Company Profile

For the Year Ended 30 June 2018

Prophecy is a global software company developing Australian innovation for global customers in the SaaS/cloud, cyber security and big data/analytics markets. The company is headquartered in Adelaide and has offices in Sydney, Denver USA, and the UK. Prophecy is listed on the ASX under the PRO code.

Founded in 1980, Prophecy has been involved in the development of software solutions to provide business value by securing the enterprise, protecting from Cyber threats and delivering business insights through analytics. We believe that you should be able to make better decisions, faster to protect and improve your business operations.

Our product offerings have evolved over time to ensure our solutions remain relevant in the fast-changing world of technology and in response to market changes, customer needs and regulatory requirements.

Prophecy software has been deployed at more than 2,500 customer sites globally and our continuous re-invention and commitment to customer-driven product development has enabled Prophecy to maintain our position as a trusted vendor within industries such as Banking and Finance, Public Sector, Healthcare, Utilities, Manufacturing and Retail.

Prophecy sells to global markets through our direct sales force in Europe, USA and Australia and through a global network of partners across all our product suites.

Our customer base includes some of the best known brand names in the world including a large number of the Fortune 500.

PRODUCT SET

Our current brands include SNARE, eMite, and e-Foundation

SNARE

SNARE is a pioneer in the event logging market and has millions of software agents deployed on customer's systems around the world. It continues to be a critical component of any IT cyber security strategy and regulatory compliance requirement.

Development of the core SNARE logging technology started in Canberra in Australia by ex-Defence personnel for the Australian Defence Department. Large Corporates, Military and Government Agencies around the world rely on SNARE every second of every day as the military-grade platform of choice for audit, collection, analysis, reporting, management and storage of event logging information.

Whether for a mission-critical or highly sensitive site, an Enterprise wide deployment or a robust departmental solution, SNARE is a comprehensive set of event monitoring and analysis tools which address complex auditing and forensic logging requirements.

This year the SNARE products have expanded to include a full range of Next Generation SIEM and analytics technologies.

The SNARE product suite is comprised of several components:

- Fully supported light weight and powerful logging agents capable of very high EPS (Events per Second) for multiple systems including Windows, Unix, Linux, OSX and others called Snare Enterprise Agents
- A collection, compression, filtering, storage and forwarding technology known as Snare Central
- An Agent Management Console for managing the configuration of fleets of thousands of agents
- A powerful Analytics engine for Syslog data with prebuilt KPI's and algorithms, real time and historical analytics, pre-built dashboards and reports called Snare Analytics that can be deployed in the cloud or on premise.
- A next generation SIEM technology called Snare Advanced Threat Intelligence that brings the syslog data from Snare Agents and combines and correlates that data with information from sources including LDAP and Authentication technologies, Patch Management, Back Up, AWS and external data like STIX/TAXI threat data for real time and historical analysis and reporting that can be deployed in the cloud or on premise with pre-built KPI's, dashboards and reports.

All our software is Enterprise grade and has been installed in some of the largest, most complex and most sensitive environments in the world and is supported by our global support organisation.

Prophecy International Holdings Limited and Controlled Entities

ABN: 16 079 971 618

Company Profile

For the Year Ended 30 June 2018

eMite

eMite provides big data and real time analytics software to customers based on an easy to deploy and simple to scale Software as a Service (SaaS) system with powerful analytics with a user configurable interface. eMite can also be installed on premise for customers who don't need cloud-based analytics.

eMite's analytics solutions deliver for customers looking for CX Intelligence, IT Ops Intelligence, DevOps insight and powers the analytics components of Snare Analytics and Snare Advanced Threat Intelligence.

eMite's value includes:

- in cloud or on prem deployment
- adaptors and connectors to multiple data sources including Genesys contact centre software, CRM , Service Desk systems and over 70 more systems and applications
- "no code" KPI's and algorithms
- "no code" dashboards and reports
- Pre-built KPI's dashboards and reports for chosen markets

eMite correlates and combines data from multiple business sources into tailored, real-time dashboards & reports, helps to break down traditional information silos, enabling organisations to make faster, better and more insightful decisions.

eMite currently provides multilingual support in English, French, Spanish, Chinese and Japanese and has Tier 1 customers in many countries around the globe.

e-Foundation

eFoundation is a legacy software product with a few remaining customers. We are no longer developing new capability in this product.

Message from the CEO For the Year Ended 30 June 2018

Letter to Shareholders

On behalf of Prophecy International Holdings Limited I would like to present our financial results for the FY18 year.

Prophecy Vision

At Prophecy International, our vision is to find the best of emerging Australian software and take it to the world through our global operations.

Our aim is to deliver a cloud based software platform that enables our customers to effectively and efficiently manage their digital business in the primary areas of Cyber/IT Security and in Omni-channel Contact Centre and Customer Experience markets.

Our product strategy is not to simply provide software tools for business but to develop deep market or segment based IP that is built into the software ensuring it provides immediate business value for our customers. We believe that our customers deserve to make better business decisions, faster.

Analysis of full year Results

The 2017-2018 financial year has been encouraging for the Prophecy Group as we continue our journey into a single integrated company.

Summary of results	% change	Direction	\$
• Revenue from continuing ordinary activities	16%	Up	10,676,203
• Profit/(Loss) from continuing ordinary activities before tax attributable to members	38%	Down	(841,060)
• Profit/(Loss) from continuing and discontinued ordinary activities after tax attributable to members	140%	Down	(791,386)
• Profit/(Loss) from continuing and discontinued ordinary activities attributable to members (after non-controlling interests)	137%	Down	(730,194)

The results this year did not include any revenue or costs from either Promadis or basis2 which were divested last year.

Total revenue was \$10.676M up from \$9.188M in last fiscal year. This was primarily driven by an improved result from eMite. It is pleasing to see a significant number of new eMite subscription customers added in the last year.

After tax profit/(loss) decreased from (\$221,136) to (\$793,837) as a result on additional investments made in product development and sales and marketing resources.

Cash on hand was \$2.599M against \$3.317M this time last year and the company remains debt free and cash flow positive.

Business Strategy

As stated last year our strategy is one for growth. We consider ourselves to be a growth company and are looking to grow both top line revenue and bottom line profit. At present we are focussed on organic growth and are not focussed on acquisition. That's not to say that we would not act if a suitable opportunity arose.

Our growth plan is based on the four pillars that we outlined last year:

- Product innovation – adding value and entering new markets and building additional annuity based revenue streams
- Improving our customer experience – keeping our customers and making them happy
- Optimising our sales and marketing – both coverage, channels and capability
- Improving our operation efficiency – running the business well and managing our costs

Prophecy International Holdings Limited and Controlled Entities

ABN: 16 079 971 618

Message from the CEO **For the Year Ended 30 June 2018**

I am pleased to say that we have made substantial progress in all these areas and still have opportunity to improve further.

We have also added to our leadership team bringing in expertise from across the industry to run marketing and customer operations (support and consulting). Christine Bishop has joined from IBM as Chief Marketing Officer, Stephen Irecki has joined from Genesys to lead pre and post sales consulting and customer support. We have also made changes to our structure to be a significantly more integrated company and as a result Stuart Geros has moved from eMite into the Chief Product Officer role for the group and Steve Challans has changed roles to be our Chief Information Security Officer and Cyber thought leader for the group.

Peter Barzen continues to lead our US business in Denver.

We have also integrated our software development teams in Adelaide and Sydney into a single team and moved to a common agile development methodology across the business.

We have increased our sales team to include new eMite sales resources in Australia, the US and Europe and re-aligned our sales resources for SNARE to address our best market opportunity and to leverage and grow our partnerships and indirect channels. We plan to continue to add sales resources as needed to grow our coverage.

Our support team has also grown as we continue to add new customers. Our global support hub in Manila has expanded to complement our support resources in the US and Australia and we have rolled out new support tools across the business.

R&D

FY18 has been a fruitful year for R&D at Prophecy with a number of significant product enhancements, new product releases and innovation in our current product offerings.

Snare

One of our core values is offering a product free of vulnerabilities in the Cyber market and this year we achieved Veracode certification of the SNARE Enterprise Agent product. Prophecy can now demonstrate through a seal and provide an attestation letter from an industry leader that the application has undergone security testing as part of the development practice. Additionally, participating in the program ensures that our software meets a high standard of application security, reducing risk for our customers.

Last year we said that we would integrate our two core product technologies to add further capability to the platform and we have done just that. In July we launched SNARE Analytics and SNARE Threat Intelligence into the market and initial customer feedback has been positive. This will enable us to compete with a complete next generation SIEM solution rather than just selling a component of a solution in a market where other vendors provide log collection technology at no additional cost as part of the offering. A significant amount of effort has gone into this in the FY18 year to enable us to enter new markets with this software. These new offerings are available as either SaaS solutions in the cloud or on premise.

I am pleased to announce that we have secured both a large Asian based stock exchange and a large bank in Canada as some of our first customers of these new offerings.

We have built a great deal of our own IP into these offerings by building pre-built dashboards, reports and KPI's to deliver on immediate customer requirements like the ASD "Essential 8" for the Australian Public Sector. One of our core values is decreasing the time, effort and specialised skills needed to deliver cyber threat detection for large organisations in either the public or private sector.

We have also increased the capability of the core SNARE logging agent technology by delivering a WEC logging tool, Binary Distribution for easier deployment and updating of SNARE agents in the field and File Integrity Monitoring (FIM) enabling customers to monitor and audit what changes have been made to files.

We have a strong roadmap of new capability for both the SNARE agent technology and the Advanced Analytics and Threat Intelligence offerings.

eMite

With eMite we have expanded our Advanced Analytics for PureCloud offering and now have prepackaged and "out of the box" offerings for PureConnect and PureEngage by Genesys. We have also started enabling our partners to expand on the

Prophecy International Holdings Limited and Controlled Entities

ABN: 16 079 971 618

Message from the CEO For the Year Ended 30 June 2018

eMite platform to bring their expertise to the technology to address other adjacent markets.

As a result of adding offerings for these additional Genesys products we are seeing an increase in the average deal size in our forward looking pipeline and also in the average contract term, with more 2 and 3 years deals being sold.

We have also significantly improved the performance of the platform and we have a robust and scalable product that we can be confident in taking to market. We continue to work with Genesys to add additional value and in October this year will be a launch partner for Genesys Premiums Apps. This means that eMite will be available for purchase and installation from inside the Genesys PureCloud application with Single Sign On and integrated invoicing. This will massively decrease time to value and remove "friction" from the procurement and implementation process.

I would like to thank our great development teams in Sydney and Adelaide for their efforts in getting new technology into the market this year. I am confident that we have a team that will enable us to continue to innovate and deliver new value to our customers for a long time to come.

Partnerships

Our strategy of scaling through partnerships and indirect channels delivers a growing percentage of revenues.

Last year we announced our agreement with Genesys in the eMite/Contact Centre market. This relationship continues to strengthen and I am very pleased to be able to announce that in May 2018 we were awarded the global Genesys AppFoundry Partner of the Year for PureCloud.

Many Genesys partners will buy eMite through Genesys but for those partners that want to add value and extend the eMite platform we want to have a direct relationship. In this last year we have signed a number of new direct partnerships including Datacom, Dimension Data and QPC in Australia, Convergeone, CPI.Solutions and AVDS in the US, Foehn, Advania and Wren Data in Europe and the UK. I am sure that these partners will extend eMite and take it into new markets as many of them have skills with Avaya or Cisco in the contact centre space.

I believe that we also have an opportunity to replicate our Telstra partnership with other telecommunications providers around the world.

We will also continue to extend the platform ourselves through technology partnerships with companies like Plantronics who we are working with to develop joint offerings to sell with the CX Intelligence solution.

In July 2018 we delivered our first partner enablement conference in Sydney with partners attending from Asia, Australia, New Zealand and the United States to learn how to deploy and extend the eMite platform. This training was a great success. We are already planning to run this event again in North America and Europe this year.

In the Cyber market we have also continued to expand our partnerships.

Our existing relationships with IBM, ATOS, Secureworks and NTT continue to deliver results and an increasing percentage of our SNARE revenue is generated through partnerships. The Managed Security Service Provider (MSSP) market is also becoming critical as cyber security professionals become increasingly difficult to find and increasingly more expensive to hire as a result of a global skills shortage, currently estimated to be around 3.5M roles that remain unfilled globally due to a lack of skills.

This last year we added Verizon, Virtual Armour and CarbonHelix to our SNARE channel. We continue to look for and add new partnerships across all of our sales regions in APAC, North America and EMEA.

Market focus

As outlined last year, three of the leading drivers of IT spend are Cloud Computing, Big Data/Analytics and IT/Cyber Security. With our focus on Snare and eMite we work in all these segments and we have a global footprint via both our direct sales force and through our partners.

eMite's focus is delivering big data and analytics capability to our customers to optimise the management of the contact centre environments.

We have expanded this platform approach to become a true CX (Customer Experience) Intelligence platform by allowing customers to collect data from multiple systems including the contact centre, service desk, CRM, Net Promoter/Survey Systems, head phone data from partners like Plantronics and many others into a single real time management platform that

Prophecy International Holdings Limited and Controlled Entities

ABN: 16 079 971 618

Message from the CEO For the Year Ended 30 June 2018

delivers true actionable insight for managing customer interactions with business.

These solutions work across verticals from SMB to Tier 1 Corporate and Government. Our smallest customers have as few as 5 agents and our largest have many thousands of agents.

The cloud based contact centre market is a USD\$6.8B market and is growing at a CAGR of 25.2%*

The Cyber market continues to boom due to a combination of the following factors:

- Increased number and severity of cyber threats
- Increased cost of data breaches both direct and reputational
- Increased regulation and compliance including GDPR, Mandatory data breach notification legislation, new privacy regulations
- Global Cyber skills shortages
- Growing complexity of customer IT environments including cloud and hybrid networks, Internet of Things (IOT) and mobility

Snare agent technology delivers IT Security and Log Management capability in the SIEM market globally in a number of key verticals and market segments.

Most notable for SNARE are:

- Government, Defence and Military
- Banking & Finance
- Utilities and power
- Retail
- Health

SNARE and the new SNARE capability is a Cyber detection platform and a next generation SIEM technology. Security Information and Event Management or SIEM is a term for software and services that combine security information management (SIM) tools, which are geared towards log collection and report generation, with security event management (SEM) tools, which focus on real-time event analytics, correlation, and alerting. SIEM solutions are complex systems that help organisations decrease the impact of advanced cyber attacks by proactively monitoring the network for irregular activity in real-time.

SNARE takes SIEM beyond this by integrating and correlating data from multiple security related sources both cloud and on premise including AWS, Azure, Office365 and others.

The global SIEM market is approximately a USD\$2.2B per annum market and is reported at growing between 8% and 12% per annum.

This year we have also become active with AustCyber (The Australian Cyber Security Growth Network) which supports the development of a vibrant and globally competitive Australian cyber security industry that enhances Australia's future economic growth and helps protect Australia's interests online. We have attended a number of events, trade delegations and have taken part in a number of industry workshops.

Scope of Operations

Prophecy currently operates globally both with direct staff and through our partners. Our major sites around the globe are in Australia, both Sydney and Adelaide, Manila in the Philippines, Denver in the USA and London in the United Kingdom.

We have customers on every continent.

As a small Australian company trading globally we continue to be extremely proud that more than 70% of our revenues are generated offshore and we are an exporter of Australian Innovation.

Prophecy International Holdings Limited and Controlled Entities

ABN: 16 079 971 618

Message from the CEO For the Year Ended 30 June 2018

Summary

This year we have taken a number of steps in our journey to become a globally significant software company based in Australia. We are aiming high. We have a solid growth plan and we are executing that plan.

We operate in vibrant and growing but competitive and fast moving markets. We are continually challenged by global giants or by new market entrants with new ideas – many of them extremely well funded.

The pressure is on for us to not just respond but to lead.

We continue to build our team of committed individuals that want to lead the market, build something great and show the world that we have some of the best technology available. I would like to thank al lout team for the tremendous effort over the last year. We have a solid foundation now to enable us to grow and the right people on board to make this happen.

Our goal is to help our customers stay safe from Cyber threats and to deliver excellent experiences to their customers.

In doing this we know that we will grow and as a result will deliver value for our shareholders.

I would like to thank our investors for their continued support.

Brad Thomas OAM
Chief Executive Officer

Qualifications	Chartered Accountant – Fellow (FCA)
Experience	Grant is the Managing Partner of Moore Stephens (SA) Pty Ltd formerly Hayes Knight (SA) Pty Ltd.
	Grant was appointed Company Secretary of Prophecy in May 2013 and a Director in May 2015. Grant has over 25 years' experience in Finance and Accounting matters and provides the Prophecy Board with strong skills in this area
Interest in shares and options	150,000 ordinary shares in Prophecy International Holdings Limited and no options
Special responsibilities	Chief Financial Officer Chair of the Audit Committee Chair of the Remuneration Committee
Other current directorships in listed entities now and in the previous 3 years	None

Directors' Report

For the Year Ended 30 June 2018

1. General information continued

Information on directors continued

Leanne Challans
Qualifications
Experience

Bachelor of Science
Leanne joined Prophecy in 1990, with a strong background in software design and development. Her initial role was Product Development Manager for the flagship Prophecy Classic product. The growing partner network for classic opened up new opportunities, so Leanne took on responsibility for Partner Support and Marketing through the mid 1990's. Leanne returned to her strengths in software development in 2000, heading up the successful Emergency Services Levy project, and then managing the development and support of the e-Foundation product suite. She then moved into the role of General Manager, Software & Services, with responsibility for the ongoing development, support and consulting services relating to all of Prophecy International's product lines. Leanne joined the Board of Directors in December 2006, and was appointed Managing Director in July 2007. The acquisition of Intersect Alliance International in August 2011 saw Leanne take on responsibility for the inclusion of this new company into the Prophecy culture, with a focus on growth in this important new part of the group.

Directors' Report

For the Year Ended 30 June 2018

1. General information continued

Principal activities and significant changes in nature of activities

The principal activities of the Group during the financial year were the design, development and marketing of computer software applications and services aimed at the worldwide corporate marketplace.

There were no significant changes in the nature of the Group's principal activities during the financial year.

2. Operating results and review of operations for the year

Operating results

The consolidated loss before tax from continuing operations of the Group amounted to \$841,060 down 38% on the 30 June 2017 result.

The consolidated loss from continuing and discontinued operations of the Group amounted to \$791,386, after providing for income tax, this represented a 140% decrease on the results reported for the year ended 30 June 2017.

Review of operations

A review of the operations of the Group during the financial year and the results of those operations is set out in the section headed "Message from the CEO" in this report.

3. Other items

Significant changes in state of affairs

On 25 May 2017 the group sold the basis2 product, a part of the Legacy division, details can be found in Note 5 Discontinued Operations of the Financial Statements.

The Group disposed of the company Promadis Pty Ltd on 1 July 2017.

Dividends paid or recommended

No dividends declared.

Events after the end of the reporting period

Other than matters disclosed in this report, no matters or circumstances have arisen since the end of the financial year which significantly affected or could significantly affect the operations of the Group, the results of those operations the state of affairs of the Group in future financial years.

Directors' Report

For the Year Ended 30 June 2018

3. Other items continued

Future developments and results

Comments on the company's future direction are included in the "Message from the CEO".

Environmental issues

The Group's operations are not regulated by any significant environmental regulations under a law of the Commonwealth or of a state or territory of Australia

Company secretary

The following person held the position of Company secretary at the end of the financial year:

Grant R Miles has been the company secretary since 21 March 2013. Grant R Miles is the Managing Partner of Moore Stephens (SA) Pty Ltd.

Meetings of directors

During the financial year, 24 meetings of directors (including committees of directors) were held. Attendances by each director during the year were as follows:

	Directors' Meetings		Audit Committee		Remuneration Committee		Strategy Committee	
	Number eligible to attend	Number attended	Number eligible to attend	Number attended	Number eligible to attend	Number attended	Number eligible to attend	Number attended
Ed Reynolds	12	12	2	2	10	10	-	-
Leanne R Challans	12	12	2	2	-	-	-	-
Matthew T Michalewicz	12	12	-	-	-	-	-	-
Grant R Miles	12	12	2	2	10	10	-	-

Unissued shares under option

There are no unissued ordinary shares of Prophecy International Holdings Limited under option at the date of this report.

Shares issued during or since the end of the year as a result of exercise

There were no shares issued during or since the end of the year as a result of exercise.

Indemnification and insurance of officers and auditors

In the financial year, the company has paid premiums of \$69,096 in respect of a contract of insurance for all the Directors and Officers of Prophecy International Holdings Limited and its controlled entities against any liability incurred in their roles as Directors or Officers of the company or its controlled entities, except where:

- the liability arises out of conduct involving a wilful breach of duty; or
- there has been a contravention of Section 199(C) of the Corporations Act 2001.

Directors' Report

For the Year Ended 30 June 2018

3. Other items continued

Non-audit services

The Board of Directors, in accordance with advice from the audit committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved by the audit committee prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- the nature of the services provided do not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

The following fees were paid or payable to the external auditors for non-audit services provided during the year ended 30 June 2018:

	2018	2017
	\$	\$
Taxation services	29,300	28,300

Remuneration report (audited)

Remuneration policy

The remuneration policy of Prophecy International Holdings Limited and Controlled Entities has been designed to align key management personnel (KMP) objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance areas affecting the Group's financial results. The Board of Prophecy International Holdings Limited and Controlled Entities believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best key management personnel to run and manage the Group, as well as create goal congruence between directors, executives and shareholders.

The Board's policy for determining the nature and amount of remuneration for key management personnel of the Group is as follows:

- The remuneration policy, setting the terms and conditions for the directors and other senior executives, was developed by the Remuneration Committee and approved by the Board.
- All executives receive a base salary (which is based on factors such as responsibilities and experience), superannuation, fringe benefits, options and performance incentives. The Remuneration Committee reviews executive packages annually by reference to the consolidated entity's performance, executive performance and comparable information from industry sectors and other listed companies in similar industries.
- The performance of executives is measured against criteria agreed annually with each executive and is based predominantly on the forecast growth of the consolidated entity's profits and shareholders' value.
- All bonuses and incentives must be linked to predetermined performance criteria. The board may, however, exercise its discretion in relation to approving incentives, bonuses and options, and can recommend changes to the committee's recommendations. Any changes must be justified by reference to measurable performance criteria. The policy is designed to attract the highest calibre of executives and reward them for performance that results in long-term growth in shareholder wealth.

Directors' Report

For the Year Ended 30 June 2018

3. Other items continued

Remuneration report (audited) continued

- Executives are also entitled to participate in the employee share and option arrangements.
- The non-executive directors receive superannuation contributions but do not receive any other retirement benefits. Australian based executives receive both superannuation contributions and long service leave benefits.
- All remuneration paid to directors and executives is valued at the cost to the company and expensed. Shares issued to directors and executives are valued as the difference between the market price of those shares and the amount paid by the director or executive. Options are valued using a Black-Scholes methodology.

The Board's policy is to remunerate non-executive directors at market rates for time, commitment and responsibilities. The Remuneration Committee determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting. Fees for non-executive directors are not linked to performance of the consolidated entity. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the company and are able to participate in the company option plans.

As approved by the shareholders at the 2015 Annual General Meeting, the maximum amounts payable to directors is \$400,000. This compares with an actual charge of \$307,427 in the 2017/18 year.

Key management personnel receive a superannuation guarantee contribution required by the law, which is currently 9.5%, and do not receive any other retirement benefits. Some individuals, however, have chosen to sacrifice part of their salary to increase payments towards superannuation.

Key Management Personnel

Key management personnel are as follows:

Directors

Edwin Reynolds (Appointed 4 September 1997)	Non-executive Chairman
Leanne R Challans (Appointed 8 December 2006)	Non-executive Director
Matthew T Michalewicz (Appointed 15 May 2014)	Non-executive Director
Grant R Miles (Appointed 1 May 2015)	Non-executive Director

Executives

Brad Thomas (Appointed 26 September 2016)	CEO – Prophecy Group
Peter Barzen (Appointed 1 September 1999)	EVP Sales and Alliances
Stuart Geros (Appointed 1 July 2015)	CPO – Prophecy Group
Steve Challans (Appointed 1 July 2017)	CISO – Prophecy Group
Christine Bishop (Appointed 1 August 2017)	CMO – Prophecy Group

There have been no changes to Key Management Personnel after the reporting date and before the date the financial accounts were authorised for issue.

Relationship between remuneration policy and company performance

As part of each executive's remuneration package there is a performance-based component, consisting of key performance indicators (KPIs). The intention of this program is to facilitate goal congruence between directors/executives with that of the business and shareholders. The KPIs are set annually, with a certain level of consultation with key management personnel to ensure buy-in. The measures are specifically tailored to the area each individual is involved in and has a level of control over, and are mainly related to increases in profit and revenue. The KPIs target areas the Board believes hold greater potential for Group expansion and profit, covering financial short-term goals. The level set for each KPI is based on budgeted figures for the Group.

Directors' Report

For the Year Ended 30 June 2018

Remuneration report (audited) continued

Relationship between remuneration policy and company performance continued

Performance in relation to the KPIs is assessed annually, with bonuses being awarded depending on the level of achievement against KPIs. Following the assessment, the KPIs are reviewed by the Remuneration Committee in light of the desired and actual outcomes, and their efficiency is assessed in relation to the Group's goals and shareholder wealth, before the KPIs are set for the following year.

The satisfaction of the performance conditions are based on a review of the audited financial statements of the Group, as such figures reduce any risk of contention relating to payment eligibility.

The following table shows the gross revenue, profits and dividends for the last five years for the Company, as well as the share prices at the end of the respective financial years.

	2018	2017	2016	2015	2014
	\$	\$	\$	\$	\$
Revenue from continuing operations	10,676,203	9,188,005	12,333,897	9,956,360	7,078,458
Profit/(Loss) from continuing operations before tax	(841,060)	(610,585)	3,386,410	3,447,811	1,317,678
Profit from continuing and discontinued operations	(791,386)	1,955,795	2,416,038	2,378,480	906,848
Share Price at Year-end	0.43	0.51	1.15	1.25	0.43
Dividends Paid (cents)	0.00	2.0	4.20	2.75	3.50

Performance conditions linked to remuneration

The remuneration policy has been tailored to increase goal congruence between shareholders, directors and executives. Two methods have been applied to achieve this aim, the first being a performance-based bonus based on key performance indicators, and the second being the issue of options to directors and executives to encourage the alignment of personal and shareholder interests.

The company believes that the factors affecting shareholder wealth are linked to the company's trading conditions. The company experienced difficult trading conditions last year due to the global economic crisis.

The board feels that the company has consolidated the move towards increasing shareholder wealth, and that the executive and director remuneration policies in place will help facilitate achievement of this goal.

Employment details of members of key management personnel

The following table provides employment details of persons who were, during the financial year, members of key management personnel of the Group. The table also illustrates the proportion of remuneration that was performance based and the proportion of remuneration received in the form of options.

		Performance based remuneration		
		Bonus	Shares	Options / rights

Service Agreements

On appointment to the Board, all non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the Board policies and terms, including compensation, relevant to the office of director.

The remuneration and other terms of employment for the Chief Executive Officer and senior executives are set out in formal service agreements as summarised below:

- All service agreements are for an unlimited duration. The agreements for executives may be terminated by giving four weeks' notice (except in cases of termination for cause where termination is immediate).
- In cases of resignation, no separation payment is made to the executive, except for amounts due and payable up to the date of ceasing employment, including accrued leave entitlements.

Remuneration Consultants

There have been no remuneration consultants used in the period.

Changes in KMP (other than directors)

Steve Challans the CISO of the Prophecy Group has been added to the KMP from 1 July 2017.

Christine Bishop the CMO of the Prophecy Group has been added to the KMP from 1 August 2017.

Notes to the Financial Statements

For the Year Ended 30 June 2018

This financial report covers the consolidated financial statements and notes of Prophecy International Holdings Limited and Controlled Entities (the 'group'). Prophecy International Holdings Limited and Controlled Entities is a for profit Company domiciled in Australia.

Each of the entities within the Group prepare their financial statements based on the currency of the primary economic environment in which the entity operates (functional currency). The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

1 Summary of Significant Accounting Policies

(a) Basis of Preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

These financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The significant accounting policies used in the preparation and presentation of these financial statements are provided below and are consistent with prior reporting periods unless otherwise stated.

The financial statements are based on historical costs, except for the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(b) Principles of Consolidation

The consolidated financial statements include the financial position and performance of controlled entities from the date on which control is obtained until the date that control is lost.

Intragroup assets, liabilities, equity, income, expenses and cashflows relating to transactions between entities in the consolidated entity have been eliminated in full for the purpose of these financial statements.

Appropriate adjustments have been made to a controlled entity's financial position, performance and cash flows where the accounting policies used by that entity were different from those adopted by the consolidated entity. All controlled entities have a June financial year end.

A list of controlled entities is contained in Note 14 to the financial statements.

Subsidiaries

Subsidiaries are all entities (including structured entities) over which the parent has control. Control is established when the parent is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(c) Business Combinations

Business combinations are accounted for by applying the acquisition method which requires an acquiring entity to be identified in all cases. The acquisition date under this method is the date that the acquiring entity obtains control over the acquired entity.

The fair value of identifiable assets and liabilities acquired are recognised in the consolidated financial statements at the acquisition date.

Goodwill or a gain on bargain purchase may arise on the acquisition date, this is calculated by comparing the consideration transferred and the amount of non-controlling interest in the acquiree with the fair value of the net identifiable assets acquired. Where consideration is greater than the net assets acquired, the excess is recorded as goodwill. Where the net assets acquired are greater than the consideration, the measurement basis of the net assets are reassessed and then a gain from bargain purchase recognised in profit or loss.

All acquisition-related costs are recognised as expenses in the periods in which the costs are incurred except for costs to issue debt or equity securities.

Any contingent consideration which forms part of the combination is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity then it is not remeasured and the settlement is accounted for within equity. Otherwise subsequent changes in the value of the contingent consideration liability are measured through profit or loss.

(d) Income Tax

The tax expense recognised in the consolidated statement of profit or loss and other comprehensive income comprises of current income tax expense plus deferred tax expense.

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (loss) for the year and is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates and laws that have been enacted or substantively enacted by the end of the reporting period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred tax is provided on temporary differences which are determined by comparing the carrying amounts of tax bases of assets and liabilities to the carrying amounts in the consolidated financial statements.

Deferred tax is not provided for the following:

- The initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).
- Taxable temporary differences arising on the initial recognition of goodwill.
- Temporary differences related to investment in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(d) Income Tax continued

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and losses can be utilised.

Current and deferred tax is recognised as income or an expense and included in profit or loss for the period except where the tax arises from a transaction which is recognised in other comprehensive income or equity, in which case the tax is recognised in other comprehensive income or equity respectively.

The Company and its wholly-owned Australian controlled entities have formed a tax-consolidated group under the legislation and as a consequence these entities are taxed as a single entity.

(e) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost less, where applicable, any accumulated depreciation and impairment.

Where the cost model is used, the asset is carried at its cost less any accumulated depreciation and any impairment losses. Costs include purchase price, other directly attributable costs and the initial estimate of the costs of dismantling and restoring the asset, where applicable.

Depreciation

Property, plant and equipment, is depreciated on a reducing balance basis over the assets useful life to the Company, commencing when the asset is ready for use.

Leased assets and leasehold improvements are amortised over the shorter of either the unexpired period of the lease or their estimated useful life.

The depreciation rates used for each class of depreciable asset are shown below:

Fixed asset Class	Depreciation rate
Plant and Equipment	10% - 40%
Furniture, Fixture & Fittings	1.8% - 30%

At the end of each annual reporting period, the depreciation method, useful life and residual value of each asset is reviewed. Any revisions are accounted for prospectively as a change in estimate.

(f) Non-current assets held for sale and discontinued operations

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell.

Assets classified as held for sale are not amortised or depreciated.

Non-current assets classified as held for sale and any associated liabilities are presented separately in the consolidated statement of financial position.

A discontinued operation is a component of an entity, being a cash-generating unit (or a group of cash-generating units), that either has been disposed of, or is classified as held for sale, and: represents a separate major line of business or geographical area of operations; is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations; or is a subsidiary acquired exclusively with the view to resale.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(f) Non-current assets held for sale and discontinued operations continued

Impairment losses are recognised for any initial or subsequent write-down of an asset (or disposal group) classified as held for sale to fair value less costs to sell. Any reversal of impairment recognised on classification as held for sale or prior to such classification is recognised as a gain in profit or loss in the period in which it occurs.

(g) Leases

Lease payments for operating leases, where substantially all of the risks and benefits remain with the lessor, are charged as expenses on a straight-line basis over the life of the lease term.

Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the life of the lease term.

(h) Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instrument. For financial assets, this is the equivalent to the date that the Company commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transactions costs, except where the instrument is classified 'at fair value through profit or loss' in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Financial instruments are subsequently measured at either fair value, amortised cost using the effective interest rate method, or cost. *Fair value* represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

- (a) the amount at which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the *effective interest method*; and
- (d) less any reduction for impairment.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(h) Financial Instruments continued

The classification of financial instruments depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and at the end of each reporting period for held-to-maturity assets.

The Group does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

(i) *Financial assets at fair value through profit or loss*

Financial assets are classified at 'fair value through profit or loss' when they are either held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

(ii) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans and receivables are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting year.

(iii) *Held-to-maturity investments*

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Group's intention to hold these investments to maturity. They are subsequently measured at amortised cost.

Held-to-maturity investments are included in non-current assets, except for those which are expected to be realised within 12 months after the end of the reporting period, which will be classified as current assets.

If during the period the Group sold or reclassified more than an insignificant amount of the held-to-maturity investments before maturity, the entire held-to-maturity investments category would be tainted and reclassified as available-for-sale.

(iv) *Available-for-sale financial assets*

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

Available-for-sale financial assets are included in non-current assets, except for those which are expected to be sold within 12 months after the end of the reporting period.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(h) Financial Instruments continued

(v) *Financial liabilities*

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Fees payable on the establishment of loan facilities are recognised as transaction costs of the loan.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

All of the Group's derivative financial instruments that are not designated as hedging instruments in accordance with the strict conditions explained in AASB 139 are accounted for at fair value through profit or loss.

Impairment

A financial asset (or a group of financial assets) is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered to constitute a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

When the terms of financial assets that would otherwise have been past due or impaired have been renegotiated, the Group recognises the impairment for such financial assets by taking into account the original terms as if the terms have not been renegotiated so that the loss events that have occurred are duly considered.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(h) Financial Instruments continued

Financial guarantees

Where material, financial guarantees issued that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due are recognised as a financial liability at fair value on initial recognition.

The fair value of financial guarantee contracts has been assessed using a probability-weighted discounted cash flow approach. The probability has been based on:

- the likelihood of the guaranteed party defaulting during the next reporting period;
- the proportion of the exposure that is not expected to be recovered due to the guaranteed party defaulting; and
- the maximum loss exposure if the guaranteed party were to default.

Financial guarantees are subsequently measured at the higher of the best estimate of the obligation in accordance with AASB 137: Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less, when appropriate, cumulative amortisation in accordance with AASB 118: Revenue. Where the entity gives guarantees in exchange for a fee, revenue is recognised in accordance with AASB 118.

(i) Impairment of Non-financial Assets

At the end of each reporting period the Group determines whether there is an evidence of an impairment indicator for non-financial assets.

Where this indicator exists and regardless for goodwill, indefinite life intangible assets and intangible assets not yet available for use, the recoverable amount of the asset is estimated.

Where assets do not operate independently of other assets, the recoverable amount of the relevant cash-generating unit (CGU) is estimated.

The recoverable amount of an asset or CGU is the higher of the fair value less costs of disposal and the value in use. Value in use is the present value of the future cash flows expected to be derived from an asset or cash-generating unit.

Where the recoverable amount is less than the carrying amount, an impairment loss is recognised in profit or loss.

Reversal indicators are considered in subsequent periods for all assets which have suffered an impairment loss, except for goodwill.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(j) Intangible Assets

Goodwill

Goodwill is carried at cost less accumulated impairment losses. Goodwill is calculated as the excess of the sum of:

- i) the consideration transferred;
- ii) any non-controlling interest; and
- iii) the acquisition date fair value of any previously held equity interest;

over the acquisition date fair value of net identifiable assets acquired in a business combination.

The value of goodwill recognised on acquisition of each subsidiary in which the Group holds less than a 100% interest will depend on the method adopted in measuring the aforementioned non-controlling interest. The Group can elect to measure the non-controlling interest in the acquiree either at fair value ('full goodwill method') or at the non-controlling interest's proportionate share of the subsidiary's identifiable net assets ('proportionate interest method'). The Group determines which method to adopt for each acquisition.

Under the 'full goodwill method', the fair values of the non-controlling interests are determined using valuation techniques which make the maximum use of market information where available.

Patents and trademarks

Patents and trademarks are recognised at cost of acquisition. Patents and trademarks have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Patents and trademarks are amortised over their useful life which is estimated to be 7 year or 15 years, depending on the product.

Research and development

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably.

The expenditure capitalised includes the cost of materials, direct labour and overhead costs that are directly attributable to preparing the asset for its intended use, and capitalised borrowing costs. Other development expenditure is recognised in profit or loss as incurred.

Capitalised development costs are measured at cost less accumulated amortisation and accumulated impairment losses.

Development costs have a finite life and are amortised on a systematic basis matched to the future economic benefits over the useful life of the projects which are between 5 years.

Impairment

For impairment assessment purposes, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which management monitors goodwill.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(j) Intangible Assets continued

Impairment continued

Cash-generating units to which goodwill has been allocated (determined by the Group's management as equivalent to its operating segments) are tested for impairment at least annually. All other individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is the higher of fair value less costs to sell and value-in-use. To determine the value-in-use, management estimates expected future cash flows from each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of future reorganisations and asset enhancements. Discount factors are determined individually for each cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

(k) Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

Transaction and balances

Foreign currency transactions are recorded at the spot rate on the date of the transaction.

At the end of the reporting period:

- Foreign currency monetary items are translated using the closing rate;
- Non-monetary items that are measured at historical cost are translated using the exchange rate at the date of the transaction; and
- Non-monetary items that are measured at fair value are translated using the rate at the date when fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition or in prior reporting periods are recognised through profit or loss, except where they relate to an item of other comprehensive income or whether they are deferred in equity as qualifying hedges.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(k) Foreign Currency Transactions and Balances continued

Group companies

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency are translated as follows:

- assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- income and expenses are translated at average exchange rates for the period where the average rate approximates the rate at the date of the transaction; and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the Group's foreign currency translation reserve in the consolidated statement of financial position. These differences are recognised in the consolidated statement of profit or loss and other comprehensive income in the period in which the operation is disposed.

(l) Employee Benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be wholly settled within one year have been measured at the amounts expected to be paid when the liability is settled.

Employee benefits expected to be settled more than one year after the end of the reporting period have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wage increases and the probability that the employee may satisfy vesting requirements. Cashflows are discounted using market yields on high quality corporate bond rates incorporating bonds rated AAA or AA by credit agencies, with terms to maturity that match the expected timing of cashflows. Changes in the measurement of the liability are recognised in profit or loss.

Defined contribution schemes

All employees of the Group other than those that receive defined benefit entitlements receive defined contribution superannuation entitlements, for which the Group pays the fixed superannuation guarantee contribution (currently 9.5% of the employee's average ordinary salary) to the employee's superannuation fund of choice. All contributions in respect of employees' defined contribution entitlements are recognised as an expense when they become payable. The Group's obligation with respect to employees' defined contribution entitlements is limited to its obligation for any unpaid superannuation guarantee contributions at the end of the reporting period. All obligations for unpaid superannuation guarantee contributions are measured at the (undiscounted) amounts expected to be paid when the obligation is settled and are presented as current liabilities in the Group's statement of financial position.

Termination benefits

When applicable, the Group recognises a liability and expense for termination benefits at the earlier of: (a) the date when the Group can no longer withdraw the offer for termination benefits; and (b) when the Group recognises costs for restructuring pursuant to AASB 137: Provisions, Contingent Liabilities and Contingent Assets and the costs include termination benefits. In either case, unless the number of employees affected is known, the obligation for termination benefits is measured on the basis of the number of employees expected to be affected. Termination benefits that are expected to be settled wholly before 12 months after the annual reporting period in which the benefits are recognised are measured at the (undiscounted) amounts expected to be paid. All other termination benefits are accounted for on the same basis as other long-term employee benefits.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(m) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured at the present value of management's best estimate of the outflow required to settle the obligation at the end of the reporting period.

(n) Cash and Cash Equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

(o) Revenue and Other Income

Revenue is recognised when the amount of the revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the Group and specific criteria relating to the type of revenue as noted below, has been satisfied.

Revenue is measured at the fair value of the consideration received or receivable and is presented net of returns, discounts and rebates.

Sale of Goods

Sales of the consolidated group's products are structured around initial licence fees plus annual licence fees. Initial licence fees together with time and materials consulting services contracts are recognised as income in the year of invoicing. A percentage of annual licence fees is recognised as income in the year of invoicing, the balance covers forward maintenance and support commitments and is brought to account on a pro-rata basis.

Rendering of Services

Revenue in relation to rendering of services is recognised depending on whether the outcome of the services can be estimated reliably. If the outcome can be estimated reliably then the stage of completion of the services is used to determine the appropriate level of revenue to be recognised in the period.

If the outcome cannot be reliably estimated then revenue is recognised to the extent of expenses recognised that are recoverable.

For fixed price consulting service contracts, revenue is recognised on a stage of completion basis and measured using the proportion of actual hours spent on a contract compared to the total expected hours to complete the contract.

The recoverable amount of trade receivables is reviewed on an ongoing basis. Where there is reasonable doubt that the full amount of a trade receivable will not be recovered, a provision for impairment is recognised.

Interest Revenue

Interest is recognised using the effective interest method.

All revenue is stated net of the amount of goods and services tax (GST).

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(p) Trade and Other Receivables

Trade and other receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Refer to Note 1(h) for further discussion on the determination of impairment losses.

(q) Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the entity that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(r) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

(s) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payable are stated inclusive of GST.

Cash flows in the consolidated statement of cash flows are included on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(t) Comparative Amounts

Comparatives are consistent with prior years, unless otherwise stated.

Where a change in comparatives has also affected the opening retained earnings previously presented in a comparative period, an opening consolidated statement of financial position at the earliest date of the comparative period has been presented.

(u) Critical Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

These estimates and judgements are based on the best information available at the time of preparing the financial statements, however as additional information is known then the actual results may differ from the estimates.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

(u) Critical Accounting Estimates and Judgments continued

Key estimates - impairment of tax losses

Deferred tax assets include amounts related to unused tax losses. At each balance date the directors review the likelihood that the Group be able to generate sufficient future taxable profits to utilise these tax losses, and adjusts deferred tax assets accordingly. Further information regarding the conditions under which these tax losses may be utilised can be found in Note 27.

Key estimates - impairment of goodwill

Included in non-current intangible assets of the Group is Goodwill. At each balance date the directors review whether Goodwill has suffered any impairment in accordance with the accounting policy stated in Note 1(j).

Key judgments - provision for impairment of receivables

The value of the provision for impairment of receivables is estimated by considering the ageing of receivables, communication with the debtors and prior history.

(v) New Accounting Standards issued but not yet effective and not been adopted early by the Group

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods. The Group has decided not to early adopt these Standards. The following table summarises those future requirements, and their impact on the Group where the standard is relevant:

Pronouncement	Interpretation 23 Uncertainty over Income Tax Treatments and AASB 2017 – 4 Amendments to Australian Accounting Standards – Uncertainty over Income Tax Treatments
Nature of the Change in Accounting Policy	Interpretation 23 applies to income taxes within the scope of AASB 112 only, which are those based on profits, such as, company tax. Taxes that are not based on profits (for example GST or mining royalties) are outside the scope of this Interpretation. Interpretation 23 should be applied consistently to the recognition of both current and deferred taxes. Interpretation 23 clarifies how to apply the recognition and measurement requirements in AASB 112 where there is uncertainty over the appropriate income tax treatment of a transaction or class of transactions, and about whether a treatment will be accepted by a tax authority.
Effective Date	Annual reporting periods beginning on or after 1 January 2019
Expected Impact on the Financial Statements	The basis for recognising tax liabilities and associated disclosures may change based on the assessment of whether it is likely that the proposed tax treatment to be included in the entity's tax return would be accepted by the appropriate authority.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

Pronouncement	AASB 2018-1 Amendments to Australian Accounting Standards – Annual Improvements Cycle 2015 – 2017 Cycle
Nature of the Change in Accounting Policy	This standard make the following amendments to existing standards: AASB 3 – clarifies that an entity remeasures its previously held interest in a joint operation when it obtains control of the business AASB 11 -clarifies that an entity does not remeasure its previously held interest in a joint operation when it obtains joint control of the business AASB 112 – clarifies that an entity accounts for all income tax consequences of dividend payments according to where the entity originally recognised the past transactions or events that generated the distributable profits and AASB 123 – clarifies that an entity treats any borrowing originally made to develop a qualifying asset as part of generally borrowings when the asset is ready for its intended use or sale.
Effective Date	Annual reporting periods beginning on or after 1 January 2019.
Expected Impact on the Financial Statements	No impact expected.
Pronouncement	AASB 2017-1 Amendments to Australian Accounting Standards – Transfers of Investment Property, Annual Improvements 2014-2016 Cycle and Other Amendments [AASB 1, AASB 128, AASB 140]
Nature of the Change in Accounting Policy	This standard makes the following amendments to existing standards: AASB 1 - deletes some short-term exemptions for first-time adopters that were available only for reporting periods that have passed and to add exemptions arising from AASB Interpretation 22 Foreign Currency Transactions and Advance Consideration; AASB 128 - clarify that: (i) a venture capital organisation, or a mutual fund, unit trust and similar entities may elect, at initial recognition, can measure investments in an associate or joint venture at fair value through profit or loss separately for each associate or joint venture; and (ii) an entity that is not an investment entity may elect to retain the fair value measurement applied by its associates and joint ventures that are investment entities when applying the equity method. This choice is available separately for each investment entity associate or joint venture; and AASB 140 - reflects the principle that an entity transfers a property to, or from, investment property when, and only when, there is a change in use of the property supported by evidence that a change in use has occurred.
Effective Date	Annual reporting periods beginning on or after 1 January 2018
Expected Impact on the Financial Statements	No impact expected.

1 Summary of Significant Accounting Policies continued

Pronouncement	AASB 15 Revenue from contracts with customers AASB 2014-5 Amendments to Australian Accounting Standards arising from AASB 15 AASB 2015-8 Amendments to Australian Accounting Standards – Effective date of AASB 15 AASB 2016-3 Amendments to Australian Accounting Standards – Clarifications to AASB 15 AASB 2016-7 Amendments to Australian Accounting Standards – Deferral of AASB 15 for NFP entities AASB 2016-8 Amendments to Australian Accounting Standards – Australian Implementation Guidance for NFP entities
Nature of the Change in Accounting Policy	AASB 15 introduces a five step process for revenue recognition with the core principle of the new Standard being for entities to recognise revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the entity expects to be entitled in exchange for those goods or services. Accounting policy changes will arise in timing of revenue recognition, treatment of contracts costs and contracts which contain a financing element. AASB 15 will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements.
Effective Date	Annual reporting periods beginning on or after 1 January 2018
Expected Impact on the Financial Statements	The changes in revenue recognition requirements in AASB 15 is not likely to cause changes to the timing and amount of revenue recorded in the financial statements. No impact expected.
Pronouncement	AASB 2017-6 Amendments to Australian Accounting Standards – Prepayment Features with Negative Compensation
Nature of the Change in Accounting Policy	This standard amends AASB 9 to permit entities to measure at amortised cost or fair value through other comprehensive income certain financial assets that would otherwise have contractual cash flows that are solely payments of principal and interest but do not meet the condition only a result of prepayment feature (subject to meeting other conditions, such as nature of the business model relevant to the financial asset). Otherwise the financial asset would be measured at fair value through profit or loss.
Effective Date	Annual reporting periods beginning on or after 1 January 2019
Expected Impact on the Financial Statements	No impact expected.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

Pronouncement	AASB 9 Financial Instruments AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 (December 2009) AASB 2012-6 Amendments to Australian Accounting Standards – Mandatory Effective Date of AASB 9 and Transitional Disclosures AASB 2013-9 Amendments to Australian Accounting Standards – Conceptual Framework, Materiality and Financial Instruments AASB 2014-1 Amendments to Australian Accounting Standards AASB 2014-7 Amendments to Australian Accounting Standards arising from AASB 9 AASB 2014-8 Amendments to Australian Accounting Standards arising from AASB 9
Nature of the Change in Accounting Policy	Significant revisions to the classification and measurement of financial assets, reducing the number of categories and simplifying the measurement choices, including the removal of impairment testing of assets measured at fair value. The amortised cost model is available for debt assets meeting both business model and cash flow characteristics tests. All investments in equity instruments using AASB 9 are to be measured at fair value. Amends measurement rules for financial liabilities that the entity elects to measure at fair value through profit and loss. Changes in fair value attributable to changes in the entity's own credit risk are presented in other comprehensive income. AASB 9 includes a new approach to hedge accounting that is intended to more closely align hedge accounting with risk management activities undertaken by entities when hedging financial and non-financial risks. Some of the key changes from AASB 139 are as follows: - to allow hedge accounting of risk components of non-financial items that are identifiable and measurable (many of which were prohibited from being designated as hedged items under AASB 139); - changes in the accounting for the time value of options, the forward element of a forward contract and foreign-currency basis spreads designated as hedging instruments; and - modification of the requirements for effectiveness testing (including removal of the 'bright-line' effectiveness test that offset for hedging must be in the range 80-125%). Revised disclosures about an entity's hedge accounting have also been added to AASB 7 Financial Instruments: Disclosures. Impairment of assets is now based on expected losses in AASB 9 which requires entities to measure: - the 12-month expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or - full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).
Effective Date	Annual reporting periods beginning on or after 1 January 2018
Expected Impact on the Financial Statements	No impact expected.

Notes to the Financial Statements

For the Year Ended 30 June 2018

1 Summary of Significant Accounting Policies continued

Pronouncement	Interpretation 22 Foreign Currency Transactions and Advance Consideration
Nature of the Change in Accounting Policy	This Interpretation addresses how to determine the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration in a foreign currency
Effective Date	Annual reporting periods beginning on or after 1 January 2018
Expected Impact on the Financial Statements	This interpretation provides clarification in relation to advance consideration paid on the purchase of an asset and should be applied if an entity has this transaction. There is an option for prospective application and therefore unlikely to have any impact on previously report financial position or performance.
Pronouncement	AASB 16 Leases
Nature of the Change in Accounting Policy	AASB 16 will cause the majority of leases of an entity to be brought onto the statement of financial position. There are limited exceptions relating to short-term leases and low value assets which may remain off-balance sheet. The calculation of the lease liability will take into account appropriate discount rates, assumptions about lease term and increases in lease payments. A corresponding right to use asset will be recognised which will be amortised over the term of the lease. Rent expense will no longer be shown, the profit and loss impact of the leases will be through amortisation and interest charges.
Effective Date	Annual reporting period beginning on or after 1 January 2019
Expected Impact on the Financial Statements	Whilst the impact of AASB 16 has not yet been fully quantified, the entity currently has \$415,250 worth of operating leases which we anticipate will be brought onto the statement of financial position through the recognition of a right to use asset and associated lease liability. Interest and amortisation expense will increase and rental expense will decrease.

5 Discontinued Operations

On 4 May 2017 the Group announced its decision to sell the basis2 product, thereby discontinuing its operations in the Legacy business segment.

The division was sold on 25 May 2017 and the product disposed of is reported in these consolidated financial statements as a discontinued operation.

The group also disposed of the company Promadis Pty Ltd on 1 July 2017, thereby discontinuing its operations in the Legacy business segment.

Financial information relating to the discontinued operations to the date of disposal is set out below.

The financial performance of the discontinued operation to the date of sale which is included in profit / (loss) from discontinued operations is as follows:

Revenue	-	2,156,697
Expenses	-	(1,622,573)
Profit before income tax	-	534,124
Profit attributable to members of the parent entity	-	534,124
Income tax expense	-	(164,671)
Total profit after tax attributable to the discontinued operation	-	369,453

Gain on sale of the division before income tax	3,125	2,506,702
Income tax expense	(674)	(699,260)
Gain on sale of the division after income tax	2,451	1,807,442

Total profit from discontinued operations	2,451	2,176,895
---	-------	-----------

The net cash flows of the discontinuing division which have been incorporated into the consolidated statement of cash flows are as follows:

Details of the sale

Consideration received	-	2,078,393
Acquisition costs	-	(243,298)
Net proceeds from basis2 sale	-	1,835,095

6 Assets and liabilities held for sale

The group disposed of the company Promadis Pty Ltd on 1 July 2017. The following assets and liabilities were reclassified as held for sale in relation to the discontinued operation as at 30 June 2017.

Non-current assets held for sale

Property, plant and equipment	-	496
Trade and other receivables	-	73,488
Cash	-	24,249
Other assets	-	23,392
Total non-current assets held for sale	-	121,625

The liabilities associated with non-current assets held for sale are:

Associated liabilities

Trade creditors	-	230
Employee benefits	-	23,371
Other liabilities	-	101,400
Total	-	125,001

7 Key Management Personnel Disclosures

Key management personnel remuneration included within employee expenses for the year is shown below:

Short-term employee benefits	1,768,661	1,312,892
Post-employment benefits	142,770	106,809
	1,911,431	1,419,701

The Remuneration Report contained in the Directors' Report contains details of the remuneration paid or payable to each member of the Group's Key Management Personnel for the year ended June 2018.

8 Remuneration of Auditors

Remuneration of the auditor of the parent entity, Grant Thornton, for:

- auditing or reviewing the financial statements	92,732	81,800
- taxation services	29,300	28,300

Remuneration of other auditors of subsidiaries for:

- auditing or reviewing the financial statements of subsidiaries	10,419	10,082
Total	132,451	120,182

9 Dividends		
Total dividends per share declared and paid	-	2.00
No Final 2017 dividend paid (2016: 2.0 cents)	-	1,280,196

No proposed final dividend for 2018 has been declared.

Franking account

The franking credits available for subsequent financial years at a tax rate of 27.5%	111,024	209,818
--	----------------	---------

The above available balance is based on the dividend franking account at year-end adjusted for:

- (a) Franking credits that will arise from the payment of the current tax liabilities;
- (b) Franking debits that will arise from the payment of dividends recognised as a liability at the year end;
- (c) Franking credits that will arise from the receipt of dividends recognised as receivables at the end of the year.

The impact on the franking credit of the dividends proposed after the end of the reporting period is to reduce it by zero (2017: zero).

The ability to use the franking credits is dependent upon the Company's future ability to declare dividends.

10 Earnings per Share

(a) Reconciliation of earnings to profit or loss from continuing operations		
Loss after income tax	(793,837)	(221,136)
Non-controlling interest	61,192	19,760
Loss after income tax attributable to the owners of Prophecy International Holdings Limited	(732,645)	(201,376)
(b) Reconciliation of earnings to profit or loss from discontinuing operations		
Profit from discontinuing operations	2,451	2,176,895
Profit attributable to non-controlling equity interest	-	-

NON-CURRENT		
Deposits	24	24
Other receivables	7,593	7,296
Total non-current trade and other receivables	7,617	7,320

The following table details the Group's trade and other receivables exposure to credit risk (prior to collateral and other credit enhancements) with ageing analysis and impairment provided for thereon. Amounts are considered as 'past due' when the debt has not been settled, within the terms and conditions agreed between the Group and the customer or counter party to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there is objective evidence indicating that the debt may not be fully repaid to the Group.

The balances of receivables that remain within initial trade terms (as detailed in the table) are considered to be of high credit quality.

	Gross amount	Past due and impaired	< 30	31-60	61-90	> 90	Within initial trade terms

Significant judgements and assumptions

The Group holds 93.1% of the ordinary shares and voting rights in Prophecy Americas Inc. One other investor holds 6.9%.

Management has reassessed its involvement in Prophecy Americas' Inc in accordance with AASB 10's revised control definition and guidance. It has concluded that they have control over Prophecy Americas' Inc. In making its judgement, management considered the Group's voting rights, the relative size and dispersion of the voting rights held by the other shareholder and the extent of recent participation by this shareholder in general meetings.

Notes to the Financial Statements

For the Year Ended 30 June 2018

16 Intangible Assets continued

Intangible assets, other than goodwill have finite useful lives. The current amortisation charges for intangible assets are included under depreciation and amortisation expense in the consolidated statement of profit or loss and other comprehensive income. Goodwill has an indefinite life and is not amortised.

Intellectual property with a carrying value of \$8,567 (2017: \$111,426) relates to copyright in Intersect Alliance International Pty Ltd's software products.

Intellectual property with a carrying value of \$9,600,000 (2017: \$10,400,000) relates to copyright in eMite Pty Ltd's software products. These products have a remaining amortisation period of 12 years.

Goodwill with a carrying value of \$2,126,815 (2017: \$2,126,815), determined on a value in use basis has been allocated to the Intersect Alliance International Pty Ltd segment. Value in use has been determined by reference to the net present value of cash flow projections over the next 4 years, discounted at a rate of 12%. It is assumed that revenue will continue to grow at 5% rates over the four years of the model, and this will result in 2% profit growth over the cycle. Management has based these assumptions on the targets set for the business.

Goodwill with a value of \$2,981,455 (2017: \$2,981,455), determined on a value in use basis has been allocated to the eMite Pty Ltd segment. Value in use has been determined by reference to the net present value of cash flow projections over the next 4 years, discounted at a rate of 12%. It is assumed that revenue will grow by 35% in 2018/19, and then by 65-75% per annum for the remaining years of the projection as the compounding effect of annual subscription software revenue is accounted for as revenue. Management has based these assumptions on the targets set for the business.

(a) Ordinary shares

	No.	No.
At the beginning and end of the reporting period	<u>64,009,784</u>	<u>64,009,784</u>

The holders of ordinary shares are entitled to participate in dividends and the proceeds on winding up of the Company. On a show of hands at meetings of the Company, each holder of ordinary shares has one vote in person or by proxy, and upon a poll each share is entitled to one vote.

The Company does not have authorised capital or par value in respect of its shares.

(b) Capital Management

The key objectives of the Company when managing capital is to safeguard its ability to continue as a going concern and maintain optimal benefits to stakeholders. The Company defines capital as its equity and net debt.

There has been no change to capital risk management policies during the year.

The Company manages its capital structure and makes funding decisions based on the prevailing economic environment and has a number of tools available to manage capital risk. These include maintaining a diversified debt portfolio, the ability to adjust the size and timing of dividends paid to shareholders and the issue of new shares.

The Board monitors a range of financial metrics including return on capital employed and gearing ratios. A key objective of the Company's capital risk management is to maintain compliance with the covenants attached to the Company's debts. Throughout the year, the Company has complied with these covenants.

22 Capital and Leasing Commitments

Operating Leases

Minimum lease payments under non-cancellable operating leases:

- not later than one year	252,962	385,014
- between one year and five years	162,288	414,097
	<u>415,250</u>	<u>799,111</u>

Operating leases have been taken out for premises in Adelaide, Sydney and America.

The Adelaide lease terminates on 30 June 2020.

The Sydney lease terminates on 30 September 2018.

The Prophecy Americas' Inc. lease terminates on 28 February 2019.

23 Contingencies

Contingent Liabilities

Prophecy International Pty Ltd, a controlled entity, has provided guarantees to third parties in respect of property lease rentals. The maximum amount payable is \$144,618 (2017: \$144,618).

Details of leases can be found in Note 22. The guarantees are secured by a fixed charge over Prophecy International Pty Ltd's bank balances.

No material losses are anticipated in respect to this contingency.

25 Events Occurring After the Reporting Date

No matters or circumstances have arisen since the end of the financial year which significantly affected or could significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

26 Reserves and retained surplus

(a) Foreign currency translation reserve

Exchange differences arising on translation of the foreign controlled entity are recognised in other comprehensive income - foreign currency translation reserve. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.

(b) Share option reserve

This reserve records the cumulative value of employee service received for the issue of share options. When the option is exercised the amount in the share option reserve is transferred to share capital.

27 Tax

Current Tax Asset

Income tax receivable	347,132	-

28 Operating Segments

Segment information

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision maker) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of product category and service offerings as the diversification of the Group's operations inherently have notably different risk profiles and performance assessment criteria. Operating segments are therefore determined on the same basis.

Basis of accounting for purposes of reporting by operating segments

(a) Accounting policies adopted

Unless stated below, all amounts reported to the Board of Directors, being the chief operating decision maker with respect to operating segments, are determined in accordance with accounting policies that are consistent with those adopted in the annual financial statements of the Group.

Income tax expense is calculated based on the segment operating net profit using a notional charge of 30%. The effect of taxable or deductible temporary differences is not included for internal reporting purposes.

An internally determined transfer price is set for all inter-entity sales. This price is reset quarterly and is based on what would be realised in the event the sale was made to an external party at arm's-length. All such transactions are eliminated on consolidation of the Group's financial statements.

Corporate charges are allocated to reporting segments based on the segments' overall proportion of revenue generation within the Group. The Board of Directors believes this is representative of likely consumption of head office expenditure that should be used in assessing segment performance and cost recoveries.

Inter-segment loans payable and receivable are initially recognised at the consideration received/to be received net of transaction costs. If inter-segment loans receivable and payable are not on commercial terms, these are not adjusted to fair value based on market interest rates.

(b) Segment assets

Where an asset is used across multiple segments, the asset is allocated to the segment that receives the majority of economic value from the asset. In the majority of instances, segment assets are clearly identifiable on the basis of their nature and physical location.

(c) Segment liabilities

Liabilities are allocated to segments where there is direct nexus between the incurrence of the liability and the operations of the segment. Borrowings and tax liabilities are generally considered to relate to the Group as a whole and are not allocated. Segment liabilities include trade and other payables and certain direct borrowings.

(d) Unallocated items

The following items of revenue, expense, assets and liabilities are not allocated to operating segments as they are not considered part of the core operations of any segment:

- deferred tax assets and liabilities
- current tax liabilities
- intangible assets

30 Financial Risk Management

The main risks the Group is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate risk, foreign currency risk and equity price risk.

The Group's financial instruments consist mainly of deposits with banks, accounts receivable and payable.

The totals for each category of financial instruments, measured in accordance with AASB 139 as detailed in the accounting policies to these financial statements, are as follows:

Financial Assets

Cash and cash equivalents	11	2,599,684	3,316,579
Financial assets at fair value through profit or loss			
Loans and receivables	12	2,752,715	1,907,070
Total financial assets		5,352,399	5,223,649

Financial Liabilities

Financial liabilities at amortised cost			
- Trade and other payables	18	1,068,306	891,643
Total financial liabilities		1,068,306	891,643

Notes to the Financial Statements

For the Year Ended 30 June 2018

30 Financial Risk Management continued

Objectives, policies and processes

The Board of Directors have overall responsibility for the establishment of the Group's financial risk management framework. This includes the development of policies covering specific areas such as foreign exchange risk, interest rate risk, credit risk and the use of derivatives.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The day-to-day risk management is carried out by the Group's finance function under policies and objectives which have been approved by the Board of Directors. The Chief Financial Officer has been delegated the authority for designing and implementing processes which follow the objectives and policies. This includes monitoring the levels of exposure to interest rate and foreign exchange rate risk and assessment of market forecasts for interest rate and foreign exchange movements.

The Board of Directors receives monthly reports which provide details of the effectiveness of the processes and policies in place.

Mitigation strategies for specific risks faced are described below:

Specific financial risk exposures and management

The main risks the Group is exposed to through its financial instruments are credit risk, liquidity risk and market risk relating to interest rate risk, foreign currency risk and equity price risk.

(a) Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group and arises principally from the Group's receivables.

The group has a material credit risk exposure to the Commonwealth Bank of Australia and National Australia Bank, although the risk of a material loss from this exposure is considered to be very low.

The consolidated group does not hold any collateral in respect of any financial instruments.

There is no provision for impairment of receivables at 30 June 2018 or at 30 June 2017.

Although trade and other receivables are all unrated, no indicators of impairment have been found at 30 June 2018.

The group at present has two types of customers:

The first consists of small to medium organisations that renew their software licences annually. These organisations have been clients for many years and the consolidated group has experienced little bad debt history from these clients.

The second are new licence/service clients who in the main are large government organisations, and it is the consolidated group's policy to subject these organisations to credit verification procedures.

It is the consolidated group's policy to review all outstanding accounts monthly, and any overdue accounts are contacted to ascertain their payment intentions.

Notes to the Financial Statements

For the Year Ended 30 June 2018

30 Financial Risk Management continued

(b) Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk through the following mechanisms:

- holding only creditor debt;
- no bank overdraft facilities;
- maintain a significant cash balance to offset any downturn in a quarter's trade performance;
- cash balances are spread over a mixture of on-call accounts and bank term deposits to maximise operational flexibility and interest receivable;
- foreign currency receipts are remitted to Australia regularly, converted to Australian dollars and banked in the abovementioned accounts to maximise interest receivable;
- cash flow projections are ascertained from the consolidated group's policy of reviewing all its business operations in detail on a quarterly basis, and the board agreeing the revised profit and cash outlooks for the year, and measuring actual performance against these on a monthly basis.

	Within 1 Year		1 to 5 Years		Over 5 Years		Total	
	2018	2017	2018	2017	2018	2017	2018	2017
	\$	\$	\$	\$	\$	\$	\$	\$
Financial assets - cash flows realisable								
Cash and cash equivalents	2,599,684	3,316,579	-	-	-	-	2,599,684	3,316,579
Trade, term and loans receivables	2,745,098	1,899,750	7,617	7,320	-	-	2,752,715	1,907,070
Total anticipated outflows	5,344,782	5,216,329	7,617	7,320	-	-	5,352,399	5,223,649
Financial liabilities due for payment								
Trade and other payables	1,068,306	891,643	-	-	-	-	1,068,306	891,643

The timing of expected outflows is not expected to be materially different from contracted cashflows.

Financial assets pledged as collateral

No financial assets have been pledged as security for any financial liability.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

Foreign exchange risk

Exposure to foreign exchange risk may result in the fair value or future cash flows of a financial instrument fluctuating due to movement in foreign exchange rates of currencies in which the Group holds financial instruments which are other than the AUD functional currency of the Group.

With instruments being held by overseas operations, fluctuations in UK pounds and US dollars may impact on the Group's financial results unless those exposures are appropriately hedged.

Currently there are no hedges in place.

Notes to the Financial Statements

For the Year Ended 30 June 2018

30 Financial Risk Management continued

The following table shows the foreign currency risk on the financial assets and liabilities of the Group's operations denominated in currencies other than the functional currency of operations.

	Net financial assets /(liabilities) in AUD \$					Total AUD \$
	USD	EUR	GBP	SGD	NZD	
2018	\$	\$	\$	\$	\$	\$
Consolidated						
Trade and other receivables	1,645,935	46,996	313,930	64,119	20,170	2,091,150
Trade and other payables	(167,901)	-	(10,650)	-	-	(178,551)
2017						
Consolidated						
Trade and other receivables	1,246,119	131,871	89,270	-	-	1,467,260
Trade and other payables	(16,621)	-	(10,198)	-	-	(26,819)

Forward exchange contracts

There were no outstanding forward exchange contracts as at 30 June 2018 or 30 June 2017.

Foreign currency risk sensitivity analysis

The following table illustrates the sensitivity of the net result for the year and equity in regards to the Company's financial assets and financial liabilities and the US Dollar – Australian Dollar exchange rate, UK pounds – Australian Dollar exchange rate and the Euro - Australian Dollar exchange rate. There have been no changes in the assumptions calculating this sensitivity from prior years.

The year end rate is 0.74 US dollars, 0.56 UK pounds and 0.63 Euros.

If the Australian Dollar had strengthened and weakened against the US dollar, UK pound and Euro by 10%, impacts would be as follows:

	2018		2017	
	+10%	-10%	+10%	-10%
USD				
Net results	(55,492)	67,823	(89,689)	109,620
Equity	(112,293)	137,247	(53,518)	65,411
GBP				
Net results	(1,376)	1,681	(7,754)	9,477
Equity	(5,185)	6,338	(6,544)	7,998
Euro				
Net results	(6,986)	8,538	(60)	73
Equity	-	-	-	-

Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Company's exposure to foreign currency risk.

Notes to the Financial Statements

For the Year Ended 30 June 2018

30 Financial Risk Management continued

Net fair values

Fair value estimation

The fair values of financial assets and financial liabilities are presented in the following table and can be compared to their carrying values as presented in the consolidated statement of financial position. Fair values are those amounts at which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fair values derived may be based on information that is estimated or subject to judgment, where changes in assumptions may have a material impact on the amounts estimated. Areas of judgment and the assumptions have been detailed below. Where possible, valuation information used to calculate fair value is extracted from the market, with more reliable information available from markets that are actively traded. In this regard, fair values for listed securities are obtained from quoted market bid prices. Where securities are unlisted and no market quotes are available, fair value is obtained using discounted cash flow analysis and other valuation techniques commonly used by market participants.

	2018		2017	
	Net Carrying Value	Net Fair value	Net Carrying Value	Net Fair value

Notes to the Financial Statements

For the Year Ended 30 June 2018

31 Parent entity

The following information has been extracted from the books and records of the parent, Prophecy International Holdings Limited and Controlled Entities and has been prepared in accordance with Accounting Standards.

The financial information for the parent entity, Prophecy International Holdings Limited and Controlled Entities has been prepared on the same basis as the consolidated financial statements except as disclosed below.

Investments in subsidiaries, associates and joint ventures

Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the financial statements of the parent entity. Dividends received from associates are recognised in the parent entity profit or loss, rather than being deducted from the carrying amount of these investments.

Tax consolidation legislation

Prophecy International Holdings Limited and Controlled Entities and its wholly-owned Australian subsidiaries have formed an income tax consolidated group.

Each entity in the tax consolidated group accounts for their own current and deferred tax amounts. These tax amounts are measured using the 'stand-alone taxpayer' approach to allocation.

Current tax liabilities (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the parent entity.

The tax consolidated group has entered into a tax funding agreement whereby each entity within the group contributes to the income tax payable by the Group in proportion to their contribution to the Group's taxable income. Differences between the amounts of net tax assets and liabilities derecognised and the net amounts recognised pursuant to the funding agreement are recognised as either a contribution by, or distribution to the head entity.

Directors' Declaration

For the Year Ended 30 June 2018

The directors of the Company declare that:

1. the consolidated financial statements and notes for the year ended 30 June 2018 are in accordance with the *Corporations Act 2001* and:
 - a. comply with Accounting Standards, which, as stated in basis of preparation Note 1 to the consolidated financial statements, constitutes explicit and unreserved compliance with International Financial Reporting Standards (IFRS); and
 - b. give a true and fair view of the financial position and performance of the consolidated group;
2. the Chief Executive Officer and Chief Finance Officer have given the declarations required by Section 295A that:
 - a. the financial records of the Company for the financial year have been properly maintained in accordance with section 286 of the *Corporations Act 2001*;
 - b. the consolidated financial statements and notes for the financial year comply with the Accounting Standards; and
 - c. the consolidated financial statements and notes for the financial year give a true and fair view.
3. in the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Independent Auditor's Report

To the Members of Prophecy International Holdings Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Prophecy International Holdings Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and the Directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a giving a true and fair view of the Group's financial position as at 30 June 2018 and of its performance for the year ended on that date; and
- b complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Revenue recognition Notes 1 & 2	
During the period ended 30 June 2018, the Group recognised \$10,674,488 in revenue.	Our procedures included, amongst others:
The Group generates revenue primarily from computer software license agreements. The agreements generally span a year and contain initial and ongoing licensing and maintenance fees. Determining the appropriate allocation of the contract fees requires a degree of management judgement.	• Documenting the processes and assessing whether internal controls are designed effectively relating to revenue processing and recognition; • Reviewing management's revenue recognition policies for each revenue stream against the requirements of AASB 118 <i>Revenues</i>; • Performing analytical procedures to understand the movements and trends in revenue and comparing against auditor expectations; • Selecting a sample of sales transactions and performing the following procedures: - Tracing to supporting documentation to assess whether revenue was recognised in the appropriate period; - Determining if invoices were issued in line with the terms of the sales contracts; and - Agreeing the portion of the sales transaction recognised in work in progress and unearned income; • Selecting a sample of transactions occurring just prior to and after year end, and tracing to supporting documentation to assess whether revenue transactions were recorded in the correct period; and • Assessing the adequacy of the Group's disclosures within the financial statements.

Recoverable amount of intangible assets

Notes 1 & 16

At 30 June 2018, the carrying value of intangible assets was \$16,734,346. Of this balance, \$2,981,455 of goodwill and \$9,600,000 of intangibles were recognised relating to the eMite business segment. This represents a significant portion of the total Group's intangible assets.

In accordance with AASB 136 *Impairment of Assets*, management is required to test intangible assets with indefinite useful lives and goodwill for impairment at least annually.

Management has assessed that eMite Pty Ltd is one of three cash-generating units (CGUs), and have allocated goodwill and intangible assets to this CGU as part of the acquisition in the prior period.

Management has tested for impairment by comparing the carrying amounts of the CGUs with their recoverable amounts and has determined that no impairment existed at 30 June 2018.

Recoverable amounts were determined on a value in use basis. Value in use was determined by management by estimating the future cash inflows and outflows to be derived from the continuing use of the assets in the eMite CGU and applying the appropriate discount rate to those future cash flows.

This is a key audit matter due to the judgements and estimates required in determining the appropriate CGUs, allocating assets to CGUs and calculating the recoverable amount on a value in use basis.

Our procedures included, amongst others:

- Documenting the processes and assessing whether internal controls are designed effectively relating to impairment considerations;
- Evaluating management's assessment of CGUs and whether they meet the definition as prescribed by AASB 136;
- Obtaining management's latest impairment assessment and discounted cash flow model and performing the following procedures:
 - Identifying the key assumptions in the model;
 - Obtaining evidence to support the key assumptions;
 - Performing sensitivity analysis on the key assumptions;
 - Testing the mathematical accuracy of the model;
 - Testing management's ability to perform accurate estimates by comparing historical forecasts to current year performance;
 - Involving an auditor's expert to assess the reasonableness of the discount rate; and
- Assessing the adequacy of the Group's disclosures within the financial statements.

Capitalised development costs

Notes 1 & 16

At 30 June 2018 the carrying value of capitalised development costs was \$2,017,509.

In accordance with AASB 138 *Intangible Assets*, capitalised development costs must meet certain development criteria in order to be classified as an intangible asset. Assessing whether this criteria has been met requires an element of management judgement.

This area is a key audit matter due to the degree of management judgement involved.

Our procedures included, amongst others:

- Documenting the processes and assessing whether internal controls are designed effectively relating to capitalised development costs;
- Reviewing management's capitalisation policy to against the requirements of AASB 138;
- Agreeing a sample of additions to underlying supporting documentation;
- Evaluating management's assessment of future economic benefits to be derived from the capitalised development costs and challenging assumptions made by management;
- Recalculating the amortisation expense recognised for the year;
- Assessing the reasonableness of the amortisation period; and
- Assessing the adequacy of the Group's disclosures within the financial statements.

Information other than the financial report and auditor's report thereon

The Directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2018, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the financial report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf. This description forms part of our auditor's report.

Report on the remuneration report

Opinion on the remuneration report

We have audited the Remuneration Report included in the Directors' report for the year ended 30 June 2018. In our opinion, the Remuneration Report of Prophecy International Holdings Limited, for the year ended 30 June 2018 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
