Directors' report

The directors of BetaShares Capital Ltd, the Responsible Entity of the following managed investment funds (the "Funds") present their report together with the annual financial report of the Funds for the year ended 30 June 2018 and the auditor's report thereon.

Fund name	Referred to in this document as	Financial reporting period	ARSN
BetaShares Australian Equities Bear Hedge Fund	Australian Equities Bear Hedge Fund	1 July 2017 to 30 June 2018	143 219 774
BetaShares Australian Equities Strong Bear Hedge Fund	Australian Equities Strong Bear Hedge Fund	1 July 2017 to 30 June 2018	602 666 839
BetaShares Strong Australian Dollar Fund	Strong Australian Dollar Fund	1 July 2017 to 30 June 2018	608 057 352
BetaShares Strong U.S. Dollar Fund	Strong U.S. Dollar Fund	1 July 2017 to 30 June 2018	602 665 252

Responsible Entity

The Responsible Entity of the Funds is BetaShares Capital Ltd (ABN 78 139 566 868). The Responsible Entity's registered office and principal place of business is Level 11, 50 Margaret Street, Sydney, NSW 2000.

Principal activities

The principal activity of each Fund is to invest in accordance with the investment objective and guidelines as set out in the Fund's current Product Disclosure Statement and its Constitution.

The Funds did not have any employees during the year.

There were no significant changes in the nature of the Funds' activities during the year.

Directors

The following persons held office as directors of BetaShares Capital Ltd during the year or since the end of the year and up to the date of this report:

David Nathanson (appointed 21 September 2009)
 Alex Vynokur (appointed 21 September 2009)
 Taeyong Lee (appointed 12 August 2015, resigned 31 August 2018)
 Thomas Park (appointed 12 August 2015)
 Jungho Rhee (appointed 1 September 2018)

Directors' report (continued)

Review and results of operations

During the year, the Funds continued to invest in accordance with target asset allocations as set out in their governing documents and in accordance with the provisions of the Funds' Constitutions.

The results of operations of the Funds are disclosed in the statements of comprehensive income. The income distributions payable by each of the Funds are disclosed in the statements of financial position. The income distributions paid and payable by each of the Funds are disclosed in Note 4 to the financial statements.

Significant changes in state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Funds that occurred during the financial year.

Matters subsequent to the end of the financial year

The Responsible Entity has elected into the Attribution Managed Investment Trust (AMIT) regime for the Funds for the year ending 30 June 2019 and subsequent years. Under the AMIT regime the units in the Funds will be reclassified from financial liability to equity from 1 July 2018.

No other matter or circumstance has arisen since 30 June 2018 that has significantly affected, or may significantly affect:

- (i) the operations of the Funds in future financial years; or
- (ii) the results of those operations in future financial years; or
- (iii) the state of affairs of the Funds in future financial years.

Likely developments and expected results of operations

The results of the Funds' operations will be affected by a number of factors, including the performance of investment markets in which the Funds invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Further information on likely developments in the operation of the Funds and the expected results of those operations have not been included in this report because the Responsible Entity believes it would be likely to result in unreasonable prejudice to the Funds.

Indemnification and insurance of officers and auditors

No insurance premiums are paid for out of the assets of the Funds in regard to insurance cover provided to either the officers of BetaShares Capital Ltd or the auditor of the Funds. So long as the officers of BetaShares Capital Ltd act in accordance with the Funds' Constitutions and the law, the officers remain indemnified out of the assets of the Funds against losses incurred while acting on behalf of the Funds. The auditor of the Funds is in no way indemnified out of the assets of the Funds.

Directors' report (continued)

Fees paid to and interests held in the Funds by the Responsible Entity or its associates

Fees paid to the Responsible Entity and its associates out of the Funds' property during the year are disclosed in Note 13 to the financial statements.

No fees were paid out of the Funds' property to the directors of the Responsible Entity during the year.

The number of interests in the Funds held by the Responsible Entity or its associates as at the end of the financial year are disclosed in Note 13 to the financial statements.

Interests in the Funds

The movement in units on issue in the Funds during the year is disclosed in Note 3 to the financial statements.

The value of the Funds' assets and liabilities is disclosed on the statements of financial position and derived using the basis set out in Note 2 to the financial statements.

Environmental regulation

The operations of the Funds are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Rounding of amounts to the nearest thousand dollars

The Funds are entities of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that instrument, amounts in the financial report and directors' report have been rounded off to the nearest thousand dollars, unless otherwise stated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page-5.

This report is made in accordance with a resolution of the directors.

17 September 2018

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of BetaShares Capital Ltd, as Responsible Entity for the Schemes:

BetaShares Australian Equities Bear Hedge Fund

BetaShares Australian Equities Strong Bear Hedge Fund

BetaShares Strong Australian Dollar Fund

BetaShares Strong U.S. Dollar Fund

I declare that, to the best of my knowledge and belief, in relation to the audit of the Schemes for the financial year ended 30 June 2018 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

1 General information

These financial statements cover the following managed investment funds ("the Funds"). The Funds are registered managed investment schemes under the *Corporations Act 2001*. The Responsible Entity cannot issue or redeem any units from the 80th anniversary of the day before the day the Funds commenced if that issue or redemption would cause a contravention of the rule against perpetuities or any other rule of law or equity. The Funds may be terminated in accordance with the provisions of their Constitutions. The Funds are domiciled in Australia.

Abbreviated Fund name	Registered date	Commenced date	Financial reporting period
Australian Equities Bear Hedge Fund	19 April 2010	6 July 2012	1 July 2017 to 30 June 2018
Australian Equities Strong Bear Hedge Fund	10 November 2014	17 April 2015	1 July 2017 to 30 June 2018
Strong Australian Dollar Fund	11 September 2015	28 November 2016	1 July 2017 to 30 June 2018
Strong U.S. Dollar Fund	10 November 2014	28 November 2016	1 July 2017 to 30 June 2018

The Responsible Entity of the Funds is BetaShares Capital Ltd (the "Responsible Entity"). The Responsible Entity's registered office is Level 11, 50 Margaret Street, Sydney, NSW 2000.

The financial statements were authorised for issue by the directors of the Responsible Entity on 17 September 2018. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

The financial statements is presented in Australian dollars, which is the Funds' functional currency.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") and the *Corporations Act 2001* in Australia.

The Funds operated solely in one segment which is the business of investment management within Australia.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The statements of financial position are presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets and liabilities at fair value through profit or loss and net assets attributable to unitholders.

Compliance with *International Financial Reporting Standards*

The financial statements of the Funds also comply with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

Use of estimates and judgement

The Funds make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Funds' financial instruments, quoted market prices are readily available. However, certain financial instruments are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and regularly reviewed by experienced personnel of the Responsible Entity, independent of the area that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

For certain other financial instruments, including amounts due from/to brokers and payables, the carrying amounts approximate fair value due to the short-term nature of these financial instruments.

Investment entity exception

The Funds meet the definition of an investment entity and therefore apply the investment entity amendments to AASB 10 *Consolidated Financial Statements* ("AASB 10"), AASB 12 *Disclosure of Interests in Other Entities* and AASB 127 *Separate Financial Statements*. AASB 10 is applicable to all investees; among other things, it requires the consolidation of an investee if the Funds control the investee on the basis of de facto circumstances. An exception however exists where an entity meets the definition of an investment entity.

The Funds meet the definition of investment entity due to the following factors:

- (a) the Funds obtain funds from one or more unitholders for the purpose of providing the unitholders with investment management services;
- (b) the Funds commit to their unitholders that their business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- (c) the Funds measure and evaluate the performance of substantially all of their investments on a fair value basis.

In making the above assessments, the Funds have multiple investments and multiple investors. Their investors are generally unrelated parties of the Funds. Although all units attributable to unitholders are recognized as debt rather than equity, unitholders invest for returns from capital appreciation, investment income, or both. Directors of the Responsible Entity have concluded that the Funds meet the definition of investment entity.

Assessment of the Funds' investments as structured entities

The Funds have assessed whether the securities in which they invest are structured entities. The Funds have considered the voting rights and other similar rights afforded to investors in these funds, including the rights to remove the fund manager or redeem holdings. The Funds have assessed whether these rights are the dominant factor in controlling the funds, or whether the contractual agreement with the fund manager is the dominant factor in controlling these funds. The Funds have concluded that the managed investment funds in which they invest are not structured entities.

(b) Changes in accounting policy and transition

There were no changes in the accounting policies of the Funds during the financial year.

2 Summary of significant accounting policies (continued)

(c) New accounting standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2018 reporting periods and have not been early adopted by the Funds. The directors' assessment of the impact of these new standards (to the extent relevant to the Funds) and interpretations is set out below:

(i) AASB 9 *Financial instruments* (and applicable amendments), (applicable from 1 July 2018)

AASB 9 *Financial Instruments* was available for early adoption but has not been applied in these financial statements. AASB 9 replaces existing guidance on classification and measurements of financial assets and introduces additions relating to the classification and measurement of financial liabilities as part of the project to replace AASB 139: *Financial Instruments*. It has also introduced new hedge accounting requirements and revised certain requirements of financial assets. AASB 9 becomes mandatory for the Fund's 30 June 2019 financial statements. Retrospective application of the standard is required.

The directors of the Responsible Entity have made an assessment and determined that the standard will not have a significant impact on the recognition and measurement of the Fund's financial instruments as they are held at fair value through profit and loss. The de-recognition rules have not been changed from previous requirements and the Funds do not apply hedge accounting.

(ii) AASB 15 *Revenue from Contracts with Customers*, (applicable from 1 July 2018)

The AASB has issued a new standard for the recognition of revenue. This will replace AASB 118 which covers contracts for goods and services and AASB 111 which covers construction contracts. The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer – so the notion of control replaces the existing notion of risks and rewards. The Funds' main sources of income are interest, distributions and dividends and gains on financial instruments held at fair value. All of these are outside the scope of the new revenue standard. As a consequence, management has assessed the impact and determined that adoption of the new revenue recognition rules will not have a significant impact on the Funds' accounting policies or the amounts recognised in the financial statements.

There are no other standards that are not yet effective and that are expected to have a material impact on the Funds in the current or future reporting periods and on foreseeable future transactions.

(d) Financial instruments

(i) Classification

The Funds' financial instruments are classified as financial assets or financial liabilities, and are recognised at fair value through profit or loss. They comprise:

- Financial instruments held for trading

Derivative financial instruments such as index futures and currency futures are included under this classification. The Funds do not designate any derivatives as hedges in a hedging relationship.

- Financial instruments designated at fair value through profit or loss upon initial recognition

These include financial assets and financial liabilities that are classified as not held for trading purposes and which may be sold.

2 Summary of significant accounting policies (continued)

(d) Financial instruments (continued)

(i) Classification (continued)

Financial assets designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Funds' documented investment strategies. The Funds' policy is for the Responsible Entity to evaluate the information about these financial instruments on a fair value basis together with other related financial information.

(ii) Recognition/derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or the Funds have transferred substantially all risks and rewards of ownership.

(iii) Measurement

- Financial assets and liabilities held at fair value through profit or loss

At initial recognition, the Funds measure a financial asset at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statements of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the statements of comprehensive income within net gains/(losses) on financial instruments held at fair value through profit or loss in the period in which they arise. This also includes dividend expense on short sales of securities, which have been classified at fair value through profit or loss.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

- Fair value in an active market

The fair value of financial assets and liabilities traded in active markets is subsequently based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs. The quoted market price used for financial assets and liabilities is the bid price.

- Fair value in an inactive or unquoted market

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. The Funds use a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques used include the use of comparable recent arms length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models or any other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

2 Summary of significant accounting policies (continued)

(d) Financial instruments (continued)

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(e) Net assets attributable to unitholders

Units are redeemable by eligible unitholders at the unitholders' option and are accordingly therefore classified as financial liabilities. The units can be put back to the Fund at any time (subject to the *Corporations Act 2001* and the Funds' Constitutions) for cash based on the redemption price. The fair value of redeemable units is measured at the redemption amount that is payable (based on the redemption unit price) at the end of the reporting period if unitholders exercised their right to redeem units in the Fund.

(f) Cash and cash equivalents

For the purpose of presentation in the statements of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. The carrying amount of cash approximates fair value.

(g) Investment income

Interest income is recognised in the statements of comprehensive income for all financial instruments that are not held at fair value through profit or loss using the effective interest method. Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 2(d).

Trust distributions are recognised on an entitlements basis.

2 Summary of significant accounting policies (continued)

(h) Expenses

All expenses are recognised in the statements of comprehensive income on an accruals basis.

(i) Income tax

The Funds are not subject to income tax as unitholders are presently entitled to the taxable income (including assessable realised capital gains) of the Funds.

(j) Distributions

In accordance with the Funds' Constitutions, the Funds distribute income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestment.

The distributions are recognised in the statements of comprehensive income as finance costs attributable to unitholders.

(k) Change in net assets attributable to unitholders

Income not distributed is included in net assets attributable to unitholders. Movements in net assets attributable to unitholders are recognised in the statements of comprehensive income.

(l) Foreign currency translation

(i) Functional and presentation currency

Items included in the Funds' financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Funds compete for funds and is regulated. The Australian dollar is also the Funds' presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statements of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in the statements of comprehensive income on a net basis within net gains/(losses) on financial instruments held at fair value through profit or loss.

(m) Due from/to brokers

Amounts due from/to brokers (if applicable) represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. Trades are recorded on trade date, and for exchange traded derivatives normally settled on the next business day. A provision for impairment of amounts due from brokers is established when there is objective evidence that the Funds will not be able to collect all amounts due from the relevant broker. Indicators that the amount due from brokers is impaired include significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation and default in payments.

2 Summary of significant accounting policies (continued)

(n) Receivables

Receivables may include amounts for dividends, interest and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment in accordance with the policy set out in Note 2(g) above. Amounts are generally received within 30 days of being recorded as receivables. The carrying amount of receivables approximates fair value.

(o) Payables

Payables include liabilities and accrued expenses owing by the Funds which are unpaid as at the end of the reporting period.

The distribution amount payable to unitholders as at the end of each reporting period is recognised separately in the statements of financial position when unitholders are presently entitled to the distributable income.

(p) Applications and redemptions

Applications received for units in the Funds are recorded net of any entry fees payable (if applicable) prior to the issue of units in the Funds. Redemptions from the Funds are recorded gross of any exit fees payable (if applicable) after the cancellation of units redeemed.

(q) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Funds by third parties such as custodial services and investment management fees have been passed onto the Funds. The Funds qualify for Reduced Input Tax Credits (RITC) at a rate of 55% to 85%; hence investment management fees, custodial fees and other expenses have been recognised in the statements of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statements of financial position. Cash flows relating to GST are included in the statements of cash flows on a gross basis.

(r) Rounding of amounts

The Funds are an entity of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded off to the nearest thousand dollars, unless otherwise indicated.

3 Net assets attributable to unitholders

As stipulated within the Constitution of each Fund, each unit represents a right to an individual share in the relevant Fund and does not extend to a right to the underlying assets of the Fund. There are no separate classes of units and each unit of a Fund has the same rights attaching to it as all other units of the Fund (subject to applicable ASIC relief).

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

	Australian Equities Bear Hedge Fund			Australian Equities Strong Bear Hedge Fund		
	30 June 2018	30 June 2017	30 June 2018	30 June 2017	30 June 2018	30 June 2017

Closing balance	300,000	200,000	4,188,160	800	11,397	8,323

Capital risk management

The Funds consider their net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Funds are subject to daily applications and redemptions at the discretion of eligible unitholders.

Daily applications and redemptions are reviewed relative to the liquidity of the Funds' underlying assets on a daily basis by the Responsible Entity. Under the terms of the Funds' Constitutions, the Responsible Entity has the discretion to reject an application for units and to extend the period allowed for satisfaction of redemption of units or reject or spread redemptions in specified circumstances.

¹ Rounded to the nearest whole dollar/unit as the Fund does not meet the criteria set out in ASIC Instrument 2016/191 to round to the nearest thousand dollars.

4 Distributions to unitholders

The distributions for the year were as follows:

	Australian Equities Bear Hedge Fund			Australian Equities Strong Bear Hedge Fund		
	30 June 2018 \$'000	30 June 2017 CPU	30 June 2018 CPU	30 June 2017 CPU	30 June 2018 CPU	30 June 2017 CPU

8 Financial risk management

The Funds are managed funds that primarily invest their assets into cash and cash equivalents, listed securities, as well as exchange traded derivative instruments.

The Funds' activities expose them to a variety of financial risks which may include: market risk (including price risk, foreign exchange risk and interest rate risk), counterparty/credit risk and liquidity risk. The Funds use different methods to measure different types of risk to which they are exposed. Methods include sensitivity analysis in the case of price risk.

The Funds' overall risk management programs focus on ensuring compliance with the Funds' Product Disclosure Statements (PDSs) and seek to maximise the returns derived for the level of risk to which the Funds are exposed. Financial risk management is carried out by an investment manager under policies approved by the Board of Directors of the Responsible Entity (the Board).

The Board of Directors of the Responsible Entity has overall responsibility for the establishment and oversight of the Funds' risk management framework. The Funds' overall risk management programs focus on ensuring compliance with the Funds' PDSs and investment guidelines.

Compliance with the Funds' PDSs, Constitutions and investment guidelines are reported to the Board on a regular basis.

¹ Rounded to the nearest whole dollar as the Fund does not meet the criteria set out in ASIC Instrument 2016/191 to round to the nearest thousand dollars.

8 Financial risk management (continued)

(a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity market prices will affect the Funds' income or the carrying value of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

(i) Price risk

The Funds are exposed to securities and derivatives price risk. This arises from investments held by the Funds for which prices in the future are uncertain. Securities and derivatives are classified in the statements of financial position as at fair value through profit or loss. All securities investments present a risk of loss of capital.

Australian Equities Bear Hedge Fund and Australian Equities Strong Bear Hedge Fund

The Funds use exchange-traded derivatives with the objective of generating returns that are negatively correlated to the returns of the Australian share market (as measured by the S&P/ASX 200 Accumulation Index, which consists of a portfolio of equity securities). Therefore, price risk relates to the underlying securities that comprise this Index.

Sensitivity analysis - price risk

A 10% movement at the report date of the market prices attributable to financial assets or financial liabilities by the relevant Funds would have the following impact on the Funds' operating profit/(loss) and net assets attributable to unitholders. The calculations include the impact of any derivatives that may be held by a Fund. It is assumed that the relevant change occurs at the balance date.

	Australian Equities Bear Hedge Fund		Australian Equities Strong Bear Hedge Fund		Strong Australian Dollar Fund		Strong U.S. Dollar Fund	
	30 June 2018	30 June 2017	30 June 2018	30 June 2017	30 June 2018	30 June 2017	30 June 2018	30 June 2017
	\$'000	\$'000	\$'000	\$'000	\$ ¹	\$ ¹	\$'000	\$'000
+10% Price movement - impact on the Fund's operating profit/(loss) and net assets attributable to unitholders	(5,087)	(5,946)	(20,826)	(23,090)	872,720	692,771	2,173	2,066
-10% Price movement - impact on the Fund's operating profit/(loss) and net assets attributable to unitholders	5,087	5,946	20,826	23,090	(1,066,674)	(689,395)	(2,656)	(2,082)

¹ Rounded to the nearest whole dollar as the Fund does not meet the criteria set out in ASIC Instrument 2016/191 to round to the nearest thousand dollars.

8 Financial risk management (continued)

(a) Market risk (continued)

(ii) Foreign exchange risk

The Australian Equities Bear Hedge Fund and Australian Equities Strong Bear Hedge Fund are not exposed to significant risks from movements in foreign exchange rates as there are no financial assets and liabilities denominated in foreign currencies.

The Strong Australian Dollar Fund and Strong U.S. Dollar Fund may hold both monetary and non-monetary assets denominated in currencies other than the Australian dollar. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk not foreign exchange risk. Foreign exchange risk arises as the value of monetary assets denominated in other currencies fluctuates due to changes in exchange rates. The risk is measured using sensitivity analysis.

The tables below summarises the Funds' assets and liabilities, monetary and non-monetary, that are denominated in a currency other than the Australian dollar.

	Strong Australian Dollar Fund		Strong U.S. Dollar Fund	
	30 June 2018	30 June 2017	30 June 2018	30 June 2017
USD	\$ ¹	\$ ¹	\$'000	\$'000
Net foreign currency exposure	13,075	155,455	(134)	(413)
	13,075	155,455	(134)	(413)

Sensitivity analysis - Foreign exchange risk

The following tables summarise the sensitivity of the Funds' operating profit/loss and net assets attributable to unitholders to foreign exchange risk.

	Strong Australian Dollar Fund		Strong U.S. Dollar Fund	
	30 June 2018	30 June 2017	30 June 2018	30 June 2017
Impact on Profit/(loss) from operating activities and net assets attributable to unitholders	\$ ¹	\$ ¹	\$'000	\$'000
10% AUD appreciation against foreign currency (2017: 10%)	(6,467)	(6,623)	13	15

10% AUD depreciation against foreign currency would have an equal, but opposite effect to the amounts shown in the table above.

¹ Rounded to the nearest whole dollar as the Fund does not meet the criteria set out in ASIC Instrument 2016/191 to round to the nearest thousand dollars.

8 Financial risk management (continued)

(a) Market risk (continued)

(iii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market rates. Interest rate risk is not considered to be significant to the Funds other than their cash holdings.

The Funds are exposed to interest rate risk on their cash holdings. Interest income from cash holdings is earned at variable interest rates. Investments in cash holdings are at call. Changes in interest rates may also impact on the valuation of certain assets that use interest rates as an input in their valuation model not reflected in the disclosure below. Therefore, the sensitivity analysis may not fully reflect the total effect of future movements in interest rates on net asset attributable to unitholders.

Sensitivity analysis - Interest rate risk

The table below summarises the sensitivities of the interest rate risk. The analysis is based on the assumption that interest rates increase or decrease by a "predetermined basis points" from the period end rates with all other variables held constant. The "predetermined basis points" are disclosed in the table below.

	Impact on net assets attributable to unitholders			
	Sensitivity rate	Strengthened 30 June 2018	Weakened 30 June 2018	Weakened 30 June 2017
Australian Equities Bear Hedge Fund (\$'000)	100bps	192	(192)	266
Australian Equities Strong Bear Hedge Fund(\$'000)	100bps	923	(923)	982
Strong Australian Dollar Fund (\$')	100bps	14,702	(14,702)	31,247
Strong U.S. Dollar Fund (\$'000)	100bps	113	(113)	86

¹ Rounded to the nearest whole dollar as the Fund does not meet the criteria set out in ASIC Instrument 2016/191 to round to the nearest thousand dollars.

8 Financial risk management (continued)

(b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Funds.

The main concentration of credit risk to which the Funds are exposed arises from the Funds' investment into cash and cash equivalents and trading exchange-traded derivative products.

(i) *Derivative financial instruments*

The Responsible Entity has established target asset allocation ranges for each Fund, including the proportion of the net asset value of each Fund comprised by exchange traded derivatives that are set out in the PDS. The counterparty of exchange traded derivative contracts entered into by the Funds is the relevant central clearing counterparty that operates in the relevant market.

(ii) *Cash and cash equivalents*

The exposure to credit risk for cash and cash equivalents is low as all counterparties have a rating of AA- or higher (as determined by Standard & Poor's or equivalent rating agency).

The custody of the Funds' assets is mainly concentrated with one counterparty, namely RBC Investor Services Trust. RBC Investor Services Trust is a member of a major securities exchange, and at 30 June 2018 had a credit rating of AA- (S&P) and A1 (Moody's). At 30 June 2018, substantially all cash and cash equivalents, balances due from brokers and investments are held in custody by RBC Investor Services Trust.

In accordance with the Funds' policy, the investment manager monitors the Fund's credit position on a regular basis.

(iii) *Other*

The Australian Equities Bear Hedge has an investment in BetaShares Australian High Interest Cash ETF, which itself holds cash and cash equivalent assets.

The Funds are not materially exposed to credit risks on other financial assets.

(c) Liquidity risk

Liquidity risk is the risk that the Funds will encounter difficulty in meeting obligations associated with financial liabilities.

The Funds are exposed to daily cash redemptions of redeemable units. They primarily hold investments that are traded in an active market and can be readily realisable as they are traded on the Australian Securities Exchange.

8 Financial risk management (continued)

(c) Liquidity risk (continued)

The tables below analyse the Funds' non-derivative and derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows.

9 Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the statements of financial position are disclosed in the first three columns of the tables below.

Australian Equities Bear Hedge Fund	Effects of offsetting on the statements of financial position			Related amounts not offset in the statements of financial position			Effects of offsetting on the statements of financial position			Related amounts not offset in the statements of financial position

10 Fair value measurements

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1); and
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (Level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

Fair value estimation

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in statements of comprehensive income.

(i) Fair value in an active market (Level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Funds value their investments in accordance with the accounting policies set out in Note 2. For the majority of their investments, the Funds rely on information provided by independent pricing services for the valuation of their investments.

The quoted market price used for financial assets held by the Funds is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. When the Funds hold derivatives with offsetting market risks, they use mid-market prices as a basis for establishing fair values for the offsetting risk positions and apply this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Index futures are measured by the quoted market prices, or binding dealer price quotations in the exchange of where they are listed or held.

(ii) Fair value in an inactive or unquoted market (Level 2 and Level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

10 Fair value measurements (continued)

Fair value estimation (continued)

(ii) *Fair value in an inactive or unquoted market (Level 2 and Level 3) (continued)*

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Funds for similar financial instruments.

(iii) *Recognised fair value measurements*

The tables below set out the Funds' financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy:

	Australian Equities Bear Hedge Fund

(iv) Transfers between levels

There were no transfers between levels during the year ended 30 June 2018 and 30 June 2017.

(v) Movement in level 3 instruments

There were no investments classified as Level 3 within the Funds as at 30 June 2018 and 30 June 2017.

(vi) Fair value of financial instruments not carried at fair value

The carrying value of trade receivables and trade payables approximate their fair values.

Net assets attributable to unit holders' carrying value differs from its fair value (deemed to be redemption price for individual units) due to differences in valuation inputs. This difference is not material in the current or prior year.

11 Derivative financial instruments

In the normal course of business the Funds enter into transactions in various derivative financial instruments which have certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include instruments such as exchange traded futures. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Funds' portfolio management.

The Funds hold the following derivative instruments:

Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. Changes in futures contracts' values are usually settled net daily with the exchange.

The Funds held the following derivative instruments (amounts in positive indicates long/buy and amounts in negative indicates short/sell):

	Fair values		Fair values			
	Contract/ notional 30 June 2018 \$'000	Assets 30 June 2018 \$'000	Liabilities 30 June 2018 \$'000	Contract/ notional 30 June 2017 \$'000	Assets 30 June 2017 \$'000	Liabilities 30 June 2017 \$'000

13 Related party transactions

Responsible Entity

The Responsible Entity of the Funds is BetaShares Capital Ltd.

Key management personnel

The Funds do not employ personnel in their own right. However, the Funds are required to have an incorporated Responsible Entity to manage the activities and this is considered to be key management personnel. The directors of the Responsible Entity, which are key management personnel of the Responsible Entity, during or since the end of the financial year are:

(a) Directors

Executive Directors:

David Nathanson (appointed 21 September 2009)
Alex Vynokur (appointed 21 September 2009)

Non-Executive Directors:

Taeyong Lee (appointed 12 August 2015, resigned 31 August 2018)
Thomas Park (appointed 12 August 2015)
Jungho Rhee (appointed 1 September 2018)

(b) Other key management personnel

There were no other persons with responsibility for planning, directing and controlling the activities of the Funds, directly or indirectly during the financial year.

13 Related party transactions (continued)

Responsible Entity's management fees and other transactions

The Responsible Entity's fees are calculated in accordance with the Funds' constitutions. The Responsible Entity's fees comprise of a management fee and expense recoveries (after taking account of GST and reduced input tax credits), which are calculated as a percentage of the net asset value of the Funds and are disclosed in the statements of comprehensive income. The following table discloses the Responsible Entity's fees for 30 June 2018 and 30 June 2017 as there has been no change in the fees during the year:

Funds	Management fee %	Expense recoveries %
Australian Equities Bear Hedge Fund	1.19	0.19
Australian Equities Strong Bear Hedge Fund	1.19	0.19
Strong Australian Dollar Fund	1.19	0.19
Strong U.S. Dollar Fund	1.19	0.19

The transactions during the year and amounts payable at year end between the Funds and the Responsible Entity were as follows:

	Australian Equities Bear Hedge Fund		Australian Equities Strong Bear Hedge Fund		Strong Australian Dollar Fund		Strong U.S. Dollar Fund	
	30 June 2018	30 June 2017	30 June 2018	30 June 2017	30 June 2018	30 June 2017	30 June 2018	30 June 2017
Management fees expensed to the Responsible Entity	646,077	721,469	1,084,374	1,156,097	28,537	11,389	150,694	24,485
Management fees payable to the Responsible Entity at reporting date	105,020	63,421	184,042	106,463	5,862	2,438	26,420	7,395
Expense recoveries expensed to the Responsible Entity	103,155	115,193	173,135	184,587	4,556	1,819	24,060	3,909
Expense recoveries payable to the Responsible Entity as at reporting date	16,768	10,126	29,385	16,998	936	389	4,218	1,181

Related party unitholdings

Parties related to the Funds (including BetaShares Capital Ltd and other schemes managed by BetaShares Capital Ltd), held no units in the Funds during the financial year.

14 Events occurring after the reporting period

The Responsible Entity has elected into the Attribution Managed Investment Trust ('AMIT') regime for the Funds for the year ending 30 June 2019 and subsequent years. Under the AMIT regime the units in the Funds will be reclassified from financial liability to equity from 1 July 2018.

No other significant events have occurred since the end of the reporting period which would impact on the financial position of the Funds disclosed in the statements of financial position as at 30 June 2018 or on the results and cash flows of the Funds for the period ended on that date.

15 Contingent assets and liabilities and commitments

There are no outstanding contingent assets, liabilities or commitments as at 30 June 2018 and 30 June 2017.

Directors' declaration

BetaShares Capital Ltd present the Directors' Declaration in respect of the following funds:

BetaShares Australian Equities Bear Hedge Fund
BetaShares Australian Equities Strong Bear Hedge Fund
BetaShares Strong Australian Dollar Fund
BetaShares Strong U.S. Dollar Fund

In the opinion of the directors of BetaShares Capital Ltd, the Responsible Entity of the Funds:

- (a) the financial statements and notes set out on pages 6 to 42 are in accordance with the *Corporations Act 2001*, including:
- (i) complying with Accounting Standards, the *Corporations Regulations 2001*; and
 - (ii) giving a true and fair view of the Funds' financial positions as at 30 June 2018 and of their performance for the financial period ended on that date; and
- (b) there are reasonable grounds to believe that the Funds will be able to pay their debts as and when they become due and payable.

The directors draw attention to Note 2(a) of the financial report which contains a statement of compliance with International Financial Reporting Standards.

Signed in accordance with a resolution of the directors of BetaShares Capital Ltd.

Independent Auditor's Report

To the respective unitholders of the following Schemes:

- BetaShares Australian Equities Bear Hedge Fund
- BetaShares Australian Equities Strong Bear Hedge Fund
- BetaShares Strong Australian Dollar Fund
- BetaShares Strong U.S. Dollar Fund

For the purpose of this report, the term Scheme and Schemes denote the individual and distinct entity for which the financial information is prepared and upon which our audit is performed. Each is to be read as a singular subject matter.

Opinions

We have audited each of the **Financial Reports** of the Schemes.

In our opinion, the accompanying Financial Report of each Scheme is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of that Scheme's financial position as at 30 June 2018 and of its financial performance for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The respective **Financial Reports** of the individual Schemes comprise:

- Statements of financial position as at 30 June 2018;
- Statements of comprehensive income, Statements of changes in equity, and Statements of cash flows for the year then ended;
- Notes including a summary of significant accounting policies; and

- Directors' Declaration made by the Directors' of BetaShares Capital Ltd (the Responsible Entity).

Basis for opinions

We conducted our audits in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audits of the Financial Reports* section of our report.

We are independent of the Schemes and the Responsible Entity in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audits of the Financial Reports in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our respective audits of the Financial Reports of each Scheme in the current period.

These matters were addressed in the context of our audits of each of the Financial Reports as a whole, and in forming our opinions thereon, and we do not provide a separate opinion on these matters.

The **Key Audit Matters** we identified for each of the Schemes are:

- Valuation and existence of financial instruments; and
- Existence of cash and cash equivalents.

<p>Valuation and existence of financial instruments (BetaShares Australian Equities Bear Hedge Fund \$32,096,000, BetaShares Australian Equities Strong Bear Hedge Fund -\$2,937,000, BetaShares Strong Australian Dollar Fund -\$71,598, BetaShares Strong U.S. Dollar Fund \$472,000).</p>	
<p>Refer to Note 6 to the Financial Reports.</p>	
<p>The Key Audit Matter</p> <p>Valuation and existence of financial instruments is a Key Audit Matter due to the significance of the balance to the financial statements and as the key driver of operations and performance results.</p>	<p>How the matter was addressed in our audits</p> <p>Our procedures included:</p> <ul style="list-style-type: none"> • Read the Responsible Entity's fund administrator's and custodian's ASAE 3402 <i>Assurance Reports on Controls at a Service Organisation</i> (ASAE 3402) reports to assess the control environment at the fund administrator and custodian and the impact on our procedures. • Assessed the scope, competency and objectivity of the auditors of the ASAE 3402 reports. • Checked the valuation of financial instruments in the general ledger, to externally quoted market prices. • Checked the Responsible Entity's external custody reports to assess the ownership of the financial instruments.

Existence of cash and cash equivalents (BetaShares Australian Equities Bear Hedge Fund \$19,215,000, BetaShares Australian Equities Strong Bear Hedge Fund \$92,279,000, BetaShares Strong Australian Dollar Fund \$1,470,214, BetaShares Strong U.S. Dollar Fund \$11,286,000).

<p>The Key Audit Matter</p> <p>Existence of cash and cash equivalents is a Key Audit Matter due to the significance of the balance to the financial statements.</p>	<p>How the matter was addressed in our audits</p> <p>Our procedures included:</p> <ul style="list-style-type: none"> • Read the Responsible Entity's custodian's ASAE 3402 <i>Assurance Reports on Controls at Service Organisations</i> (ASAE 3402) report to assess the control environment at the custodian and its impact on our procedures. • Assessed the scope, competence and objectivity of the auditors of the ASAE 3402 report. • Obtained third party confirmations of cash balances and checked to the Schemes' cash balances, as recorded in the general ledger.
--	--

Other Information

Other information is financial and non-financial information in the respective Scheme's annual reporting which is provided in addition to the Financial Reports and the Auditor's Report. The Directors of the Responsible Entity are responsible for the Other Information.

Our opinions on the Financial Reports do not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audits of the Financial Reports, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Reports or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Reports

The Directors of the Responsible Entity are responsible for:

- preparing the Financial Reports that give a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*;
- implementing necessary internal controls to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- assessing each Scheme's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the respective Scheme or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audits of the Financial Reports

Our objective is:

- to obtain reasonable assurance about whether each of the Financial Reports as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinions.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Reports.

A further description of our responsibilities for the audits of the Financial Reports is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar2.pdf. This description forms part of our Auditor's Report.
