Kollakorn Contracts with CSIRO to Develop CertainID™

The Directors of Kollakorn Corporation Limited (ASX: KKL) wish to announce that the Company has entered into a contract with the CSIRO to assist Kollakorn in developing the patent known as CertainID™.

CertainID is technology patented by Kollakorn Corporation Ltd that enables biometric authentication for individuals sending information over the internet, and other potential digital and peer to peer platforms while ensuring the security and privacy of the user's biometric signature.

With CSIRO subsidiary Data61, Australia's leading digital research and development organisation specialising in cybersecurity, a proof of concept will be developed which will include a demonstration unit and identified improvements to be included in a final product. The engagement by the CSIRO to achieve this result shows its significant interest in the viability of the CertainID patent.
