GetSwift Announces Technology Expansion Plan

Opens New Development Center in Denver, Colorado

GetSwift Limited (ASX: GSW) (“GetSwift” or “the Company”) announced today plans to expand its technology team with the opening of a new software development center in Denver, Colorado, creating jobs in fields including machine learning, artificial intelligence, product, design, and testing.

“GetSwift is excited to create new jobs in Denver, Colorado,” said Dennis Noto, GetSwift’s Chief Technology Officer. “Today’s announcement marks an acceleration of the build-out of GetSwift’s global technology infrastructure and human capital. Given market demand, customer pipeline, and our product roadmap we look forward to expanding our technology team in the United States. Thank you to our partners in the city for welcoming us.”

As part of the technology expansion, the Company has hired a Vice President of Architecture, App, and Data and a Vice President of Architecture Infrastructure and Artificial Intelligence. As part of the technology expansion the product function will now report to the CTO. With this reorganization Hal Danziger has left the Company to pursue other opportunities.
