Why GDI Property Group?

Total return focused

- Delivered an annualised total return since listing of 14.82% p.a.
- This return has been largely crystallised
- Demonstrated restraint, but can still uncover acquisitions (Westralia Square and IKEA)

Size matters

- Market capitalisation of +/- \$675 million
- Large enough to secure outstanding opportunities like Westralia Square, but small enough that a \$92 million crystallised uplift in the value of 66 Goulburn Street has a material impact

Exposure to Perth

- 87% of the wholly owned portfolio, and 78% of all assets under management now located in Perth
- Very confident in the short and medium term outlook for Perth

Assets with upside

- All assets under management have visible capital value upside potential
- Asset management is the focus for FY19

Ability to capitalise on any weakness

- Principal facility LVR of only 8.9% provides GDI Property Group with the financial firepower to secure assets, or buy back its own stock, should opportunities arise
- Ability to raise large amounts of capital through the existing unlisted platform

Committed team

- Aligned management
- Very stable and experienced, but small team
