- **Symbion is a national wholesaler of healthcare services and products with over 3,500 retail pharmacy customers across Australia.**
- **Sales are expected to commence in the current quarter**

Abundant Natural Health (ANH)

Abundant Produce Ltd (ASX: ABT, "Abundant") is pleased to provide a business development update for its healthcare segment, Abundant Natural Health (ANH).

Following an extensive marketing and testing campaign supported by ANH's healthcare sales partner HealthOne, Abundant is pleased to announce a significant extension of its distribution capacity in the Australian pharmacy market.

ANH has secured agreement for its all natural, pain relieving magnesium products to be stocked and ranged in-store and online across the networks of Symbion Wholesale (part of the listed EBOS Group, ASX: EBO).

From ten warehouses strategically located across Australia, Symbion Wholesale distributes to over 3,500 pharmacies including the Good Price, Terry White Chemmart, Blooms, and Ventura Health chains.

"This is another exciting milestone for Abundant Natural Health", General Manager Shanan Birkin said. "It demonstrates the degree of interest in our range of high purity natural magnesium pain relief products and will serve to drive sales and brand awareness, both in Australia and overseas."

"Pharmacy and consumer acceptance of the Company's Magnesium Gel and Magnesium Spray will also open the door for our expanding range of products, starting with an exfoliating body bar rich in magnesium, olive oil, goats milk and Jojoba beads which we plan to offer to the market in the very near future."

ABOUT ABUNDANT- *creating shareholder value by using science to harness the power of nature.*

Abundant creates intellectual property and shareholder value by using cutting edge science to harness the power of nature through its two operating subsidiaries. Abundant is committed to the principals of the Circular Economy, minimizing our environmental footprint, and upholding the highest standards of environmental and social corporate citizenship.

Abundant Seeds - *Australia's only listed plant breeder.*

Abundant is Australia's only listed breeder of hybrid vegetables for the food production industry, including cucumbers, tomatoes, zucchini, capsicum and eggplant. In collaboration with the University of Sydney's Plant Breeding Institute, Abundant creates new varieties of greenhouse vegetables designed to grow with less fertiliser, less pesticides and less temperature control, decreasing the impact of horticulture on the environment, and which produce higher yields and superior taste, texture, colour and shape.

Abundant Natural Health – *Natural relief. Derived from nature. Created with science. Guided by conscience.*

Abundant is passionate about innovation in all natural, therapeutic body care. Fusing active extracts from Australian botanicals with the purest organic minerals, Abundant is creating an expanding range of nourishing, pain relieving healthcare products. Proudly 100% Australian grown, owned and made, Abundant vouches for the quality, purity and effectiveness of its all-natural formulations.
