

**RESULTS ANNOUNCEMENT**  
**FOR THE YEAR ENDED JUNE 30, 2018**

**INTRODUCTION**

Eildon Capital Limited (ASX: EDC) is pleased to report a net profit after tax of \$3.0 million (2017: \$3.7 million). The 2018 financial year represents the first full period that the strategy of the Company has been focused on property investments following the change from the focus on private equity and listed investments during the 2017 financial year.

Property income continues to grow year-on-year with current earnings being generated predominately from interest income earned on the loan portfolio. The following table provides an indication of the growth in operating income for the financial year:

	<b>2018</b>	<b>2017</b>
<b>Revenue</b>	<b>\$</b>	<b>\$</b>
Property	5,198,487	3,593,992
Private equity and listed investments	-	2,343,889
Bank interest	192,967	117,258
<b>Total</b>	<b>5,391,454</b>	<b>6,055,139</b>

Although earnings during the financial year was 7.9 cents per share, compared to 15.9 cents per share in 2017, the 2017 results included the once off sale of Green's Foods Holdings Pty Limited and the remaining listed investment portfolio, which provided an earnings per share contribution of 10.2 cents per share to the 2017 profit.

During the year, the Company completed a capital raising of \$16.6 million at \$1.05 per share. The capital raising has allowed the Company to continue to grow its property investment portfolio. The proceeds of this initiative have now been fully deployed / committed to investments which is anticipated to deliver increased earnings.

Net tangible assets as at 30 June 2018 were \$1.04 per share and during the year shareholders have been paid fully franked dividends of 7.5 cents per share. Since listing on the ASX in February 2017 at \$1.06, the Company has generated total shareholder returns of 9.2% as at 30 June 2018 not accounting for the benefit of franking credits paid to investors in that period.

## NTA & ACCUMULATED DIVIDENDS SINCE ASX LISTING

1. Calculated using subscription price at listing, dividends paid and closing price at 30 June 2018 and latest dividend
2. Pre-tax results have been adjusted for the 30% tax rate paid by Eildon Capital Limited

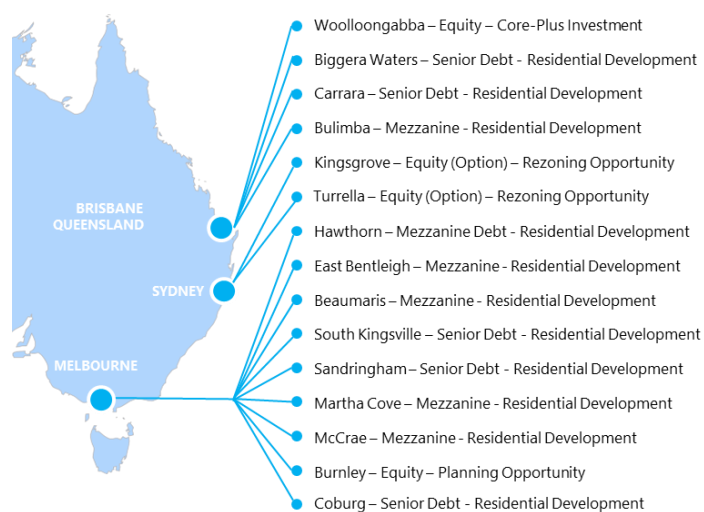

## INVESTMENT PORTFOLIO

At the end of the financial year Eildon Capital held an investment portfolio valued at \$38.8 million. During the year the portfolio generated income of \$5.3 million, delivered mainly through interest earned on loan facilities.

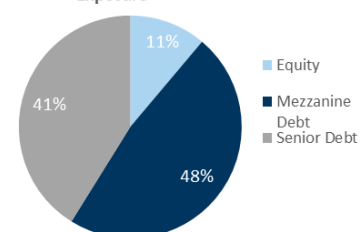

The investment portfolio is weighted toward debt investments (11 in total) to provide capital protection should property markets weaken and values stagnate or decrease. Some strategic equity investments (4 in total) are held where there is potential to see meaningful capital growth through either asset repositioning, market re-rating or planning outcomes.

The portfolio also has strong geographic distribution with investments in Queensland, Victoria and New South Wales.

## **OUTLOOK**

The directors remain focused on generating recurrent income streams and capital appreciation through investment in the property sector. This will be achieved through growing the investment book through a 'best fit' combination of:

- Loans
- Longer term core plus style assets
- Option exposures
- Equity partnerships

A key to being able to deliver performance is a commitment to remain a capital partner of choice. To do this the Company needs to:

- Provide clear and timely feedback to funding requests
- Be flexible in its ability to structure transactions
- Reduce turnaround time for approval, documentation and funding

Eildon Capital Limited will remain prudent and conservative in the way transactions are assessed and will continue to mitigate risk through the diligence and ongoing management phases of an investment.

Deal flow into the Company is particularly strong and it is likely that transaction volumes which are undertaken will increase. It is forecast that the current portfolio weighting toward debt will likely continue given the market opportunity for involvement in this segment of the property capital structure.

Targeted portfolio returns from investment remains at 14% per annum which will be achieved through a blend of qualifying transactions across asset classes, geographies and risk positions.

## **CAPITAL MANAGEMENT**

Having raised capital during the financial year it has been important to carefully select appropriate investments that these funds can be deployed / committed toward. At the start of August 2018, the Company was fully deployed / committed. Prior investments are starting to roll off and these funds will be redeployed into qualifying investments as this occurs.

Eildon Capital Limited will continue to explore efficient financing structures to improve returns and performance for shareholders to optimise the investment opportunity that exists in the current market.

The Directors paid a final dividend of 1.925 cents per share fully franked on 24 July 2018. It is expected that Eildon Capital will continue to pay fully franked quarterly dividends at this level. The anticipated dividend payment calendar for the next 12 months is as follows:

Quarter	Anticipated Payment Date
September, 2018	24 October, 2018
December, 2018	24 January, 2019
March, 2019	24 April, 2019

## Notes to the Financial Statements For the Year Ended 30 June 2018

---

### Note 1: Statement of Accounting Policies

The significant policies which have been adopted in the preparation of this financial report are:

#### a) Basis of Preparation

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001* and Australian Accounting Standards. The financial report has been prepared on a historical cost basis, except for “available-for-sale” investments which have been measured at fair value.

The financial report is presented in Australian dollars.

Management is required to make judgements, estimates and assumptions in relation to the carrying value of assets and liabilities, that have significant risk of material adjustments in the next year and these have been disclosed in the relevant notes to the financial statements.

#### b) Statement of Compliance

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). The financial report also complies with International Financial Reporting Standards (IFRS).

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year commencing 1 July that have a material impact on the Company.

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2018 reporting period:

##### (i) *AASB 9 Financial Instruments*

*AASB 9 Financial Instruments* was released in December 2014 and is mandatory for periods beginning on or after 1 January 2018. The Standard addresses the classification, measurement and derecognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets.

The Company has yet to undertake a detailed assessment of the classification and measurement of financial assets. The financial assets held by the group include loans and receivables currently measured at amortised cost using the effective interest rate method which would likely continue to be measured on the same basis under the standard.

Accordingly the Company does not expect the new guidance to have a significant impact on the classification and measurement of its financial assets.

The new impairment model requires the recognition of impairment provisions based on expected credit losses rather than only incurred credit losses as is the case under AASB 139. While the Company has not yet undertaken a detailed assessment of how its impairment provisions would be affected by the new model, it may result in an earlier recognition of credit losses.

The new standard also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extent of the Company's disclosures about its financial instruments particularly in the year of the adoption of the new standard.

##### (ii) *AASB 15 Revenue from contracts with customers*

*AASB 15 Revenue from contracts with customers* was released in October 2015 and is mandatory for periods beginning on or after 1 January 2018. The standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer – so the notion of control replaces the existing notion of risks and rewards. The Company does not expect the new standard to have any material impact on the timing of recognition of its revenues in the initial period of application.

### For the Year Ended 30 June 2018

---

#### **Note 1: Statement of Accounting Policies (Cont.)**

##### **c) Cash and Cash Equivalents**

For the statement of cash flows, cash includes cash on hand and short-term deposits with an original maturity of three months or less.

##### **d) Revenue Recognition**

###### ***Interest Income***

Revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount as at the end of the financial year.

###### ***Fee Income***

Fees and commissions that relate to the execution of a significant act (for example, advisory or arrangement services, placement fees and underwriting fees) are recognised when the significant act has been completed.

Fees charged for providing ongoing services (for example, managing and administering existing facilities and funds) are recognised as income over the service period.

###### ***Other Income***

Revenue is recognised when the Company's right to receive payment is established.

##### **e) Trade and Other Payables**

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Company prior to the end of the financial year that are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

##### **f) Trade and Other Receivables**

Trade and other receivables, which generally have 30 day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, with any difference between cost and recoverable value being recognised in net income over the period on an effective interest basis.

An allowance for doubtful debts is made when there is objective evidence that the Company will not be able to collect the debts. Bad debts are written off when identified.

### **Note 1: Statement of Accounting Policies (Cont.)**

#### **g) Investments and Other Financial Assets**

Financial assets are classified as either financial assets at fair value through profit or loss, loans and receivables, "held-to-maturity" investments, or "available-for-sale" investments. The classification depends on the purpose for which the investments were acquired. When financial assets are recognised initially, they are measured at fair value, plus, in case of investments not at fair value through profit or loss, transaction costs. The Company determines the classification of its financial assets at initial recognition and re-evaluates this designation at each financial year-end.

The purchase and sale of financial assets are recognised on the trade date i.e. the date that the Company commits to purchase the asset.

The Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of investments classified as "available-for-sale", a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for "available-for-sale" financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the statement of profit or loss and other comprehensive income – is removed from equity and recognised in the statement of profit or loss and other comprehensive income. Impairment losses recognised in the statement of profit or loss and other comprehensive income on equity instruments classified as "available-for-sale" are not reversed through the statement of profit or loss and other comprehensive income.

#### **Associates**

Associates are those entities, other than partnerships, over which the Company exercises significant influence but not control. The Company generally deems it has significant influence if it has over 20% of the voting rights, but no more than 50%.

Investments in associates are carried in the statement of financial position at cost plus post-acquisition changes in the Company's share of net assets in the associates. Following initial recognition the Company assesses whether it is necessary to recognise any impairment loss with respect to the investment in the associate.

The Company's equity accounted share of the associates' post-acquisition profits or losses is recognised in the statement of profit or loss and other comprehensive income, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment.

When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured long-term receivables and loans, the Company does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

#### **Loans and Receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in the statement of profit or loss and other comprehensive income when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

#### **At fair value through profit or loss**

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. After initial recognition "at fair value through profit or loss" assets are measured at fair value with gains or losses being recognised in the statement of profit or loss and other comprehensive income.

The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the reporting date.

### Note 1: Statement of Accounting Policies (Cont.)

#### h) Income Tax and Other Taxes

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities on the current period's taxable income at the tax rates enacted by the reporting date. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profits will be available against which deductible temporary differences and the carry-forward of unused tax credits and tax losses can be utilised. Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Income taxes relating to items recognised directly in equity are recognised in equity and not in comprehensive income.

#### Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of Goods and Services Tax (GST), except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities which are recoverable from, or payable to, the taxation authority are classified as operating cash flows.

#### i) Contributed Equity

Issued capital is recognised at the fair value of the consideration received by the Company. Incremental costs directly attributable to the issue or cancellation of shares are shown in equity as a deduction, net of tax, from proceeds.

#### j) Segment Reporting

A business segment is a distinguishable component of the entity that is engaged in providing differentiated products or services.

##### k) Impairment

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Non-financial assets that suffered an impairment are tested for possible reversal of the impairment whenever events or changes in circumstances indicate that the impairment may have reversed.

##### l) Share-based Payments

The Company provides benefits to employees (including senior executives) of the Company in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted, and amortised over the term of the plan.

##### m) Profit distribution reserve

Profits transferred to the profit distribution reserve are segregated to facilitate potential future dividend payments that may be declared by the directors.

- (a) franking credits that will arise from the payment of the amount of the provision for income tax;
- (b) franking debits that will arise from the refund of overpaid tax instalments paid;
- (c) franking debits that will arise from the payment of dividends recognised as a liability at year end;
- (d) franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date; and
- (e) franking credits that the entity may be prevented from distributing in subsequent years.

The ability to utilise the franking credits is dependent upon there being sufficient available equity to declare dividends.

#### Note 15: Financial Instruments

The Company's activities expose it to a variety of financial risks: market risk (including market price risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on financial performance.

The Company uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and price risk.

The responsibility for operational risk management resides with the Board of Directors who seeks to manage the exposure of the Company. There have been no significant changes in the types of financial risks or the Company's risk management program (including methods used to measure the risks) since the prior year.

#### (a) Interest Rate Risk

The Company's exposure to interest rate risks and the effective interest rates of financial assets and liabilities both recognised and unrecognised at the reporting date are as follows:

	Note	Floating interest rate \$	Fixed interest rate 1 year or less \$	1 to 5 years \$	Non- interest bearing \$	Total \$

		<u>-</u>	<u>-</u>	<u>-</u>	<u>576,471</u>	<u>576,471</u>

The Company holds a significant amount of cash balances which are exposed to movements in interest rates. To reduce the risk the Company typically deposits uncommitted cash with financial institutions at fixed rates with maturity of between 30 – 90 days. Interest bearing loans and receivables are made at a mix of fixed and floating rates.

#### Note 15: Financial Instruments (Cont.)

##### (a) Interest Rate Risk (Cont.)

###### *Sensitivity*

As the Company expects interest rates to increase by 50 basis points during the 2019 financial year (2018: increase by 50 basis points), at reporting date the impact for the 2018 financial year on the Company, with all other variables held constant, would be:

	Increase of 50 bp \$
<b>2018</b>	
Net profit	38,098
Equity increase	(38,098)
<b>2017</b>	
Net profit	35,275
Equity increase	35,275

##### (b) Credit Risk Exposure

Credit risk refers to the loss that the Company would incur if a debtor or counterparty fails to perform under its obligations. The carrying amounts of financial assets recognised in the statement of financial position best represent the Company's maximum exposure to credit risk at reporting date. The Company seeks to limit its exposure to credit risk by performing appropriate background investigations on counterparties before entering into arrangements with them and seek collateral with a value in excess of the counterparty's obligations to the Company, providing a "margin of safety" against loss.

The Company minimises concentrations of credit risk in relation to trade receivables by undertaking transactions with a number of counterparties, and is managed through normal payment terms of 30 days. At reporting date there are no overdue trade debtors.

#### (d) Fair Value of Financial Assets and Liabilities

The fair values of the financial assets and liabilities of the Company are approximately equal to their carrying values. No financial assets or financial liabilities are readily traded on organised markets in standardised form.

Judgements and estimates were made in determining the fair values of the financial instruments and non-financial assets that are recognised and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments and non-financial assets into three levels prescribed under the accounting standards.

Level 1 – the fair value is calculated using quoted prices in active markets.

Level 2 – the fair value is estimated using inputs other than quoted prices included in Level 1 that are observable for the asset, either directly (as prices) or indirectly (derived from prices).

Level 3 – the fair value is estimated using inputs for the asset that are not based on observable market data.

The fair value of the financial instruments as well as the methods used to estimate the fair value are summarised in the table below.

**INDEPENDENT AUDITOR'S REPORT**

To the Members of Eildon Capital Limited

**REPORT ON THE AUDIT OF THE FINANCIAL REPORT**

**Opinion**

We have audited the financial report of Eildon Capital Limited ("the Company") which comprises the statement of financial position as at 30 June 2018, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a statement of accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Company's financial position as at 30 June 2018 and of its financial performance for the year then ended; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

**Basis for Opinion**

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**EILDON CAPITAL LIMITED  
ACN 059 092 198**

**INDEPENDENT AUDITOR'S REPORT (Continued)**

**Key Audit Matters (continued)**

<b>Key Audit Matter</b>	<b>How our audit addressed the key audit matter</b>
<b>Existence and Valuation of Loans Receivable (Note 8)</b>	
The Company had a significant balance of loans receivable as at 30 June 2018.	We reviewed loan agreements and other supporting documentation.
A large portion of the loans have been provided to property developers with properties provided as security for the loans.	We obtained client workings and assessed reasonableness of recoverability assessment, including where relevant, the prospect of recovering the loan within the next 12 months.
We have therefore identified loans receivable as an area requiring particular audit attention.	We reviewed security of loan and assessed for reasonableness.
	We obtained current external valuations, where available, and assessed the competence, independence and integrity of the external expert appointed by management.
	We obtained loan confirmation from third parties.
	We considered the classification of the loan balance to ensure it was reasonable.

**Information Other than the Financial Report and Auditor's Report Thereon**

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2018, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Directors for the Financial Report**

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

**EILDON CAPITAL LIMITED  
ACN 059 092 198**

**INDEPENDENT AUDITOR'S REPORT (Continued)**

**Auditor's Responsibilities for the Audit of the Financial Report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**REPORT ON THE REMUNERATION REPORT**

**Opinion on the Remuneration Report**

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2018.

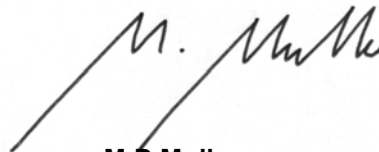

In our opinion, the Remuneration Report of Eildon Capital Limited for the year ended 30 June 2018 complies with section 300A of the *Corporations Act 2001*.

**Responsibilities**

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*.
