## **ASX ANNOUNCEMENT**

### **Health Plan Adopts SOZO® for Monitoring CHF Patients**

**Brisbane, Australia and Carlsbad, CA, -** ImpediMed Limited (ASX: IPD), a global provider of medical technology to non-invasively measure, monitor and manage tissue composition and fluid status using bioimpedance spectroscopy (BIS), is pleased to announce that Golden State Medicare Health Plan has made an initial purchase of ten SOZO® digital health platforms as well as ongoing monthly subscription service fees for the management of heart failure patients in the home.

Golden State Medicare Health Plan is a Health Maintenance Organization (HMO) that specialises in the care of seniors. An HMO is an organisation that provides health coverage for a monthly or annual fee.

The management team at Golden State Medicare Health Plan is dedicated to optimising the health of Medicare enrollees while reducing the burden of health care costs. They are focused on efficient operations, streamlined processes and minimal waste to provide the most affordable services and the most enhanced healthcare benefits to their members.

Richard Carreon, Managing Director and CEO of ImpediMed says, "We are very pleased to announce the sale of the first SOZO® portable digital health platforms specifically for monitoring heart failure patients. This marks a significant milestone for the company as a next step in our evolution to a digital health technology company."
