MacFarms not affected

Following recent media coverage of the volcanic activity in Hawaii, Buderim Group advises that its MacFarms macadamia orchard and operations located on the Big Island of Hawaii have not been affected by the recent activity of the Kilauea volcano.

Ends.

About Buderim Group Limited:

From a small Ginger Growers Cooperative in 1941, to one of the world's leading ginger producers and marketers of confectionery ginger, Buderim Ginger is a long-standing and proudly successful Australian business. It is also a major processor and marketer of macadamia nuts through MacFarms in Hawaii. The Group's public face is the renowned and highly awarded tourism attraction, The Ginger Factory, located on Queensland's Sunshine Coast.
