#### Brief explanation of revenue, net profit and dividends (results commentary)

Revenue of the Group for the year ended 30 June 2018 was \$51.9 million (2017: \$48.1 million), an increase of 7.8%. Growth in sales in Europe and Australia were offset by lower sales in the USA due to non-core lines being exited.

The statutory net profit after tax of the Group for the year ended 30 June 2018 was \$11.0 million (2017: \$9.3 million). The result to 30 June 2018 included the recognition of \$1.1 million (after tax) of non-recurring expenses relating to C&R.

EBITDA<sup>(i)</sup> for the year ended 30 June 2018 was \$16.3 million (2017: \$14.7 million) and EBITDA<sup>(i)</sup> margins were 31.5% (2017 : 30.6%). The higher EBITDA<sup>(i)</sup> and NPAT in FY18 compared to the prior corresponding period was mainly due to:

- Stronger sales at consistent margins;
- Overhead costs remaining at constant levels supporting the higher sales volumes including the one off items relating to C&R mentioned above; and
- A largely neutral impact of foreign exchange rate movements.

Conversion of EBITDA<sup>(i)</sup> to cash remains strong at 101.8% but this has been affected by the non-cash components of the non-recurring expenses at C&R referred to above totalling \$0.85 million. Without the effect of these non-cash items, the conversion rate would be 96% (2017:92%).

Underlying results and further information is included in the Directors' Report.

Subsequent to the end of the reporting period, the directors have declared a fully franked final dividend for the year ending 30 June 2018 of 6.20 cents per ordinary share to be paid on 14 September 2018 resulting in a total distribution of \$6.2 million based on the number of ordinary shares currently on issue.

(i) Earnings Before Interest, Tax, Depreciation and Amortisation (“EBITDA”) is a non-IFRS term which has not been subject to audit or review but has been determined using information presented in the annual financial report.

**Underlying Profit and Loss Summary**

The above statutory profit and loss includes the C&R deferred tax adjustment and several items arising from the restructuring and repositioning of the operations at C&R in the USA none of which are expected to reoccur. These items are as follows :

- \$0.85 million (\$0.63m after tax) for the loss on sale and write down in the carrying value of assets held for sale in the USA the majority of which were disposed of in April 2018.
- \$0.41 million (\$0.3m after tax) for the termination of a distribution agreement
- \$0.18 million charge to income tax expense for the decrease in the net deferred tax balance in the USA, following the reduction in the USA federal corporate tax rate from 35% to 21%.

A reconciliation of underlying EBITDA<sup>1</sup> to the reported profit before tax in the consolidated statement of profit or loss and other comprehensive income is as follows :

**Revenue**

The Group achieved overall revenue growth of 7.8% compared to the prior corresponding period. Organic revenue growth of 6.5% was supplemented by exchange rate movements of 1.3%.

The above growth is after the decrease in C&R revenue of 19%, which was expected, as a result of the exit from non-core business operations and the restructuring of their operations. Compensating growth came from PWR Europe sales increasing by 27% and PWR Australia sales increasing 20% compared to the prior corresponding period. With reporting in Australian dollars, the exchange rate has had a lesser impact than previous years with the GB pound being 4.7% stronger at 30 June 2018 and the US dollar being 4.1% stronger compared to the prior period. However, average rates during the financial year saw a US dollar being 2.9% weaker but the pound 3.1% stronger.

The net foreign exchange impact was a favourable effect on revenue for the year of \$615,395.

**EBITDA**

The higher EBITDA in FY18 compared to the prior corresponding period was mainly due to:

- Overall revenue growth at consistent margins;
- Production and manufacturing costs increasing consistently with sales volume increases; and
- Administration and overhead costs remaining at consistent levels supporting the higher revenue and margins generated. These costs also included non-recurring expenditure relating to the termination of a distribution agreement at C&R.

**Net profit after tax**

Net profit after tax of the Group for the year ended 30 June 2018 was \$11.00 million (2017: \$9.28 million), including the recognition of \$1.1 million (after tax) of one-off expenses in relation to the changes to Federal corporate tax rates in the USA, the loss on sale and write down of the C&R non core non cooling business held for sale at 30 June 2017 and costs associated with the termination of a distribution agreement at C&R.

**5 Operating and financial review (continued)**

**Summary of financial results (continued)**

*Operating cash flow*

The Group continued its strong cash conversion rate with FY18 operating cash flow of \$16.6 million, a conversion of 101.8% from EBITDA. This high EBITDA to cash conversion is due to:

- Improved working capital management; and
- The flow on effect of the non-cash impact of the loss on sale and write down of assets held for sale at C&R.

*Foreign currency*

The Group is exposed to movements in foreign exchange rates, with consolidated revenue generated in various currencies as outlined below:

**Review of operating segments**

The Group has two operating segments, PWR Performance Products which comprises its Australian and European operations, and C&R which comprises its USA operations.

The PWR Performance Products segment generated external revenue of \$39.07 million (2017: \$31.78 million), primarily arising from increased market penetration in the motorsports sector in the United Kingdom and Europe.

The C&R segment generated external revenue of \$12.82 million (2017: \$16.34 million). This decrease was as a result of exiting non-core products and transitioning C&R to a stand alone manufacturing business unit.

**Review of principal businesses**

During the year ended 30 June 2018, in addition to the items outlined above, the Group:

- Was selected as cooling assembly supplier for a further two niche OEM programs in Europe, with one commencing production during the year;
- Continued other OEM development and prototype work;
- Completion of the construction and commissioning of a new aluminium heat exchanger core production line at C&R in the USA, which has been operational from H2 FY18. This has increased overall production capacity, allowing longer run production programs as well as releasing production capacity at the existing Australian facility to focus on research and development, bespoke and specialised production and the domestic aftermarket; and
- Completed the exit of the non-core business at C&R to increase available capacity and focus resources on supporting and developing our core business.

**5. Operating and financial review (continued)**

**Balance sheet management**

The balance sheet remains strong with cash of \$12.1 million (2017: \$9.06 million) and zero net debt.

Working capital management has improved with the working capital cycle reducing from 150 days at 30 June 2017 to 122 days at 30 June 2018 contributing to a higher year end cash balance.

Capital expenditure for the year was \$5.2 million (FY17: \$3.87 million) including \$2.2 million (FY17: \$1.92 million) for the C&R heat exchanger core production line.

**Business risks**

PWR recognises the importance of, and is committed to, the identification, monitoring and management of material risks associated with its activities. The following information sets out the material risks of PWR which are kept under review and actively managed within PWR's risk management framework. These are not in any particular order.

|             |   |
|-------------|---|
| Strategic   | Loss of key management personnel<br>Damage to or dilution of PWR brand  |
| Operational | Loss of critical supply inputs or infrastructure<br>Loss of intellectual property protection<br>Reduction in product quality standards<br>Loss of data security and integrity |
| Financial   | Currency volatility   |

**Significant changes in the state of affairs**

Other than as outlined in the operating and financial review, there were no significant changes in the nature of the activities of the Group during the year.

**6. Dividends**

Dividends paid or declared by the Company to members since the end of the previous financial year were:

| <b>Declared and paid during the year</b> | <b>Cents per share</b> | <b>Total amount \$</b> | <b>Date of payment</b> |
|--|------------------------|------------------------|------------------------|
| Final 2017 ordinary                      | 4.70                   | 4,700,000              | 15 September 2017      |
| Interim 2018 ordinary                    | 1.10                   | 1,100,000              | 6 April 2018           |
| Total amount                             |                        | <u>5,800,000</u>       |                        |

**Declared after end of year**

The following dividend was declared by the Directors since the end of the financial year:

|                              | <b>Cents per share</b> | <b>Total amount \$</b> | <b>Date of payment</b> |
|------------------------------|------------------------|------------------------|------------------------|
| Final 2018 ordinary dividend | 6.20                   | 6,200,000              | 14 September 2018      |
| Total amount                 |                        | <u>6,200,000</u>       |                        |

The financial effect of this dividend has not been brought to account in the consolidated financial statements for the year end 30 June 2018 and will be recognised in subsequent financial reports. There is no dividend re-investment plan in operation.

**Directors' report**

**For the year ended 30 June 2018**

**7. Likely developments**

The Group will continue its strategy of increasing profitability and market share within existing markets and pursue opportunities in emerging markets during the next financial year.

Further information about likely developments in the operations of the Group and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

**8. Events subsequent to reporting date**

The Board declared a fully franked final 2018 ordinary dividend of 6.20 cents per share. The financial effect of this dividend has not been brought to account in the consolidated financial statements for the year ended 30 June 2018.

Other than the matter noted above, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in future financial years.

**9. Rounding of amounts**

The Company is of a kind referred to in ASIC Corporations Instrument 2016/191 issued by the Australian Securities and Investment Commission, relating to the "rounding off" of amounts in the Directors' Report. Amounts in the Directors' Report have been rounded off in accordance with that Instrument to the nearest thousand dollars unless otherwise stated.

**10. Environmental regulation**

The Group is not subject to any significant environmental regulations.

**11. Indemnification and insurance of officers**

The Group has indemnified the Directors and Executives for costs incurred, in their capacity as a Director or Executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Group paid insurance premiums in respect of a contract to insure the Directors and Executives of the Group against a liability to the extent permitted by the Corporations Act 2001. The insurance contract prohibits disclosure of the nature of liability and the amount of the premium.

**12. Proceedings on behalf of the Company**

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

**13. Non-audit services**

During the year KPMG, the Group's auditor, has not performed any services other than the audit and review of the financial statements.

**14. Lead auditor's independence declaration**

The lead auditor's independence declaration is set out on page 18 and forms part of the directors' report for the financial year ended 30 June 2018.

**15. Directors' interests**

Details of the Directors' interests in the securities of the Company are disclosed in the remuneration report. At the date of this report their holdings do not differ from the amount held at 30 June 2018.

**C. Non-Executive Director Remuneration**

***C1. Policy***

A copy of the remuneration policy for Non-Executive Directors is available on the Group's website. The Board's Non-Executive Director remuneration policy is to:

- Provide a clear fee arrangement that avoids potential conflicts of interest associated with performance incentives,
- Remunerate Directors at market rates for their commitment and responsibilities, and
- Obtain independent external remuneration advice when required.

Non-Executive Directors receive remuneration for undertaking their role. They do not participate in the Group's incentive plans or receive any variable remuneration. Non-Executive Directors are not entitled to retirement payments.

The aggregate Non-Executive Director remuneration cap approved by shareholders in 2016 is \$750,000 per annum (inclusive of superannuation contributions). The Board determines the distribution of Non-Executive Director fees within the approved remuneration cap.

***C2. Remuneration of Non-Executive Directors during Reporting Period***

The following table sets out the annual Board and Committee fees (inclusive of superannuation) for Non-Executive Directors during the reporting period. Upon the appointment of the Interim Chairman on 3 March 2017, the Board undertook a remuneration benchmarking exercise and reduced the annual fee for the Chairman's role by \$100,000 to \$150,000 per annum.

| <b>Role</b>                                    | <b>Timeframe</b>                | <b>Director Fees<br/>\$ per annum</b> |

**D. Executive Director and Senior Executive Remuneration**

***D1. Remuneration policy for senior executives***

The Board's policy for determining the nature and amount of remuneration for the Managing Director and other senior executives is:

- Provide for both fixed and performance based remuneration,
- Provide a remuneration package based on an annual review of employment market conditions, the Group's performance and individual performance, and
- Obtain independent external remuneration advice when required.

The remuneration framework for senior executives comprises two elements:

1. Fixed remuneration; and
2. "At risk" or performance linked remuneration.

**16. Remuneration report – audited (continued)**

**D. Executive Director and Senior Executive Remuneration (continued)**

***D1. Remuneration policy for senior executives (continued)***

***D1.1 Fixed remuneration***

Fixed remuneration is a function of size and complexity of the role, individual responsibilities, experience, skills and market pay levels. This consists of cash salary, salary sacrifice items, employer superannuation, annual leave provisions and any fringe benefits tax charges related to employee benefits. Superannuation is paid at the relevant statutory contribution limit. The opportunity to salary sacrifice superannuation benefits on a tax-compliant basis is available upon request.

The Board determines an appropriate level of fixed remuneration for the senior executives with recommendations from the Nomination and Remuneration Committee.

Fixed remuneration is reviewed annually following performance reviews at the end of the financial year and takes into account the role and accountabilities, relevant market benchmarks and attraction, retention and motivation of executives in the context of the talent market.

The Managing Director and senior executives did not receive increases to their fixed remuneration during the Reporting Period.

***D1.2 Performance linked remuneration***

**Short-term incentive plan**

The Managing Director and senior executives are eligible to participate in the Group's short-term incentive plan.

Under the plan, participants have an opportunity to receive an annual cash bonus calculated as a percentage of their total fixed remuneration ("TFR") and conditional on the achievement of short-term financial and non-financial performance measures at a corporate and individual level. For the year ended 30 June 2018, the operation of the short term-incentive plan had a NPAT target, established by the Board at the commencement of the Reporting Period, to trigger its operation. The NPAT target for FY18 was achieved and short-term incentives were awarded to the Managing Director and senior executives as outlined below.

***Analysis of cash bonuses included in remuneration***

The Board awarded the Managing Director and senior executives the following cash bonuses for the Reporting Period:

**Long-term incentive plan**

Shareholders approved the implementation of a long-term incentive plan (“LTIP”) at the 2016 Annual General Meeting (“AGM”).

The LTIP is an equity-based incentive designed to provide participants with the incentive to deliver growth in shareholder value. Senior Executives receive performance rights (“Rights”) on an annual basis under the Performance Rights Plan, subject to the approval of the Board. The Managing Director is entitled to receive Performance Rights on an annual basis under the Performance Rights Plan, subject to approval of shareholders. A grant of Rights was made to the Senior Executives and Managing Director in the 2018 financial year following approval of Shareholders at the 2016 AGM.

Rights convert to ordinary shares in the Company on a one-for-one basis at the end of the three-year performance period depending on the extent to which performance hurdles are achieved and service conditions met.

The performance hurdles are the achievement of Total Shareholder Return (“TSR”) ranking criteria relative to the TSR of constituents of the S&P/ASX300 (excluding mining and exploration entities) and growth in annual Earnings Per Share (“EPS”) relative to a target set by the Board. Participants must remain continually employed with the Company until the date of vesting. Vesting on each tranche is as follows:

| <b>TSR Ranking (50%)</b>   |                                      | <b>EPS Growth (50%)</b>   |                                      |
|--|--------------------------------------|---|--------------------------------------|
| <p>The percentage of Performance Rights linked to TSR will be 50%. TSR is calculated by an independent third party, comparing the TSR percentile rank that the Company holds relative to all S&amp;P ASX 300 constituent companies (excluding Energy sector (oil, gas and coal)) for the relevant 3-year Performance Period.</p> |                                      | <p>The percentage of the Performance Rights linked to the EPS hurdle will be 50%. Vesting is determined by the growth in EPS from the financial year immediately prior to the start of the Performance Period (base year) to the end of the third year of the Performance Period, measured against specific EPS targets outlined below.</p> |                                      |
| <b>TSR Ranking</b>   | <b>Vesting outcome</b>               | <b>EPS</b>  | <b>Vesting outcome</b>               |
| TSR is 50% or less   | Nil vesting                          | EPS growth is 4% or less  | Nil vesting                          |
| TSR is more than 50% but less than 75%   | Rateable vesting between 20% and 99% | EPS growth is more than 4% but less than 12%  | Rateable vesting between 50% and 99% |
| TSR is 75% or more   | 100% vesting                         | EPS growth is 12% or more   | 100% vesting                         |

Rights that do not vest at the end of the three-year period lapse, unless the Board in its discretion determines otherwise. Upon cessation of employment prior to the vesting date, Rights will be forfeited and lapse. Rights do not entitle holders to dividends that are declared during the vesting period. The Board believes that performance hurdles, in combination, serve to align the interests of the individual senior executives with the interests of the Company’s shareholders.

**E. Company performance and remuneration outcomes**

The various components of the way the Group remunerates key management personnel have been structured to support the Group's strategy and business objectives which in turn are designed to generate shareholder wealth.

When setting targets and determining the quantum of the remuneration increases and the proportion of fixed and performance linked remuneration components, the Board refers to remuneration benchmarking reports provided by independent sources and remuneration consultants from time to time.

The at risk component (short-term incentive plan and long-term incentive plan) of the remuneration structure intends to reward achievement against Group and individual performance measures over one year and three-year timeframes, respectively.

The table below summarises the Group's performance in recent financial years:

|  | <b>Note</b> | <b>2018<br/>\$'000</b> | <b>2017<br/>\$'000</b> | <b>2016<br/>\$'000</b> |

**F. Contract duration and termination requirements**

The Company has contracts of employment with no fixed tenure requirements with the Managing Director and senior executives. The notice period for each is outlined in the table below. Termination with notice may be initiated by either party. The contracts contain customary clauses dealing with immediate termination for gross misconduct, confidentiality and post-employment restraint of trade provisions.

**L. Key management personnel transactions**

KMP, or their related parties, may hold positions in other entities that result in them having control, or joint control, over the financial or operating policies of those entities.

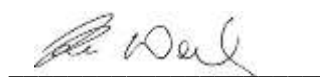

These entities may transact with the Group. The terms and conditions of the transactions with KMP and their related parties were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arms length basis.

From time to time, directors of the Group, or their related entities, may purchase goods from the Group. These purchases are on the same terms and conditions as those entered into by other Group employees or customers and are trivial or domestic in nature.

**Notes to the consolidated financial statements**

**For the year ended 30 June 2018**

**Section A About this Report**

**A1 Reporting entity**

PWR Holdings Limited (the “Company”) is a Company domiciled in Australia.

The consolidated financial statements of the Company as at and for the year ended 30 June 2018 comprise the Company and its subsidiaries (together referred to as the “Group” and individually as “Group Entities”).

The Group is involved in the design, engineering, testing, production, validation and sale of customised cooling products and solutions to the motorsports, automotive original equipment manufacturing, automotive aftermarket and emerging technologies sectors for domestic and international markets.

The Company’s registered office and principal place of business is 103 Lahrs Road, Ormeau, Queensland 4208.

The Group is a for-profit entity for the purposes of preparing these financial statements.

**A2 Basis of preparation**

**(a) Statement of compliance**

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The consolidated financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors’ Reports) Instrument 2016/191 and in accordance with that instrument, amounts in the Financial Report and Directors’ Report have been rounded off to the nearest thousand dollars, unless otherwise stated.

The financial statements were approved by the Board of Directors on 23 August 2018.

**(b) Functional and presentation currency**

These consolidated financial statements are presented in Australian dollars, which is the Company’s functional currency.

**(c) Use of estimates and judgements**

The preparation of consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of the entities within the Group. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about critical judgements, estimates and assumptions in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements is included in the notes C3 (Inventories) and C7 (Intangible assets).

**A3 Significant accounting policies**

The accounting policies set out in Section I to the consolidated financial statements have been applied consistently to all periods presented in these consolidated financial statements.

For the purpose of impairment testing, the recoverable amount of each CGU was based on its value in use, determined by discounting the future cash flows to be generated from the continuing use of each CGU. The carrying amount of each CGU was determined to be less than its recoverable amount and accordingly, no impairment loss was recognised.

Value in use is calculated based on the present value of the cash flow projections over a five year period and include a terminal value at the end of year five. The cash flow projections over the five year period are based on the Group's budget for 2019 and growth over the forecast periods based on the Group's business plans and management's assessment of the impacts of underlying economic conditions, past performance and other factors on each CGU's financial performance. For the C&R CGU, the cashflow projections include management's estimate of the expected growth from C&R's involvement in OEM programs as a cooling assembly supplier as well as growth into the aftermarket. The long term growth rate used in calculating the terminal value is based on long term inflation estimates for the country and industry in which each CGU operates.

The cash flows are discounted to their present value using a pre-tax discount rate based on a weighted average cost of capital adjusted for country and industry specific risks associated with each CGU

Key assumptions used in the estimation of value in use were:

**D3 Share based payments**

During the year the Board granted performance rights to employees under the terms of the Performance Rights Plan (the Plan) approved at the Company's Annual General Meeting on 21 October 2016.

Under the Plan, the Board may issue employees conditional performance rights for no consideration. Subject to the achievement of vesting conditions, the performance rights entitle the employee to receive ordinary shares in the Company at no cost.

Vesting of the performance rights approved during the year is subject to meeting a 3 year service condition and achievement of performance hurdles (based on either an EPS growth target or total shareholder return (TSR) ranking). The performance period for the rights issued is from 1 July 2017 to 30 June 2020.

158,364 performance rights were issued to key management personnel during the year with 50% subject to the EPS performance hurdle and 50% subject to the TSR performance hurdle. At 30 June 2018, 117,455 of these performance rights remain on issue.

In accordance with the Group's accounting policy, the grant date fair values of the rights issued will be recognised as an expense over the vesting period. An expense of \$75,518 (2017 : \$48,939) was recognised during the year and included in "employee expenses" in the statement of profit or loss and other comprehensive income.

**Measurement of fair values**

The fair value of the TSR component of the performance rights has been measured using a Monte Carlo simulation. The fair value of the EPS component of the performance rights has been measured using the Black Scholes formula.

The Group's tax losses recognised as a deferred tax asset arise from its US operations. Management considers that based on the Group's plans for this business, it is probable that future taxable profits will be generated against which the tax losses can be recovered.

**G3 Deed of cross guarantee**

Pursuant to ASIC Corporations (wholly-owned companies) Instrument 2016/785, the wholly owned subsidiaries listed below are relieved from the Corporations Act 2001 requirements for the preparation, audit and lodgement of financial reports, and Directors' reports.

It is a condition of the Instrument that the Company and each of the subsidiaries enter into a Deed of Cross Guarantee. The effect of the Deed is that the Company guarantees to each creditor, payment in full of any debt in the event of winding up of any of the subsidiaries under certain provisions of the Corporations Act 2001. If a winding up occurs under other provisions of the Act, the Company will only be liable in the event that after six months any creditor has not been paid in full. The subsidiaries have also given similar guarantees in the event that the Company is wound up.

The subsidiaries subject to the Deed are:

PWR Performance Products Pty Ltd  
PWR IP Pty Ltd

All subsidiaries became a party to the Deed on 18 May 2017.

**Notes to the consolidated financial statements**

**For the year ended 30 June 2018**

**Section H Other Information**

**H1 Financial risk management**

The Group has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

The note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

**Risk management framework**

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group's risk management activities are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management activities are reviewed to reflect changes in market conditions and the Group's operations. The Group aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

**Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

Management assesses each new customer for creditworthiness before the Group's standard payment and delivery terms and conditions are offered.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the end of the reporting period was as follows.

|                             | Note | Carrying amount |                |
|-----------------------------|------|-----------------|----------------|
|                             |      | 2018<br>\$'000  | 2017<br>\$'000 |
| Cash and cash equivalents   | C1   | 12,110          | 9,064          |
| Trade and other receivables | C2   | 4,054           | 3,444          |

|                             |      | 16,164          | 12,508         |

*Cash and cash equivalents*

The Group held cash and cash equivalents of \$12,110,095 at 30 June 2018 (2017: \$9,063,782), which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with bank and financial institution counterparties, which are rated A to AA-, based on independent rating agency ratings.

*Trade and other receivables*

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk of the country in which customers operate, as these factors may have an influence on credit risk.

**Exposure to credit risk**

The maximum exposure to credit risk for trade and other receivables at the end of the reporting period by geographic region was as follows :

|           | <b>Carrying amount</b> |               |
|-----------|------------------------|---------------|
|           | <b>2018</b>            | <b>2017</b>   |
|           | <b>\$'000</b>          | <b>\$'000</b> |
| Australia | 1,084                  | 702           |
| UK        | 2,091                  | 1,479         |
| USA       | 879                    | 1,263         |
|           | 4,054                  | 3,444         |

The ageing of the Group's trade and other receivables at the end of the reporting date was as follows:

|                          |       |       |
|--------------------------|-------|-------|
| Not past due             | 3,228 | 2,900 |
| Past due 1-30 days       | 801   | 443   |
| Past due 31-60 days      | 22    | 101   |
| Past due > 61 days       | 3     | 81    |
|                          | 4,054 | 3,525 |
| Provision for impairment | -     | (81)  |
|                          | 4,054 | 3,444 |

Management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historic payment behaviour and analysis of customer credit risk.

No impairment losses were recognised in respect of trade and other receivables during the year (2017: \$80,740).

**Liquidity risk**

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

In addition, the Group maintains the following lines of credit : (refer note F1)

- A\$500,000 trade finance facility;
- A\$5,000,000 asset finance facility;
- USD\$4,000,000 foreign currency advance facility;
- A\$50,000 corporate credit card facility; and
- USD\$100,000 corporate credit card facility.

**Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

**Currency risk**

The Group is exposed to currency risk on its financial assets and liabilities arising from sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities, being the Australian dollar (AUD), Pound Sterling (GBP) and US dollar (USD). The currencies in which these transactions are denominated are primarily AUD, GBP and USD. The Group uses derivative instruments to manage currency risk.

Under the Group's financial risk management policies, the Group may use derivative financial instruments to manage its foreign currency risks. There are no derivative financial instruments that were unsettled at year end (2017 : Nil).. During the year ended 30 June 2018, the Group recognised \$236,000 in realised losses on settled derivatives (2017 : Nil). This has been included in finance costs in the income statement.

**Exposure to currency risk**

A summary of quantitative data about the Group's exposure to currency risk on financial assets and liabilities at year end is as follows:

*Sensitivity analysis*

A strengthening (weakening) of the GBP or USD against the AUD at 30 June would have affected the measurement of financial instruments denominated in a foreign currency and increased or (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases. The analysis is performed on the same basis for 2017, albeit that the reasonably possible foreign exchange rate variances were different, as indicated below.

**Fair values**

The fair values of the Group's financial assets and liabilities approximate their carrying amounts recognised in the statement of financial position.

**H2 Related party information**

Certain key management personnel, or their related parties, hold positions in other entities that result in them having control, joint control or significant influence over the financial or operating policies of these entities.

A number of these entities transacted with the Group during the year. The terms and conditions of the transactions with key management personnel and their related parties were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arm's length basis.

The aggregate value of transactions and outstanding balances relating to key management personnel and entities over which they have control, joint control or significant influence were as follows:

| <b>Entity</b>                               | <b>Transaction</b> | <b>Transaction values<br/>during the year</b> |                        | <b>Balance outstanding<br/>Receivable/(Payable)</b> |                        |

**H4 Subsequent events**

The Board declared a fully franked final ordinary dividend of 6.20 cents per share. The financial effect of the 2018 declared final dividend has not been brought to account in the consolidated financial statements for the year ended 30 June 2018.

Other than the matter noted above, there has not arisen in the interval since the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Group, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

**H5 New accounting standards**

**New standards and interpretations not yet adopted**

A number of new standards and amendments to standards are effective for annual periods beginning after 1 July 2018 and earlier adoption is permitted, however the Group has not early adopted the following new or amended standards in preparing these consolidated financial statements.

***AASB 9 Financial Instruments***

AASB 9 is effective for annual periods beginning on or after 1 January 2018, with early adoption permitted. The Group plans to apply AASB 9 initially in its financial statements for the year ending 30 June 2019. AASB 9 replaces AASB 139 *Financial Instruments: Recognition and Measurement* and includes revised guidance on the classification and measurement of financial instruments, a new 'expected credit loss' ("ECL") model for calculating impairment on financial assets and new general hedge accounting requirements.

The Group has undertaken an impact assessment regarding the adoption of AASB 9. Given the Group does not hold complex financial instruments or long dated receivables, it does not expect any material impact on its financial statements on application on 1 July 2018.

**Section H Other Information (continued)**

**H5 New accounting standards (continued)**

**New standards and interpretations not yet adopted (continued)**

***AASB 15 Revenue from Contracts with Customers***

AASB 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including AASB 18 *Revenue*. AASB 15 is effective for annual periods beginning on or after 1 January 2018, with early adoption permitted. The Group plans to adopt AASB 15 in its consolidated financial statements for the year ending 30 June 2019.

Under AASB 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when ‘control’ of the goods or services underlying the particular performance obligation is transferred to the customer.

The Group recognises revenue from the following sources:

- Sale of manufactured products;
- Sale of manufactured tooling fixtures which are used in the process of manufacturing products;
- Provision of wind tunnel testing services; and
- Recovery of freight and sale of scrap raw material.

The Group’s current accounting policies for the recognition and measurement of revenue are disclosed in note B2. The Group has completed an assessment of the application of AASB 15 and does not believe the new requirements will have a material impact on the financial results or the position of the Group on adoption on 1 July 2018.

***AASB 16 Leases***

AASB 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items. Lessor accounting remain similar to the current standard, i.e. lessors continue to classify leases as finance or operating leases.

The standard is effective for annual period beginning on or after 1 January 2019. Early adoption is permitted for entities that apply AASB 15 *Revenue from Contracts with Customers* at or before the date of initial application of AASB 16. The Group plans to apply AASB 16 initially in its financial statements for the year ending 30 June 2020.

The Group has started an initial assessment of the potential impact on its consolidated financial statements, with the most significant impact identified so far being that the Group will recognise new assets and liabilities for its operating leases of factory and office facilities. In addition, the nature of expenses related to those leases will now change as AASB 16 replaces the straight-line operating lease expense with a depreciation charge for right-of-use assets and interest expense on lease liabilities. The Group has not yet decided whether it will use the optional exemptions. No significant impact is expected for the Group’s finance leases.

The Group has not yet quantified the impact on its reported assets and liabilities of adoption of AASB 16. The quantitative effect will depend on, inter alia, the transition method chosen, the extent to which the Group uses the practical expedients and recognition exemptions, and any additional leases that the Group enters into. The Group expects to disclose its transition approach and quantitative information before adoption.

**Section I Significant accounting policies (continued)**

**1 Basis of consolidation**

*Subsidiaries*

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

*Transactions eliminated on consolidation*

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

**2 Foreign currency**

Transactions in foreign currencies are translated to the respective functional currencies of the Groups' entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated to the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign currency differences are generally recognised in profit or loss.

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition are translated to the functional currency at exchange rates at the reporting date. The income and expenses of foreign operations are translated to the functional currency at exchange rates at the dates of the transactions.

Foreign currency translation differences are recognised in other comprehensive income and presented in the foreign currency translation reserve in equity.

**3 Revenue**

*Sale of goods*

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns and trade discounts. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably.

*Rendering of services*

Revenue from rendering of services is recognised in profit or loss on completion of the service.

**4 Employee benefits**

*Short-term employee benefits*

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past services provided by the employee and the obligation can be estimated reliably.

**PWR Holdings Limited  
and its controlled entities**

**Notes to the consolidated financial statements**

**For the year ended 30 June 2018**

***Long-term employee benefits***

The Group's net obligation in respect of long-term employee benefits is the amount of future benefits that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Re-measurements are recognised in profit or loss in the period in which they arise.

***Share based payment transactions***

The grant-date fair value of share-based payment awards granted to employees is recognised as an expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

***Termination benefits***

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

***Defined contribution funds***

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

**5 Finance income and finance costs**

Finance income comprises interest income on funds invested and changes in the fair value of derivative financial instruments at fair value through profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Finance costs comprise interest expense on borrowings and changes in the fair value of derivative financial instruments at fair value through profit or loss. Interest expense is recognised using the effective interest method.

Foreign currency gains and losses on monetary assets and liabilities are reported on a net basis as either finance income or finance costs depending on whether foreign currency movements are in a net gain or net loss position.

**6 Income Tax**

Income tax on the profit or loss for the year comprises current and deferred tax. Current and deferred tax is recognised in the statement of comprehensive income except to the extent that it relates to items recognised directly in equity, or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance date, and any adjustments to tax payable in respect of previous years. Current tax payable also includes any tax liability arising from the declaration of dividends.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: initial recognition of goodwill, the initial recognition of assets and liabilities that affect neither accounting nor taxable profit, and difference relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on

**PWR Holdings Limited  
and its controlled entities**

**Notes to the consolidated financial statements**

**For the year ended 30 June 2018**

different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously

In determining the amount of current and deferred tax the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such as changes to tax liabilities will impact tax expense in the period that such a determination is made.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend.

**7 Inventories**

Inventories are measured at the lower of cost and net realisable value.

The cost of inventories is based on the first-in first-out principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

**8 Property, plant and equipment**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, and the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Cost also may include transfers from other comprehensive income of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within other income in profit or loss.

***Subsequent costs***

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

**PWR Holdings Limited  
and its controlled entities**

**Notes to the consolidated financial statements**

**For the year ended 30 June 2018**

***Depreciation***

Depreciation is calculated to write off the cost of property, plant and equipment less their estimated residual values using the straight-line and/or diminishing value basis over their estimated useful lives, and is generally recognised in profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

The estimated useful lives are as follows:

|                     | <b>2018</b> | <b>2017</b> |
|---------------------|-------------|-------------|
| Plant and equipment | 2-7 years   | 2-7 years   |
| Motor vehicles      | 4-6 years   | 4-6 years   |

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

**9 Intangible assets and goodwill**

***Goodwill***

Goodwill on acquisition is initially measured at cost, being the excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. At the acquisition date, any goodwill acquired is allocated to each of the cash-generating units expected to benefit from the combination's synergies. Goodwill is not amortised.

***Trademarks***

Separately acquired trademarks are measured initially at cost of acquisition. Trademarks acquired in a business combination are recognised at fair value at the acquisition date. Fair value is determined using the relief from royalty method.

The Group's trademarks are subsequently carried at cost less impairment losses and are not amortised as they are considered to have an indefinite useful life.

***Research and development***

Research expenditure is recognised as an expense as incurred. Concessional tax benefits and incentives receivable are recognised as other income based on an estimate of the eligible research and development expenditure incurred during the financial year. Costs incurred on development projects are recognised as intangible assets only when it is probable that a project will, after assessment of its commercial and technical feasibility, be completed and generate future economic benefits and can be measured reliably.

***Impairment of non financial assets***

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. Goodwill and trademarks with an indefinite life are tested annually for impairment.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

**PWR Holdings Limited  
and its controlled entities**

**Notes to the consolidated financial statements**

**For the year ended 30 June 2018**

*Impairment of non financial assets (continued)*

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of other assets in the CGU on a pro rata basis. An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

**10 Share capital**

*Ordinary shares*

Ordinary shares are classified as equity. Incremental costs directly attributable to issue of ordinary shares are recognised as a deduction from equity, net of any related income tax benefit.

The Company does not have authorised capital or par value in respect of its issued shares. All shares are fully paid. The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company.

*Foreign currency translation reserve*

The foreign currency translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations, as well as the effective portion of any foreign currency differences arising from hedges of a net investment in a foreign operation.

*Share based payments reserve*

The share based payments reserve comprises the grant-date fair value of share-based payment awards granted to employees.

**11 Impairment**

For the purpose of impairment testing, the recoverable amount of each CGU was based on its value in use, determined by discounting the future cash flows to be generated from the continuing use of each CGU. The carrying amount of each CGU was determined to be less than its recoverable amount and accordingly, no impairment loss was recognised.

Value in use is calculated based on the present value of the cash flow projections over a five year period and include a terminal value at the end of year five. The cash flow projections over the five year period are based on the Group's budget for 2019 and growth over the forecast periods based on the Group's business plans and management's assessment of the impacts of underlying economic conditions, past performance and other factors on each CGU's financial performance. For the C&R CGU, the cashflow projections include management's estimate of the expected growth from C&R's involvement in OEM programs as a cooling assembly supplier. The long term growth rate used in calculating the terminal value is based on long term inflation estimates for the country and industry in which each CGU operates.

The cash flows are discounted to their present value using a pre-tax discount rate based on a weighted average cost of capital adjusted for country and industry specific risks associated with each CGU

**12 Provisions**

*Warranties*

A provision for warranties is recognised when the underlying products are sold, based on historical warranty data and a weighting of possible outcomes against their assumed possibilities.

Provision for warranties relates to products sold during the current and prior financial years. The provision is based on estimates made from historical warranty data. The Group expects to settle the majority of the liability over the next year.

**PWR Holdings Limited  
and its controlled entities**

**Notes to the consolidated financial statements**

**For the year ended 30 June 2018**

**13 Leases**

*Leased assets*

Assets held by the Group under leases that transfer to the Group substantially all the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to that asset.

Assets held under other leases are classified as operating leases and are not recognised in the Group's statement of financial position.

*Lease payments*

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

**14 Financial instruments**

*Non-derivative financial liabilities*

Trade and other receivables are initially recognised as fair value and subsequently measured at amortised cost less provision for doubtful debts. Trade receivables are due for settlement no more than 30-60 days from the date of recognition.

The Group initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument. Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at reporting date.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Group classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest rate method.

Interest-bearing loans and liabilities are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest basis.

*Derivative financial instruments*

The Group may use derivative financial instruments to manage its foreign currency exposures. Embedded derivatives are separated from the host contract and accounted for separately if certain criteria are met.

Derivatives are recognised initially at fair value, any directly attributable transaction costs are recognised in profit or loss as they are incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

**PWR Holdings Limited  
and its controlled entities**

**Notes to the consolidated financial statements**

**For the year ended 30 June 2018**

**15 Fair value measurements**

The consolidated financial statements have been prepared on the historical cost basis except for any derivative financial instruments which are recognised at fair value.

‘Fair value’ is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

A number of the Group’s accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities.

When one is available, the Group measures the fair value using the quoted price in an active market for that asset or liability. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. When an active market is not available, the Group uses observable market data as far as possible.

Further information about the methods and assumptions made in determining fair values for measurement and/or disclosure purposes is included in the following notes:

- Note I14 – financial instruments
- Note D3 – share based payments.

# Independent Auditor's Report

To the shareholders of PWR Holdings Limited

## Report on the audit of the Financial Report

### Opinion

We have audited the **Financial Report** of PWR Holdings Limited (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 30 June 2018 and of its financial performance for the year ended on that date; and
- complying with the *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Consolidated statement of financial position as at 30 June 2018;
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended;
- Notes including a summary of significant accounting policies; and
- Directors' Declaration.

The **Group** consists of the Company and the entities it controlled at the year-end or from time to time during the financial year.

### Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

### Key Audit Matters

The **Key Audit Matter** we identified was the valuation of goodwill and intangible assets.

**Key Audit Matters** are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**Valuation of goodwill and intangible assets (\$14.1 million)**

| The key audit matter   | How the matter was addressed in our audit   |
|--|---|
| <p>A key audit matter for us was the Group’s annual testing of goodwill and intangible assets for impairment given the size of the balance (being 27% of total assets).</p> <p>We focused on the significant forward-looking assumptions the Group applied in their value in use models, including forecast cash flows, growth rates and discount rates.</p> <p>The Group uses complex models in performing their annual impairment testing. These models use forward looking assumptions based on the Group’s budgeting and business plans and a range of other internal and external sources as inputs to the assumptions. Complex modelling using forward-looking assumptions tend to be prone to greater risk for potential bias, error and inconsistent application. These conditions necessitate additional scrutiny by us, in particular to address the objectivity of sources used for assumptions, and their consistent application.</p> <p>We involved valuation specialists to supplement our senior audit team members in assessing this key audit matter.</p> | <p>Our procedures included:</p> <ul style="list-style-type: none"> <li>● We considered the appropriateness of the value in use method applied by the Group to perform the annual impairment testing against the requirements of the accounting standards.</li> <li>● We assessed the integrity of the value in use models used, including the accuracy of the underlying calculation formulas.</li> <li>● We considered the Group’s determination of their CGUs based on our understanding of the Group’s operations and how independent cash inflows were generated, against the requirements of the accounting standards.</li> <li>● We compared the forecast cash flows contained in the value in use model to Board approved budgets and the Group’s business plans.</li> <li>● We assessed the accuracy of previous Group forecasts to inform our evaluation of forecasts incorporated in the models.</li> <li>● We considered the sensitivity of the models by varying key assumptions, such as forecast growth rates, terminal growth rates and discount rates, within a reasonably possible range, to identify those CGUs at higher risk of impairment and to focus our further procedures.</li> <li>● We challenged the Group’s significant forecast cash flow and growth assumptions using our knowledge of the Group, their past performance and our understanding of factors impacting the business and customers in which the CGUs operate in.</li> <li>● Working with our valuation specialists, we independently developed a discount rate range considered comparable using publicly available market data for comparable entities, adjusted by risk factors specific to the CGU and the industry it operates in.</li> <li>● We assessed the disclosures in the financial report using our understanding obtained from our testing and the requirements of the accounting standards.</li> </ul> |

## Other Information

Other Information is financial and non-financial information in PWR Holdings Limited's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Directors' Report and ASX Additional Information. The Chairman's Letter and Managing Director's Report are expected to be included in the Annual Report, and made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

## Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*;
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- assessing the Group and Company's ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at:

[http://www.auasb.gov.au/auditors\\_responsibilities/ar1.pdf](http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf) . This description forms part of our Auditor's Report.
