(July 1st 2018 – December 31st 2018)

OUR PUBLISHED FINANCIAL RESULTS FOR H1 FY2019

REVENUE

€1,340.1 m

+25.7%

Revenue has increased by 2.9% at constant perimeter despite tariffs' decrease

EBITDA

€123.1m

18.7%

Margin rate at 9.2% vs 9.7% in 2018

NET RESULT

€0.0m

€(22,1)m in 2018 due to restructuring provision of €42m in H1 FY2018

NET DEBT

€2,252.5m

(net from subordinated debt : €1,7bn)

Net debt at €965,1m last year
H1 FY2019 debt impacted by the takeover of the Capió AB Group and its own debt

MACRO VIEW: HOW ARE WE FUNDED?

Medical services of private clinics are funded by the public health system within the ONDAM budget.

THE FRENCH HEALTHCARE SYSTEM IS BOTH MASSIVE AND SECURE

Medical consumption has increased faster than GNP

Out-of-pocket costs are the lowest of OECD countries at 8.3%

Funding system in France (in %)

While the number of doctors charging extra fees is increasing, the amount of extra fees is decreasing

Tariffs are increasing for the first time after 6 consecutive years of decrease

MSO DRG evolution (PUT IN PLACE IN 2006)

MEDICAL AND ECONOMIC MODEL

HOW DO WE ADAPT ?

OUR STRATEGY BY SEGMENT

Level of ambition

STAKES	EXPECTED OUTCOMES
1 ❑ Adapt strategy by segment ❑ Reinforce our clusters by expanding outside of current network and leveraging synergies among our activities¹	➤ Quality and security of care ➤ Efficiency / Care pathway ➤ Practitioners' and staff attractiveness
2 ❑ Enhance our care offering in an “end to end” care approach	➤ Horizontal integration ➤ Increased activity and revenue ➤ Differentiation
3 ❑ Secure strong growth opportunity and synergies potential by increasing scale	➤ Global footprint ➤ Dilution of exposure to country-related risks ➤ Pooling of capabilities

¹ MSO, FCR, Mental health, Sessions, EDs, Imaging, Radiotherapy

OUR LET'S DO IT 2020 STRATEGIC PLAN TO DELIVER OUR OBJECTIVES & KEEP BEING AHEAD OF OUR COMPETITORS

DIGITALIZATION

1. Digitize doctor's agenda for patient access
2. Develop new relationships with our patients and doctors, with digital program of health management, social networks, newsletters, mailing...
3. Digitize the hospital admission process
4. Digitize patient feedback to better manage patient expectations
5. Digitize sale services (choice of single rooms, transportation, wifi...)

OPTIMIZATION

6. Optimize by cluster
7. Launch a cost-efficiency program (DEFFI)
8. "Keep" the patient within facility
9. Significantly optimize our phone contact performance
10. Optimize our visibility (physical, social networks...)
11. Optimize our over-capacity

INNOVATION

12. Integrate doctors consultation to our operations with a digital service pack
13. Put in place a patient CRM
14. Enter connected businesses
15. Build geomarketing patient's recruitment actions
16. Create a CRM for GPs and develop a set of services
17. Test GPL
18. Test other referral partners (pharmacists, para-medical professions...)

TALENTS

19. Develop our 'Talent Pool' approach
20. Develop a DIGITAL OLYMPE
21. Develop international careers
22. Involve all our staff in the RGDS Foundation with its new positioning

AFTER A FIRST SUCCESSFUL PILOT PHASE, WE ARE NOW ROLLING OUT OUR SHARED SERVICES CENTER

OUR MENTAL HEALTH 20/80 PLAN : 8 PROJECTS TO BE FINALIZED BY END OF 2019

Our 20/80 mental health plan :
Increase our mental health capacity by 20% and transform 80% of it into single rooms by 2020

RAMSAY GÉNÉRALE DE SANTÉ AT A GLANCE IN NORWAY, DENMARK AND GERMANY

WE BENEFIT FROM STRONG POSITION IN THE NORWEGIAN BUSINESS

NORWEGIAN BUSINESS UNIT

- 90% privately financed (OOP, PHI, memberships), 10% publicly financed
- Present in all healthcare regions
- Primarily clinics with small volumes in many specialties
- Two focused specialist clinics: eating disorders and eye
- 55% of sales in primary care, 35% surgery and 10% internal medicine
- Wide range of specialties within surgery, e.g. orthopedics, eye, ENT, gyn, cosmetics

MAJOR TRENDS

Increased privatization: Greater market in patient choice (Fritt behandlingsvalg) ; Private providers needed as capacity buffer ; Ongoing debate to reduce healthcare expenditures ; Stable political landscape ; Out-of-pocket market is likely to continue to increase with population being relatively wealthy and spend more on (especially today's pensioners).

Growth in private insurance market: 9% of population held PHI in 2015 (growth of 32% p.a. 2010-2015 ; accessibility as public system is not succeeding to provide right level of care in time ; Memberships at private provider will stay an attractive option

Digitalisation: parts of patient journey already digitalized (online triage tools, second opinions and video consultations, electronic health records) ; directorate for e-health (government) investing in the shift

GEOGRAPHICAL FOOTPRINT

AS WELL AS IN THE DANISH BUSINESS

DANISH BUSINESS UNIT

- Danish business entered in December 2016 with the acquisition of CFR Hospitaler, which was followed by several add-on a add-on acquisitions
- Active in specialist healthcare and radiology in in four out of five healthcare regions
- ~40% publicly financed and ~60% privately financed
- Wide range of specialties at each hospital, e.g. orthopedics, spine surgery, gastro, urology, ENT, gynecology

MAJOR TRENDS

A Danish **public healthcare system characterized by relatively rigid cost structures** - especially in relation to doctor remuneration - which hampers productivity and increases production costs

Private hospitals' competitive advantage within **continuity of care** is expected to drive a significant number of patients to switch from the public to the private healthcare sector

GEOGRAPHICAL FOOTPRINT

GERMANY, A MID-SIZE ASSET WITH CHALLENGES, IN THE LARGEST EUROPEAN MARKET

GENERAL HOSPITALS

- 5 Hospitals, each with own Medical Care Center for outpatient treatments
- Average size of 100 beds
- Mixed portfolio with intensive care and the obligation for emergency services
- Lighthouses implemented such as Acute Geriatrics, Orthopedics or Psychiatry
- Located in rather rural areas

VEIN CLINICS

- 3 Clinics
- Average size of 50 beds
- Specialized in vascular & vein surgery
- Over-regional reputation e.g. due to excellent surgeons and outstanding quality

EYE CLINIC

- New specialty acquired in 2016
- 1 Medical Care Center dedicated to serve all kinds of eye treatments

GEOGRAPHICAL FOOTPRINT

RAMSAY GÉNÉRALE DE SANTÉ IN SWEDEN

The Swedish healthcare market and fundamentals

SWEDISH MARKET HAVE ATTRACTIVE FUNDAMENTALS STRENGTHENED BY STRONG TAIL-WINDS

THE SWEDISH HEALTHCARE SYSTEM COVERS ALL INHABITANTS

- 100 % coverage of 10 million inhabitants
- tax based
- Mainly publicly financed healthcare system with high quality provided at medium to high cost per capita
- Healthcare laws and regulations national
- Regional taxation from County Councils
- Regional organization in each county and level of private providers differs
- Private providers have ~13% of the publicly funded healthcare market
- Highest private market share in proximity care
- Private medical insurances limited and self-pay very limited

CHANGING POLITICAL LANDSCAPE IN SWEDISH REGIONS CAN OPEN NEW OPPORTUNITIES

- Right wing governance
- Coalition governance
- Left wing governance

Mandate period
2014-2018

Mandate period
2018-2022

HISTORICALLY SWEDISH HEALTHCARE MARKETS HAVE GROWN ABOVE OECD MEDIAN

Scandinavian healthcare amounted to ~1,000 SEK bn in 2017 – growing by 3-6% p.a

Total healthcare spend

% of GDP

	% annual growth, 2000-13	% annual growth, 2013-17 ²
	6.9%	4.7%
	6.8%	5.7%
	4.7%	2.8%
	4.2%	2.2%
	3.1%	4.5%
	7.7%	3.6%
	6.0%	5.1%

1 Adjusted down from 2011 onwards to account for a change in repotring to include care of elderly and persons with disabilities

SOURCE: OECD Health statistics

2 Available country data for 2017 disrespected due to estimates/provisional

HEALTHCARE CONSUMPTION NOT ONLY DRIVEN BY NEED – POPULATIONS RATE THEMSELVES HEALTHIER, YET CONSULTATIONS INCREASES

Even though the population increasingly perceives itself as healthy ...

Share of population rating their health as “good” or “very good”
Sweden

... it “consumes” healthcare services more frequently

Number of healthcare consultations¹
Sweden, per 1,000 inhabitants

¹ All groups of personnel

SWEDISH MARKET HAVE ATTRACTIVE FUNDAMENTALS STRENGTHENED BY STRONG TAIL-WINDS

WHY PRIVATE HEALTHCARE: COST FOR HEALTHCARE IS GROWING WITHOUT CORRESPONDING PRODUCTION AND WAITING TIMES INCREASING IN PUBLIC SECTOR

Share of patients waiting longer than 90 days, January 2019 (%)

First visit

Surgery/procedure

Nettokostnad för hälso- och sjukvård per invånare och år, exklusive tandvård. Med nettokostnader avses de kostnader som finansieras med landstingsskatt, generella statsbidrag och finansnetto. Patientavgifter och specialdestinerade statsbidrag är frändragna
 Antal vårdtillfällen per 100 000 invånare. Ålderstandardiserade värden, dvs. att det i beräkningarna har korrigerats för skillnader i patienternas åldersstruktur mellan olika landsting
 Antalet producerade läkarbesök per 1 000 invånare. All verksamhet som finansieras av landsting/region ingår oavsett driftform och organisation. Besök redovisas oavsett om det är avgiftsfritt eller inte men endast besök som har dokumenterats i patientens journal ingår

Source: SKL, Vården i Siffror

PRIVATE PROVISION OF CARE HAS STEADILY INCREASED ITS SHARE OF MARKET

Private Public

Swedish healthcare net cost
SEK billion; Share in %

CAGR, %

Development going forward

Primary care

- LOV well-established and private providers display good quality and access. Joint reimbursement system benefits private providers

Specialist somatic care

- Continues to be attractive for some regions to solve supply issues with private provision (as tendering or “vårdval”)

Specialist psychiatric care

- Specialty with challenged access, private has successfully attracted talent
- Little infrastructure required and increasingly standardized operations

SWEDISH MARKET HAVE ATTRACTIVE FUNDAMENTALS STRENGTHENED BY STRONG TAIL-WINDS

SHIFTING HEALTHCARE NEEDS WITHIN POPULATION

From treating illness to servicing health

- Share of population that rates their own health as good or very good has significantly increased over the last 10 years
- At the same time, consumption of health services, increased by ~5%

From patient to informed customer – with needs, feelings and preferences

- Patients now segmented not only by diagnose, but also by relative need
- “On-line” medical providers growing fast

Previous mortal conditions becoming chronic

- Patients with multiple chronic diseases
- Patients live longer
- More “sickness prevention”

Share of population older than 65 years old is increasing

SWEDISH MARKET HAVE ATTRACTIVE FUNDAMENTALS STRENGTHENED BY STRONG TAIL-WINDS

TRENDS TO IMPROVE THE EFFICIENCY AND QUALITY OF HEALTHCARE THROUGH THE USE OF TECHNOLOGY

 **Connectivity** will enable patient **co-management**

 **Big data** will enable **real-time analytics** of care methods

 **Automation** improves patient experience, clinical outcomes and provider efficiency

SUMMARY – KEY MARKET TRENDS

- Increasing healthcare expenditures and demand
- Public providers fail to meet increasing demand, availability and to maintain cost efficiency
- Shift from inpatient to outpatient care
- Big emergency hospitals less focused on planned patient
- Government investigations suggest structural reform towards a more primary-centric system
- Primary care – same price for public and private providers
- Implementation and development of digital tools, new digital providers have entered the market
- Political shift in several big counties opens up for more outsourcing of public volumes

Sweden

CAPIO IS THE LEADING PRIVATE HEALTHCARE PROVIDER IN SWEDEN- IN SIZE AND BRAND

Sales per provider for FY17, MSEK

1 Pro forma adjusted for acquisitions of Novakliniken and Legevisitten
 2 Excluding Primary Care activities, but including Lab and Imaging
 3 Pro forma adjusted for acquisitions of Mama Mia and Aleris Primary Care

specialties

Compelling pipeline of
compelling acquisitions

Our profitable growth strategy

OUR BUSINESS FUNDAMENTALS – HIGH QUALITY AND HIGH PRODUCTIVITY

- Empowered front line managers
- The team is key
- Continuous and understandable information about quality outcomes and financial results

DIGITALIZATION - FOR PATIENTS, EMPLOYEES AND MANAGEMENT TRANSFORMING HEALTHCARE PROVISION

Patients

- Communication
- Access to information and care
- Engagement and involvement in own care

Employees

- Structured documentation
- Decision support
- EHR
- Overviews

eHealth

Management/Steering

- Real-time information
- Automated Q register
- Control/Follow-up
- Knowledge base

Digital tools requires new ways of working to be successful – strong focus on change management

WE ARE CREATING AN OMNI-CHANNEL APPROACH FOR A COMPLETE DIGI-PHYSICAL OFFERING

Capio Go

OUR DIGITAL PLATFORM IN DEVELOPMENT

- Consumer oriented
- Build on Partnership (modular)
- Open to connect & share (for those who are authorized by the patient)
- Scalable

WE HAVE AN INTEGRATED OFFER WITH HIGH QUALITY AND ACCESS

- Downstream transfer of contacts via LEON and patient choice
- Digital care an important point of access
- Integrated pathway management and on-going contact – cross referrals/care chains
- Integrated patient support and guidance

GROWTH IN PROXIMITY CARE

- Care choice authorizations with county councils – capitated model
- National focus on shift towards primary care
- Same price for public and private providers
- Organic growth by:
 - Increased listing – a full offer to the listed patients
 - Reduced churn – high availability, digital access
- Fragmented market – acquisition possibilities

	Unit	Listed patients	No. FTE's	No. doctors
Average size		9 400	20	5
Largest unit	Ringen	28 170	61	18
Smallest unit	Wasahuset	3 161	12	3

- Size of Caphio's proximity clinics

SPECIALIST CLINICS SERVE AS AN INCUBATOR FOR GROWING MEDICAL SPECIALTIES, AIMING TO DEVELOP EACH INTO A MARKET LEADING PROVIDER OF HIGH QUALITY, READILY AVAILABLE CARE

- High volumes provides a basis for good understanding of **patient needs** and increased **medical quality**. Identified best practice across the BA increases **efficiency** (KPIs)
- **We are currently growing** through organic growth including **efficient care pathways (e.g. from proximity care)**, but also through tenders, acquisitions and by proactively working with county councils

Share of sales per patient area (%)

- Two specialties in focus¹ – **Psychiatry and Ophthalmology** – each with a **unique market and competitive landscape**

Ophthalmology

- Ophthalmological outpatient care and diagnosis, cataract- and refractive surgery
- Countrywide (12 localisations)
- Care agreement/choice, private pay
- Referrals also from opticians

Psychiatry

- General psychiatry, eating disorder, addiction treatment
- Combination of in- and outpatient care
- Present in Stockholm, Halland, Östergötland and Skåne
- Care agreements and care choice

ELDERLY & MOBILITY: BUSINESS AREA OF OPPORTUNITIES WITH AGEING POPULATION

- Q2-2019, start Löwetgeriatriken after winning tender
- Q3-2019, greenfield start of inpatient palliative care and rehabilitation in Sollentuna
- Possible to greenfield start geriatrics, inpatient palliative care, advanced homecare and inpatient rehabilitation
- Large geriatric hospital are coming out for tender the coming years

Our clinics today in Stockholm council

OUR OBJECTIVES - CORE GROWTH DRIVERS

Digitalization:

- **Digital point of access** into all services
- **Digital pathways**
- **Joint digital ecosystem** for further technology solutions

Specialized: Scaled specialist services

- Organic growth through **pathways**
- **Specialization/Modern Medicine** for high quality
- Strong offering to grow with **private health insurance**
- Consolidation through M&A

Integrated: One joint platform & brand

- **One seamless customer experience** – care-chains
- **One brand** with joint offering
- **Nordic consolidated support platform** and decentralized management

Talent: Excellence with people

- **Modern Management through decentralisation and empowerment**
- **Management Program (CMP)** for leadership development
- **One team** for collaboration and support

WHY WE ARE UNIQUELY POSITIONED

Who will win? Those who can....

- **“Own” the ongoing relationship** with the patient, also when they are not ill
- **Provide a portfolio of services** that is relevant to the customers' / patients' demand over time – making it easy for them to move between publicly and privately funded care
- **See the patient as a customer** who values quality in medical outcomes, high availability and a positive customer experience
- **Use resources effectively** to gain scale and secure high productivity despite a higher care burden of a growing population

Why is Capiro uniquely positioned

With the introduction of Capiro Go and a joint digital platform, we can provide the **“always on” relationship**

We will have the leading operational **physical – digital** network, relevant **speciality coverage** and **scale**

We have a strong national quality, operational and employer **brand**

We have a proven **management model** for running decentralized operations with a joint culture

LOOKING FORWARD

OUR AMBITION FOR THE RAMSAY GÉNÉRALE DE SANTÉ GROUP: TOP HEALTHCARE PROVIDER IN EUROPE, PROFITABLE GROWTH AND SUSTAINABLE DIFFERENTIATING DRIVERS

Building a true European healthcare provider with a current footprint in six countries

Recording sustainable and diversified growth

Increasing competitiveness through a complementary service offering
– Operational excellence with Best Practice sharing!

Offering an attractive workplace for doctors and employees
(research, carrier path, ...)

A NUMBER OF DISTINCTIVE STRENGTHS AND HIGHLY ATTRACTIVE FEATURES

Leadership in selected markets and strong brand recognition

Presence in sizeable markets with strong underlying growth levers

Unique expertise in healthcare specialization and “Modern Medicine”

Patients reach alongside the entire healthcare value chain

High-knowledge and expertise in digitalization

FROM A HOSPITALS' PROVIDER TO A COMPREHENSIVE HEALTHCARE PROVIDER, WITH A HIGH LEVEL OF COMPLEMENTARIES TO LEVERAGE

HOSPITALS'-CENTRIC ACTIVITIES

BEFORE AND AFTER HOSPITALS

KEY MILESTONES HAVE ALREADY BEEN SUCCESSFULLY ACHIEVED

PROCUREMENT IS A MAJOR AREA OF FOCUS WITHIN INTEGRATION WORK

A SHARED ORGANIZATION TO SECURE RESOURCES, ROADMAP & SAVINGS

- ✓ Current organization focused on synergies' delivery
- ✓ Alignment on procurement IT/ tools to be implemented
- ✓ Definition of shared procurement processes
- ✓ Design of procurement roadmap
- ✓ Communication to internal stakeholders

DISCUSSIONS WITH PROVIDERS HAVE STARTED, BASED ON OUR NEW BASELINE AND CURRENT CONTRACTUAL FRAMEWORK

- ✓ Constitution of cost baseline (total = €1.3bn)
- ✓ Communication towards more than 800 suppliers
- ✓ Review of current contracts and ongoing negotiations with the full suppliers' portfolio to align agreements
- ✓ Launch of discussions with strategic providers to assess business development opportunities including the inclusion of new territories within Ramsay Health Care current global contractual scope

IN SUMMARY, WE CONFIRM THE STRATEGIC VALUE OF THE CAPIO ACQUISITION FOR RGDS

THANK YOU !
