitlement. Such nominees and custodians should utilise the Excess Application Facility only for those beneficial holders who have taken up their maximum entitlements under the Offer.

Eligible Depository Interest Holders will receive a credit to their appropriate stock accounts in CREST in respect of their Offer Entitlements and Excess CREST Offer Entitlements as soon as possible after 8 a.m. (BST) on Wednesday 20 June 2018. Those Eligible Depository Interest Holders who are acting as a nominee or custodian for multiple beneficial holders are permitted to participate in the Excess Application Facility even if they do not take up their entire Offer Entitlement. Such nominees and custodians should utilise the Excess Application Facility only for those beneficial holders who have taken up their maximum entitlements under the Offer.

If applications under the Excess Application Facility are received for more than the total number of Offer Shares available following take up of Offer Entitlements, such applications will be dealt with in accordance with the allocation policy set out in paragraph 1 of this Part 2.

Please refer to paragraph 1 of this Part 2: "Terms and Conditions of the Offer" for further details of the Excess Application Facility.

Following the issue of the Offer Shares to be allotted pursuant to the Offer, an Eligible Holder who takes up their entitlement under the Offer pro rata to their current holding will suffer a dilution of approximately 6.9 per cent. of their interest in the Company as a result of the Placement and on the basis that all Eligible Holders take up their entitlements under the Offer pro rata to their current holdings.

If the same Eligible Holder does not take up any of their entitlement under the Offer, they will suffer a dilution between a range of approximately 6.9 per cent. and 17.82 per cent of his interest in the Company dependent on the level of take up and excess applications under the Offer by other Eligible Holders.

Eligible Holders should be aware that the Offer is not a rights issue as that term is used in England and Wales. Eligible Shareholders should also note that their respective Entitlement and Acceptance Forms are not negotiable documents and cannot be traded. Eligible Depository Interest Holders should note that, although the Offer Entitlements and Excess CREST Offer Entitlements will be credited to CREST and be enabled for settlement, applications in respect of entitlements under the Offer may only be made by the Eligible Holder originally entitled or by a person entitled by virtue of a *bona fide* market. Offer Shares not applied for under the Offer will not be sold in the market for the benefit of those who do not apply under the Offer and Eligible Holders who do not apply to take up Offer Shares will have no rights under the Offer. Any Offer Shares which are not applied for by Eligible Holders under their Offer Entitlements may be issued to Eligible Holders who have made an application for Offer Shares in excess of their Offer Entitlement under the Excess Application Facility, with the proceeds retained for the benefit of the Company. Consequently, if no Shareholders subscribe for the Offer Shares, no Offer Shares will be issued.

Application will be made for the Offer Entitlements and Excess CREST Offer Entitlements to be credited to Qualifying Depository Interest Holder's CREST accounts. The Offer Entitlements and Excess CREST Offer Entitlements are expected to be credited to CREST accounts at 8 a.m. (BST) Monday, 20 June 2018.

The Offer Shares will, when issued and fully paid, rank *pari passu* in all respects with the Existing Shares, including the right to receive all dividends and other distributions declared, made or paid after the date of Admission.

The Offer Shares are not being made available in whole or in part to the public except under the terms of the Offer.

### **3. Conditions and further terms of the Offer**

Applications will be made for the Offer Shares to be admitted to trading on AIM (in the form of Depositary Interests) and to be admitted to trading on the ASX. Admission is expected to occur and dealings in the Offer Shares are expected to begin at 8 a.m. (BST) on Monday, 16 July 2018 on AIM.

All monies received by the Share Registry in respect of Offer Shares will be credited to a trust account by the Share Registry. The Directors may withdraw the Offer and if the Directors do withdraw the Offer, no Offer Shares will be issued and all monies will be returned (at the applicant's sole risk), without payment of interest, to applicants as soon as practicable following the lapse of the Offer.

If for any reason it becomes necessary to adjust the expected timetable as set out in this document, the Company will make an appropriate announcement to a Regulatory Information Service giving details of the revised dates.

### **4. Procedure for application and payment**

The action to be taken by you in respect of the Offer depends on whether, at the relevant time, you have an Entitlement and Acceptance Form in respect of your Offer Entitlement under the Offer or you have Offer Entitlements credited to your CREST stock account.

Eligible Shareholders will receive an Entitlement and Acceptance Form, enclosed with this document. The Entitlement and Acceptance Form shows the number of Existing Shares at 7.00 p.m. (AEST) on the Record Date. It will also show Eligible Shareholders the number of Offer Shares available under their Offer Entitlement that can be allotted. Eligible Holders who hold all or part of their Existing Shares by way of Depositary Interests in uncertificated form will have their Offer Shares credited to their CREST stock accounts in the form of Depositary Interests, to the extent that their entitlement to Offer Shares arises as a result of holding Existing Ordinary Shares by way of Depositary Interests. However, it will be possible for Eligible Holders to deposit entitlements into, and withdraw them from, CREST. Further information on deposit and withdrawal from CREST is set out in paragraph 4.2(g) of this Part 2.

CREST sponsored members should refer to their CREST sponsor, as only their CREST sponsor will be able to take the necessary action specified below to apply under the Offer in respect of the Offer Entitlements and Excess CREST Offer Entitlements of such members held in CREST. CREST members who wish to apply under the Offer in respect of their Offer Entitlements and Excess CREST Offer Entitlements in CREST should refer to the CREST Manual for further information on the CREST procedures referred to below.

Eligible Holders who do not want to apply for the Offer Shares under the Offer should take no action and should not complete or return the Entitlement and Acceptance Form or send a USE message through CREST.

Eligible Shareholders paying via BPAY should follow the instructions printed on the Entitlement and Acceptance Form. It is the responsibility of the Eligible Shareholder to ensure that the BPAY payment is received by the Share Registry by no later than the Closing Date.

If paying with BPAY, the Eligible Shareholder will not need to post an Entitlement and Acceptance Form to the Share Registry. By making a payment through BPAY, the Eligible Shareholder will be deemed to have made the declarations made out in the Entitlement and Acceptance Form.

If cheques are presented for payment, or if a BPAY payment is made before the conditions of the Offer are fulfilled, the application monies will be credited to a trust account by the Share Registry. If the Directors withdraw the Offer, no Offer Shares will be issued and all monies will be returned (at the applicant's sole risk), without payment of interest, to applicants as soon as practicable following the lapse of the Offer. The Company may in its sole discretion, but shall not be obliged to, treat an Entitlement and Acceptance Form or a BPAY payment as valid and binding on the person by whom or on whose behalf it is lodged or paid, even if not completed in accordance with the relevant instructions or not accompanied by a valid power of attorney where required, or if it otherwise does not strictly comply with the terms and conditions of the Offer. The Company further reserves the right (but shall not be obliged) to accept either:

- 1.1 Entitlement and Acceptance Forms and BPAY payments received after the Closing Date;  
or
- 1.2 applications in respect of which remittances are received before the Closing Date from authorised persons (as defined in FSMA) specifying the Offer Shares applied for and undertaking to lodge the Entitlement and Acceptance Form in due course but, in any event, within two Business Days.

All documents and remittances sent by post by or to an applicant (or as the applicant may direct) will be sent at the applicant's own risk.

(c) The Excess Application facility

Provided they choose to take up their Offer Entitlement in full, the Excess Application Facility enables an Eligible Shareholder to apply for Offer Shares in excess of their Offer Entitlement. Such applications under the Excess Application Facility will be dealt with in accordance with the allocation policy set out in paragraph 1 of this Part 2.

Eligible Shareholders who wish to apply for Offer Shares in excess of their Offer Entitlement must complete the Entitlement and Acceptance Form or make a BPAY payment in accordance with the instructions set out on the Entitlement and Acceptance Form.

Should applications for Offer Shares exceed the total Offer Shares available, resulting in a scale back of applications, each Eligible Shareholder who has made a valid application for excess Offer Shares under the Excess Application Facility and from whom payment in full for excess Offer Shares has been received will receive a pounds sterling amount equal to the number of Offer Shares applied and paid for but not allocated to the relevant Eligible Shareholder multiplied by the Issue Price. Monies will be returned as soon as reasonably practicable thereafter, without payment of interest and at the applicant's sole risk.

(d) Effect of application

By completing and delivering an Entitlement and Acceptance Form or by making a BPAY payment the applicant:

- 1.1 represents and warrants to the Company that he has the right, power and authority, and has taken all action necessary, to make the application under the Offer and to execute, deliver and exercise his rights, and perform his obligations under any contracts resulting therefrom and that he is not a person otherwise prevented by legal or regulatory restrictions from applying for Offer Shares or acting on behalf of any such person on a non- discretionary basis;
- 1.2 agrees with the Company that all applications under the Offer and contracts resulting therefrom shall be governed by and construed in accordance with the laws of Queensland, Australia;

- 1.3 confirms to the Company that in making the application he is not relying on any information or representation in relation to the Company other than that contained in this document or that which is publicly available, and the applicant accordingly agrees that no person responsible solely or jointly for this document or any part thereof, or involved in the preparation thereof, shall have any liability for any such information or representation not so contained and further agrees that, having had the opportunity to read this document, he will be deemed to have had notice of all information in relation to Tlou Energy contained in this document or otherwise publicly available;
- 1.4 represents and warrants to the Company that he is the Eligible Holder originally entitled to the Offer Entitlements;
- 1.5 requests that the Offer Shares to which he will become entitled be issued to him on the terms set out in this document and the Entitlement and Acceptance Form; and
- 1.6 represents and warrants to the Company that he: (i) is acquiring the Open Offer Shares in an "offshore transaction" as defined in Regulation S; (ii) is not, nor is he applying on behalf of any person who is, in the United States or a US Person; (iii) is not a person who is a citizen or resident, or which is a corporation, partnership or other entity created or organised in or under any laws, of any Restricted Jurisdiction or any jurisdiction in which the application for Offer Shares is prevented by law; (iv) is not applying with a view to re-offering, re-selling, transferring or delivering any of the Offer Shares which are the subject of his application in the United States or to, or for the benefit of, a US Person; and (v) is not applying with a view to re-offering, re-selling, transferring or delivering any of the Offer Shares which are the subject of his application to, or for the benefit of, a person who is a citizen or resident or which is a corporation, partnership or other entity created or organised in or under any laws of any Restricted Jurisdiction or any jurisdiction in which the application for Offer Shares is prevented by law (except where proof satisfactory to the Company has been provided to the Company that he is able to accept the invitation by the Company free of any requirement which it (in its absolute discretion) regards as unduly burdensome), nor acting on behalf of any such person on a non-discretionary basis nor (a) person(s) otherwise prevented by legal or regulatory restrictions from applying for Offer Shares under the Offer.

The Company will treat a Eligible Shareholders as applying for as many Offer Shares as their payment will pay for in full up to their Offer Entitlement, plus any Excess Shares (if any) as their payment will pay for.

**4.2 *If you have Offer Entitlements and Excess CREST Offer Entitlements credited to your stock account in CREST in respect of your entitlement under the Offer.***

- (a) Save as provided in paragraph 6 of this Part 2 of this document in relation to certain Overseas Shareholders, each Qualifying Depository Interest Holder will receive a credit to his stock account in CREST of his Offer Entitlements equal to the maximum number of Offer Shares for which he is entitled to apply under the Offer. Entitlements to Offer Shares will be rounded down to the nearest whole number and fractional entitlements will be ignored and will not be allotted to Eligible Holders. Eligible Holders who hold less than 6 Existing Shares (or any entitlement to such number of Existing Shares) will, therefore, have no entitlement to subscribe under the Offer.

The CREST stock account to be credited will be an account under the participant ID and member account ID that apply to the Depository Interests held by a Qualifying Depository Interest Holder on the Record Date in respect of which the Offer Entitlements have been allocated.

If for any reason the Offer Entitlements cannot be admitted to CREST by, or the stock accounts of Eligible Depository Interest Holders cannot be credited by, 6.00 p.m. (BST) on Wednesday, 20 June 2018 or such later time as the Company may decide, an Entitlement and Acceptance Form will be sent out to each Qualifying Depository Interest Holder in substitution for the Offer Entitlements credited to his stock account in CREST. In these circumstances the expected timetable as set out in this document will be adjusted as appropriate and the provisions of this document applicable to Eligible Shareholders with Entitlement and Acceptance Forms will apply to Eligible Depository Interest Holders who receive Entitlement and Acceptance Forms.

CREST members who wish to apply for some or all of their entitlements to Offer Shares should refer to the CREST Manual for further information on the CREST procedures referred to below. Should you need advice with regard to these procedures, please contact Computershare UK on 0370 702 0003. If you are a CREST sponsored member you should consult your CREST sponsor if you wish to apply for Offer Shares as only your CREST sponsor will be able to take the necessary action to make this application in CREST.

(b) Market claims

Each of the Open Offer Entitlements will constitute a separate security for the purposes of CREST. Although Open Offer Entitlements will be admitted to CREST and be enabled for settlement, applications in respect of Basic Entitlements may only be made by the Qualifying Shareholder originally entitled or by a person entitled by virtue of a **bona fide** market claim transaction.

Transactions identified by the CREST Claims Processing Unit as “cum” the Basic Entitlement will generate an appropriate market claim transaction and the relevant Open Offer Entitlement(s) will thereafter be transferred accordingly.

(c) Excess CREST

Open Offer Entitlements will not be subject to Euroclear’s market claims process. Qualifying CREST Shareholders claiming Excess CREST Open Offer Entitlements by virtue of a bona fide market claim are advised to contact the Receiving Agent to request a credit of the appropriate number of entitlements to their CREST account

(d) Excess Application Facility

Eligible Depository Interest Holders may apply to acquire Excess Shares using the Excess Application Facility. The Excess Application Facility enables Eligible Depository Interest Holders to apply for Excess Shares in excess of their Offer Entitlement up to the maximum number of Excess Shares. Excess CREST Offer Entitlements may not be sold or otherwise transferred. Subject as provided in paragraph 6 of this Part 2 in relation to Overseas Shareholders, the CREST accounts of Eligible Depository Interest Holders will be credited with Excess CREST Offer Entitlements in order for any applications for Excess Shares to be settled through CREST.

Eligible Depository Interest Holders should note that, although the Offer Entitlements and the Excess CREST Offer Entitlements will be admitted to CREST, they will have limited settlement capabilities (for the purposes of market claims only). Neither the Offer Entitlements nor the Excess CREST Offer Entitlements will be tradable or listed and applications in respect of the Open Offer may only be made by the Eligible Holders and Eligible Depository Interest Holders originally entitled or by a person entitled by virtue of a bona fide market claim.

To apply for Excess Shares pursuant to the Offer, Eligible Depository Interest Holders should follow the instructions in paragraph 4.2(f) below and must not return a paper Entitlement and Acceptance Form and cheque.

**All enquiries in connection with the procedure for application for Depositary Interest holders should be directed to Computershare UK on 0370 889 4075 or, if telephoning from outside the UK, on +44 370 889 4057 between 8.30 a.m. and 5.30 p.m. Monday to Friday. Calls may be recorded and monitored randomly for security and training purposes. Please note Computershare UK cannot provide financial advice on the merits of the Offer or as to whether you should take up your entitlement.**

(e) USE instructions

CREST members who wish to apply for Offer Shares in respect of all or some of their Offer Entitlements in CREST must send (or, if they are CREST sponsored members, procure that their CREST sponsor sends) an Unmatched Stock Event ("**USE**") instruction to Computershare UK which, on its settlement, will have the following effect:

In order for an application in respect of an Excess CREST Offer Entitlement under the Open Offer to be valid, the USE instruction must comply with the requirements as to authentication and contents set out above and must settle on or before 8 a.m. (BST) on 16 July 2018. In order to assist prompt settlement of the USE instruction, CREST members (or their sponsors, where applicable) may consider adding the following non-mandatory fields to the USE instruction;
- 1.10 a contact name and telephone number (in the free format shared note field); and
- 1.11 a priority of at least 80.

CREST members and, in the case of CREST sponsored members, their CREST sponsors, should note that the last time at which a USE instruction may settle on 16 July 2018 in order to be valid is 8 a.m. (BST) on that day.

In the event that the Directors withdraw the Offer, the Offer Entitlements admitted to CREST will be disabled and the Share Registry will refund the amount paid by a Qualifying Depository Interest Holder by way of a CREST payment, without interest, within 14 days thereafter. The interest earned on such monies will be retained for the benefit of the Company.

(h) Deposit of Offer Entitlements into, and withdrawal from, CREST

An Eligible Shareholder's entitlement under the Offer as shown by the number of Offer Entitlements set out in his Entitlement and Acceptance Form may be deposited into CREST (by virtue of a bona fide market claim only). Similarly, Offer Entitlements held in CREST may be withdrawn from CREST so that the entitlement under the Offer is reflected in an Entitlement and Acceptance Form. Normal CREST procedures (including timings) apply in relation to any such deposit or withdrawal, subject (in the case of a deposit into CREST) as set out in the Entitlement and Acceptance Form.

A holder of an Entitlement and Acceptance Form who is proposing so to deposit the entitlement set out in such form is recommended to ensure that the deposit procedures are implemented in sufficient time to enable the person holding or acquiring the Offer Entitlements and the entitlement to apply under the Excess Application Facility following their deposit into CREST to take all necessary steps in connection with taking up the entitlement prior to 11 a.m. (BST) on Tuesday, 3 July 2018.

In particular, having regard to normal processing times in CREST and on the part of the Share Registry, the recommended latest time for depositing an Entitlement and Acceptance Form with the CREST Courier and Sorting Service, where the person entitled wishes to hold the entitlement under the Offer set out in such Entitlement and Acceptance Form as Offer Entitlements in CREST, is 5p.m. (BST) on Thursday, 28 June 2018, and the recommended latest time for receipt by Computershare UK of a dematerialised instruction requesting withdrawal of Offer Entitlements from CREST is 5 p.m. (BST) on Wednesday, 27 June 2018 in either case so as to enable the person acquiring or (as appropriate) holding the Offer Entitlements following the deposit or withdrawal (whether as shown in an Entitlement and Acceptance Form or held in CREST) to take all necessary steps in connection with applying in respect of the Offer Entitlements prior to 11 a.m. (BST) on Tuesday, 3 July 2018.

Delivery of an Entitlement and Acceptance Form with a CREST Deposit Form duly completed whether in respect of a deposit into the account of the Eligible Holder named in the Entitlement and Acceptance Form or into the name of another person, shall constitute a representation and warranty to the Company and the Share Registry by the relevant CREST member(s) that the deposit is in relation to a bona fide market claim and a declaration to the Company and the Share Registry from the relevant CREST member(s) that it/they is/are not citizen(s) or resident(s) of a Restricted Jurisdiction.

(i) Validity of application

A USE instruction complying with the requirements as to authentication and contents set out above which settles by no later than 11 a.m. (BST) on Tuesday, 3 July 2018 will constitute a valid application under the Offer.

(j) CREST procedures and timings

CREST members and (where applicable) their CREST sponsors should note that Euroclear does not make available special procedures, in CREST, for any particular corporate action. Normal system timings and limitations will therefore apply in relation to the input of a USE instruction and its settlement in connection with the Offer. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST sponsored member, to procure that his CREST sponsor takes) such action as shall be necessary to ensure that a valid application is made as stated above by 11 a.m. (BST) on Tuesday, 3 July 2018. In this connection CREST members and (where applicable) their CREST sponsors are referred in particular to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

(k) Incorrect or incomplete applications

If a USE instruction includes a CREST payment for an incorrect sum, the Company through the Share Registry reserves the right:

- 1.1 to reject the application in full and refund the payment to the CREST member in question;
- 1.2 in the case that an insufficient sum is paid, to treat the application as a valid application for such lesser whole number of Offer Shares as would be able to be applied for with that payment at the Issue Price, refunding any unutilised sum to the CREST member in question;
- 1.3 in the case that an excess sum is paid, to treat the application as a valid application for all the Offer Shares referred to in the USE instruction refunding any unutilised sum to the CREST member in question.

(I) Effect of Valid Application

- 1.1 A CREST member who makes or is treated as making a valid application in accordance with the above procedures will thereby:
- 1.2 agree with the Company that all applications under the Offer and contracts resulting therefrom and any non-contractual obligations related thereto shall be governed by, and construed in accordance with, the laws of Queensland, Australia;
- 1.3 confirm to the Company that in making such application he is not relying on any information in relation to the Company other than that contained in this document and that which is publicly available and agrees that no person responsible solely or jointly for this document or any part thereof, or involved in the preparation thereof, shall have any liability for any such other information and further agrees that, having had the opportunity to read this document, he will be deemed to have had notice of all the information concerning the Company contained herein (including information incorporated by reference) or otherwise publicly available;
- 1.4 represent and warrant to the Company that he is the Qualifying Depository Interest Holder originally entitled to the Offer Entitlements and Excess Offer Entitlements or, if he has received some or all of his Offer Entitlements and Excess Offer Entitlements from a person other than the Company, that he has received such Offer Entitlements and Excess Offer Entitlements by virtue of a bona fide market claim;
- 1.5 represent and warrant to the Company that he has the right, power and authority, and has taken all action necessary, to make the application under the Offer and to execute, deliver and exercise his rights, and perform his obligations, under any contracts resulting therefrom and that he is not a person otherwise prevented by legal or regulatory restrictions from applying for Offer Shares or acting on behalf of any such person on a non-discretionary basis;
- 1.6 pay the amount payable on application in accordance with the above procedures by means of a CREST payment in accordance with the CREST payment arrangements (it being acknowledged that the payment to the Depository payment bank in accordance with the CREST payment arrangements shall, to the extent of the payment, discharge in full the obligation of the CREST member to pay to the Company the amount payable on application);

- 1.7 request that the Open Offer Shares to which he will become entitled be issued to him on the terms set out in this document and subject to the Constitution of the Company;
- 1.8 represent and warrant to the Company that he is not, and is not applying on behalf of any Shareholder who is a citizen or resident or which is a corporation, partnership or other entity created or organised in or under any laws of any Restricted Jurisdiction and he is not applying with a view to reoffering, reselling, transferring or delivering any of the Offer Shares which are the subject of this application to, or for the benefit of, a person who is a citizen or resident or which is a corporation, partnership or other entity created or organised in or under any laws of any Restricted Jurisdiction (in each case except where proof satisfactory to the Company has been provided that he is able to accept the invitation by the Company free of any requirement which the Company, or (in their absolute discretion) regard as unduly burdensome), nor is he acting on behalf of any such person on a non- discretionary basis; and
- 1.9 represent and warrant to the Company that he is not, and nor is he applying as nominee or agent for, a person who is or may be liable to notify and account for tax under the Stamp Duty Reserve Tax Regulations 1986 at any of the increased rates referred to in Section 93 (Depositary receipts) or Section 96 (clearance services) of the Finance Act 1986.

(m) Company's discretion as to the rejection and validity of applications

The Company may in its sole discretion:

- 1.1 treat as valid (and binding on the CREST member concerned) an application which does not comply in all respects with the requirements as to validity set out or referred to in this Part 2;
- 1.2 accept an alternative properly authenticated dematerialised instruction from a CREST member or (where applicable) a CREST sponsor as constituting a valid application in substitution for or in addition to a USE instruction and subject to such further terms and conditions as the Company may determine;
- 1.3 treat a properly authenticated dematerialised instruction (in this sub paragraph the "**first instruction**") as not constituting a valid application if, at the time at which the Share Registry receives a properly authenticated dematerialised instruction giving details of the first instruction or thereafter, either the Company or the Share Registry have received actual notice from Computershare of any of the matters specified in Regulation 35(5)(a) in relation to the first instruction. These matters include notice that any information contained in the first instruction was incorrect or notice of lack of authority to send the first instruction; and
- 1.4 accept an alternative instruction or notification from a CREST member or CREST sponsored member or (where applicable) a CREST sponsor, or extend the time for settlement of a USE instruction or any alternative instruction or notification, in the event that, for reasons or due to circumstances outside the control of any CREST member or CREST sponsored member or (where applicable) CREST sponsor, the CREST member or CREST sponsored member is unable validly to apply for Offer Shares by means of the above procedures. In normal circumstances, this discretion is only likely to be exercised in the event of any interruption, failure or breakdown of CREST (or any part of CREST) or on the part of the facilities and/or systems operated by the Depositary in connection with CREST.

The Company will treat a Eligible Shareholders as applying for as many Offer Shares as their payment will pay for in full up to their Offer Entitlement, plus any Excess Shares (if any) as their payment will pay for.

## **5. Money laundering regulations**

### ***Offer Entitlements in CREST***

If you hold your Offer Entitlements and Excess CREST Offer Entitlements in CREST and apply for Offer Shares in respect of some or all of your Offer Entitlements or Excess CREST Offer Entitlements as agent for one or more persons and you are not a UK or EU regulated person or institution (e.g. a UK financial institution), then, irrespective of the value of the application, the Share Registry is obliged to take reasonable measures to establish the identity of the person or persons on whose behalf you are making the application. You must therefore contact the Share Registry before sending any USE or other instruction so that appropriate measures may be taken.

Submission of a USE instruction which on its settlement constitutes a valid application as described above constitutes a warranty and undertaking by the applicant to provide promptly to the Share Registry such information as may be specified by the Share Registry as being required for the purposes of the Money Laundering Regulations. Pending the provision of evidence satisfactory to the Share Registry as to identity, the Share Registry may in its absolute discretion take, or omit to take, such action as it may determine to prevent or delay issue of the Offer Shares concerned. If satisfactory evidence of identity has not been provided within a reasonable time, then the application for the Offer Shares represented by the USE instruction will not be valid. This is without prejudice to the right of the Company to take proceedings to recover any loss suffered by it as a result of failure to provide satisfactory evidence.

## **6. Overseas Shareholders**

The comments set out in this paragraph 6 are intended as a general guide only and any Overseas Shareholders who are in any doubt as to their position should consult their professional advisers without delay.

### **6.1 General**

Tlou Energy has determined, in accordance with ASX Listing Rule 7.7.1(a), that it would be unreasonable to offer participation in the Offer to Overseas Shareholders due to the legal limitations in some countries, the relatively small number of Shares held by Shareholders in the Restricted Jurisdictions, the likely funds that would be raised from such Shareholders in those countries and the cost of complying with regulatory requirements in those countries.

The distribution of this document and the making of the Offer to persons who have registered addresses in, or who are resident or ordinarily resident in, or citizens of, or which are corporations, partnerships or other entities created or organised under the laws of countries other than the United Kingdom, Australia or New Zealand or to persons who are nominees of or custodians, trustees or guardians for citizens, residents in or nationals of, countries other than the United Kingdom, Australia or New Zealand may be affected by the laws or regulatory requirements of the relevant jurisdictions. Those persons should consult their professional advisers as to whether they require any governmental or other consents or need to observe any applicable legal requirement or other formalities to enable them to apply for Offer Shares under the Offer.

No action has been or will be taken by the Company or the Brokers or any other person, to permit distribution of this document (or any other offering or publicity materials or application form(s) relating to the Offer Shares) in any jurisdiction where action for that purpose may be required, other than in the United Kingdom, Australia or New Zealand.

Receipt of this document and/or an Entitlement and Acceptance Form and/or a credit of Offer Entitlements or Excess CREST Offer Entitlements to a stock account in CREST will not constitute an invitation or offer of securities for subscription, sale or purchase in those jurisdictions in which it would be

illegal to make such an invitation or offer and, in those circumstances, this document and/or the Entitlement and Acceptance Form must be treated for information only and should not be copied or redistributed.

Entitlement and Acceptance Forms will not be sent to, and Offer Entitlements and Excess CREST Offer Entitlements will not be credited to stock accounts in CREST of, persons with registered addresses in the United States or any other Restricted Jurisdiction or their agent or intermediary, except where the Company is satisfied that such action would not result in the contravention of any registration or other legal requirement in any jurisdiction.

No person receiving a copy of this document and/or an Entitlement and Acceptance Form and/or a credit of Offer Entitlements or Excess CREST Offer Entitlements to a stock account in CREST in any territory other than the United Kingdom may treat the same as constituting an invitation or offer to him or her, nor should he or she in any event use any such Entitlement and Acceptance Form and/or credit of Offer Entitlements or Excess CREST Offer Entitlements to a stock account in CREST unless, in the relevant territory, such an invitation or offer could lawfully be made to him or her and such Entitlement and Acceptance Form and/or credit of Offer Entitlements or Excess CREST Offer Entitlements to a stock account in CREST could lawfully be used, and any transaction resulting from such use could be effected, without contravention of any registration or other legal or regulatory requirements. In circumstances where an invitation or offer would contravene any registration or other legal or regulatory requirements, this document and/or the Entitlement and Acceptance Form must be treated for information only and should not be copied or redistributed.

It is the responsibility of any person (including, without limitation, custodians, agents, nominees and trustees) outside the United Kingdom, Australia or New Zealand wishing to apply for Offer Shares under the Offer to satisfy himself or herself as to the full observance of the laws of any relevant territory in connection therewith, including obtaining any governmental or other consents that may be required, observing any other formalities required to be observed in such territory and paying any issue, transfer or other taxes due in such territory.

None of the Company or the Brokers nor any of their respective representatives, is making any representation to any offeree or purchaser of the Offer Shares regarding the legality of an investment in the Offer Shares by such offeree or purchaser under the laws applicable to such offeree or purchaser.

Persons (including, without limitation, custodians, agents, nominees and trustees) receiving a copy of this document and/or an Entitlement and Acceptance Form and/or a credit of Offer Entitlements or Excess CREST Offer Entitlements to a stock account in CREST, in connection with the Offer or otherwise, should not distribute or send either of those documents nor transfer Offer Entitlements or Excess CREST Offer Entitlements in or into any jurisdiction where to do so would or might contravene local securities laws or regulations. If a copy of this document and/or an Entitlement and Acceptance Form and/or a credit of Offer Entitlements or Excess CREST Offer Entitlements to a stock account in CREST is received by any person in any such territory, or by his or her custodian, agent, nominee or trustee, he or she must not seek to apply for Offer Shares in respect of the Offer unless the Company and the Joint Brokers determine that such action would not violate applicable legal or regulatory requirements. Any person (including, without limitation, custodians, agents, nominees and trustees) who does forward a copy of this document and/or an Entitlement and Acceptance Form and/or transfers Offer Entitlements or Excess CREST Offer Entitlements into any such territory, whether pursuant to a contractual or legal obligation or otherwise, should draw the attention of the recipient to the contents of this Part 2: "Terms and Conditions of the Offer" and specifically the contents of this paragraph 6.

The Company reserves the right to treat as invalid any application or purported application for Offer Shares that appears to the Company or its agents to have been executed, effected or despatched from the United States or any other Restricted Jurisdiction or in a manner that may involve a breach of the laws or regulations of any jurisdiction or if the Company or its agents believe that the same may violate applicable legal or regulatory requirements or if it provides in the case of a credit of Offer Entitlements or Excess CREST Offer Entitlements to a stock account in CREST, to a CREST member whose registered address would be, in the United States or any other Restricted Jurisdiction or any other jurisdiction

outside Australia, New Zealand or the United Kingdom in which it would be unlawful to deliver such share certificates or make such a credit.

Notwithstanding any other provision of this document or the relevant Entitlement and Acceptance Form, the Company reserves the right to permit any person to apply for Offer Shares in respect of the Offer if the Company, in its sole and absolute discretion, is satisfied that the transaction in question is exempt from, or not subject to, the legislation or regulations giving rise to the restrictions in question.

Overseas Shareholders who wish, and are permitted, to apply for Offer Shares should note that payment must be made in sterling denominated cheques or banker's drafts or where such Overseas Shareholder is a Qualifying Depository Interest Holder, through CREST.

Due to restrictions under the securities laws of the United States and the other Restricted Jurisdictions, and subject to certain exceptions, Eligible Holders in the United States or who have registered addresses in, or who are resident or ordinarily resident in, or citizens of, any other Restricted Jurisdiction will not qualify to participate in the Offer.

No public offer of Offer Shares is being made by virtue of this document or the Entitlement and Acceptance Forms into the United States or any other Restricted Jurisdiction. Receipt of this document and/or an Entitlement and Acceptance Form and/or a credit of an Offer Entitlement or Excess CREST Offer Entitlement to a stock account in CREST will not constitute an invitation or offer of securities for subscription, sale or purchase in those jurisdictions in which it would be illegal to make such an invitation or offer and, in those circumstances, this document and/or the Entitlement and Acceptance Form must be treated for information only and should not be copied or redistributed.

Company believes acceptance of such Entitlement and Acceptance Form may infringe applicable legal or regulatory requirements.

The Company will not be bound to allot or issue any Offer Shares to any person with an address in, or who is otherwise located in, the United States in whose favour an Entitlement and Acceptance Form or any Offer Shares may be transferred. In addition, the Company and the Joint Brokers reserve the right to reject any USE instruction sent by or on behalf of any CREST member with a registered address in the United States in respect of the Offer Shares.

In addition, until 45 days after the commencement of the Offer, an offer, sale or transfer of the securities mentioned herein within the United States by a dealer (whether or not participating in the Offer) may violate the registration requirements of the Securities Act.

Eligible Holders who have registered addresses in, or who are resident or ordinarily resident in, or citizens of, countries other than Australia, New Zealand or the United Kingdom should, however, consult appropriate professional advisers as to whether they require any governmental or other consents or need to observe any further formalities to enable them to apply for any Offer Shares in respect of the Offer.

### (b) *Eligible Depositary Interest Holders*

A CREST member or CREST sponsored member who makes a valid acceptance in accordance with the procedures set out in this Part 2: "Terms and Conditions of the Offer" represents and warrants to the Company that, except where proof has been provided to the Company's satisfaction that such person's acceptance will not result in the contravention of any applicable legal requirement in any jurisdiction: (i) he or she is purchasing in an "offshore transaction" as defined in Regulation S and is not a US Person and is not within the United States or any other Restricted Jurisdiction; (ii) he or she is not in any territory in which it is unlawful to make or accept an offer to acquire Offer Shares; (iii) he or she is not accepting on a non-discretionary basis for a person located within any Restricted Jurisdiction (except as otherwise agreed with the Company) or any territory referred to in (ii) above at the time the instruction to accept was given; and (iv) he or she is not acquiring any Offer Shares with a view to the offer, sale, resale, transfer, delivery or distribution, directly or indirectly, of any such Offer Shares into any of the above territories.

This Offer Booklet should not be distributed, published or reproduced, in whole or in part, nor may its contents be disclosed by recipients to any other person in the United Kingdom.

Any invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA) received in connection with the issue or sale of any of the shares issued under the capital raising has only been communicated or caused to be communicated and will only be communicated or caused to be communicated in the United Kingdom in circumstances in which section 21(1) of FSMA does not apply to the Company.

#### **7. No withdrawal rights**

An application under the Offer once made is irrevocable and cannot be withdrawn or changed.

#### **8. Brokerage and stamp duty**

No brokerage is payable for the issue of Offer Shares pursuant to this Offer Booklet. No stamp duty is payable for subscribing for Offer Shares under the Offer or for Excess Shares under the Excess Application Facility.

#### **9. Admission, settlement and dealings**

The result of the Offer is expected to be announced on Wednesday, 11 July 2018. Application will be made to the London Stock Exchange for the Offer Shares to be admitted to trading on AIM and applications will also be made to the ASX for the Offer Shares to be admitted to trading on the ASX. It is expected that Admission will become effective and that dealings in the Offer Shares, fully paid, will commence at 8 a.m. (BST) on Monday, 16 July on AIM.

The Depositary Interests are already admitted to CREST. No further application for admission to CREST is accordingly required for the Offer Shares. All such shares, when issued and fully paid, may be held and transferred by means of CREST.

Offer Entitlements and Excess CREST Offer Entitlements held in CREST are expected to be disabled in all respects after 11 a.m. (BST) on Tuesday, 3 July 2018 (the latest date for applications under the Offer). If the condition(s) to the Offer described above are satisfied, the Offer Shares will be issued in uncertificated form to those persons who submitted a valid application for Offer Shares by utilising the CREST application procedures and whose applications have been accepted by the Company. On 13

July 2018, the Registrar will instruct Euroclear to credit the appropriate stock accounts of such persons with such persons' entitlements to Offer Shares with effect from Admission (expected to be 8 a.m. (BST) on 16 July 2018). The stock accounts to be credited will be accounts under the same CREST participant IDs and CREST member account IDs in respect of which the USE Instruction was given.

Notwithstanding any other provision of this document, the Company reserves the right to send Eligible Depository Interest Holders an Entitlement and Acceptance Form instead of crediting the relevant stock account with Offer Entitlements and Excess CREST Offer Entitlements, and to allot and/or issue any Offer Shares. In normal circumstances, this right is only likely to be exercised in the event of any interruption, failure or breakdown of CREST (or of any part of CREST) or on the part of the facilities and/or systems operated by the Registrar in connection with CREST.

If the conditions to the Offer described above are satisfied, the Offer Shares will be issued in uncertificated form to those persons who submitted a valid Entitlement and Acceptance Form or made a valid BPAY Payment for the Offer Shares and whose applications have been accepted by the Company as follows:

- 1.1 Eligible Shareholders will not receive a certificate but will receive a statement of their holding of Offer Shares.

- 1.3 Eligible Shareholders registered on the Issuer Sponsored sub-register will receive a holding statement dispatched by the Registry that will contain the number of Offer Shares issued under this Offer and the security holder reference number.

## 10. Broker Handling Fee

A handling fee equal to 2.0% (exclusive of GST) of the application amount of Offer Shares will be paid to stockbrokers who submit a valid claim for a broker handling fee on successful applications.

Handling fee claims must be lodged with the Share Registry by 5.00pm (AEST) on Thursday, 12 July 2018, being the day prior to the allotment date.

If Tlou Energy receives applications for in excess of Offer Shares and scales back applications, the handling fee will be calculated on the claims made but net of the application money refunded to applicants.

**11. Times and dates**

To the extent permitted by the ASX Listing Rules, the Company shall, after consultation with its financial and legal advisers, be entitled to amend the dates that Entitlement and Acceptance Forms are despatched or amend or extend the latest date for acceptance under the Offer and all related dates set out in this document and in such circumstances shall make an announcement on a Regulatory Information Service and the company announcements platform of the ASX but Eligible Holders may not receive any further written communication.

## Part 3

### RISK FACTORS

#### 1. Introduction

The Offer Shares offered under this Offer Booklet should be considered speculative because of the nature of the Company's business. There are numerous risk factors involved with the Company's business. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated. Accordingly, an investment in the Company carries no guarantee with respect to the payment of dividends, return of capital or price at which securities will trade. you are strongly recommended to consult an investment adviser authorised under the FSMA if you are in the United Kingdom or, if not, another appropriately authorised independent financial adviser, who specialises in the acquisition of shares and other securities before making a decision to invest.

The following is a summary of some of the more material matters to be considered, but are not set out in any particular order. However, this summary is not exhaustive and potential investors should examine the contents of this Offer Booklet in its entirety and consult their professional advisors before deciding whether to apply for the Offer Shares.

If any of the circumstances identified in the risk factors were to materialise the Company's business, financial condition and operating results could be materially affected. In particular, the Company's performance is likely to be affected by changes to the market and/or economic conditions and/or legal, accounting, regulatory and tax requirements currently unknown by the Company. Investors should note that the trading price of the Shares could decline due to any of these risks and investors may lose all or part of their investment.

Additional risks which are not presently known to the Board, or that the Board currently deems to be immaterial, may also have an effect on the Group's business, financial condition and operating results.

#### 2. Industry and Company Specific Risks

- (a) **Exploration & Production Risk:** The exploration for, and development of, hydrocarbons is a highly speculative activity which involves a high degree of risk. Tlou may be unable to discover reserves of sufficient size or complete wells with flow rates sufficient enough to be commercially viable. Accordingly, the Shares should be regarded as a highly speculative investment and an investment in the Company should only be made by those investors with the necessary expertise to evaluate the investment fully and who can sustain the total loss of their investment.

As Tlou is currently in the exploration and appraisal stage, Tlou has not generated revenues from the commercial production or sale of natural gas. Accordingly, it is not possible to establish a track record based on the exploration projects of the Group. The production of gas from pilot wells is inconsistent and pilot production rates experienced do not guarantee that commercial production will be achieved in the desired time frames or at all. The Group's ability to move any or all of its projects into commercial production is subject to a number of factors, some of which will be outside its control.

Additionally, even if one or more of the Group's projects achieves profitability, the Group will need to continue to invest in both these and other projects and there can be no certainty as to when, if ever, the Group will be profitable as a whole or whether such profitability will be sustainable on an individual project or on a Group wide basis.

- (b) **Operational Risk:** CBM exploration and development activities involve numerous operational risks, including encountering unusual or unexpected geological formations, mechanical breakdowns or failures, accidents, human errors, weather conditions, shortages or delays to delivery of equipment, compliance with government requirements and other unexpected events which occur in the process of drilling and operating wells. In particular, the Group operates in areas where surface flooding can occur in the summer months, and wildfire can occur in the later winter, the latter being the bigger risk to the Group's operations. The occurrence of any of these risks could result in substantial financial losses to Tlou due to injury or loss of life, hampering construction and operation activities, damage to or destruction of property, natural resources or equipment, environmental damage or pollution, clean-up responsibilities and regulatory investigation, amongst other factors. Damages occurring to third parties as a result of such risks may give rise to claims against the Group which may not be covered fully by insurance or at all. The Directors will (in conjunction with Senior Management) endeavour to anticipate, identify and manage the risks inherent in the activities of the Group, with the aim of eliminating, avoiding and mitigating the impact of risks on the performance of Tlou and its business operations. The ability of the Directors to do so may be affected by matters outside their control and no assurance can be given that the Directors will be successful in these endeavours.
- (c) **Resources and Reserves Risk:** The estimation of natural gas resources and reserves involves subjective judgements and determinations based on geological, technical, contractual and economic information. There is uncertainty in the estimates and it is not an exact calculation. The estimates may change because of new information from operational activities or changes in economic factors, such as assumptions regarding incomes and costs. It may also alter because of acquisitions and disposals, new discoveries and extensions of existing fields as well as the application of improved recovery techniques. Published resources and reserves estimates may also be subject to correction in the application of published rules and guidance.
- (d) **Tenement Risk:** In Botswana, the government owns all the mineral and land rights and grants exploration and development licences pursuant to Botswana's Mines and Minerals Act. Along with the right for exploration and development, the licensee receives the right for surface access to the land. There are numerous temporary surface rights holders for each licence area. The holder of a licence, where its access causes disruption to another surface right holder, is obliged to negotiate with the other surface holder for access and appropriate compensation in respect of disruption. Tlou's licences are located in the Karoo-Kalahari Basin. Tlou must negotiate with the relevant government authorities to arrange access to these areas when undertaking drilling and exploration activities.

Exploration licences are granted for an initial period of up to three years and may be renewed up to two times for a period of two years per renewal. Additional "special" renewals are required thereafter. The Lesedi Licences have had four renewals and would require "special" renewals on the expiry on either 30 September 2018 or 31 March 2019 (as applicable) if a mining licence has not been granted beforehand. The Company is unable to guarantee that the licences will be renewed.

Each licence requires the holder to fulfil minimum stipulated annual work and spending commitments. In the event that such minimum commitments are not met, the Botswana government has the right to suspend or cancel the prospecting licence. The Lesedi Licences are considered by the Directors to be key to the exploration activities of Tlou in Botswana, and if the Group was unable to successfully renew the licences, if required, this could have a material effect on the Group's business, financial condition and prospects.

The conduct of the Group's operations and the steps involved in satisfying the applications for renewal involve compliance with numerous procedures and formalities. It is not always possible to

comply with, or obtain waivers from, all such requirements and it is not always clear whether requirements have been properly completed, or whether it is possible or practical to obtain evidence of compliance. In some cases, failure to follow such requirements or obtain relevant evidence may call into question the validity of the actions taken. The final grant of all renewals involves the exercise of administrative functions (including discretion), which are beyond the control of the Group.

In the event that Tlou believes there is enough gas to move into a production phase for any of its exploration tenements in Botswana, the exploration licences will need to be converted to mining licences. There is a possibility that the mining licences will not be granted.

Any failure to obtain a renewal of an exploration permit or the granting of a mining licence in any jurisdiction in which Tlou operates may have a material adverse effect on the ability of Tlou to explore and produce CBM in the areas comprised in those licences. There is also a risk that some or all of the granted prospecting licences are revoked in the future.

- (e) **Gas Markets Risk:** Tlou Energy's possible future revenues are expected to be derived from domestic and/or export gas sales. The profitability of Tlou Energy's gas business will be determined by the future market for domestic and export gas. LNG prices are generally linked to oil price and in US dollars, and can vary significantly depending on oil prices, exchange rates, worldwide LNG supply and demand and the terms under which LNG off-take arrangements are agreed. Domestic gas prices are historically fixed prices with a percentage escalation of CPI and may also vary due to various economic factors and factors which influence demand and supply at the time of contracting. Numerous factors outside the control of Tlou Energy impact on gas prices. The prices required to achieve adequate returns on Tlou Energy's coal seam gas business will vary depending on cost of production including drilling costs, economies of scale and gas flow rates. Any substantial decline in the price of gas is likely to have a material adverse effect on the financial position of Tlou Energy.
- (f) **Gas Flow Rates & Gas Sales Agreement Risk:** The rate at which gas flows from Tlou Energy's wells will be a determinant of its profitability. There is a risk that gas flow rates from Tlou Energy's wells will not be sufficient to meet the requirements of future gas supply contracts. This may result in a breach of contract and open up Tlou to a claim for damages or further remedies and/or increased development expenditure to drill more wells than originally anticipated. There is also a risk that Tlou Energy may not be able to procure gas sales agreements for its gas business on reasonable terms, which may adversely affect the profitability of Tlou Energy.
- (g) **Drilling and Completion Techniques Risk:** Tlou Energy may use horizontal drilling and/or hydraulic fracturing technology in its exploration and development activities. The use of these drilling technologies may be necessary for the production of commercial quantities of gas from geological formations of the type that Tlou Energy is targeting. There has been an increase in interest by governments and the public in hydraulic fracturing and the enactment of any new laws, regulations or requirements by any relevant government authority in respect of hydraulic fracturing could result in operational delays, increased operational costs and potential claims from a third party or governmental authority. Restrictions on the use of hydraulic fracturing may reduce the amount of gas Tlou Energy can produce and may have a material impact on Tlou Energy's business.
- (h) **Access to Infrastructure Risk:** Infrastructure is a key path to market for a gas producer and any limitation of infrastructure exposes a producer to potential cost and capacity constraints. Discoveries in remote locations may be difficult and expensive to commercialise due to infrastructure and transport costs. The sharing with other industry participants of transport and operating infrastructure is common in the gas sector. Any delay or failure to access properly maintained operating infrastructure or shared facilities may have a material adverse effect on the

Company. Tlou's potential future earnings, profitability, and growth are likely to be dependent upon Tlou being able to successfully implement some or all of its commercialisation plans.

The ability for Tlou to do so is further dependent upon a number of factors, including matters which may be beyond the control of Tlou, for example may not be successful in securing identified customers or market opportunities. Part of Tlou's development plan and growth opportunities include the supply of CBM to the Botswana market and other external markets. There is no guarantee that suitable infrastructure will be available, or available on acceptable and economic terms, to deliver CBM to those markets.

The transportation and service infrastructure in Botswana are under-developed and can be unreliable in some of the areas where the Company is operating. Material delays in the transportation of equipment, supplies and resources may delay the exploration and development of the Company's projects and/or the commercialisation of those projects. Any such delay is likely to increase the cost of exploring and developing the projects, and such increase may materially affect the Company's business, results of operations and financial condition. Tlou's ability to sell and market any CBM produced will be negatively impacted should it be unable to secure adequate transportation and processing. Access will depend on the proximity and capacity of pipelines and processing facilities. Further Tlou may be required to develop its own pipeline infrastructure or secure access to third party pipeline infrastructure in order to deliver CBM to key markets or customers. The development of its own pipeline infrastructure will be subject to Tlou obtaining relevant approvals including pipeline licences. Access to third party infrastructure cannot be guaranteed given that the pipelines may not be developed with an open access regime.

- (i) **Joint Venture Risk:** Tlou Energy is not currently a party to joint venture or joint operating agreements for any of its tenements in which it holds an interest. If the interest held by Tlou Energy in any of its tenements is relinquished or transferred to a third party this will likely give rise to the establishment of joint venture or joint operating agreement under which Tlou Energy might be voted into programs and budgets which are not in line with the objectives and strategy of Tlou Energy or that Tlou Energy does not have the cash resources to fund. Tlou Energy may be required to contribute to increases in capital expenditure requirements and/or operating costs where the requirements of the project change or in circumstances where any or all of the joint venture parties are unable to fund their pro rata contributions to expenditure.
- (j) **Environmental Risk:** Tlou Energy's operations and projects are subject to state and federal laws and regulation regarding the environment. These laws and regulations set various standards regulating certain aspects of health and environmental quality and provide for penalties and other liabilities for the violation of such standards and establish, in certain circumstances, obligations to remediate current and former facilities and locations where operations are or were conducted. Significant liability could be imposed on Tlou Energy for damages, clean-up costs, or penalties in the event of certain discharges into the environment, environmental damage caused by previous owners of property acquired by Tlou Energy, or noncompliance with environmental laws or regulations. Tlou Energy proposes to attempt to minimise these risks by conducting its activities in an environmentally responsible manner, in accordance with applicable laws and regulations and where possible, by carrying appropriate insurance coverage.
- (k) **Royalties and Taxes:** In the event that Tlou believes it has sufficient CBM resources to move into a production phase, the CBM exploration licences will need to be converted to mining licences, under which a royalty is payable to the Botswana Government. This royalty is currently 3% of gross market value. Gross market value is defined as the sale value receivable at the mine gate in an arm's length transaction without discounts, commissions or deductions for the mineral or mineral product on disposal. In addition to the royalty payable, Tlou will also be subject to a

corporate tax rate of at least 22% and a 7.5% dividend withholding tax on any earnings in Botswana.

In the event Tlou moves into CBM production in connection with the Lesedi Licences (which is considered key to Tlou's operations), pursuant to the Farm-In Agreement, Sekaname, Sable Energy's farm-in partner is also be entitled to a payment of the greater of South African Rand 2.0/Mcf produced at the wellhead, or 12.5% of the wellhead selling price, and Kalahari, Sable Energy's other farm-in partner, may also be entitled to develop and exploit any excess reserves. Wellhead selling price is based on actual proceeds received by Tlou less actual costs incurred to transport the gas and to gather, compress, treat and process the gas (or where such facilities are owned by Tlou, fees ordinarily payable for these services). If Tlou's farm-in partners become entitled to such payments, it could adversely affect Tlou's financial position, performance and prospects. Any change to the royalties or tax rates in Botswana or any of the countries in which Tlou is successful in producing gas may have a material adverse effect on the ability of Tlou to commercially produce and sell CBM from the areas comprised in those applications.

- (l) **Country, Geopolitical and Sovereign Risk:** The Company is currently involved in CBM operations in Botswana and may explore CBM opportunities in other Southern Africa countries in the future. Whilst Botswana is a relatively stable democratic system and diversifying economy, with a low corruption index (in the context of Africa), according to the Corruption Perceptions Index published by Transparency International, and civil unrest and disorder are rare, the Group may be adversely affected by changes in economic, political, judicial, administrative, taxation or other regulatory factors. There can be no assurance that the political environment in these jurisdictions will continue to be stable now or in the future and this could have an adverse impact on the Group's operations and assets. Other risks and uncertainties include, but are not limited to, high rates of inflation, labour unrest, currency exchange rate fluctuations, limitations on repatriation of profits, renegotiation or nullification of existing licences, changes in taxation policies, currency controls and regulations that favour or require the awarding of contracts to local contractors or require foreign contractors to employ citizens, or purchase supplies from, a particular jurisdiction.

The occurrence of any of these risks or any material changes in government policies, attitude or legislation that affect foreign investment, repatriation of foreign currency, taxation or mineral exploration, development or mining activities, may adversely affect the viability and profitability of the Company's assets and operations in Botswana or other southern Africa jurisdictions in a highly material manner. Failure to comply strictly with applicable laws, regulations and local practices relating to mineral tenure and development, could result in loss, reduction or expropriation of entitlements.

**Legal Risks:** The Company's operations in Botswana are subject to the jurisdiction of the courts in Botswana. The legal system may be affected by political instability in Botswana and additional legal risks, such as political influence in obtaining effective legal redress in courts and a high degree of discretion on the part of government agencies, may arise as a result. Further the introduction of new legislation, amendments to existing legislation, the application of developments in existing common law, or the interpretation of those laws, could adversely affect the viability and profitability of the Company's assets and operations in Botswana.

- (m) **Legislation and Regulatory Risk:** Tlou Energy's activities in the petroleum industry are subject to legislation, regulation and approvals. The introduction of new legislation, amendments to existing legislation, the application of developments in existing common law or policies or the interpretation of those laws or policies, particularly in relation to, land access arrangements, environmental approvals, a carbon tax or similar, the effect of greenhouse gases legislation, royalties and production and exploration licensing may adversely affect Tlou Energy's future operations and financial performance. Tlou Energy will, from time to time, require various government regulatory

approvals for its transactions and operations and must comply with those approvals, applicable laws, regulations and policies. In particular, Tlou Energy may require licences and approvals in relation to mining activities, environmental matters and the manufacture and supply of gas and electricity. There is a risk that Tlou Energy or a joint venture that it is a party to may not obtain, or there may be a delay in obtaining, the necessary licences and approvals. This may affect the timing and scope of transactions and work that can be undertaken. Further, a failure to comply with a licence, approval or applicable law may affect the timing and scope of work that can be done. The loss of granted tenements or failure to obtain relevant approvals in relation to them may have a material adverse effect on Tlou Energy process. By way of example, in the context of the current political environment, the introduction of legislation that further restricts or inhibits gas exploration and production, changes to strategic cropping, native title, land access or overlapping tenement arrangements or the introduction of legislation that restricts or inhibits exploration and production would likely operate to Tlou Energy's detriment.

- (n) **Competition Risk:** As a result of high levels of demand in the natural resource industries, a shortage of supply of material, labour and services could impact adversely on exploration or production activities.
- (o) **Insurance Risk:** Insurance of all risks associated with gas exploration and production is not always available and, where available, the cost can be high. Tlou Energy will have in place insurance considered appropriate for Tlou Energy's needs; however, there is no guarantee that such insurance will be sufficient in all circumstances.
- (p) **Litigation Risk:** Tlou Energy may be exposed to potential legal and other claims or disputes in the future which could negatively impact Tlou Energy's financial performance through damages payments and harm to reputation.
- (q) **Occupational Health and Safety Risk:** Gas exploration and production may expose Tlou Energy's staff to potentially dangerous working environments. If any of Tlou Energy's employees suffered injury or death, compensation payments or fines may be payable and such circumstances could result in the loss of a licence or permit required to carry on the business.
- (r) **Financing Risk:** Tlou Energy, in order to meet future ongoing work programs, will likely require additional capital (via asset sales, farm-ins, equity, etc.). There can be no assurance that sufficient capital funding will be available to Tlou Energy on favourable terms or at all. If Tlou Energy is unable to raise necessary capital, there may be a reduction in planned capital expenditure which could have a material adverse effect on Tlou Energy's ability to expand its business and/or maintain operations at current levels; this could, in turn, have a material adverse effect on Tlou Energy's business, financial condition and operations. Any additional capital requirements may dilute existing Shareholdings as well as having a material effect on the value of the shares in the Company.
- (s) **Reliance on Key Personnel Risk:** The Company is reliant on its senior management and key personnel. There is a risk that Tlou Energy may not be able to retain or hire all necessary personnel. Tlou Energy's progress in pursuing its exploration and appraisal programs within the timeframes and currently envisaged cost structure could be influenced by the loss of existing key personnel or a failure to secure and retain additional key personnel as Tlou Energy's exploration and appraisal programs progress. The result of such loss would depend on the quality and timing of the employee's replacement. Although Tlou Energy's key personnel have a considerable amount of experience and have previously been successful in their pursuits of acquiring, exploring and evaluating mineral projects, there is no guarantee or assurance that they will be successful in their objectives.

### 3. General investment risks

- (t) **Economic Risk:** Factors such as economic outlook, inflation, currency fluctuation, interest rates, demand, global geo-political events and hostilities and industrial disruption have an impact on operating costs, oil and gas prices and share market conditions. Tlou Energy's future possible profitability and the market price of Tlou Energy Shares can be affected by these factors which are beyond the control of its Directors.
- (u) **Investing in Shares:** Once the Offer Shares are quoted on the ASX and AIM, their price may rise or fall and they may trade at prices below or above the Issue Price. There also can be no assurance that the Offer Shares will be traded actively. In common with other listed entities, Tlou Energy's Shares can be affected by factors that are unrelated to the operating performance or underlying value of the Company, such as domestic and international economic conditions. These fluctuations may adversely affect the price of Tlou Energy's Shares, including the Offer Shares once issued.
- (v) **General economic conditions:** Tlou Energy's operation and financial performance is affected by general economic business conditions including inflation levels, interest rates, exchange rates, government fiscal and monetary policies, and changing healthcare policy and medical reimbursement in the jurisdictions in which Tlou Energy operates. A sustained decline in general economic condition, such as an increase in interest rates, could be expected to have a material adverse effect on Tlou Energy's operation and financial standing.
- (w) **Accounting standards:** Australian accounting standards are set by the Australian Accounting Standards Board (**AASB**) and are therefore outside the Directors' and Tlou Energy's control. Changes to accounting standards issued by the AASB could materially adversely affect the way in which Tlou Energy's financial performance is perceived by the market.
- (x) **Taxation risks:** Changes to tax law in Botswana, Australia, New Zealand, the UK or other jurisdictions in which Tlou Energy and its Shareholders operate may affect Tlou Energy and its Shareholders. Personal tax liabilities are the responsibility of each individual investor and Tlou Energy has no responsibility for taxation or taxation penalties incurred by its Shareholders.
- (y) **Equity market conditions:** Securities listed on the stock market can experience extreme price and volume fluctuations that are unrelated to the operating performances of such companies. The market price of Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. General factors that may affect the market price of Shares include economic conditions in Australia, Botswana, the UK and internationally (particularly Australian, US and Chinese economic conditions), investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.
- (z) **Business factors:** The continuing economic viability of Tlou Energy will be dependent on managing risk factors normally found in conducting a business, including management of contractual risks, litigation due to breach of agreements or in relation to employees (through personal injuries, industrial matters or otherwise), strikes, lockouts, loss of services of key management or operational personnel or change in tax and accounting laws. There can be no assurance that parties with whom Tlou Energy has entered into commercial arrangements will adhere to the terms of the contracts and arrangements. There is the potential of material failure by or insolvency of any contractor used by Tlou Energy in any of its activities. Such being the case, this could cause disruption to the operations of Tlou Energy. Tlou Energy is unable to predict the risk of insolvency or other managerial failure by any of its contractors or other service providers used by the Company. All of the mentioned business factors could have a material adverse effect on the results of the operations or the financial condition of Tlou Energy.

#### 1. Nominees and Custodians

Nominees and custodians (which hold Shares) should consider carefully the contents of this Offer Booklet and note in particular that the Offer is not available to Ineligible Shareholders.

Tlou Energy is not required to determine whether or not any Shareholder is acting as a nominee or the identity or residence of any beneficial owners of Shares or Entitlements. Where any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offer is compatible with applicable foreign laws. Tlou Energy is not able to advise on foreign laws. Nominees and custodians may not distribute any part of this Offer Booklet in the United States or in any other country outside the United Kingdom, Australia and New Zealand, except to beneficial shareholders who are institutional investors in other countries listed in, and to the extent permitted under paragraph 6 "Overseas Shareholders" in Part 2.

#### 2. Rights issue exception not available

Eligible Shareholders who may be at risk of exceeding the 20% Voting Power threshold in section 606 as a result of acceptance of their Entitlement or subscribing for Excess Shares pursuant to the Excess Application Facility should seek professional advice before completing and returning the Entitlement and Acceptance Form.

#### 3. Litigation

The Company has agreed to pay to the Underwriter an aggregate fee of 6% of the total gross amount underwritten by the Underwriter (**Underwriting Fee**).

The Underwriting Agreement contains various representations, warranties, indemnities and undertakings in favour of the Underwriters that are not unusual for an underwriting arrangement of this sort. In particular, the Underwriting Agreement contains various representations and warranties by the Company relating to the Company and its business, including information provided to the Underwriters and disclosed to the ASX. The Underwriting Agreement also imposes various obligations on the Company, including undertakings to do certain things, including providing certain notices to the Underwriters and the ASX within prescribed periods. The Underwriting Agreement also places certain restrictions on the Company from the date of the Underwriting Agreement, including restrictions on amendments to its constitution, disposing of the whole or a substantial part of its business or property and restrictions on the issue of Shares by the Company.

The obligation of the Underwriter to underwrite the Offer are conditional on customary conditions including, amongst others, the dispatch of this Offer Booklet and certain events not occurring during the Offer Period.

If certain events occur, the Underwriter has the right to terminate the Underwriting Agreement. In summary, these include:

(including the Special Administrative Region of Hong Kong), the countries of the former Union of Soviet Socialist Republics (excluding wars or hostilities within those countries), North Korea, South Korea, Indonesia or Japan which would, in the Underwriter's reasonable opinion, materially and adversely affect the Company or the Offer;

- (i) a contravention by the Company of its Constitution, the Corporations Act or the Listing Rules or any other applicable legislation, policy or requirement of ASIC or ASX;
- (j) certain litigation, arbitration, administrative or industrial proceedings are commenced or threatened against the Company;
