ASX ANNOUNCEMENT (ASX: LCK)

China Communications Construction Company Ltd

- **China Communications Construction Company Ltd (CCCC) to visit Leigh Creek Energy Pre-Commercial Demonstration stage (PCD)**
- **View PCD in operation**
- **Initiate collaboration discussions on the Leigh Creek Energy Project (LCEP)**

Leigh Creek Energy Limited (ASX: LCK) (“LCK” or “the Company”) is pleased to announce that as a result of LCK obtaining all regulatory approvals for the PCD, representatives of CCCC will be attending the site during the PCD to inspect the site. CCCC have indicated to LCK that they wish to enhance our relationship by collaborating and entering into a formal Heads of Agreement on the later commercial project at Leigh Creek.

“As a direct result of LCK obtaining all regulatory approvals required to operate the PCD, LCK is privileged and excited by the opportunity to host senior CCCC representatives in South Australia and at Leigh Creek after initial meetings in Beijing. To have such an internationally renowned company in Adelaide is a great opportunity for LCK and the State to showcase the project. It shows how significant world players are as excited as we are in developing this project. We look forward to hosting CCCC when we are producing gas at Leigh Creek.”

- Mr Justyn Peters (Executive Chairman)

CCCC Company background information

CCCC is a publicly-traded, multinational engineering and construction company. Through its subsidiaries, CCCC has full Engineering, Procurement & Contracting (EPC) capabilities and actively pursues projects globally. CCCC has revenue of over USD\$70 Billion with over 118,000 employees. In 2006, the company listed its shares on the Hong Kong Stock Exchange, followed by a listing on the Shanghai Stock Exchange in 2012. The company now holds many subsidiaries, among them the John Holland Group, which is an Australia-based construction company focused on infrastructure.

CCCC is Asia’s largest international contractor and is:

- The world’s largest port design and construction company;
- Has independently designed and constructed seven of the world’s ten largest ports in terms of throughput;
- The world’s largest offshore oil drilling platform design company;
- CCCC has full EPC capabilities and actively pursues projects overseas; and
- Ranked as the largest Chinese enterprise in terms over revenue from overseas projects.

CCCC is a state-owned enterprise in China, and is the beneficial owner of CCCC, holding 63.8% of the company's shares. Other shareholders include multiple affiliates of (or funds managed by) Merrill Lynch, BlackRock and JPMorgan Chase.

About Leigh Creek Energy

Leigh Creek Energy Limited (LCK) is an emerging energy company focused on developing its Leigh Creek Energy Project (LCEP), located in South Australia. The LCEP will produce high value products such as electricity, methane (synthetic natural gas) and ammonium nitrate products (fertiliser and industrial explosives) from the remnant coal resources at Leigh Creek, utilising In Situ Gasification (ISG) technologies, and will provide long term stability and economic development opportunities to the communities of the Upper Spencer Gulf, northern Flinders Ranges and South Australia.

The Company is committed to developing the LCEP using a best practice approach to mitigate the technical, environmental and financial project risks.

LCK acknowledges and respects the Adnyamathanha people, the Traditional Owners of the land on which its operations occur and pays its respects to their Elders past and present.
