DRILLING RECOMMENCES AT GIDGEE GOLD PROJECT

Gateway Mining Limited (ASX: GML) (**Gateway** or **Company**) is pleased to advise that it has commenced a new phase of drilling at the Company's 100%-owned Gidgee Gold Project, Western Australia (Figure 1).

The program of Reverse Circulation drilling (~3,900m for 25 holes) will initially target depth extensions of the high-grade mineralised zones at both the advanced Whistler and Montague Prospects. Once complete, the drill rig will move onto a program of more detail resource in-fill drilling to enable the estimation of a maiden Resource at both Prospects.

Drilling is expected to be completed within a month and results will be reported as they come to hand.
