MITCHELL SERVICES LIMITED
(ASX: MSV)

Appendix 4C Quarterly Report and Investor Update

Dear Shareholder,

Mitchell Services Limited (**Mitchell Services**) is pleased to provide the following Investor Update for the quarter ended 30 June 2018.

As outlined in the March 2018 investor update both utilisation and productivity have continued to increase during the second half of the 2018 financial year as general market conditions continue to improve. These improvements have led to a material increase in rig utilisation (fig 1) and number of shifts for the quarter ended 30 June 2018 (fig 2).

The continual increase in both operating rig count and number of shifts has driven a significant increase in revenue, with a 384% increase since 2014. The table below outlines a number of key six-monthly utilisation metrics and the impact of those utilisation levels on financial results.

	FY16		FY17		FY18	
	1H	2H	1H	2H	1H	2H
Ave operating Rigs	20.2	15.3	23.5	19.8	36.7	37.5
Number of shifts	3,036	3,471	4,528	4,029	7,423	8,332
Revenue (\$000's)	18,472	14,498	20,843	19,460	33,215	39,485
EBITDA (\$000's)	131	391	2,559	(321)	2,678	3,576
Operating cash flow (\$000's)	236	(302)	2,400	1,907	(2,290)	1,016
Annualised revenue per rig (\$000's)	1,829	1,895	1,774	1,966	1,810	2,106

* un-audited

As disclosed previously, EBITDA in the first half of FY18 was impacted by material levels of ramp up associated with major project wins. Mitchell Services' EBITDA is beginning to normalise and anticipate further material increases in revenue and EBITDA during the first half of FY19.

The material increase in revenue (particularly in the quarter ended 30 June 2018) has resulted in a significant increase to Mitchell Services' trade receivables as at 30 June 2018, giving rise to a timing difference between the strong EBITDA performance in the June quarter and the conversion of that EBITDA into positive operating cashflow (which will likely occur in the following quarter).

As outlined in the March 2018 investor update and following the announcement made on 4 April 2018, I am pleased to inform shareholders that the Radco Drilling business continues to perform safely, efficiently and in line with expectations following the recent acquisition. The acquisition is anticipated to be materially EPS and EBITDA accretive into the foreseeable future.

Since the completion of the Radco acquisition (which saw the overall fleet size increase to 76 rigs), Mitchell Services has recently concluded an asset optimisation program which included the sale of non-core assets. Under this sales program assets with a book value of approx. \$1.28m were sold for \$1.88m. Post these sales, Mitchell Services' fleet comprises 65 high quality drill rigs designed to service core markets including surface drilling, underground drilling and large diameter drilling (for both energy and minerals clients) across Australia.

The outlook remains positive with continued improvement across all operating metrics expected. Near term focus continues to be:

- Continue to operate safely across all operations
- Finalise the integration of the Radco drilling business and focus on increasing its operating rig count
- Generate strong operational cash flow to pay down debt
- Sell the investment property located in Townsville to pay down debt

Thank you for your continued support.

Yours faithfully

Andrew Elf

*The net asset value of \$5,791,163 represents the book values of the assets and liabilities per Radco's financial statements at acquisition date (4 April 2018). These values do not take into account the fair values of any identified intangible assets (in the form of customer contracts) that existed at acquisition date. Michell Services is currently finalising the purchase price allocation as required by AASB3 (Business Combinations) under which it will recognise all assets and liabilities acquired (including the customer contracts) at appropriate fair values. It is anticipated that the calculated fair values of the net assets recognised under AASB3 will be approximately equal to the consideration of \$7.6 million. Goodwill will be recognised to the extent that the purchase consideration is greater than the identified fair values. Conversely, to the extent that the fair values of net assets exceed the purchase consideration, a resultant discount/gain on purchase will be recognised in accordance with AASB3.
