Flood situation in Qingzhou

From August 18, 2018 to August 20, 2018, due to the impact of Typhoon "Rumbia", torrential rain fell in Qingzhou, and the rainfall reached 285 mm in Gaoliu Town where Jiajiafu's eco-park is located. Although the vegetable crops planted in our greenhouses are largely unaffected, the main structure of the greenhouses is damaged to varying degrees, which needs to be repaired. Jiajiafu estimates that the cost of carrying out the required repairs will be approximately \$3 million.

Further updates will be provided to ASX if required in accordance with our ASX Listing Rule 3.1 obligations.

For and on behalf of the Board

Zhiguo Li
Company Secretary
