BRISBANE INDUSTRIAL

- » The majority of new A-grade speculative space has been absorbed.
- » Solid tenant demand for tenancies of 4,000m² – 8,000m² is being experienced, however tenant demand for tenancies of greater than 10,000m² is still soft.
- » Accordingly there is a strong market opportunity to provide new A Grade stock in the sub 10,000m² market.
- » Face rents for A Grade space in Brisbane range from \$97/m² to \$123/m², averaging \$113/m².
- » The market demonstrates low incentives, particularly in the sub 10,000m² market.
- » Incentives are higher for pre-committed design and construct projects at 12%-17% compared to existing or speculatively developed stock at 7%-15%.
- » Historically 25% of speculative buildings are committed during the construction period.
- » For those buildings vacant at practical completion, the average time on market is 8.8 months.

BERRINBA INDUSTRIAL DEVELOPMENT

- » GDF intends to build a modern industrial facility, to be leased and retained as an investment asset by the Fund.
- » In built form, the facility is intended to provide approximately 5,000m² of warehouse and 500m² of office accommodation.
- » Construction cost of approximately \$6.25 million.
- » Commencement mid 2019

WACOL INDUSTRIAL DEVELOPMENT

- » The Fund has acquired a 4.1hectare site for \$5.9 million and will settle the acquisition in May of this year.
- » The site is located on Progress Road, Wacol, a major dual lane arterial road that has just received an upgrade and widening and connects with three of the major freeways in south west Brisbane.
- » A development application is being prepared and is expected to be lodged in March.
- » It is intended to develop a total of approximately 17,000m² over three separate buildings and specifically targeting tenants in the 4,000m² to 8,000m² range.
