REDOMICILIATION: REGISTRATION OF THE SCHEME BOOKLET WITH ASIC

Boart Longyear Limited (ASX: BLY) (the **Company** or **Boart Longyear**) the world's leading supplier of drilling services, equipment and tooling for mining and drilling companies, is pleased to confirm that the Company has today registered with the Australian Securities and Investments Commission a scheme booklet in relation to the Re-domiciliation (the **Scheme Booklet**).

If the Re-domiciliation is implemented, eligible Boart Longyear shareholders will acquire the same proportionate interests they presently hold in Boart Longyear in a new holding company incorporated in British Columbia, Canada, Boart Longyear Incorporated (**Boart Longyear 'Canada'**). Boart Longyear 'Canada' will become listed on ASX (in place of the Company) and shareholders will be able to trade their shares (in the form of CDIs) in Boart Longyear 'Canada' on ASX.

A full copy of the Scheme Booklet, which includes an Independent Expert's Report and Notice of Meeting for the Scheme Meeting, is attached to this announcement.

In making its unanimous decision to support the Re-domiciliation the Boart Longyear Board has taken into account what it considers to be the advantages, disadvantages and key risks associated with the Re-domiciliation. Section **Error! Reference source not found.** of the Scheme Booklet sets out these matters in some details.

The Independent Expert, Grant Thornton Corporate Finance Pty Ltd, has reviewed the Scheme Booklet and concluded that **the Re-domiciliation is in the best interests of Boart Longyear Shareholders.**

Copies of the Scheme Booklet and Proxy Form will be sent to Boart Longyear shareholders on or around Tuesday, 6 November 2018 (and those shareholders who have previously nominated an electronic means of notification to Boart Longyear's share registry will receive an email where they can download the Scheme Booklet and lodge their proxy online).

The Shareholder meeting is currently scheduled to take place on December 6, 2018 at the Adelaide Convention Centre. Assuming receipt of the requisite Court and Shareholder approvals the Scheme would become implemented and trading in Boart Longyear 'Canada' on ASX would begin on or about January 4, 2019.

CHAIRMAN'S LETTER

26 October 2018

Dear Boart Longyear Shareholder,

I am pleased to invite you to attend the Scheme Meeting to consider and vote on the proposal to transfer Boart Longyear's domicile from Australia to Canada (the **Re-domiciliation**).

As announced on 23 August 2018, the decision to re-domicile to Canada reflects the Company's commitment under the Restructuring Support Agreement to take all requisite steps to re-domicile its business to the United States (State of Delaware), the United Kingdom or Canada as soon as possible after the implementation of the 2017 Recapitalisation, unless Boart Longyear determined jointly with the Major Shareholders that the Re-domiciliation would not be in the best interests of Boart Longyear

Canada was chosen after a review of the benefits and disadvantages of remaining incorporated in Australia as compared to a re-domicile to each of Canada, the United Kingdom, and the United States.

Overview of the Re-domiciliation

Under the Re-domiciliation eligible Boart Longyear Shareholders will acquire the same proportionate interests they presently hold in Boart Longyear in a new holding company incorporated in British Columbia, Canada, Boart Longyear Incorporated (**Boart Longyear 'Canada'**). Boart Longyear 'Canada' will become listed on ASX and Boart Longyear will become a wholly owned subsidiary of Boart Longyear 'Canada'.

To effect this Re-domiciliation, a requisite majority of Boart Longyear Shareholders must vote to approve the Scheme at a scheme meeting to be held on 6 December 2018 (**Scheme Meeting**). The Scheme must then also be approved by the Court.

The details of the Re-domiciliation, including its implications are explained in this Explanatory Memorandum. I recommend that you read it in detail and encourage you to attend the Scheme Meeting (in person or by proxy).

Directors Recommendation

The Boart Longyear Board unanimously recommends that you approve the Re-domiciliation and vote in favour of the Scheme Resolution at the Scheme Meeting.

Independent Expert opinion

The Boart Longyear Board commissioned Grant Thornton to prepare the Independent Expert's Report. The Independent Expert's opinion is that the Re-domiciliation is in the best interests of Boart Longyear Shareholders.

A copy of the Independent Expert's Report is contained in Appendix A.

Overview of advantages, disadvantages and risks associated with the Re-domiciliation

In making its recommendation, the Boart Longyear Board has taken into account what it considers to be the advantages, disadvantages and key risks associated with the Re-domiciliation. Section 5 sets out these matters in some detail, but we assess the key advantages, disadvantages and risks associated with the Re-domiciliation to be as set out below.

Advantages	Disadvantages	Associated Risks
✓ Potential for improved access to capital ✓ Improved liquidity ✓ Reduced cost of insurance ✓ Streamlined company structure ✓ Retention of ASX listing and familiarity with local exchange ✓ Comparable shareholder protection ✓ Familiar jurisdiction	✗ Additional cost and administrative burden to implement the Scheme ✗ For Australian based shareholders a change in jurisdiction ✗ Ineligible Foreign Shareholders will not be able to receive Boart Longyear 'Canada' CDIs	○ The Re-domiciliation may fail to realise the full anticipated benefits ○ The exact value of Boart Longyear 'Canada' CDIs is not certain

You are also encouraged to consider:

- the taxation report summarising the **Australian tax implications** for certain eligible Scheme Shareholders who dispose of their Boart Longyear Shares and acquire Boart Longyear 'Canada' CDIs under the Scheme (see Section 9); and
- the **comparison of Australian and Canadian company rules** (Section 8.4), particularly in the context of the explanation of CDI arrangements in Appendix E.

Governance and management

It is proposed that, conditional on the implementation of the Re-domiciliation, the current Boart Longyear Directors will be appointed as directors of Boart Longyear 'Canada'.

There are no proposed changes to Boart Longyear's senior management as a result of the Re-domiciliation.

Centerbridge, Ascribe and Ares' statement of support

Boart Longyear's Major Shareholders, being Centerbridge, Ascribe and Ares which have a corresponding 50.85%, 21.4% and 9.74% relevant interest in Boart Longyear Shares¹, have informed Boart Longyear of their intentions to vote their Boart Longyear Shares in favour of the Re-domiciliation.

Your vote is important

On behalf of the Boart Longyear Board, I recommend the Re-domiciliation to you and urge you to support this proposal by voting in favour of the Scheme Resolution at the Scheme Meeting to be held at the Adelaide Convention Centre, Riverbank Room 1, North Terrace, Adelaide South Australia 5000 Australia at 11.00 (Adelaide time) on 6 December 2018.

Section 2.3 provides further information on how you can vote by proxy, by attorney, or if you are a body corporate, a corporate representative, or by attending the Scheme Meeting.

¹ Based on substantial holding notices lodged with ASX as at the date of this Explanatory Memorandum.

What happens if the Scheme Resolution is passed?

If the Scheme Resolution is passed by the requisite majorities of Boart Longyear Shareholders, the Court approves the Scheme, all other Conditions Precedent to the Scheme are satisfied or waived and the Scheme becomes Effective:

- Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive one (1) Boart Longyear 'Canada' Share (to be held in the form of one (1) Boart Longyear 'Canada' CDI) for each Boart Longyear Share which they hold;
- Ineligible Foreign Shareholders will receive the net proceeds of the sale of the Boart Longyear 'Canada' CDIs they would otherwise have been entitled to pursuant to the Sale Facility. See Sections 3.13(c) and 3.14 for more information regarding the entitlement of Ineligible Foreign Shareholders; and
- Boart Longyear 'Canada' will apply to be listed as an ASX-listed company and Boart Longyear will be de-listed from ASX.

If you have any questions about the Explanatory Memorandum or the Re-domiciliation, please call the Shareholder Information Line on 1800 781 633 (within Australia) or +61 1800 781 633 (from outside Australia) from 8.30am to 5.30pm (Sydney time) Monday to Friday or consult an independent and appropriately licensed and authorised professional adviser.

Yours sincerely,

3. OVERVIEW OF THE SCHEME

3.1 Background to the Re-domiciliation?

In the Restructuring Support Agreement that the Company entered into in relation to the 2017 Recapitalisation, Boart Longyear agreed to take all requisite steps to re-domicile its business to the United States (state of Delaware), the United Kingdom or Canada (or such other jurisdiction as the parties agreed) as soon as possible after the implementation of the Recapitalisation, unless Boart Longyear and the Major Shareholders jointly determined in their reasonable discretion that the re-domiciliation would not be in the best interests of Boart Longyear.

Since then, the Company has reviewed the benefits and disadvantages of remaining incorporated in Australia as compared to a re-domicile to each of Canada, the United Kingdom, and the United States. The Company's analysis included a review of several factors including but not limited to, the existing business substance in each jurisdiction, political stability, the general regulatory environment, the ease and access to the applicable legal system, the sophistication of the applicable financial markets (specifically within the mining sector), and the foreign exchange risk.

On 23 August 2018, the Boart Longyear Board announced the outcome of that review and that it had determined that Boart Longyear 'Canada' should be incorporated in British Columbia, Canada and listed on ASX.

3.2 What is the Re-domiciliation?

If the Re-domiciliation is implemented, Boart Longyear will become a wholly-owned subsidiary of Boart Longyear 'Canada' and those Boart Longyear Shareholders who are Scheme Shareholders (other than Ineligible Foreign Shareholders) will hold Boart Longyear 'Canada' CDIs instead of Boart Longyear Shares. Boart Longyear 'Canada' will apply to be listed on ASX and Boart Longyear will be delisted from ASX. Boart Longyear 'Canada' will effectively replace Boart Longyear as the listed entity on ASX.

A Boart Longyear 'Canada' CDI is a CHESS Depository Interest (**CDI**) over a Boart Longyear 'Canada' Share. Boart Longyear 'Canada' CDIs will be able to be traded on ASX using CHESS, whereas Boart Longyear 'Canada' Shares cannot be traded on ASX. Each Boart Longyear 'Canada' CDI will represent a beneficial interest in one Boart Longyear 'Canada' Share. A Boart Longyear 'Canada' CDI has the same economic benefits (such as dividends, bonus issues, rights issues) as a Boart Longyear 'Canada' Share, and substantially the same voting rights. Trading in Boart Longyear 'Canada' CDIs is not substantially different to trading in other CHESS approved securities (such as Boart Longyear Shares).

All Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive one Boart Longyear 'Canada' Share (to be held in the form of a Boart Longyear 'Canada' CDI) for each Boart Longyear Share held on the Record Date. There is no option for Scheme Shareholders to elect to receive cash instead of Boart Longyear 'Canada' CDIs. However, once Boart Longyear 'Canada' CDIs have commenced trading on ASX, Boart Longyear 'Canada' CDIs will be able to be bought and sold on ASX.

Ineligible Foreign Shareholders will not receive Boart Longyear 'Canada' CDIs and instead will receive the net proceeds of the sale of the Boart Longyear 'Canada' CDIs to which they would otherwise have been entitled under the Sale Facility (see Section 3.14 for more information).

3.3 What is the opinion of the Independent Expert?

The Independent Expert has concluded that the Scheme is in the best interests of Boart Longyear Shareholders. A copy of the Independent Expert's Report is set out in Appendix A to this Explanatory Memorandum.

3.4 What are the consequences of Boart Longyear re-domiciling to Canada

As Boart Longyear 'Canada' is a company incorporated in British Columbia, Canada, its general corporate activities (apart from any offering of securities in Australia) are not regulated by the Corporations Act or ASIC, but instead are regulated by the British Columbia Business Corporations Act (**BCBCA**).

Under the Re-domiciliation, all Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive Boart Longyear 'Canada' CDIs on the Implementation Date.

For further information on the implications of Boart Longyear 'Canada' being a Canadian company and the ability to convert Boart Longyear 'Canada' CDIs to Boart Longyear 'Canada' Shares, see Appendix E.

3.5 What are the Conditions Precedent to the Re-domiciliation?

The Re-domiciliation is conditional upon the satisfaction or waiver of the following Conditions Precedent:

No.	Condition Precedent	Status
1.	(Independent Expert's Report) the Independent Expert's Report concludes that the Scheme is in the best interests of the Boart Longyear Shareholders	Satisfied at the date of this Explanatory Memorandum.
2.	(Orders convening the Meeting) the Court makes orders convening the Scheme Meeting under section 411(1) of the Corporations Act.	Satisfied at the date of this Explanatory Memorandum.
3.	(Scheme Resolution) the Scheme Resolution is approved by the requisite majorities of Boart Longyear Shareholders at the Scheme Meeting.	The Scheme Meeting to consider the Scheme Resolution will be held at 11.00am on Thursday 6 December 2018 at the Adelaide Convention Centre, Riverbank Room 1, North Terrace, Adelaide South Australia 5000 Australia.
4.	(No legal restraint) no temporary restraining order, preliminary or permanent injunction or other order being issued by any court of competent jurisdiction or other legal restraint or prohibition preventing the implementation of the Re-domiciliation.	As at the date of this Explanatory Memorandum, Boart Longyear is not aware of anything that will cause this condition not to be satisfied.
5.	(ASX Admission) ASX approves the admission of Boart Longyear 'Canada' to the official list of ASX and official quotation of Boart Longyear 'Canada' CDIs, subject to any conditions that	Boart Longyear will apply for the official quotation of the Boart Longyear 'Canada' CDIs on ASX as soon as practicable and, in any event, within seven days of this Explanatory

6.	(Court approval) the Scheme is approved by the Court in accordance with section 411(4)(b) of the Corporations Act and an office copy of the order of the Court is lodged with ASIC.	Court approval of the Scheme will be sought at the Second Court Hearing on Wednesday 19 December 2018.
7.	(FIRB approval) before 8:00am (Sydney time) on the Second Court Date, Boart Longyear 'Canada' is notified by the Federal Treasurer that the Commonwealth of Australia has no objections (unconditionally or on conditions acceptable to Boart Longyear 'Canada' acting reasonably) to Boart Longyear 'Canada' acquiring all of the Shares (or is precluded from objecting because the time for doing so has passed).	Satisfied as at the date of this Explanatory Memorandum.
8.	(Other authorisations) before 8:00am on the Second Court Date, all authorisations which Boart Longyear 'Canada' and Boart Longyear agree in writing are necessary for implementation of the Scheme are obtained.	Refer to Section 10.7.

Boart Longyear has obtained all required approvals from its lenders for the Re-domiciliation.

3.6 What vote is required to approve the Scheme?

For the Scheme to proceed, it must be approved by:

- (a) a majority in number (more than 50%) of those Boart Longyear Shareholders present and voting at the Scheme Meeting in person, by proxy, by attorney or (in the case of a corporate Boart Longyear Shareholder) by a corporate representative; and
- (b) at least 75% of the total number of votes cast on the Scheme Resolution at the Scheme Meeting by Boart Longyear Shareholders,

(the **requisite majorities**).

3.7 What happens if I do not vote at the meeting or do not vote in favour of the Re-domiciliation?

If you do not vote at the Scheme Meeting, or vote against the Scheme Resolution, then the Re-domiciliation may not be approved.

The Re-domiciliation cannot be implemented unless the Scheme Resolution is passed by the requisite majorities of Boart Longyear Shareholders at the Scheme Meeting.

However, even if you do not vote, or vote against Scheme Resolution, the Re-domiciliation may still be approved. If the Scheme Resolution is passed by the requisite majorities of Boart Longyear Shareholders, then, subject to the Court approving the Scheme and all other Conditions Precedent to the Scheme being satisfied or waived, the Re-domiciliation will be implemented and be binding on all Boart Longyear Shareholders, including those who did not vote or voted against the Scheme Resolution.

3.8 What are the key steps to the Scheme taking effect?

If the Scheme Resolution is passed by the requisite majorities of Boart Longyear Shareholders, then, subject to the Court approving the Scheme and all other Conditions Precedent to the Scheme being satisfied or waived, Boart Longyear will lodge the Court order approving the Scheme with ASIC upon which the Scheme will become Effective.

An overview of the key steps to implementing the Scheme is as follows:

Event	Detail
Scheme becomes Effective	The Scheme will become Effective on the Scheme Effective Date (expected to be 20 December 2018). At the close of trading on ASX on the Scheme Effective Date, Boart Longyear Shares will be suspended from trading on ASX .
Following the Scheme Effective Date	On the Business Day following the Scheme Effective Date (expected to be 21 December 2018): • Boart Longyear 'Canada' will be admitted to the official list of ASX; • Boart Longyear 'Canada' CDIs will commence trading on ASX on a deferred settlement basis; and • Boart Longyear will be delisted from ASX.
Implementation Date	On the Implementation Date which is expected to be 3 January 2018: • Boart Longyear will transfer the Boart Longyear Shares held by each Scheme Shareholder to Boart Longyear 'Canada' without the need for any further act by a Scheme Shareholder; • Boart Longyear 'Canada' will issue to the Authorised Nominee one (1) Boart Longyear 'Canada' Share for each Boart Longyear Share held by a Scheme Shareholder on the Record Date; • each Scheme Shareholder will receive one (1) Boart Longyear 'Canada' CDI for every Boart Longyear Share held by that Scheme Shareholder on the Record Date; and • in the case of Ineligible Foreign Shareholders, the Boart Longyear 'Canada' CDIs to which those shareholders would otherwise have been entitled will be transferred to the Sale Agent, who will sell them on the Ineligible Foreign Shareholder's behalf, with the net proceeds of sale being remitted to the Ineligible Foreign Shareholder.
Despatch of confirmation of allotment statements	Subject to the steps and approvals noted above, it is proposed that confirmation of allotment statements for Boart Longyear 'Canada' CDIs will be despatched on the Implementation Date.

3.9 **What will happen to Boart Longyear following implementation of the Re-domiciliation?**

If the Re-domicile is implemented, Boart Longyear 'Canada' will own all of the Boart Longyear Shares and will operate the business of the New Boart Group in a manner consistent with past practice and in accordance with the existing strategy of Boart Longyear.

Following implementation of the Re-domicile, Boart Longyear will pass a special resolution to convert from a public company to a proprietary company limited by shares and lodge all necessary documentation with ASIC to effect such conversion.

3.10 **What are the tax implications of the Re-domiciliation?**

The Scheme may have taxation implications for Boart Longyear Shareholders. Accordingly, Boart Longyear Shareholders should refer to the summary of certain taxation implications for Scheme Shareholders in Section 9 of this Explanatory Memorandum.

3.11 **Are Boart Longyear Shareholders required to make any cash payments to participate in the Re-domiciliation?**

Boart Longyear Shareholders are not required to make any cash payments to Boart Longyear or Boart Longyear 'Canada' to participate in the Re-domiciliation.

3.12 **Impact of the Re-domiciliation on securities other than Shares**

In addition to Shares, Boart Longyear has the following securities on issue as at the date of this Explanatory Memorandum:

Security	Number	Exercise price	Expiry date
Quoted Ordinary Warrants ³	602,739,409	A\$0.021	13 September 2024
Unquoted Class A 7% Warrants ⁴	84,832,619	US\$0.006	1 September 2024
Unquoted Class B 7% Warrants ⁴	43,509,750	US\$0.010	1 September 2024
Unquoted Boart Longyear Options ⁵	27,828,976	Between A\$0.192 to A\$0.32	Between 15 March 2024 and 1 April 2026

The Ordinary Warrants, Class A 7% Warrants and Class B 7% Warrants (together the **Warrants**) will continue in existence on implementation of the Scheme. Boart Longyear 'Canada' has entered into a deed poll dated 19 October 2018 (the **Assumption Deed Poll**) pursuant to which it has agreed to assume the obligations of Boart Longyear under the Warrants from the Implementation Date subject to the Scheme becoming Effective. This means that if a Warrant is exercised after the Implementation Date, then the holder

³ The terms of the Ordinary Warrants are set out in the prospectus dated 24 August 2017 lodged by Boart Longyear with ASIC and available at www.asx.com.au.

⁴ The terms of the Class A 7% Warrants and Class B 7% Warrants are set out in the Notice of Meeting and Explanatory Statement dated 12 May 2017 and available at www.asx.com.au.

⁵ For further information please refer to the Appendix 3B lodged by Boart Longyear with ASX on 16 July 2018.

of that Warrant will be issued with a Boart Longyear 'Canada' Share which may be held in the form of a CDI.

Boart Longyear has also made a number of grants of LTIP Units under the Boart Longyear Limited Management Incentive Plan (**MIP**). 8,500 LTIP Units of a total of 10,000 have been issued as at the date of this Explanatory Memorandum. The implementation of the Scheme will have no impact on the LTIP Units. Under the Assumption Deed Poll Boart Longyear 'Canada' has agreed to assume the obligations of BLY under the MIP from the Implementation Date subject to the Scheme becoming Effective. As such, if an LTIP Unit vests and the Board determines to satisfy that grant with securities, the holder of the LTIP Unit will be issued Boart Longyear 'Canada' Shares which may be held in the form of CDIs.

The Boart Longyear Options will be cancelled on the Effective Date in accordance with the terms of the Boart Longyear Limited Option Plan. Consideration will only be payable by Boart Longyear on the cancellation of the Boart Longyear Options if the Fair Market Value of a Boart Longyear Share on the Effective Date exceeds the exercise price of the relevant Boart Longyear Option. Fair Market Value will be the closing price of Boart Longyear Shares on ASX on the Effective Date. As the exercise prices of the Boart Longyear Options range from A\$0.192 to A\$0.32 per Boart Longyear Option and the closing price of Boart Longyear Shares on ASX on Monday, 22 October 2018, was A\$0.004, it is likely that the Boart Longyear Options will be cancelled for no consideration.

3.13 **Who is entitled to participate in the Re-domiciliation?**

(a) Record Date

If the Scheme becomes Effective, those Boart Longyear Shareholders on the BLY Share Register as at the Record Date will become entitled to the Boart Longyear 'Canada' Shares CDIs in respect of the Boart Longyear Shares they hold at that time (except for Ineligible Foreign Shareholders who will receive cash pursuant to the Sale Facility).

For the purposes of determining which Scheme Shareholders will be eligible to receive the Boart Longyear 'Canada' CDIs (or the net proceeds of sale under the Sale Facility in the case of Ineligible Foreign Shareholders) and participate in the Scheme, any dealing in Boart Longyear Shares will only be recognised if:

- (i) in the case of dealings of the type to be effected by CHESS, the transferee is registered in the BLY Share Register as the holder of Boart Longyear Shares on or before the Record Date; and
- (ii) in all other cases, registrable transmission applications or transfers in respect of those dealings are received on or before 7.00pm (Sydney time) on the Record Date at the Registry.

Subject to the Corporations Act, ASX Listing Rules and the constitution of Boart Longyear, Boart Longyear must register the registrable transmission applications or transfers of the kind recognised above by no later than 7.00pm (Sydney time) on the Record Date.

Boart Longyear will not accept for registration or recognise for any purpose any transmission application or transfer in respect of Boart Longyear Shares received after 7.00pm (Sydney time) on the Record Date or received prior to that time but not in registrable form.

(b) Scheme Shareholders

Based on the information available to Boart Longyear 'Canada' as at the date of this Explanatory Memorandum, Scheme Shareholders whose addresses are shown in the BLY Share Register on the Record Date as being in the following jurisdictions will be entitled to receive Boart Longyear 'Canada' CDIs pursuant to the Scheme: Australia, New Zealand, Switzerland, China, Hong Kong, Malaysia, Spain, United Kingdom, Israel, Luxembourg, Germany, the Netherlands, Panama, Canada or the states of Arizona, Florida, Illinois, Michigan, Minnesota, Nevada, New Mexico, New York, Texas, Utah and Washington in the United States of America and any other person or jurisdiction in respect of which Boart Longyear is satisfied, acting reasonably, that it is not prohibited and not unduly onerous or impractical to issue the Boart Longyear 'Canada' CDIs to that Scheme Shareholder pursuant to the Scheme with a registered address in such jurisdiction.

(c) Ineligible Foreign Shareholders

Restrictions in certain countries make it impractical or unlawful to offer or receive securities in certain countries. For this reason, the entitlement of Scheme Shareholders who are Ineligible Foreign Shareholders to Boart Longyear 'Canada' CDIs will be dealt with under the Re-domiciliation via the Sale Facility as described below in Section 3.14.

If you are an Ineligible Foreign Shareholder, you will not be eligible to receive Boart Longyear 'Canada' CDIs under the Re-domiciliation. The Boart Longyear 'Canada' CDIs to which Ineligible Foreign Shareholders would otherwise be entitled will be transferred to the Sale Agent and sold on ASX. The net proceeds of sale (after deduction of any applicable fees, brokerage, taxes and charges) will be remitted to the Ineligible Foreign Shareholders as soon as is reasonably practicable after the sale of all such Boart Longyear 'Canada' CDIs (and no later than 10 Business Days after the settlement of such sales).

3.14 **Sale Facility and sale of Boart Longyear 'Canada' CDIs to which Ineligible Foreign Shareholders would otherwise be entitled**

As noted above, the Boart Longyear 'Canada' CDIs that would have otherwise been issued under the Scheme to Ineligible Foreign Shareholders (if they were eligible Scheme Shareholders) (the **Sale Securities**) will be transferred to the Sale Agent to deal with in accordance with the Sale Facility.

Under the Sale Facility:

- the Sale Agent will be responsible for selling the Sale Securities;
- the Sale Agent must sell the Sale Securities on ASX as soon as reasonably practicable, and in any event but, in any case within one month after the Implementation Date) in the manner and on the terms the Sale Agent thinks fit (and at the risk of the Ineligible Foreign Shareholder);
- as soon as is reasonably practicable (but, in any case within 10 Business Days after settlement of all the sales of such Sale Securities), remit to each Ineligible Foreign Shareholder the same portion of the net proceeds of all such sales (after deduction of any applicable fees, brokerage, taxes and charges) as the Sale Securities issued to the Sale Agent in respect of the Ineligible Foreign Shareholder bears to the total Sale Securities issued to and sold by the Sale Agent;
- Boart Longyear will, as soon as practicable, distribute to each Ineligible Foreign Shareholder their respective proportion of those net proceeds by (at its discretion):
 - making a deposit in Australian currency into an account with an Australian bank notified by the Ineligible Foreign Shareholder to Boart Longyear and

recorded in or for the purpose of the BLY Share Register as at the Record Date; or

- sending a cheque for the relevant share of the net proceeds of sale in Australian currency by prepaid post to the Ineligible Foreign Shareholder's address as recorded in the BLY Share Register at the Record Date.

The amount of money received by each Ineligible Foreign Shareholder will be calculated on an averaged basis so that all Ineligible Foreign Shareholders will receive the same amount for each Sale Security, subject to rounding to the nearest whole cent.

Consequently, the amount received by an Ineligible Foreign Shareholder for each Sale Security may be more or less than the actual price that is received by the Sale Agent for that particular Sale Security.

The payment of the net proceeds from the sale of Sale Securities will be in full satisfaction of the rights of Ineligible Foreign Shareholders under the Scheme. Under the Scheme, Boart Longyear Shareholders who are Ineligible Foreign Shareholders appoint Boart Longyear as their agent to receive any financial services guide or other notice given by the Sale Agent under the Corporations Act.

For further details on the Sale Facility see the terms of the Scheme set out in Appendix C.

3.15 **What happens if the Re-domiciliation does not proceed?**

The Re-domiciliation will not proceed if:

- Boart Longyear Shareholders do not approve the Scheme Resolution by the requisite majorities;
- the Court does not approve the Scheme; or
- any other Conditions Precedent are not satisfied or waived.

In that event:

- Scheme Shareholders will not receive Boart Longyear 'Canada' CDIs or, in the case of Ineligible Foreign Shareholders, they will not receive the net proceeds from the sale of Boart Longyear 'Canada' CDIs;
- Boart Longyear Shareholders will retain their current holding of Boart Longyear Shares (unless they sell them);
- Boart Longyear Shares will trade on the basis that the Re-domiciliation will not proceed;
- the advantages of the Re-domiciliation, as described in Section 5.2, may not be realised; and
- some of the disadvantages and risks of the Re-domiciliation, as described in Sections 5.3 and 5.4 may not arise.

4. WHAT IS THE BOART LONGYEAR BOARD'S RECOMMENDATION, THE MAJOR SHAREHOLDERS' INTENTIONS AND THE OPINION OF THE INDEPENDENT EXPERT?

4.1 What is the Boart Longyear Board's recommendation in respect of the Re-domiciliation?

Each of the Boart Longyear Directors considers himself or herself justified in making a recommendation in relation to the Scheme Resolution.

The Boart Longyear Directors have unanimously concluded that the Re-domiciliation, which is to be implemented by way of the Scheme, is in the best interests of Boart Longyear Shareholders and they unanimously recommend that you vote in favour of the Scheme Resolution at the Scheme Meeting.

In making this recommendation, the Boart Longyear Directors have considered the following:

- the advantages and disadvantages of the Re-domiciliation as described in Sections 5.2 and 5.3; and
- the potential, new and existing risks associated with the Re-domiciliation and an investment in Boart Longyear 'Canada' as described in Section 5.4.

The Boart Longyear Directors consider that the advantages of the Re-domiciliation significantly outweigh the disadvantages and risks.

Each Boart Longyear Director who holds or controls Boart Longyear Shares intends to vote in favour of the Scheme Resolution in relation to the Boart Longyear Shares which they hold or control.

4.2 What are the Major Shareholders' intentions?

Boart Longyear's largest shareholder, Centerbridge, which at the date of this Explanatory Memorandum has an interest in 50.85% of the Boart Longyear Shares⁶, has informed Boart Longyear of its intention to vote its Boart Longyear Shares in favour of the Re-domiciliation.

Each of Ascribe and Ares, which at the date of this Explanatory Memorandum have interests in 21.4% and 9.74% of Boart Longyear Shares, respectively⁷, have also informed Boart Longyear of their intentions to vote their Boart Longyear Shares in favour of the Re-domiciliation.

4.3 What is the Independent Expert's Opinion?

The Independent Expert has concluded that the Re-domiciliation is in the best interests of Boart Longyear Shareholders.

A copy of the Independent Expert's Report, which includes the reasons for the Independent Expert's conclusion, is contained in Appendix A. Shareholders are encouraged to read the Independent Expert's Report in full.

5. **ADVANTAGES, DISADVANTAGES AND RISKS ASSOCIATED WITH THE RE-DOMICILIATION**

5.1 **Introduction**

Boart Longyear Shareholders should carefully consider the following advantages and disadvantages of the Re-domiciliation, as well as the risks associated with the Re-domiciliation and an investment in Boart Longyear 'Canada' in deciding whether or not to vote in favour of the Scheme Resolution.

As noted in Section 4.1, the Boart Longyear Board considered both the advantages and disadvantages of the Re-domiciliation as part of the process they undertook to make the recommendation to approve the Re-domiciliation.

5.2 **What are the advantages of the Re-domiciliation?**

The Boart Longyear Board believes that the implementation of the Re-domiciliation has the following advantages:

(a) Potential for improved access to capital

The future growth of Boart Longyear may require access to capital markets which are able to provide competitive funds in the form of equity and debt. A change in domicile to Canada potentially increases the attractiveness of Boart Longyear to a more diverse financial market which has a strong interest in mining across the world. It also potentially makes Boart Longyear more attractive to those Canadian institutional investors and pooled funds who limit the foreign issuers in their "Canadian equity" portfolios to manage their international market risk. As a Canadian incorporated company Boart Longyear 'Canada' should have broader access to the capital pools of Canadian institutional investors. Greater access to capital and debt markets could also allow Boart Longyear 'Canada' to limit some of its exposure to financial risk.

(b) Improved liquidity

Boart Longyear's operations are heavily concentrated in North America. In 2017, operations in North America accounted for approximately 50% of total global revenue. Conversely, Australian operations accounted for approximately 15% of total global revenue. Currently, Boart Longyear's capital structure does not align its external debt to the jurisdictions where the majority of its revenue is earned. The business is expected to have its most significant profits in the U.S. and Canada so it is preferable to, as much as possible, have the debt allocated to those jurisdictions which have the ability to repay it. The Re-domiciliation will allow for the efficient reallocation of some of the Company's existing debt which will permit the Company to service the debt in a more efficient manner.

(c) Reduced cost of insurance

The market for insurance in Australia has proven very expensive to Boart Longyear and the cost to maintain its current levels of insurance is expected to increase in the coming years. The Re-domiciliation would allow the Company to take advantage of more competitive and cost effective insurance markets in North America.

(d) Streamlined company structure

The Company is planning to restructure the Boart Longyear group to be more efficient and cost effective and to enhance cash management flexibility. The restructure would involve:

- (i) Reducing complexity – Unnecessary and burdensome intercompany debt obligations and instruments may be eliminated and where appropriate legal entities may be realigned into consolidated tax groups; and
- (ii) Eliminating unneeded legal entities – Superfluous legal entities may be eliminated to reduce administrative and entity maintenance expense.

As noted in Section 5.2(b) above, the Re-domiciliation will allow for the efficient reallocation of certain debt. Boart Longyear may be able to reduce the need to duplicate certain additional legal consents and agreements necessary to facilitate aspects of this corporate restructure by obtaining such consents and agreements concurrently with the consents and agreements necessary for the reallocation of the debt.

- (e) Retention of ASX listing and familiarity with local exchange

Boart Longyear 'Canada' will apply for listing on ASX. Therefore following the implementation of the Re-domiciliation, Scheme Shareholders (other than Ineligible Foreign Shareholders) will continue to be able to hold their interests on the exchange with which they are most familiar.

Boart Longyear 'Canada' will be required to comply with the ASX Listing Rules, including disclosure requirements under the continuous disclosure rules and lodgement of financial statements and quarterly reports.

- (f) Comparable shareholder protection

Boart Longyear 'Canada' is regulated by the BCBCA and will continue to be subject to the rules and policies of ASX. The regulatory environment in Canada is comparable to that in Australia. Securityholders in Boart Longyear 'Canada' will have similar regulatory protection to that currently available under the Corporations Act to Boart Longyear. Section 8.4 of this Explanatory Memorandum sets out a comparative table of the differences between the Corporations Act and the BCBCA.

- (g) Familiar jurisdiction

The common law legal system in Canada, both federally and provincially, is considered to be a relatively predictable one and is comparable to Australia. It is however more familiar to the management team and the majority of the Company's shareholder base. The Company believes those regimes will provide the most suitable framework for stabilising and rebuilding the Company over the medium to long term. A not insignificant advantage in this regard is that the re-domicile will mean that senior management will have ready access to legal, accounting and other resources in time zones where they are located. Boart Longyear anticipates that this will over time result in reductions in its overhead costs.

5.3 What are the disadvantages?

- (a) Additional cost and administrative burden to implement the Scheme

The Re-domiciliation, if approved, will result in additional costs and administrative burdens to complete the transaction (including listing fees payable by Boart Longyear 'Canada' to ASX). Additional costs may also be incurred as a result of the

Re-domiciliation, for example, to comply with the regulatory regime in Canada. It is noted however that Boart Longyear has or will incur some of these additional costs regardless of whether the Scheme is approved.

(b) Change in jurisdiction

Upon completion of the Re-domiciliation, Scheme Shareholders (other than Ineligible Foreign Shareholders) will become securityholders in Boart Longyear 'Canada'. Further, Boart Longyear 'Canada', as a company incorporated in Canada, will not be subject to many of the provisions of the Corporations Act to which Boart Longyear is currently subject and to which Boart Longyear Shareholders are familiar.

Currently, Australian resident Boart Longyear Shareholders wishing to take action to enforce the provisions of Boart Longyear's constitution or corporations or securities laws as they relate to Boart Longyear, may take action in Australian courts, applying Australian law. After implementation of the Re-domiciliation, such actions in relation to Boart Longyear 'Canada' will be determined in accordance with Canadian law. An Australian securityholder will be entitled to seek enforcement of applicable laws in the same manner as a Canadian shareholder.

Although some of the material differences between Australian company law and Canadian corporate law as they relate to Boart Longyear and Boart Longyear 'Canada' respectively could be viewed as advantageous to current Boart Longyear Shareholders, others could be viewed as disadvantageous.

Some Boart Longyear Shareholders may not be familiar with the Canadian provisions to which Boart Longyear 'Canada' will be subject and should refer to Section 8.4.

(c) Ineligible Foreign Shareholders will not be able to receive Boart Longyear 'Canada' CDIs

A Boart Longyear Shareholder will be an Ineligible Foreign Shareholder if their address as shown in the Register at the Record Date is a place outside of Australia, New Zealand, Switzerland, China, Hong Kong, Malaysia, Spain, Great Britain, Israel, Luxembourg, Germany, the Netherlands, Panama, Canada or the states of Arizona, Florida, Illinois, Michigan, Minnesota, Nevada, New Mexico, New York, Texas, Utah and Washington in the United States of America or such other country or jurisdiction as agreed to by Boart Longyear and Boart Longyear 'Canada'. The Boart Longyear 'Canada' CDIs to which an Ineligible Foreign Shareholder would have been entitled under the Scheme will be issued to the Sale Agent appointed by Boart Longyear, who will sell those Boart Longyear 'Canada' CDIs on market and distribute the net proceeds of such sale (after deducting any applicable brokerage, stamp duty and other taxes and charges) to Ineligible Foreign Shareholders.

Ineligible Foreign Shareholders should refer to Section 3.13(c) and 3.14 on what they will receive under the Re-domiciliation.

(d) Taxation implications

The Scheme may have adverse taxation implications for individual Boart Longyear Shareholders. Accordingly, Boart Longyear Shareholders should refer to the summary of certain taxation implications for Scheme Shareholders in Section 9.

5.4 What are the risks in connection with the Re-domiciliation?

Boart Longyear and Boart Longyear Shareholders are already subject to a number of risks, including those described in Sections 5.4(a) and 5.4(b) below.

If the Re-domiciliation is implemented, Boart Longyear 'Canada' and holders of Boart Longyear 'Canada' CDIs will be subject to these existing risks. In addition to these existing risks, there are other risks associated with the Re-domiciliation as well as additional risks associated with an investment in Boart Longyear 'Canada'. These additional risks are set out below in Section 5.4(c). These Sections do not provide an exhaustive list of these additional risks to which Boart Longyear 'Canada' could be exposed nor all the risks of the Re-domiciliation but only those risks that are considered material.

(a) Risks associated with the Re-domiciliation

(i) Re-domiciliation may fail to realise anticipated advantages

The Re-domiciliation may fail to realise all of the anticipated advantages for the New Boart Group, either in a timely manner or at all.

Some of the potential advantages of the Re-domiciliation may not be achieved as a result of circumstances outside the control of Boart Longyear or Boart Longyear 'Canada'.

(ii) The exact value of Boart Longyear 'Canada' CDIs is not certain

Under the terms of the Re-domiciliation, Scheme Shareholders (other than Ineligible Foreign Shareholders) will receive one Boart Longyear 'Canada' CDI for each Boart Longyear Share they hold at the Record Date. The exact value of the Boart Longyear 'Canada' CDIs that would be realised by individual Boart Longyear 'Canada' CDI Holders will be dependent on the price at which Boart Longyear 'Canada' CDIs trade after the Implementation Date.

(b) Existing risks applying to Boart Longyear

Boart Longyear is currently exposed to certain risks in operating its business that will also be faced by Boart Longyear 'Canada' and the New Boart Group following the Re-domiciliation. These risks include the following:

(i) Market risk

Boart Longyear's operating results, financial condition and ability to achieve shareholder returns are linked to underlying market demand for drilling services and drilling products. Demand for drilling services and products depends in significant part upon the level of mineral exploration, production and development activities conducted by mining companies, particularly with respect to gold, copper and other base metals. There have been significant declines in Boart Longyear's financial performance as a result of the global contraction in exploration and development spending in the commodities sector, and the subsequent impact on mining customers. Mineral exploration, production and development activities remain uncertain and could remain at depressed levels for an extended period of time or decline further, resulting in adverse effects on Boart Longyear's operating results, liquidity and financial condition.

(ii) Operational risk

The majority of Boart Longyear's drilling contracts are either short-term or may be cancelled upon short notice by Boart Longyear's customers and portions of Boart Longyear's products backlog may be subject to cancellation.

(iii) Risks relating to liquidity and indebtedness

As at 30 June 2018, Boart Longyear had net debt of US\$649.7 million with US\$688 million in gross debt and US\$38.3 million of cash on hand (including US\$6.1 million of restricted cash). The Company also has availability under an asset backed loan facility.

The Company remains highly leveraged even after completion of the 2017 Recapitalisation. While interest on all of the Company's debt facilities (other than the PNC ABL) may be payable in kind until December 2018, interest on the 10% Secured Notes is payable in cash thereafter. At that point, absent a refinancing, the Company may be required to dedicate a significant portion of its cash flow from operations to fund the payment of interest, reducing the availability of cash flow to fund working capital, capital expenditures, development activity, acquisitions and other general corporate purposes.

(iv) Tax risk

Boart Longyear's unsettled assessments with the Canada Revenue Agency (**CRA**) will, if upheld, result in federal and provincial tax liabilities (including interest) of up to CAD\$24.9 million.

The outcome and timing of any resolution of the Canadian reassessments are unknown. Interest will continue to accrue on all disputed and unpaid amounts until they are paid, or, alternatively, until the disputes are resolved in the Company's favour.

The Company has recorded a tax provision related to the CRA's audits of the 2007 through 2014 tax years. The provision reflects the uncertainties regarding the outcome of those audits. While the Company believes it is appropriately reserved in respect of the CRA tax disputes, the resolution of those disputes on terms substantially as assessed by the CRA could be material to the Company's financial position or results of operations.

Boart Longyear is also responding to audits that are underway by the Australian Taxation Office (**ATO**). The resolution of existing and potential assessments by the ATO may adversely affect Boart Longyear's liquidity.

(v) Government and regulatory risk

Changes in, or failure to comply with, the laws, regulations, policies or conditions of any jurisdiction in which Boart Longyear conducts business could have a material adverse effect on Boart Longyear's financial condition, liquidity, results of operations and cash flows. Boart Longyear's operations are subject to numerous laws, regulations and guidelines (including anti-bribery, tax, health and safety, and environmental regulations) that could result in material liabilities or increases in Boart Longyear's operating costs or lead to the decline in the demand for Boart Longyear's services or products.

(c) Additional risks to Boart Longyear 'Canada' as a result of the Re-domiciliation

(i) Loss of demand and liquidity

As a result of the Re-domiciliation, Boart Longyear will re-domicile to Canada and will become a subsidiary of a new parent Canadian company. The re-domicile may lead to a potential loss of demand for Boart Longyear 'Canada' CDIs from Australian investors. There may be a potential reduction

in liquidity of Boart Longyear 'Canada' Shares when traded on ASX in the form of CDIs.

(ii) Changes to tax environment

While Boart Longyear has not identified any specific tax risks associated with the Re-domiciliation, there may be unexpected tax risks associated with the change in jurisdiction from Australia to Canada.

Boart Longyear is an Australian company which is listed on ASX.

6.2 Operations

Boart Longyear is a global mineral exploration company founded in 1890. It is headquartered in Salt Lake City, Utah, United States. Regional offices and operations are located in the Asia-Pacific region, North and South America, Europe, and Africa. A company that receives a Proposal must send the text of the Proposal and the names and mailing addresses of the submitter and the supporters to all persons entitled to receive notice of the annual general meeting in relation to which the Proposal was made. Such information must be sent in the notice of the annual general meeting or in the company's information circular or equivalent, if any, sent in respect of the applicable annual general meeting. The BCBCA provides exemptions from the requirements to include a proposal in a company's management information circular in circumstances including where: - the directors have called an annual general meeting to be held after the date on which the Proposal is received by the company and have sent out notice of the meeting; - the Proposal is not valid or exceeds the maximum length established; - substantially the same proposal was submitted to shareholders in a notice of meeting, or an information circular or equivalent, relating to a general meeting that was held not more than 5 years before the receipt of the proposal, and did not receive the prescribed amount of support at the meeting; - it clearly appears that the Proposal does not relate in

Requirement	Australia	Canada
		a significant way to the business or affairs of the company; • it clearly appears that the primary purpose of the Proposal is to (1) secure publicity or (2) enforce a personal claim or redress a personal grievance against the company or its directors, officers or security holders; • the Proposal has already been substantially implemented; • the Proposal, if implemented, would cause the company to commit an offence; • the Proposal deals with matters beyond the company's power to implement.
Voting	Each share of a company confers a right to vote at all general meetings. On a show of hands, each company shareholder present in person, or by proxy, attorney or body corporate representative, has one vote. If a poll is held, the company's shareholders present in person or by their proxy, attorney or body corporate representative will have one vote for every company share held. A signed proxy must be received at least 48 hours before a meeting. A poll may be demanded by the chairman of the general meeting, at least five company shareholders entitled to vote on the resolution or shareholders present at the meeting holding at least 5% of the votes that may be cast on the resolution on a poll. The percentage of votes that shareholders have is to be worked out as at the midnight before the poll is demanded.	Subject to other sections of the BCBCA and unless the articles provide otherwise, a shareholder of a company has one vote in respect of each share held by that shareholder and is entitled to one vote in person or by proxy. Unless the articles provide otherwise, voting at a meeting of shareholders must be (1) by poll or be conducted in any other manner that adequately discloses the intentions of the shareholders; (2) if a poll is demanded by a shareholder or proxy holder entitled to vote at the meeting or is directed by the chair, be by poll; or (3) in any other case, be by a show of hands. Unless the articles provide otherwise, a shareholder or proxy holder who is entitled to participate in, including vote at, a meeting of shareholders may do so by telephone or other communications medium if all shareholders and proxy holders participating in the meeting, whether by telephone, by other communications medium or in person, are able to

<i>Relationship between the company and its members</i>		
Related party transactions	The Corporations Act prohibits a public company from giving a related party a financial benefit unless it obtains the prior approval of shareholders and gives the benefit within 15 months after approval or the financial benefit is exempt. A related party is defined to include any entity which controls the public company, directors of the public company, directors of any entity which controls the public company and, in each case, spouses and certain relatives of such persons. Exempt financial benefits include indemnities, insurance premiums and payments for legal costs which are reasonable in the circumstances. The ASX Listing Rules prohibit a listed entity from acquiring a substantial asset (an asset the value or consideration for which is 5% or more of the entity's equity interests) from, or disposing of a substantial asset to certain parties including related parties, unless it obtains the approval of shareholders. The related parties include (but are not limited to) directors of the entity and an entity that controls the entity; a subsidiary of the entity; a person who has or has had in the prior six month period a relevant interest in 10% or more of the shares in the entity and, in each case, any of their associates. The provisions apply even where the transaction may be on arm's-length terms. The ASX Listing Rules also prohibit a listed entity from issuing or agreeing to issue shares to related parties unless it obtains the approval of shareholders or the share issue is exempt. Exempt share issues include issues made pro rata to all shareholders, under an underwriting agreement, under a dividend or distribution plan or under an approved employee incentive plan.	A company is subject to Multilateral Instrument 61-101 – <i>Protection of Minority Security Holders in Special Transactions</i>, which imposes independent valuation, minority approval and disclosure requirements on entities involved in certain related party transactions. A related party transaction includes transactions between an issuer and a person that is a related party to the issuer at the time of the relevant agreement, whether or not there are also other parties to the transaction, as a consequence of which, either in a single transaction or multiple transactions, the issuer directly or indirectly, among other things, purchases or acquires an asset from or sells or transfers an asset to a related party for valuable consideration; leases property to or from a related party; acquires or combines with a related party through an arrangement or otherwise; issues a security to or subscribes for a security of a related party; becomes subject to a liability of a related party or provides or materially amends the terms of a guarantee or collateral security for a debt or liability of a related party; or borrows money from, lends money to, releases, cancels, forgives or materially amends the terms of an outstanding debt or liability owed by a related party. In addition, the BCBCA requires directors and officers to disclose to the company the nature and extent of any interest that they may have in a material contract or transaction, whether made or proposed, with the company, if they: • are a party to the contract

Requirement	Australia	Canada
		or transaction; • are a director or an officer, or an individual acting in a similar capacity, of a party to the contract or transaction; or • have a material interest in, any person who is a party to a material contract or transaction or proposed material contract or transaction with the company. Except as provided in the BCBCA, no director having such an interest may vote on any resolution to approve such contract or transaction unless the contract or transaction: • relates primarily to his or her remuneration as a director, officer, employee or agent of the company or an affiliate; • is for indemnity or insurance; • relates to a loan to the company for which the director is a guarantor; or • is with or for the benefit of an affiliate of the company. A contract or transaction with a company is not invalid merely because: • a director or senior officer of the company has an interest, direct or indirect, in the contract or transaction, • a director or senior officer of the company has not disclosed an interest he or she has in the contract or transaction, or • the directors or shareholders of the company have not approved the contract or transaction in which a director or senior officer of the company has an interest. Boart Longyear 'Canada' will need to ensure compliance

Requirement	Australia	Canada
		with the ASX Listing Rules in relation to related party transactions.
Protection of minority shareholders / oppression remedy	Under the Corporations Act, any shareholder of a company can bring an action in cases of conduct which is contrary to the interests of shareholders as a whole, or oppressive to, unfairly prejudicial to, or unfairly discriminatory against, any company shareholder(s), whether in their capacity as a shareholder or in any other capacity. Former shareholders can also bring an action if it relates to the circumstances in which they ceased to be a shareholder. A statutory derivative action may also be instituted by a company shareholder, former company shareholder or person entitled to be registered as a company shareholder. In all cases, leave of the court is required. Such leave will be granted if the court is satisfied that it is probable that the company will not itself bring the proceedings or properly take responsibility for them or for the steps in them, the applicant is acting in good faith, it is in the best interests of the company that the applicant be granted leave, if the applicant is applying for leave to bring proceedings, there is a serious question to be tried and the applicant gives proper written notice to the company specifying its intention to and reasons for applying or it is otherwise appropriate to give leave.	Under the BCBCA, on the application of a "complainant" (defined under the BCBCA to include shareholders, directors and any other persons whom the court considers to be appropriate persons to make an application), the court may grant leave to prosecute or defend a legal proceeding in the name and on behalf of the company to enforce a right, duty or obligation owed to the company or to obtain damages for a breach of such a right, duty or obligation. In certain circumstances, the BCBCA allows for one or more shareholders who hold at least 20% of the issued shares of the company to apply to court to have an investigator appointed to investigate the company's affairs. The BCBCA, to a large extent, has supplemented the Canadian common law and equity rules on the availability of actions. In addition to allowing complainants to bring actions in the name and on behalf of a company or any of its subsidiaries, the statutory provisions of the BCBCA also allow complainants to intervene in existing proceedings, either for prosecuting or defending it, or to bring about its discontinuation on behalf of the company. In order for the Court to grant leave to a complainant, certain substantive and procedural requirements must be met, including the court being satisfied that (1) the complainant has made reasonable efforts to cause the directors of the company to prosecute or defend the legal proceeding; (2) notice of the application for leave has been given to the company and to any other person the court may order; (3) the complainant is acting in good

Requirement	Australia	Canada
		faith; and (4) the derivative action appears to be in the interests of the company or its subsidiary. In addition, a shareholder or other person whom the court considers appropriate may apply to the court for an order on the grounds that the affairs of the company are being or have been conducted or the powers of the directors are being or have been exercised in a manner that is oppressive to one or more shareholders or that some act or proposed act of the company or resolution of the shareholders is unfairly prejudicial to one or more shareholders. The court has the power to make any order it thinks fit to remedy the oppressive behaviour, including prohibiting or directing any act, appointing or removing directors or directing that the company be liquidated and dissolved. The BCBCA provides shareholders with dissent rights in connection with certain corporate matters, generally including amalgamations, arrangements, the sale, lease or disposition of all or substantially all of the company's undertaking and the continuance into another jurisdiction, which dissent rights entitle dissenting shareholders to receive payment of fair value for their shares from the company, provided they comply with the strict requirements set out under the BCBCA. The court has broad powers to direct the conduct of any such legal proceeding.
Amendments to constituent documents	Any amendment to a company's constitution must be approved by special resolution.	Unless otherwise specified in the BCBCA or the articles, amendments to a company's articles must be approved by a special resolution.

Takeovers		
Takeover bids	The Corporations Act places restrictions on a person acquiring interests in the voting shares of a company where, as a result of the acquisition, that person's or someone else's voting power in the company increases from 20% or below to more than 20%, or from a starting point that is above 20% and below 90%. This prohibition is subject to a number of exceptions including the acquisition of not more than 3% of the voting shares in the company in the six month period before the acquisition, the acquisition is made with shareholder approval or the acquisition is made under a takeover bid made in accordance with Australian law. Various restrictions about conditional offers exist and there are also substantial restrictions concerning the withdrawal and suspension of offers. Takeover bids must treat all securityholders alike, must not involve any collateral benefits and must remain open for certain period, after which time all securities deposited under the offer may be taken up. The takeover bid rules contain various additional requirements, such as restrictions on conditional offers and withdrawal, amendment or suspension of offers.	In Canada, takeover bids are regulated primarily by securities legislation. Persons making an offer to acquire securities that, together with the offeror's securities (and those held by joint actors), constitute in aggregate 20% or more of the outstanding securities of the company at the time of the offer are required to extend the offer to all securityholders whose registered address is in Canada. The takeover bid rules require, among other things, the mailing of a takeover bid circular to shareholders of the target company and extensive disclosure requirements, beginning with 'early warning' disclosure required when an acquirer crosses a 10% ownership threshold with further disclosure required for additional purchases of 2% or more. Takeover bids must treat all shareholders alike and must not involve any collateral agreements, with certain exceptions for employment compensation arrangements. Takeover bids must remain open for a minimum of 35 days from the date of the mailing of the takeover bid circular, after which time all securities deposited under the offer may be taken up. For the protection of target shareholders, the takeover bid rules contain various additional requirements, such as restrictions applicable to conditional offers, and the withdrawal, amendment or suspension of offers. Securities regulators also retain a general 'public interest jurisdiction' to regulate takeovers and may intervene to halt or prevent activity that is abusive. Issuer bids are regulated similarly to takeover bids.

Requirement	Australia	Canada
		There are extensive disclosure requirements associated with takeover bids, beginning with 'early warning' disclosure required when an acquirer crosses the 10% ownership threshold. Generally, further disclosure is required for additional purchases of 2% or more of the outstanding security for which such early warning disclosure is required. Purchases outside the bid before, during and after the bid are also restricted. The BCBCA contains compulsory acquisition provisions, which allow a person who acquired at least 90% of a company's shares to acquire the remaining shares, within 5 months after the date of a takeover bid, if the bid was accepted by holders of not less than 90% of the company's shares. Aside from the compulsory acquisition provisions of the BCBCA, second step transactions following a bid, which allow the acquirer to bring its percentage ownership to 100%, are governed by Multilateral Instrument 61-101 of the Canadian Securities Regulators. No shareholder approval for a second step transaction of the acquisition would be required if the acquirer obtained 90% of the outstanding securities owned by minority shareholders during the bid. Otherwise, a meeting must be called and associated regulations complied with for an acquisition, including obtaining a two-thirds majority approval. The acquirer is generally permitted to vote the shares acquired pursuant to the bid at such meeting. Appraisal (or dissent) rights are available for objecting shareholders who fulfil certain procedural requirements. Under Canadian securities laws certain exemptions to the formal bid requirements, on specified conditions, are

Requirement	Australia	Canada
		allowed. For example, private agreements to purchase securities from up to five persons are permitted if the purchase price does not exceed 115% of the market price. Under the normal course purchase exception, the offeror (together with any joint offerors) may acquire up to 5% of a class of securities within a 12-month period of there is a published market for the relevant class and the consideration paid does not exceed the market price at the date of acquisition.
Takeover bid defences	Under Australian takeovers legislation and policy, boards of target companies are limited in the defensive mechanisms that they can put in place to discourage or defeat a takeover bid. For example, it is likely that the adoption of a shareholders' rights plan (or so-called 'poison pill') would give rise to a declaration of unacceptable circumstances by the Australian Takeovers Panel if it had that effect.	In Canada, defensive tactics may be taken by a board of directors in a genuine attempt to obtain a better bid. However, the Canadian securities regulatory authorities have recognised the possibility that the interests of management of the target company will differ from those of its shareholders. The securities regulators may take action in certain cases where target company defensive tactics may be abusive of shareholder rights, deny shareholders the ability to make a fully formed decision or frustrate an open takeover bid process. Defensive tactics that may come under scrutiny during or immediately before a bid (if there is reason to believe that a bid might be imminent) include granting an option on securities representing a significant percentage of the target company's outstanding securities, including introduction of a shareholders' rights plan, a sale, acquisition, optioning, or agreement to sell or acquire material assets or other corporate action other than in the normal course of business. Shareholder approval of defensive tactics may be a factor in the regulatory authorities' decision as to whether the tactics are appropriate.

Requirement	Australia	Canada
Other		
Disclosure of substantial holdings	Under the Australian Corporations Act, a shareholder who begins or ceases to have a substantial holding in a listed company or has a substantial holding in a listed company and there is a movement by at least 1% in their holding, must give a notice to the company and ASX. A person has a substantial holding if that person and that person's associates have a relevant interest in 5% or more of the voting shares in the company.	See discussion of "early warning rules" above.
Winding up	A company can be wound up voluntarily by the shareholders. The directors must give a statutory declaration of solvency for such winding up. This procedure is therefore instigated by a solvent company. A shareholders' voluntary winding up is started by the shareholders passing a special resolution. If the directors do not give a statutory declaration of solvency, a creditors' voluntary winding up can commence by the shareholders passing a special resolution. This procedure is therefore instigated by an insolvent company. Any surplus after payment of debts and interest will go to the shareholders according to the rights attached to their shares. As with unsecured creditors, they would be paid out of free assets or any funds available from charged assets following payment of all prior claims (i.e. fixed charge holders, preferential creditors and floating charge holders).	Under the BCBCA, a company may liquidate if it is authorised to do so by a special resolution. A company may apply for a voluntary dissolution if it is authorised to do so by an ordinary resolution and it has no assets and liabilities. On application by the company, a shareholder, director or any other person whom the court considers to be appropriate, including a creditor of a company, the court may order that the company be liquidated and dissolved if the court considers it just and equitable. Liquidation of the company may also take place completely outside the framework of the BCBCA, such as under the <i>Bankruptcy and Insolvency Act</i> (Canada) or the <i>Companies' Creditors Arrangement Act</i> (Canada). Finally, a company may be liquidated informally under contractual arrangement, usually by way of the private appointment of a receiver and manager.

8.5 Consequences of being a foreign registered company

As noted above, Boart Longyear 'Canada' will be registered as a foreign company in Australia pursuant to Part 5B.2 of the Corporations Act. Accordingly, in addition to the laws and regulations set out elsewhere in this Section, Boart Longyear 'Canada' will also be subject to the provisions of Part 5B.2 of the Corporations Act.

9. TAXATION REPORT

9.1 Australian Taxation Implications

This section provides a summary of Australian tax implications for certain eligible Scheme Shareholders who dispose of their Boart Longyear Shares and acquire Boart Longyear 'Canada' CDIs under the Scheme. This information only relates to Scheme Shareholders who hold their Boart Longyear Shares as capital assets. Scheme Shareholders who hold their Boart Longyear Shares on revenue account should consult their professional advisors on the tax implications of the Scheme.

The information in this section is general in nature and does not take into account the individual circumstances of all Scheme Shareholders; it is not intended to be, nor should it be, construed as legal or tax advice to any particular Scheme Shareholder. Scheme Shareholders should consult their professional advisors on the tax implications of the Scheme for their individual circumstances.

9.2 Disposal Of Boart Longyear Shares for CDIs In Boart Longyear 'Canada'

The tax implications of the Scheme will differ between Scheme Shareholders who are and are not a resident of Australia for tax purposes.

9.3 Resident Scheme Shareholders

(a) CGT Event

The disposal of Boart Longyear Shares by a resident Scheme Shareholder will give rise to a CGT event. This CGT event will occur at the time that the shares are disposed of, which should be the Implementation Date. As discussed further below, the resident Scheme Shareholder may have access to CGT scrip for scrip rollover relief, which would, if they would otherwise realise a taxable capital gain in relation to that CGT event, allow them to disregard that taxable gain.

If CGT scrip for scrip rollover relief is not available, or the resident Scheme Shareholder chooses not to obtain it, the resident Scheme Shareholder will realise either a capital gain or a capital loss from the disposal of their Boart Longyear Shares. A capital gain will arise where the capital proceeds exceed the cost base of the Boart Longyear Shares, and a capital loss will arise where the capital proceeds are less than the reduced cost base for the Boart Longyear Shares.

The capital proceeds received by the resident Scheme Shareholder will generally be equal to the market value (as at the Implementation Date) of the Boart Longyear 'Canada' CDIs received by the resident Scheme Shareholder in respect of the disposal of their Boart Longyear Shares. The cost base (or reduced cost base) of the Boart Longyear Shares should generally include the amount paid by the resident Scheme Shareholder to acquire the Boart Longyear Shares, as well as any non-deductible incidental costs of acquisition and disposal.

(b) Where a Capital Gain or Loss is Realised

Capital gain

Where a resident Scheme Shareholder realises a capital gain from the disposal of their Boart Longyear Shares, they will generally be required to include this capital gain in their assessable income for the relevant year. As discussed further below, discount CGT treatment may be available.

Capital loss

Where a resident Scheme Shareholder realises a capital loss from the disposal of their Boart Longyear Shares, they may use this to offset any taxable capital gains from the same or subsequent income years (subject to certain conditions). This could include offsetting the capital loss against taxable capital gains that they realise from a subsequent disposal of their Boart Longyear 'Canada' CDIs.

Discount CGT Treatment

If the resident Scheme Shareholder realises a capital gain from the disposal of their Boart Longyear Shares, and held them for at least 12 months at the time of disposal (or is taken to have for CGT discount purposes), discount CGT treatment may apply, as follows:

- if the resident Scheme Shareholder is an individual or trustee, CGT will only apply to half of any capital gain made;
- if the resident Scheme Shareholder is a trustee of a complying superannuation entity, CGT will only apply to two-thirds of any capital gain made; and
- if the resident Scheme Shareholder is a company, no discount will apply.

Where the resident Scheme Shareholder is entitled to discount CGT treatment, any capital losses will be applied to reduce the capital gain before determining the discount.

(c) CGT scrip for scrip rollover relief

A resident Scheme Shareholder who would otherwise make a capital gain from the disposal of their Boart Longyear Shares may be able to obtain CGT scrip for scrip rollover relief. If the resident Scheme Shareholder is eligible and chooses to obtain CGT scrip for scrip rollover relief, the capital gain from the disposal of the Boart Longyear Shares will be disregarded.

Where a CGT scrip for scrip rollover is obtained, the first element of the cost base (or reduced cost base) of the Boart Longyear 'Canada' CDIs will generally be the cost base (or reduced cost base) of the Boart Longyear Shares, worked out at the time that the Boart Longyear Shares were disposed of. However, if a resident Scheme Shareholder is deemed to have acquired their Boart Longyear Shares before 20 September 1985, the first element of the cost base (or reduced cost base) of the Boart Longyear 'Canada' CDIs will be their market value just after they are acquired.

Where a scrip for scrip rollover is obtained, the acquisition date of the Boart Longyear 'Canada' CDIs for CGT discount purposes will be the acquisition date of the corresponding Boart Longyear Shares.

Where a resident Scheme Shareholder would make a capital loss from the disposal of their Boart Longyear Shares, scrip for scrip rollover will not apply to that loss. Rather, the capital loss should be treated as arising at the time of the disposal of their Shares.

(d) **Boart Longyear 'Canada' CDIs**

Cost base and Acquisition Date of Boart Longyear 'Canada' CDIs

Where a CGT scrip for scrip rollover is not obtained, the first element of the cost base (or reduced cost base) of the Boart Longyear 'Canada' CDIs should equal the market value of the Boart Longyear Shares that were disposed of, as at the Implementation Date.

Where a CGT scrip for scrip rollover is not obtained, the acquisition date of the Boart Longyear 'Canada' CDIs for CGT discount purposes should be the Implementation Date.

Subsequent Disposals of the Boart Longyear CDIs

Where a resident Scheme Shareholder subsequently disposes of their Boart Longyear 'Canada' CDIs, this may give rise to a capital gain or loss.

Provided the resident Scheme Shareholder holds the Boart Longyear 'Canada' CDIs for 12 months from the acquisition date of the Boart Longyear 'Canada' CDIs, discount CGT treatment may be available for any capital gain made (please see above for an outline of the discounts that may be available).

Taxation of dividends received on the Boart Longyear 'Canada' CDIs

Where a resident Scheme Shareholder receives a dividend on the Boart Longyear 'Canada' CDIs, they will generally have to include the gross amount received in their assessable income for the relevant year. Franking credits will not be available in respect of these dividends.

Where foreign withholding tax is paid on dividends, the resident Scheme Shareholder may be able to obtain a non-refundable tax offset and use it to reduce their tax liabilities in the relevant year (subject to certain conditions).

9.4 **Non-Resident Scheme Shareholders**

(a) **CGT Event**

Non-resident Scheme Shareholders may be able to disregard any capital gain or loss arising from the disposal of the Boart Longyear Shares.

Non-residents will only make a capital gain or loss on the disposal of "taxable Australian property". Shares in an Australian company that are disposed of by a non-resident will only be "taxable Australian property" where they are held in connection with the conduct of a business through a permanent establishment in Australia, or they are an "indirect Australian real property interest". A non-resident Scheme Shareholder will hold an "indirect Australian real property interest" if they, together with their associates, own at least 10% of the shares in Boart Longyear (either at the time of transfer, or for a 12 month period within the last 24 months), and the market value of Boart Longyear's Australian real property assets (e.g. land) exceeds the market value of its non-real property assets. We are instructed that the market value of Boart Longyear's Australian real property assets does not exceed the market value of its non-real property assets.

(b) **Holding and disposing of Boart Longyear 'Canada' CDIs**

Where a non-resident Scheme Shareholder receives a dividend from Boart Longyear 'Canada' in respect of the CDIs, they generally will not have to include

the gross amount received within their Australian assessable income for the relevant year.

Additionally, where a non-resident Scheme Shareholder elects to dispose of the Boart Longyear 'Canada' CDIs, this will generally not give rise to a CGT event provided that the Boart Longyear 'Canada' CDIS are not "taxable Australian property".

Dear Directors

Introduction

Boart Longyear Limited ("Boart", "the Company") is a global mining services company specialising in the provision of drilling services and equipment. It operates in North America, Latin America, Europe, Asia-Pacific and Africa. Boart is an Australian incorporated company which has been listed on the Australian Securities Exchange ("ASX") since April 2007. As at 23 October 2018, Boart had a market capitalisation of c. A\$105.16 million. In spite of the global nature of its operations, c. 44% of its revenue is primarily generated in U.S.A and Canada.

Over the last three years, as a result of the downturn in the mining sector, the Company has been facing challenging trading conditions which has caused the write-down and impairment of tangible and intangible assets and resulted in an unsustainable level of debt. For the 6-month period ended 30 June 2018 ("1HY18"), the Company reported a net loss of US\$16.3 million and negative net assets of circa US\$279 million.

This has led to the implementation of a number of restructuring initiatives (collectively known as the 'Restructure Program'). In particular, on 3 April 2017, the Company announced that it had agreed a recapitalisation program with the key creditors¹ of the Company which was completed in September 2017 ("Recapitalisation"). Some of the key outcomes were as follows:

- Reduction of debt by c. US\$93 million in exchange for the issue of c. 11.3 billion shares of Boart.
- Improvement in the liquidity through the option to pay interest-in-kind (rather than cash) on all debt facilities (until December 2018). Further, the maturities of some debt instruments were extended by a period of 4 years.

As part of the Recapitalisation, the Company agreed to take all requisite steps to re-domicile the headquarters of its business to the United States (state of Delaware), the United Kingdom or Canada (or such other jurisdiction as the parties agreed) as soon as possible after the implementation of the Recapitalisation, unless Boart and the Major Shareholders jointly determined in their reasonable discretion that the re-domiciliation would not be in the best interests of the Group.

¹ Key creditors of the Company comprise affiliates of Ares Management L.P. ("Ares"), Ascribe II Investments LLC ("Ascribe") and affiliates of Centrebridge Partners L.P. ("Centrebridge"), who collectively represent over 75% of its secured creditors and 90% of its unsecured creditors (collectively "Major Shareholders"). These key creditors were offered shares in consideration for some of their liabilities as part of the Recapitalisation undertaken by the Company in 2017.

Following a review of several factors including but not limited to existing business substance in each jurisdiction, the political stability, the general regulatory environment, the ease of access to the applicable legal system, the sophistication of the applicable financial markets (specifically within the mining sector) and foreign exchange rate risk, the Company has determined to take the necessary steps to re-domicile to Canada ("Re-domiciliation"). The Re-domiciliation will include the following steps:

- Incorporation of a newly formed entity in Canada ("Boart Canada").
- Shareholders of Boart ("Scheme Shareholders" or "Members") will be required to vote on the scheme of arrangement ("Scheme") pursuant to which Boart Canada will acquire all the shares in Boart, by exchanging one share in Boart Canada for one share in Boart.
- Following the Re-domiciliation, the shareholdings of Boart Canada after the implementation of the Scheme will look substantially identical (with the exception of the Ineligible Foreign Shareholders) to the shareholdings of the Company before the implementation of the Scheme.
- Boart Canada will then apply for listing on the ASX. Given that Canadian regulations do not permit CHES² to be used for electronic transferring and holding of legal title to securities, eligible Scheme Shareholders will receive shares in Boart Canada in the form of Boart Canada CDIs³ rather than ordinary shares, which represents a beneficial interest in the shares of Boart Canada.
- Following the successful listing of Boart Canada CDIs, Boart will be de-listed from the ASX and will continue operating as a wholly-owned subsidiary of Boart Canada. The successful listing of Boart Canada CDIs on the ASX is a condition precedent for the implementation of the Scheme.
- We note that Boart Canada CDIs will not be issued to Scheme Shareholders resident in certain jurisdictions ("Ineligible Foreign Shareholders"). The Ineligible Foreign Shareholders will instead receive the net proceeds of the sale of Boart Canada CDI they would otherwise have been entitled to under the Scheme. Refer to section 1 for details.

As outlined above, if the Scheme is implemented, there would be no change in the economic interests of Scheme Shareholders (excluding Ineligible Foreign Shareholders).

The Scheme is subject to customary conditions precedent as set out in the Scheme Booklet.

Subject to the satisfaction of the conditions precedent to the Scheme and the independent expert concluding that the Scheme is in the best interest of the Members, the directors of Boart ("Directors") have unanimously recommended that Scheme Shareholders vote in favour of the Scheme and have advised that each Director intends to vote all shares of Boart ("Boart Shares") held or controlled by them in favour of the Scheme.

² Clearing House Electronic Sub-register System ("CHES") is the computer system used by the ASX to record shareholdings and manage the settlement of share transactions.

³ A CHES Depository Interest ("CDI") is a beneficial interest in Boart Canada that is registered in the name of the Authorised Nominee in accordance with the ASX Settlement Operating Rules for the purpose of enabling the securities to be recorded and transferred in accordance with those operating rules.

Purpose of the report

Part 3 of Schedule 8 (s640) of the Corporations Regulations requires an independent expert's report in relation to a scheme to be prepared when a party to that scheme has a shareholding greater than 30% in the company subject to the scheme, or where any of its directors are also directors of the company subject to the scheme. In those circumstances, the independent expert's report must state whether a scheme is in the best interests of shareholders and state reasons for that opinion.

Whilst there is no legal requirement for the preparation of an independent expert's report ("IER") in conjunction with the Scheme, the Directors have commissioned this IER to assist the Members in assessing the merits of the Scheme.

When preparing this IER, Grant Thornton Corporate Finance had regard to the Australian Securities Investment Commission ("ASIC") Regulatory Guide 111 *Contents of expert reports* ("RG 111") and Regulatory Guide 112 *Independence of experts* ("RG 112"). The IER also includes other information and disclosures as required by ASIC.

Summary of opinion

Grant Thornton Corporate Finance has considered the advantages and disadvantages of the Scheme and concluded that the Scheme is in the BEST INTERESTS of the Members.

While the legal form of the Scheme involves the exchange of shares in Boart for shares in Boart Canada, which is akin to a change in control transaction, the substance of the Scheme is that (other than in respect of Ineligible Scheme Shareholders) the underlying economic interests of the Members do not change and the shareholdings in Boart Canada will be substantially identical to the shareholdings in Boart immediately after the implementation of the Scheme. In addition, there are no proposed changes to the Board of Directors, Management Team and principal activities of Boart as a result of the Re-domiciliation.

We have therefore assessed whether or not the Scheme is in the best interest of the Members by comparing the advantages and disadvantages of the Scheme which is consistent with the requirements of ASIC RG111.

The Scheme is being implemented to give effect to the Re-domiciliation. Therefore, the advantages and disadvantages of the Scheme primarily comprise the advantages and disadvantages of the Re-domiciliation. As part of the analysis, we have primarily relied on the information included in the Scheme Booklet and other information made available to us by the Company.

Advantages of the Scheme

Well-defined legal system

As at 30 June 2018, the Company had c. US\$688 million external debt, negative net assets of US\$279.3 million and a statutory loss from continuing operations of US\$16.3 million. Accordingly, the Company is considered in financial distress. Given the Company's financial position, we are of the opinion that a legal regime that is well defined in relation to restructuring, insolvency matters and minority shareholders protection is important.

Based on information included in the Scheme Booklet, the Canadian legal regime is well defined in relation to regulatory matters of insolvency and minority shareholder protection. This is evidenced by the World Bank Ease of Doing Business ranking⁴. In relation to the Protection of Minority Investors, Canada is ranked⁵ 8, whilst Australia is ranked 57. In relation to Resolving Insolvency, Canada is ranked 11, whilst Australia is ranked 18.

Further, given that Canada and the U.S.A, where the Company is headquartered fall in reasonably similar time zones, access to legal resources such as courts, securities regulators and counsel is likely to enhance responsiveness and expedite decision-making.

Potentially greater access to capital from local institutional investors

Given that Boart is in a situation of financial distress⁶, the Company may need to raise additional capital in order to continue trading as a going concern. Based on the information included in the Scheme Booklet, a change in domicile is likely to make Boart more attractive to Canadian institutional investors and pooled funds who tend to limit the foreign issuers in their Canadian equity portfolios to comply with their international market risk requirements.

Retention of the ASX listing

The listing of Boart Canada's CDI on the ASX is a condition precedent to the implementation of the Scheme and accordingly, Scheme Shareholders (other than Ineligible Scheme Shareholders) will continue to be able to trade their shares through Boart Canada CDIs and Boart Canada will be required to comply with the ASX listing rules.

There are no significant disadvantages holding Boart CDIs relative to direct ownership of Boart Shares. Based on the disclosure in the Scheme Booklet, the rights of Scheme Shareholders will not be impacted due to their inability to have a direct ownership in Boart Canada. A detailed description of the rights of CDI holders and the differences between holding shares and CDIs is set out in Appendix E of the Scheme Booklet.

Comparable shareholder protection

The Scheme Booklet sets out the comparative provisions between the British Columbia Business Corporations Act ("BCBCA") on the one hand and the Corporations Act, ASX listing rules and the Australian common law on the other. In our opinion, the Scheme Shareholders (other than Ineligible Scheme Shareholders) will not be prejudiced due to the Re-domiciliation as the regulations in Canada are not dissimilar to those observed in Australia.

Potential for increased allowance for tax deductibility of the interest expense

Boart has reported significant losses over the last 3 years primarily due to a downturn in the mining industry which has impacted the market demand for its products and services. As at 30 June 2018,

⁴ The Ease of Doing business ranking is a ranking from 1 to 190 compiled by the World Bank having regard to 10 major factors. A high ease of doing business ranking means the regulatory environment is conducive to starting and operating a local firm. Whilst Boart is an established operating company and therefore comparison of the overall ranking is of limited usefulness. Having regard to Boart's present financial position, we are of the opinion that the two most relevant factors are – Protection of Minority Investors, Resolving Insolvency

⁵ The ranking is relative and represents the distance from the best benchmark set by a Country

⁶ As at 30 June 2018, the Company had US\$688 million external debt, a negative net assets of US\$279.3 million and a statutory loss from continuing operations of US\$16.3 million.

the Company had c. US\$688 million external debt, comprising US\$277.6⁸ million of Term Loans and US\$410.4 million of other debt across various other debt instruments⁹.

Given that all the creditors of the Company are domiciled outside Australia, the Company is required to make periodic interest payments on the debt to the creditors. Given the outstanding debt, the Group has a large interest expense, which can potentially be used to reduce the tax expense¹⁰ being incurred by the Company. Due to the poor alignment of the debt (most of which is held by the Australian entity where the operations are loss making due to the mining downturn) and the profit making operations of the group (most of which are concentrated in North America), the Group cannot take full advantage of the tax deductibility on the interest expense. As a result, the Company intends to transfer a portion¹¹ of the debt to Canada. This could potentially reduce the tax expense for the Group, reducing the existing burden on the Company's finances.

Whilst the transfer of the debt to take advantage of the tax deductibility on the interest expense can be effected without the Re-domiciliation, in the absence of the Re-domiciliation, this transfer of the debt is likely to create inefficiencies that may be detrimental to shareholders.

Potential reduction in costs

Given the Group's global operations, it incurs significant administrative costs. The Re-domiciliation is likely to facilitate a simplification of the group structure under which redundant entities will be closed. This will reduce the legal and administrative costs associated with operating these entities. Whilst the closure of entities could be done without undertaking the Re-domiciliation, in our opinion, it is likely to result in reduced benefits to the Scheme Shareholders due to the associated inefficiencies of such a group simplification.

Disadvantages of the Scheme

Change of jurisdiction

Following the Re-domiciliation, Boart Canada will be governed by the BCBCA. Any future action brought by Australian investors will be regulated by the Canadian legal system. Whilst Boart Canada can submit to the jurisdiction of an Australian court. However, based on the Scheme Booklet we understand that Australian courts can refuse to admit the matter. In these instances, the matter will be within the ambit of the Canadian legal system.

Despite the above, an Australian shareholder will be able seek enforcement of the laws in the same manner as a Canadian shareholder. In our opinion, given the relative similarity between the Australian and Canadian legal regime as per the Scheme Booklet, Australian shareholders are unlikely to be prejudiced due to the Re-domiciliation.

⁸ Comprising Tranche A term loan (outstanding balance of US\$85 million and accrued interest of US\$40.7 million) and Tranche B term loan (outstanding balance of US\$105 million and accrued interest of US\$46.9 million).

⁹ Refer to section 4 for details of the outstanding debt.

¹⁰ The Company paid c. US\$4.4 million of taxes for the half-year ended 30 June 2017 and US\$6.3 million for the half-year ended 30 June 2018.

¹¹ Refers to all the debt excluding the Term Loans, which have been transferred to Boart entities in the USA, prior to the Re-domiciliation.

Grant Thornton

An instinct for growth™

Franking credits

If the Scheme is implemented, Australia-based shareholders may not be able to benefit from franking credits going forward, however Scheme Shareholders may be able to obtain a non-refundable tax offset and use it to reduce their tax liabilities in the relevant year (subject to certain conditions.).

Given the Company's situation of financial distress discussed earlier with large debt outstanding and significant losses, the Company is unlikely to be able to pay a dividend until the debt level is significantly reduced and the financial performance improves significantly. In addition, any accumulated tax losses that can be used to offset against taxable income will further delay the creation of franking credits.

In our opinion, the disadvantage due to lack of franking credits is mitigated due to the Company's inability to pay dividends in the medium term.

Other factors

Advisor fees

The Company has appointed advisors to assist with the Restructure Program. Most of these advisor costs are one-time expenses that are likely to result in recurring savings which are primarily the administrative and legal costs associated with the entities that are likely to be closed.

In our opinion, the disadvantage associated with incurring advisor cost is offset by the recurring benefit due to reduction in the Group's overall costs.

Tax implications

Based on the Scheme Booklet, the Re-domiciliation may have adverse tax implications for individual Boart Longyear Shareholders. Accordingly, the Company advises shareholders to consider a summary of certain taxation implications for Scheme Shareholders included in Section 9 of the Scheme Booklet.

However, the tax position of individual shareholders may be impacted by their specific circumstances. Boart Shareholders unsure of the tax implications due to the Re-domiciliation are advised to seek their own professional advice.

Availability of tax losses

The Company has significant tax losses available to offset against future taxable income. The Company has stated that it intends to implement the Re-domiciliation in a manner so as to be able to make use of available tax losses where possible and to limit the impact on the availability of remaining Australian tax losses post implementation of the Re-domiciliation.

Intentions of the Major Shareholders

The major shareholders of the Company, being Centerbridge (50.85%), Ascribe (21.4%) and Ares (11.70%), collectively holding circa 85% of the issued capital have informed the Directors of their

Grant Thornton

An instinct for growth™

intentions to vote in favour of the Re-domiciliation.

No impacts on the holders of the Warrants and LTIP units

Boart Canada has entered into a deed poll dated 6 December 2018 pursuant to which it has agreed to assume the obligations of Boart in relation to the existing warrants and LTIP¹² units and accordingly the holders will not be adversely affected.

Ineligible Foreign Shareholders cash option

As noted earlier, Ineligible Foreign Shareholders will receive cash rather than Boart Canada CDIs. Specifically, the Boart Canada CDIs that the Ineligible Foreign Shareholders are entitled to will be transferred to a Sale Agent and sold on the ASX and the net proceeds of sale (after deduction of any applicable fees, brokerage, taxes and charges) will be remitted to the Ineligible Foreign Shareholders.

In our opinion, given that Ineligible Foreign Shareholders will receive cash equivalent to the value of Boart Canada CDIs on the ASX (after deducting fees), we do not believe the Ineligible Foreign Shareholders are disadvantaged relative to the other Scheme Shareholders who will receive Boart Canada CDIs.

Overall conclusion

In our opinion, the advantages of the Scheme outweigh the disadvantages and accordingly the Scheme is in the **BEST INTERESTS** of the Members.

Other matters

Grant Thornton Corporate Finance has prepared a Financial Services Guide in accordance with the Corporations Act. The Financial Services Guide is set out in the following section.

The decision of whether or not to vote in favour of the Scheme is a matter for each Scheme Shareholder to decide based on their own views of value of Boart and expectations about future market conditions, Boart's performance, risk profile and investment strategy. If Scheme Shareholders are in doubt about the action they should take in relation to the Scheme, they should seek their own professional advice.

Yours faithfully

1 Overview of the Re-domiciliation

In determining the appropriate location for the Re-domiciliation, the Company considered multiple jurisdictions such as United Kingdom, the United States and Canada. In analysing suitable re-domiciling locations, the Company considered the qualitative and quantitative factors which are set out below:

- Existing business substance which comprises the extent of available resources required to run the operations. For instance, the Company has limited corporate operations in the U.K, making a re-domiciliation to the U.K. more expensive relative to other jurisdictions.
- Regulatory environment and similarity with the Australian system.
- Commonality of legal system to the USA is likely to translate into reduced cost of compliance and enhanced responsiveness given the Company mainly operates in North America.
- Potential attractiveness of Boart to local institutional investors by virtue of being a company domiciled in that jurisdiction.
- Other factors such as treaty network, foreign exchange risk, optimal allocation.

Having considered the relative advantages and disadvantages of alternative jurisdictions, the Company believes Canada represents the most appropriate jurisdiction for re-domiciling the parent company. A brief description of the process has been discussed below:

- The Scheme is approved by the requisite majorities of Scheme Shareholders at the Scheme Meeting.
- The Independent Expert's Report concludes that the Scheme is in the best interests of the Members.
- ASX approves the admission of Boart Canada to the official list of ASX leading to the official quotation of Boart Canada CDIs, subject to any conditions that ASX may reasonably require.
- The Scheme is approved by the Court in accordance with section 411(4) (b) of the Corporations Act.
- Before the Second Court Date, Boart Canada is notified by the Federal Treasurer that the Commonwealth of Australia has no objections (unconditionally or on conditions acceptable to Boart Canada acting reasonably) to Boart Canada acquiring all the shares in Boart.

Refer to the Scheme Booklet for a comprehensive list of the conditions precedent.

Ineligible Foreign Shareholders

The entitlement of Scheme Shareholders who are Ineligible Foreign Shareholders to Boart Canada CDIs will be dealt with under the Re-domiciliation via the Sale Facility and the Boart Canada CDIs to which Ineligible Foreign Shareholders would otherwise be entitled will be transferred to the Sale Agent and sold on ASX and the net proceeds of sale (after deduction of any applicable fees, brokerage, taxes and charges) will be remitted to the Ineligible Foreign Shareholders.

2 Purpose and scope of the report

2.1 Purpose

Section 411 of the Corporations Act

Section 411 of the Corporations Act, 2001 regulates schemes of arrangement between companies and their members. Part 3 of Schedule 8 of the Corporations Regulations 2001 prescribes information to be sent to shareholders and creditors in relation to members' and creditors' schemes of arrangement pursuant to Section 411 of the Corporations Act.

Part 3 of Schedule 8 (s640) of the Corporations Regulations requires an independent expert's report in relation to a scheme to be prepared when a party to that scheme has a shareholding greater than 30% in the company subject to the scheme, or where any of its directors are also directors of the company subject to the scheme. In those circumstances, the independent expert's report must state whether a scheme is in the best interests of shareholders and state reasons for that opinion. Even where there is no requirements for an independent expert's report, documentation for a scheme of arrangement typically includes an independent expert's report.

Whilst an independent expert's report is not mandatory to comply with the provisions of the Corporations Act, the Directors, for corporate governance purposes, have requested that Grant Thornton Corporate Finance prepare an independent expert's report to express an opinion as to whether the Scheme is in the best interests of Scheme Shareholders.

2.2 Basis of assessment

The Company intends to enter into a Scheme to effect the re-domiciliation from Australia to Canada. In determining whether the Scheme is in the best interests of the Members, Grant Thornton Corporate Finance has had regard to relevant Regulatory Guides issued by the ASIC, including RG 111, Regulatory Guide 60 Scheme of arrangement ("RG 60") and RG 112. The IER will also include other information and disclosures as required by ASIC. We note that neither the Corporations Act nor the Corporations Regulations define the term "in the best interests of members".

RG111 does not specify the basis of evaluation for a change of domicile transaction but does indicate that the basis for evaluation selected by the expert must be appropriate for the nature of each specific transaction, that is, the expert must consider the substance of the proposed transaction and not the legal form when evaluating it. The economic substance of the change in domicile transaction is that there is no change in the economic interests of shareholders in eligible jurisdictions¹³, who effectively retain their existing stake in the Company following implementation of the Scheme. While the legal form of the Scheme, involving the exchange of shares in Boart for shares in Boart Canada, is akin to a change in control transaction, there is not, in substance, any change in control taking place under the Scheme. Accordingly, we do not consider it appropriate to analyse the change in domicile as a control transaction.

RG 111 establishes certain guidelines in respect of independent expert's reports prepared for the purposes of the Corporations Act. RG111 is framed largely in relation to reports prepared pursuant to Section 640 of the Corporations Act and comments on the meaning of "fair and reasonable" in the context of a takeover offer. As stated earlier, a change in domicile is not viewed as a change of control transaction.

¹³ Ineligible Foreign Shareholders will not receive Boart Canada CDIs and will be settled in cash.

In analysing transactions which do not involve a change of control, RG 11 requires the expert to provide an opinion on whether the advantages of the proposal outweigh the disadvantages. In such circumstances, the expert should conclude that the proposal is “in the best interests of the members.”

2.3 Independence

Prior to accepting this engagement, Grant Thornton Corporate Finance (a 100% subsidiary of Grant Thornton Australia Limited) considered its independence with respect to the Scheme with reference to RG 112 issued by ASIC.

Grant Thornton Corporate Finance has no involvement with, or interest in, the outcome of the approval of the Scheme other than that of an independent expert. Grant Thornton Corporate Finance is entitled to receive a fee based on commercial rates and including reimbursement of out-of-pocket expenses for the preparation of this report.

Except for these fees, Grant Thornton Corporate Finance will not be entitled to any other pecuniary or other benefit, whether direct or indirect, in connection with the issuing of this report. The payment of this fee is in no way contingent upon the success or failure of the Scheme.

In our opinion, Grant Thornton Corporate Finance is independent of Boart and its Directors and all other relevant parties of the Scheme.

2.4 Consent and other matters

Our report is to be read in conjunction with the Scheme dated on or around 6 December 2018 in which this report is included, and is prepared for the exclusive purpose of assisting Scheme Shareholders in their consideration of the Scheme. This report should not be used for any other purpose.

Grant Thornton Corporate Finance consents to the issue of this report in its form and context and consents to its inclusion in the Scheme Booklet.

This report constitutes general financial product advice only and in undertaking our assessment, we have considered the likely impact of the Scheme on Scheme Shareholders as a whole. We have not considered the potential impact of the Scheme on individual Scheme Shareholders. Individual shareholders have different financial circumstances and it is neither practicable nor possible to consider the implications of the Scheme on individual shareholders.

The decision of whether or not to approve the Scheme is a matter for each Scheme Shareholder based on their views of the advantages and disadvantages of the Scheme. If the Scheme Shareholders are in doubt about the action they should take in relation to the Scheme, they should seek their own professional advice.

2.5 Compliance with APES 225 Valuation Services

This report has been prepared in accordance with the requirements of the professional standard APES 225 Valuation Services ("APES 225") as issued by the Accounting Professional & Ethical Standards Board. In accordance with the requirements of APES 225, we advise that this assignment is a Valuation Engagement as defined by that standard as follows:

"An Engagement or Assignment to perform a Valuation and provide a Valuation Report where the Member is free to employ the Valuation Approaches, Valuation Methods, and Valuation Procedures that a reasonable and informed third party would perform taking into consideration all the specific facts and circumstances of the Engagement or Assignment available to the Member at that time."

3 Profile of the industry

3.1 Introduction

The mining services industry primarily provides concreting and general earthworks, equipment maintenance services, environmental rehabilitation services etc. to mining companies. Boart, with a market share of c. 3%¹⁴ of the Australian market provides drilling services, drilling equipment and performance tooling for mining and drilling companies.

In considering the key external drivers and trends likely to impact Boart, we have considered the following:

- In FY17, c. 67% of the Company's revenue was earned through drilling services whilst the remaining was earned through the sale of equipment to mining companies. Since 2011, c. 60% to 80% of the drilling services revenue is contributed through services provided to gold and copper miners. Thus the demand, supply and outlook for gold and copper are likely to be a key driver influencing the performance of the Company.
- Further, since 2015 the exploration and production tooling have collectively contributed in excess of 70% of the total performance and tooling equipment divisions' revenue. We have therefore considered the historical and forecast exploration expenditure as these are likely to drive demand for the products offered by Boart.
- The Company invests in new technology and has developed a number of patented products. We have therefore also considered the growing importance of technology in the mining industry.

3.2 Key external drivers and trends

3.2.1 Gold

Gold is a precious metal that has traditionally been used as a store of wealth. Anecdotal evidence suggests that gold demand and price have an inverse relationship with equities market. Following is the historical and forecast demand and supply for gold published by the Office of the Chief Economist, Department of Industry, Innovation and Science.

Historical and forecast metrics for gold

Source: Resources and Energy Quarterly June 2018

Note 1: Gold prices included in the above graph are in nominal terms and represent the price on the London Bullion Market Association PM Price¹⁵

We have discussed each of the key metrics below:

- Prices:** Due to rising U.S. China trade tensions and concerns over bullish equity markets, gold prices have remained within the range of \$1,300 – US\$1,350 in the first half of 2018. Continued trade tensions and political uncertainty in the Middle-East is likely to result in an increase in the gold price to US\$1,380 in 2019. Over 2020, the U.S. bond rates are expected to stabilise causing a decline in the gold price. Key downside risks include a rising US dollar, higher Treasury bond yields led by rising interest rates following continued recovery in the US economy.
- Demand:** World gold demand declined by 7 percent in the quarter of March 2018 due to rising interest rates and stagnant gold prices. Gold demand is expected to increase at c. 2% p.a. primarily driven by demand from China and India. Further, demand for gold is also supported by the Technology sector which typically uses gold for products such as bonding wires and wireless chips. Of the factors discussed in the earlier section, the geopolitical uncertainties and concerns over bullish equity markets are also likely to influence demand for gold as investors view gold as a hedge against these risks.
- Supply:** Production of gold increased by 3.1 percent in the March 2018 quarter as output from newer mines in Russia and Africa more than offset a reduction in production in China. Gold production is expected to increase during 2018 and 2019 supported by strong supply from Canada, Indonesia and Russia. In 2020, gold production is expected to decline marginally due to exhaustion of established mines in the United States and Peru.

In summary, the outlook for gold miners looks relatively positive. This positive outlook is likely to assist in maintaining or increasing the level of activity in the gold industry which can be potentially accretive to the performance of Boart.

¹⁵ LBMA Gold Price PM means the price for a Pricing Date will be that day's afternoon London Gold price per troy ounce of Gold for delivery in London through a member of the LBMA authorised to effect such delivery, stated in US\$, as calculated and administered by independent service provider(s), pursuant to an agreement with the LBMA and published on its website that displays prices effective on that pricing date.

3.2.2 Copper

Copper is a base metal with extensive use in industry. Typically, copper prices are often influenced by the outlook for economic growth. Following is the historical and forecast demand and supply for copper published by the Office of the Chief Economist, Department of Industry, Innovation and Science.

Historical and forecast metrics for copper

Source: Resources and Energy Quarterly June 2018

Note 1: Copper prices included in the above graph are in nominal terms and represent the price on the London Metal Exchange price

Note 2: Copper production reported in the graph is the copper production mined.

We have discussed each of the key metrics below:

- Prices:** In 2017, Copper prices reached a three year high of US\$6,307 a tonne, after successively declining for five years. This was due to strong growth in global industrial production and several supply disruptions throughout the year. From 2017 to 2020, copper prices are expected to increase modestly as copper inventory continues to decline from 2.3 weeks of copper inventory in 2017 to 1.6 weeks of inventory in 2020.
- Demand:** Relative to 2016, copper consumption increased in 2017. This was primarily driven by demand from China, which consumes c. 50% of the world's total consumption. Copper consumption is expected to grow modestly over the forecast period. This is due to the difficulties in predicting China's economic growth due to policy changes being implemented in the country. However, this uncertainty is marginally offset by the growing output of electric vehicles globally which contains an average of 90 kg of copper. This is significantly higher than the average 25 kg of copper that is typically used in petrol vehicle.
- Supply:** In 2017, copper production decreased to c. 20 million tonnes on account of supply disruptions at the Escondida¹⁶ and Grasberg¹⁷ mines. Copper production is expected to rapidly expand until 2019 following which a steady increase continues on account of commencement of new projects such as First Quantum Minerals' Cobre Panama and Qulong copper mine operated by Tibet Julong Mining. A key downside risk to supply includes renewed industrial action at the Escondida mine.

¹⁶ Escondida is the largest copper mine and is located in Northern Chile

¹⁷ Grasberg is the second largest copper mine located in the Papua province in Indonesia.

Similar to gold, the outlook for copper miners looks relatively positive. This positive outlook is likely to assist in maintaining the level of activity within the copper industry which can be potentially accretive to the performance of Boart.

3.2.3 Mining capital expenditure outlook

The following graph sets out the historical and forecast mining capital expenditure.

Historical and forecast mining capital expenditure

Source: IBISWorld Mining Capital Expenditure April 2018, S&P Global

The mining capital expenditure outlook remains stable from FY19. The recovery in the S&P Metals and Mining index since 2015 suggests that commodity prices have stabilised. This is particularly relevant given that the index recovered despite declining forecast mining expenditure. This suggests that stable or increasing commodity prices are likely to support sustained mining capital expenditure and this is likely to impact the performance tooling division's performance.

3.2.4 Growing importance of technology in mining

Many companies are attempting to optimise their existing mines to cost and inefficiencies, primarily through the use of data and technology. Large mining companies such as BHP Billiton and Rio Tinto continue to implement innovative solutions such as driverless locomotives used to transport the ore from the mine to the port.

The CSIRO's *METS – A Roadmap to unlocking future growth opportunities in Australia* discusses some new technologies that are likely to create value for exploration companies. Examples include real-time sensing and drilling technologies and decision support platforms that are likely to permit exploration companies to create value from existing exploration expenditure.

The growing importance of technology is likely to positively influence Boart given the Company's focus on innovation and technology.

4 Profile of Boart

Global Products

The Global Products division complements the Global drilling services division by offering drilling equipment internally and externally. Whilst complementary, the Global Products division has been able to demonstrate growth as the share of external revenue has increased in FY17 relative to FY16. The following charts show a breakdown of the Global Products revenue by product type.

¹⁸ Contribution margin is calculated as the Third party revenue less the cost of goods sold (including depreciation and amortisation). The total revenue considered in the calculation of the contribution margin does not consider inter-department revenues.

¹⁹ Earnings before interest, tax, depreciation and amortisation.

The following is a brief summary of the performance of the Global Products division:

- **Revenue** - increased by c. 11% from US\$115 million in 1HY17 to US\$127 million in 1HY18, primarily driven by increase in coring tools and drill rigs.
- **EBTIDA margin** - EBITDA margin declined from c. 5% in 1HY17 to c. 12% in 1HY18 owing to the Restructure Program.
- **Backlog** - As at 30 June 2018, the backlog of on-going projects represented c. 23% of the 1HY18 revenue.

Financial outlook

Management has not issued a formal revenue or EBITDA guidance for CY18. However, the Company retains a positive outlook in relation to exploration expenditure being undertaken by mining companies, which will positively influence the Company's performance. More specifically, the Company has set out the following objectives for CY18:

- Expand mining and minerals drilling customer base by focusing on efficiency and productivity.
- Effectively manage customer relationships, pricing and contract terms.
- Development of new products and utilising potential opportunities within a constrained capital budget.
- Improve cash generation in 2018, with the goal to continue to be cash positive, through careful management of liquidity and costs.

5 Valuation methodologies

5.1 Introduction

Our conclusion on the Scheme involves comparing the advantages and the disadvantages of the Scheme to determine whether the Scheme is in the best interests of the Scheme Shareholders.

In assessing the merits and demerits of the Scheme, Grant Thornton Corporate Finance has considered the concept of fair market value. Fair market value is commonly defined as:

“the price that would be negotiated in an open and unrestricted market between a knowledgeable, willing but not anxious buyer and a knowledgeable, willing but not anxious seller acting at arm’s length.”

Fair market value excludes any special value. Special value is the value that may accrue to a particular purchaser. In a competitive bidding situation, potential purchasers may be prepared to pay part, or all, of the special value that they expect to realise from the acquisition to the seller.

5.2 Valuation methodologies

RG 111 outlines the appropriate methodologies that a valuer should generally consider when valuing assets or securities for the purposes of, amongst other things, share buy-backs, selective capital reductions, schemes of arrangement, takeovers and prospectuses. These include:

- Discounted cash flow and the estimated realisable value of any surplus assets (“DCF Method”).
- Application of earnings multiples to the estimated future maintainable earnings or cash flows of the entity, added to the estimated realisable value of any surplus assets (“FME Method”).
- Amount available for distribution to security holders on an orderly realisation of assets (“NAV Method”).
- Quoted price for listed securities, when there is a liquid and active market (“Quoted Security Price Method”).
- Any recent genuine offers received by the target for any business units or assets as a basis for valuation of those business units or assets.

Further details on these methodologies are set out in Appendix A to this report. Each of these methodologies is appropriate in certain circumstances.

RG111 does not prescribe any above methodologies as the method(s) that an expert should use in preparing their report. The decision as to which methodology to use lies with the expert based on the expert’s skill and judgement and after considering the unique circumstances of the entity or asset being valued. In general, an expert would have regard to valuation theory, the accepted and most common market practice in valuing the entity or asset in question and the availability of relevant information.

Appendix A – Valuation methodologies

Capitalisation of future maintainable earnings

The capitalisation of future maintainable earnings multiplied by appropriate earnings multiple is a suitable valuation method for businesses that are expected to trade profitably into the foreseeable future. Maintainable earnings are the assessed sustainable profits that can be derived by a company's business and excludes any abnormal or "one off" profits or losses.

This approach involves a review of the multiples at which shares in listed companies in the same industry sector trade on the share market. These multiples give an indication of the price payable by portfolio investors for the acquisition of a parcel shareholding in the company.

Discounted future cash flows

An analysis of the net present value of forecast cash flows or DCF is a valuation technique based on the premise that the value of the business is the present value of its future cash flows. This technique is particularly suited to a business with a finite life. In applying this method, the expected level of future cash flows are discounted by an appropriate discount rate based on the weighted average cost of capital. The cost of equity capital, being a component of the WACC, is estimated using the Capital Asset Pricing Model.

Predicting future cash flows is a complex exercise requiring assumptions as to the future direction of the company, growth rates, operating and capital expenditure and numerous other factors. An application of this method generally requires cash flow forecasts for a minimum of five years.

Orderly realisation of assets

The amount that would be distributed to shareholders on an orderly realisation of assets is based on the assumption that a company is liquidated with the funds realised from the sale of its assets, after payment of all liabilities, including realisation costs and taxation charges that arise, being distributed to shareholders.

Market value of quoted securities

Market value is the price per issued share as quoted on the ASX or other recognised securities exchange. The share market price would, prima facie, constitute the market value of the shares of a publicly traded company, although such market price usually reflects the price paid for a minority holding or small parcel of shares, and does not reflect the market value offering control to the acquirer.

Comparable market transactions

The comparable transactions method is the value of similar assets established through comparative transactions to which is added the realisable value of surplus assets. The comparable transactions method uses similar or comparative transactions to establish a value for the current transaction.

Comparable transactions methodology involves applying multiples extracted from the market transaction price of similar assets to the equivalent assets and earnings of the company. The risk attached to this valuation methodology is that in many cases, the relevant transactions contain features that are unique to that transaction and it is often difficult to establish sufficient detail of all the material factors that contributed to the transaction price.

8. GENERAL

8.1 Costs and stamp duty

Boart Canada must bear and be responsible for:

- (a) its own costs arising out of the negotiation, preparation and execution of this document; and
- (b) any and all stamp duty (including any related fines or penalties) payable on or in respect of this document, or any transaction contemplated by it (including any transfer of Scheme Shares pursuant to the Scheme), and Boart Canada indemnifies each Scheme Shareholder on demand against any liability for any and all such stamp duty.

8.2 Amendment

A provision of this document may not be amended or varied unless:

- (a) before the Second Court Date, the amendment or variation is agreed to in writing by Boart Longyear (on behalf of each Scheme Shareholder but without the need for Boart Longyear to refer the amendment or variation to any Scheme Shareholder) and, if required, is approved by the Court; or
- (b) on or after the Second Court Date, the amendment or variation is agreed to in writing by Boart Longyear (on behalf of each Scheme Shareholder but without the need for Boart Longyear to refer the amendment or variation to any Scheme Shareholder) and is approved by the Court,

and Boart Canada executes a further deed poll in favour of each Scheme Shareholder giving effect to that amendment or variation.

8.3 Assignment

The rights and obligations of Boart Canada and of each Scheme Shareholder under this document are personal and, except with the prior written consent of Boart Longyear and Boart Canada cannot be assigned, encumbered, charged or otherwise dealt with.

8.4 Variation of rights

The exercise of a right partially or on one occasion does not prevent any further exercise of that right in accordance with the terms of this document. Neither a forbearance to exercise a right nor a delay in the exercise of a right operates as an election between rights or a variation of the terms of this document.

8.5 Operation of this document

- (a) Any right that a person may have under this document is in addition to, and does not replace or limit, any other right that the person may have.
- (b) Any provision of this document which is unenforceable or partly unenforceable is, where possible, to be severed to the extent necessary to make this document enforceable, unless this would materially change the intended effect of this document.

8.6 Governing law

- (b) Boart Canada submits to the non-exclusive jurisdiction of the courts of that State, and courts of appeal from them, in respect of any proceedings arising out of or in connection with the subject matter of this document. Boart Canada irrevocably waives any right it has to object to any legal process being brought in those courts including any claim that the process has been brought in an inconvenient forum or that those courts do not have jurisdiction.

APPENDIX E: EXPLANATION OF CDI ARRANGEMENTS

1. **What are CDIs?**

As Boart Longyear 'Canada' intends to be listed on ASX, it will need to comply with ASX rules that require all trading settlement to take place on CHESS (ASX's electronic transfer and settlement system). Boart Longyear 'Canada' Shares cannot be directly held under the CHESS system or traded on ASX directly as Canadian regulations do not permit CHESS to be used for electronic transferring and holding of legal title to securities in companies incorporated under the Canada Business Corporations Act (such as Boart Longyear 'Canada'). CDIs have been created to facilitate electronic settlement and transfer of title in Australia for companies in this situation. CDIs are units of beneficial ownership in foreign securities, where legal title to the securities is held by an Australian depositary entity (in this case the Authorised Nominee) for the purpose of enabling transactions in the securities of foreign companies on ASX. Boart Longyear 'Canada' intends to appoint the Authorised Nominee to hold legal title to Boart Longyear 'Canada' Shares for the benefit of Boart Longyear 'Canada' CDI Holders. Accordingly, the Authorised Nominee is an approved general participant of ASX Settlement and a wholly-owned subsidiary of ASX. The Authorised Nominee will be the registered holder of those Boart Longyear 'Canada' Shares held for the benefit of Boart Longyear 'Canada' CDI Holders.

If Boart Longyear 'Canada's listing application is approved by ASX, Boart Longyear 'Canada' CDIs will be traded on ASX using CHESS (ASX's electronic transfer and settlement system) but Boart Longyear 'Canada' Shares cannot be traded on ASX.

Each Boart Longyear 'Canada' CDI Holder will be deemed to acknowledge and agree for the benefit of Boart Longyear 'Canada' that they are bound by the Articles in respect of any Boart Longyear 'Canada' CDIs issued to them. See Section 8 for a summary of the Articles.

2. **Ratio of Boart Longyear 'Canada' CDIs to Boart Longyear 'Canada' Shares**

Each Boart Longyear 'Canada' CDI will represent one underlying Boart Longyear 'Canada' Share.

3. **Holding Statements for Boart Longyear 'Canada' CDI Holders**

If a Boart Longyear 'Canada' CDI Holder is sponsored by a participant in CHESS, the holder can hold their Boart Longyear 'Canada' CDIs on the CHESS sub-register. Otherwise, Boart Longyear 'Canada' CDIs will be held on the issuer-sponsored sub-register.

Each Boart Longyear 'Canada' CDI Holder will receive a holding statement when the Boart Longyear 'Canada' CDI holding is first established (ie upon implementation of the Re-domiciliation) with the reference number of their holding.

4. **What rights do I have as a Boart Longyear 'Canada' CDI Holder?**

Section 8.3 contains a summary of the principal rights attaching to Boart Longyear 'Canada' Shares.

As noted above, Boart Longyear 'Canada' CDI Holders will not have legal title in the underlying Boart Longyear 'Canada' Shares to which the Boart Longyear 'Canada' CDIs relate, as legal title to the Boart Longyear 'Canada' Shares will be held by the Authorised Nominee. Boart Longyear 'Canada' CDI Holders will, however, have beneficial ownership of the underlying Boart Longyear 'Canada' Shares.

The following provides an overview of the differences between holding Boart Longyear 'Canada' CDIs as opposed to Boart Longyear 'Canada' Shares, including the rights and entitlements of Boart Longyear 'Canada' CDI Holders.

(a) Dividends and Distributions

Under the ASX Settlement Operating Rules, Boart Longyear 'Canada' is generally required to treat Boart Longyear 'Canada' CDI Holders, in respect of the distribution of dividends and other entitlements, as if they were the holders of the underlying Boart Longyear 'Canada' Shares.

Importantly, Boart Longyear 'Canada' CDI Holders are entitled to receive all the direct economic benefits and entitlements in relation to the Boart Longyear 'Canada' Shares held by the Authorised Nominee.

If a cash dividend or any other cash distribution is declared in a currency other than Australian dollars, Boart Longyear 'Canada' currently intends to convert that dividend or other cash distribution to which Boart Longyear 'Canada' CDI Holders are entitled to Australian dollars and distribute it to the relevant Boart Longyear 'Canada' CDI Holders in accordance with the Boart Longyear 'Canada' CDI Holder's entitlement.

Due to the need to convert dividends from Canadian dollars to Australian dollars in the above mentioned circumstances, Boart Longyear 'Canada' CDI Holders may potentially be advantaged or disadvantaged by exchange rate fluctuations, depending on whether the Australian dollar weakens or strengthens against the Canadian dollar during the period between the resolution to pay a dividend and conversion in Australian dollars.

(b) Corporate Actions

Boart Longyear 'Canada' is generally required to treat Boart Longyear 'Canada' CDI Holders, in respect of corporate actions, as if they were the holders of the underlying Boart Longyear 'Canada' Shares.

(c) Takeovers

If a takeover bid is made in respect of any Boart Longyear 'Canada' Shares of which the Authorised Nominee is the registered holder, the Authorised Nominee is prohibited from accepting the offer made under the takeover bid except to the extent that acceptance is authorised by the relevant Boart Longyear 'Canada' CDI Holders in respect of the Boart Longyear 'Canada' Shares represented by such holding of Boart Longyear 'Canada' CDIs, in accordance with the ASX Settlement Operating Rules.

The Authorised Nominee must accept a takeover offer in respect of Boart Longyear 'Canada' Shares represented by such holding of Boart Longyear 'Canada' CDIs if a Boart Longyear 'Canada' CDI Holder instructs it to do so and must notify the entity making the takeover bid of the acceptance.

(d) Rights on liquidation and winding up

In the event of Boart Longyear 'Canada's liquidation, dissolution or winding up, a Boart Longyear 'Canada' CDI Holder will be entitled to the same economic benefit in relation to their Boart Longyear 'Canada' CDIs (through the Authorised Nominee) as holders of Boart Longyear 'Canada' Shares.

(e) Other rights

As Boart Longyear 'Canada' Shareholders will not be registered on the Boart Longyear 'Canada' Share Register as the legal owners of Boart Longyear 'Canada' Shares, any other right conferred on Boart Longyear 'Canada' CDI Holders may be exercised by means of them instructing the Authorised Nominee.

(f) Communications

Boart Longyear 'Canada' CDI Holders will receive all notices and company announcements (such as annual reports) that Boart Longyear 'Canada' Shareholders are entitled to receive.

(g) Voting

In accordance with Canadian law and ASX Settlement Operating Rules, a Boart Longyear 'Canada' CDI Holder will not be entitled to attend or vote personally as a Boart Longyear 'Canada' Shareholder at a meeting of Boart Longyear 'Canada'. Instead, in order to vote at a meeting of Boart Longyear 'Canada', a Boart Longyear 'Canada' CDI Holder may instruct the Authorised Nominee, as legal owner of the Boart Longyear 'Canada' Shares, to:

- vote Boart Longyear 'Canada' Shares represented by their Boart Longyear 'Canada' CDIs in a particular manner. The instruction form must be completed and returned to the Registry prior to the record date fixed for the relevant meeting (**CDI Voting Instruction Receipt Time**), which is notified to Boart Longyear 'Canada' CDI Holder in the voting instructions included in a notice of meeting; or
- appoint the Boart Longyear 'Canada' CDI Holder or a third party nominated for that purpose by the Boart Longyear 'Canada' CDI Holder as the Authorised Nominee's proxy so that the proxy so appointed may attend meetings and exercise the votes attached to Boart Longyear 'Canada' Shares represented by their Boart Longyear 'Canada' CDIs. The instruction form must be completed and returned to the Registry prior to the CDI Voting Instructions Receipt Time.

Alternatively, a Boart Longyear 'Canada' CDI Holder can convert their Boart Longyear 'Canada' CDIs into a holding of Boart Longyear 'Canada' Shares and vote those Boart Longyear 'Canada' Shares at a meeting of Boart Longyear 'Canada'. Such conversion must be undertaken prior to the record date fixed by the Boart Longyear 'Canada' Board for determining the entitlement of members to attend and vote at the meeting. However, if the Boart Longyear 'Canada' Shareholder later wishes to sell their investment on ASX, it would be first necessary to convert those Boart Longyear 'Canada' Shares back to Boart Longyear 'Canada' CDIs. Further details on the conversion process are set out in Section 6 below.

5. Trading of Boart Longyear 'Canada' CDIs

Boart Longyear 'Canada' CDI Holders who wish to trade Boart Longyear 'Canada' CDIs will be transferring beneficial title to Boart Longyear 'Canada' Shares rather than legal title. The transfer will be settled electronically by delivery of the relevant Boart Longyear 'Canada' CDI holding through CHESS, thereby avoiding the need to effect settlement by physical delivery of share certificates. Trading in Boart Longyear 'Canada' CDIs is not substantially different to trading in other CHESS approved securities (such as Boart Longyear Shares).

On 21 December 2018, subject to the Scheme becoming Effective, Boart Longyear 'Canada' CDIs will commence trading initially on a deferred settlement basis and, after the

Implementation Date, will commence trading on a normal settlement basis on 4 January 2019.

It is the responsibility of each Scheme Shareholder (who is not an Ineligible Foreign Shareholder) to determine their entitlement to Boart Longyear 'Canada' CDIs before trading in those securities to avoid the risk of selling Boart Longyear 'Canada' CDIs they do not or will not own. If a Scheme Shareholder sells Boart Longyear 'Canada' CDIs without receiving confirmation of their own entitlement, they do so at their own risk.

There is no certainty as to the price of Boart Longyear 'Canada' CDIs after the Re-domiciliation is implemented.

6. **Conversion of Boart Longyear 'Canada' CDIs into Boart Longyear 'Canada' Shares**

(a) **Converting Boart Longyear 'Canada' CDIs to Boart Longyear 'Canada' Shares**

If Boart Longyear 'Canada' CDI Holders wish to convert their Boart Longyear 'Canada' CDIs into Boart Longyear 'Canada' Shares they may do so by instructing the Registry:

- directly in the case of CDIs on the issuer sponsored sub-register operation by Boart Longyear 'Canada'; or
- indirectly, through their controlling participant (usually your broker) in the case of CDIs which are sponsored on the CHESS sub-register.

Boart Longyear 'Canada' will then arrange for the transfer of Boart Longyear 'Canada' Shares from Authorised Nominee to the former CDI holder and issue to the former CDI holder a corresponding share certificate. This will cause Boart Longyear 'Canada' Shares to be registered in the name of the holder on the Register and trading on ASX will no longer be possible.

It is expected that this process will be completed in a relatively short time period, however, no guarantee can be given about the time for this conversion to take place.

(b) **Converting Boart Longyear 'Canada' Shares to Boart Longyear 'Canada' CDIs**

If Boart Longyear 'Canada' Shareholders wish to convert their Boart Longyear 'Canada' Shares into Boart Longyear 'Canada' CDIs, they may do so by contacting the Registry. In this instance, underlying Boart Longyear 'Canada' Shares will be transferred to the Authorised Nominee and a holding statement for the CDIs will be issued to the relevant security holder. No trading in the CDIs should take place on ASX until this transfer process is complete.

(c) **Further information**

The purpose of the Explanatory Memorandum is to explain the terms of the Re-domiciliation and the manner in which the Re-domiciliation will be considered and implemented (if approved), to set out certain information required by law and to provide all other information (other than information previously disclosed to Boart Longyear Shareholders) which is known to Boart Longyear, and which is material to the decision of Boart Longyear Shareholders whether or not to vote in favour of the Scheme Resolution.

If the Boart Longyear Shareholder does not specify the proportion or number of votes to be exercised, each proxy may exercise half of the Boart Longyear Shareholder's votes.
