

Investor Presentation

Enabling the transformation of healthcare

Kate Quirke, Group Managing Director

March 2019

The delivery of healthcare is changing

More data doesn't mean improved productivity or quality information for decision making: *This is our opportunity*

- Increased spending on digital patient data has led to a decrease in productivity
- Clinical risk and avoidable errors remain a major issue –
 1 in 9 Australian patients will develop a hospital acquired complication
- Government and funders are moving towards penalising hospitals for errors or complications which lead to further hospitalisation
- Disparate IT systems, poor analysis and communication of clinical information exacerbate the problem

21.5% p.a. growth

in the Clinical Decision Support Market (2013-2018) (Source: IndustryARC)

~\$40 billion spent in the US

in digitising patient data via EHR and pother systems, in accordance with the US Patient Protection and Affordable Care Act

The Alcidion business today

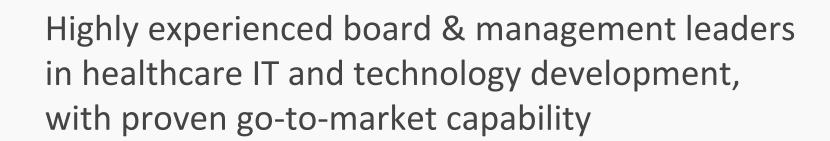

Smart collection of clinical observations and patient data, clinical communication and Al driven decision support systems

Fully integrated platform underpinned by leading edge, adaptable, platform technology

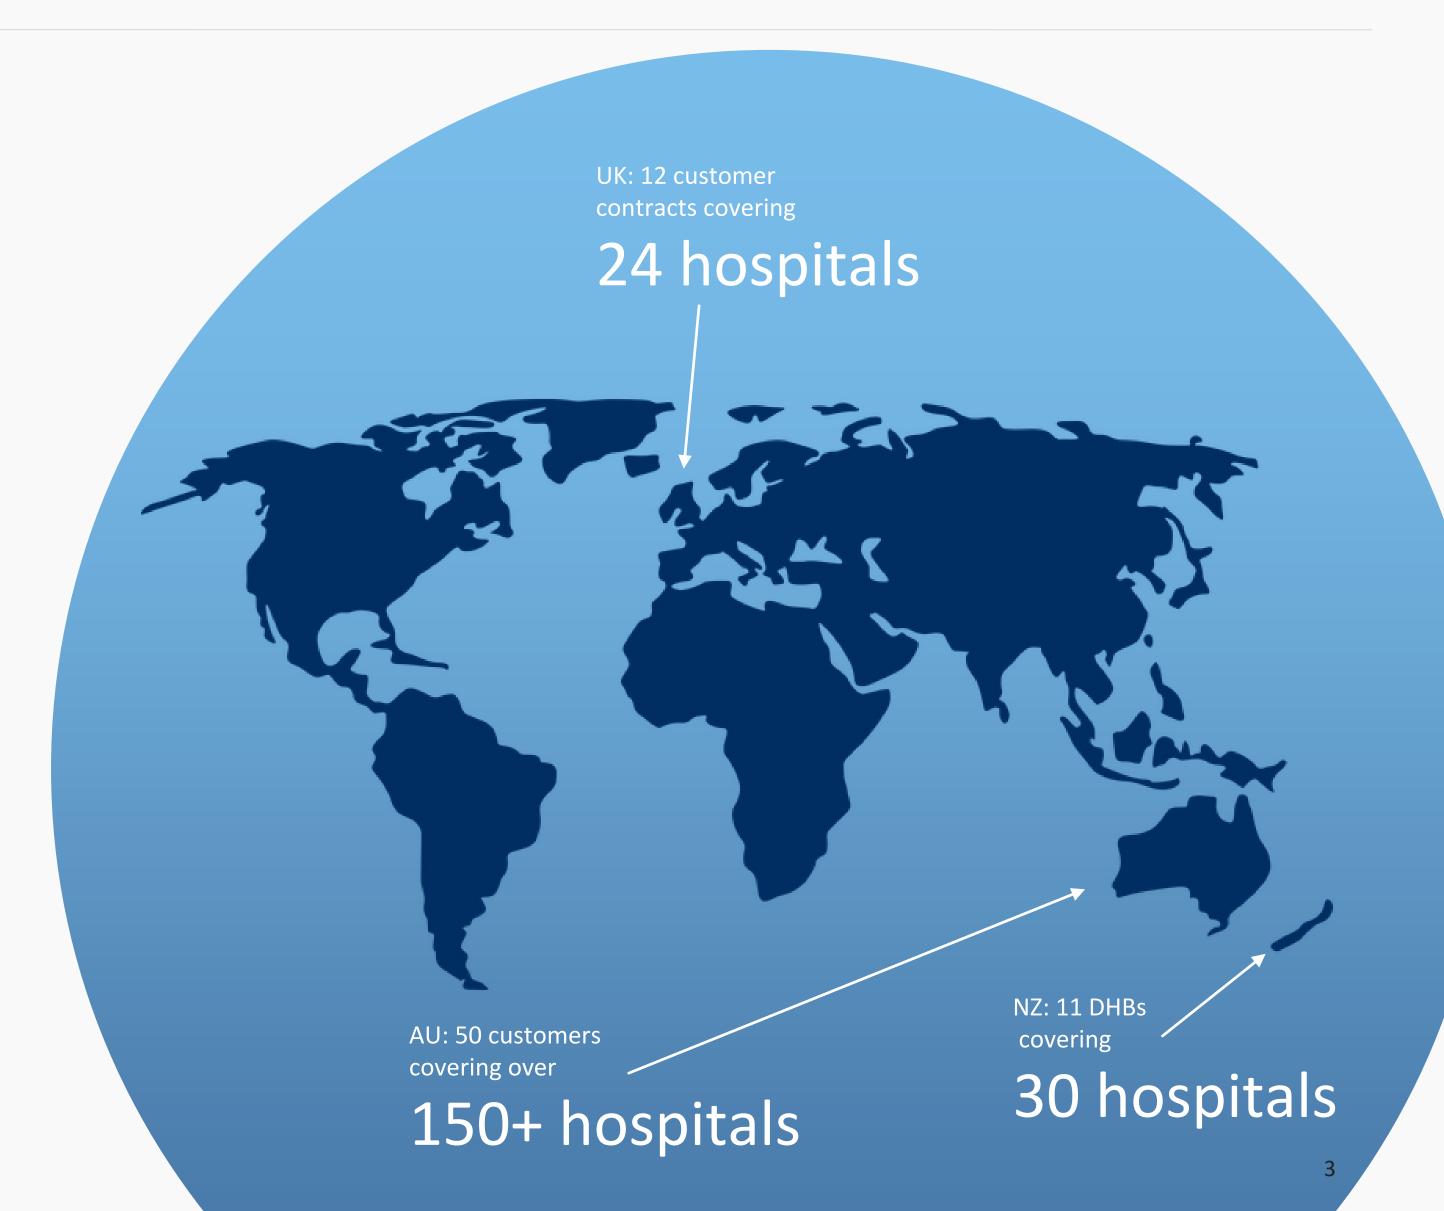

Solid base of contracted revenue, high potential for growth to existing and new customers

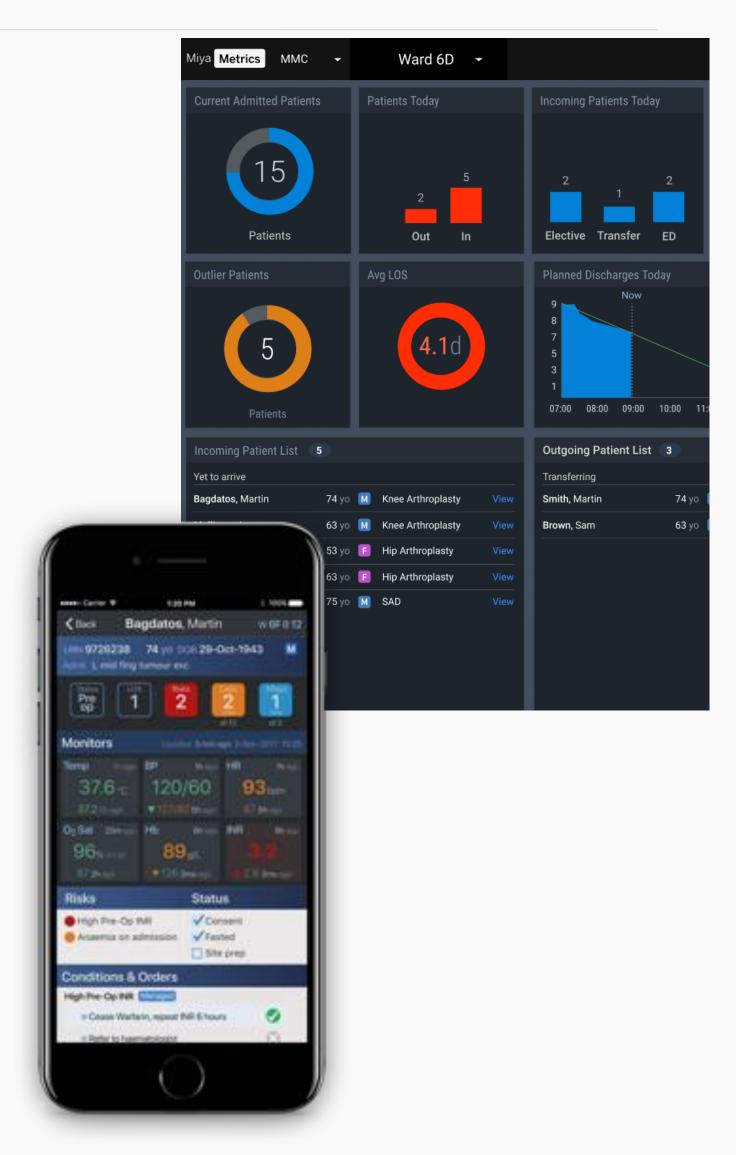

Geographical reach – customers across Australia, New Zealand and the UK

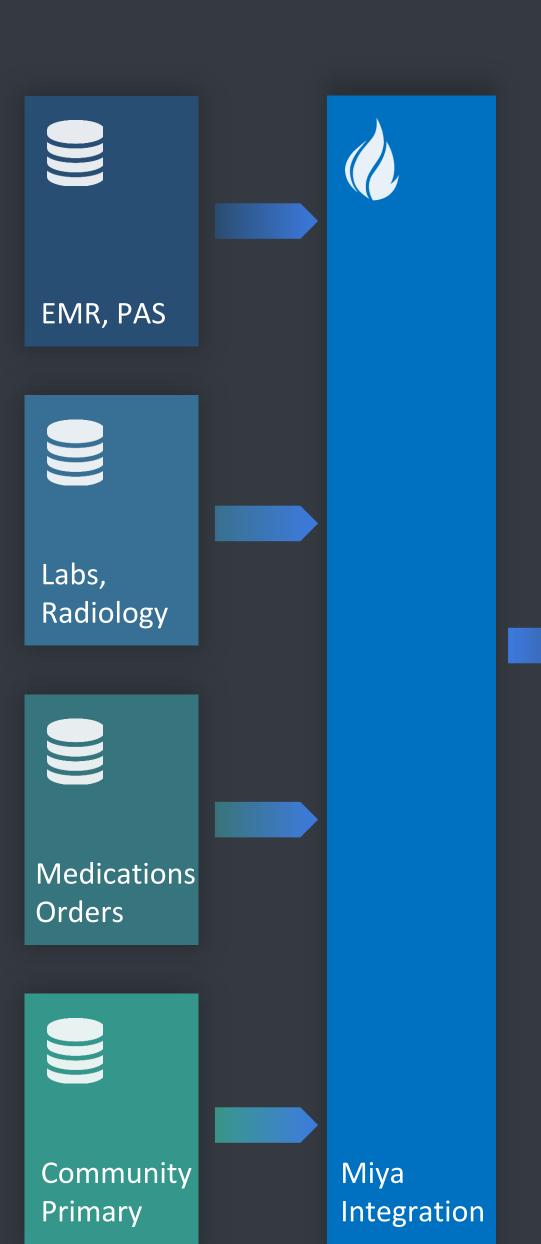

The Alcidion Difference

Alcidion

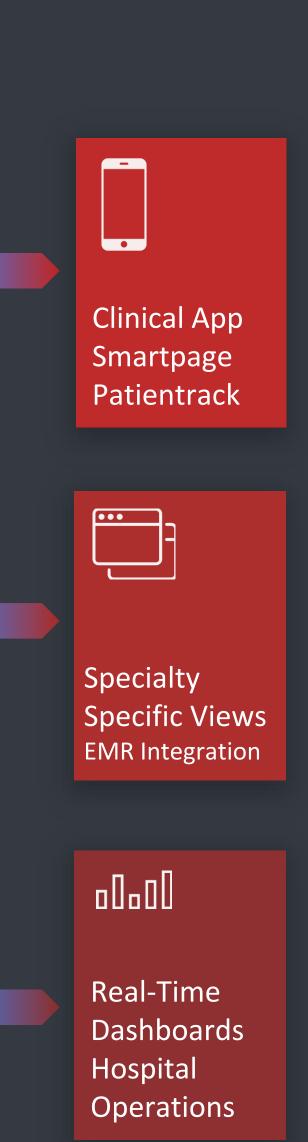

- Big single solution EMR is not the answer
 - care team productivity can drop by 20-30%
 - stifles innovation and hostage to one vendor solution
- We have the platform to transform healthcare
 - Miya Precision is an innovative events driven platform
 - combined with the skills required to integrate the data from the EMR
- We build decision intelligence, for better, faster decisions
 - clinical decisions, to mitigate clinical risk, for better outcomes
 - business decisions, to reduce costs and improve productivity
- Decision intelligence pushed to the point of care, automatically
- Intuitive software that is easy to use that you want to use

Market opportunity – AU, NZ, UK

- International expansion initially focused where current customers exist - AU, NZ and UK
- Significant opportunity to cross-sell
- In 2016, the number of hospital beds across these regions:
 - 159,000 in UK & Ireland
 - 700,000 in Europe
 - 62,000 beds in Australia and New Zealand

Market adoption remains at an early stage with strong global growth drivers including need to eliminate preventable patient deaths and avoidable cardiac arrests

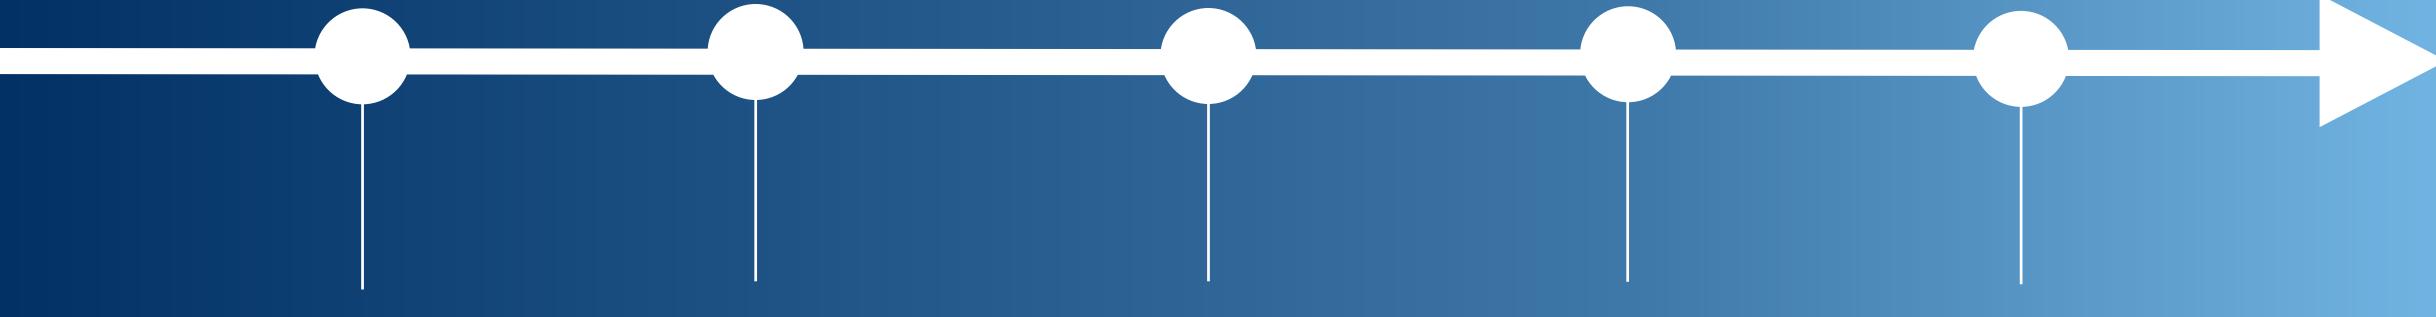

The Competitive Landscape

Category	Usage	How Alcidion compares / complements	Major Players
Large EMR vendors	 Currently installed in most states of Australia and in a number of NHS Trusts Interested in improving their use of data but constrained by their technology and customer base 	We help customers realise the value to these large, transactional based systems through application of smart data insights EMR data provides us with the opportunity to apply our platform and algorithms	EPIC Cerner Intersystems Allscripts Philips
Best of Breed solution	 Customers choosing the best in class for a We fill a niche area with our Patient Our Miya platform can consolidate and provide multiple s 	Orion Health DXC iMDSoft Nervecentre CARPS Telstra Health	
Data Analytics Provider	 Typically these are drawing on retrospective data and producing predictive data models Aggregate data and apply Business Intelligence tools 	We are drawing on data real time whilst patient being treated Identifying risks and notifying in real time Able to apply Algorithms (our own and 3 rd party) to consistent real time data	KenSci Lightfoot Agenic Intelligence Pascal Metrics

An emerging leader in healthcare analytics

Acquisitions completed MKM Health/Patientrack and Smartpage

First integrated Miya
Patientrack
Smartpage contract
signed worth \$4.75M
over 5 years

Delivered positive operational cash flow for H1 FY19

H1 FY19 revenue - \$7.3M

\$14.8M revenue to be realised in FY19 (as at end of Q2)

First UK contract announced for integrated Miya Patientrack and Smartpage Dartford NHS Trust

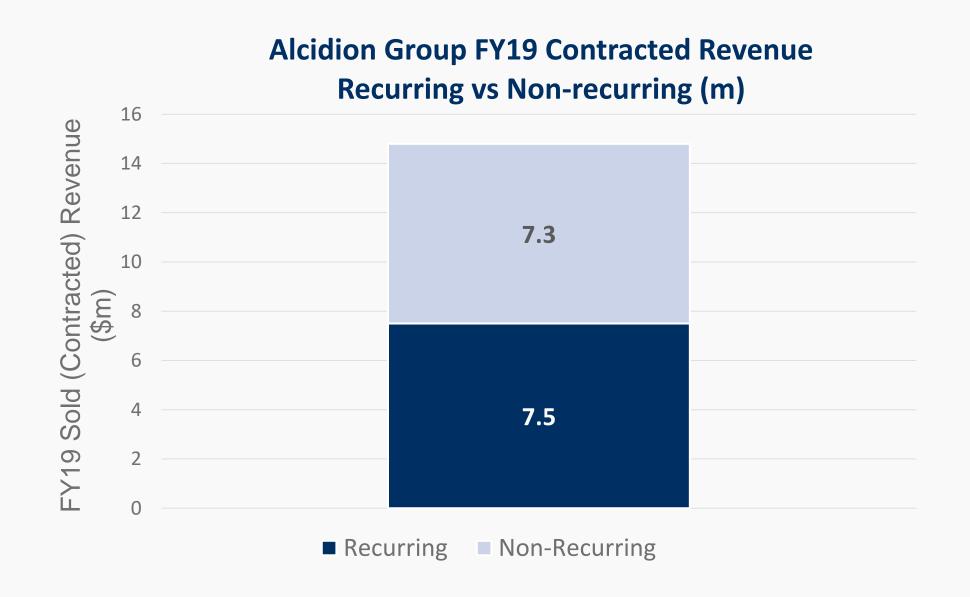

Two acquisitions delivered a diversified product platform, enhanced IT and sales capability, significantly improving the Company's financial position

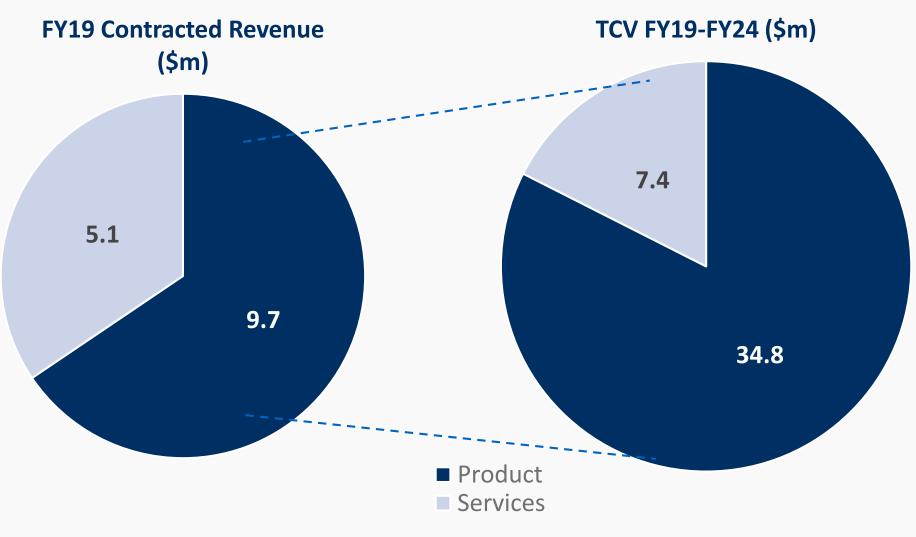

H1 FY19 Highlights

First half as the expanded Alcidion group delivers impressive contracted revenue growth and continued momentum

- H1 FY2019 total revenue of \$7.3 million (H1 FY18 \$1.3 million)
- \$23.4 million Total Contract Value (TCV) secured in H1
- Total contracted revenue pool of \$42.2 million (out to FY24)
 - \$14.8 million scheduled to be recognised in FY19, as at half year
- Important contract wins during H1 FY2019 include Queensland Health,
 Alfred Health, NT Department of Health and ACT Health
- Operating loss of \$0.6 million (H1 FY18 \$1.1 million) after investment during first half to integrate the expanded Group, grow sales capability progress cross-selling opportunities and introduce Alcidion products to the UK
- Cash balance at Dec 31, 2019 was \$1.5M, down from \$2.9M, due largely to acquisition payout

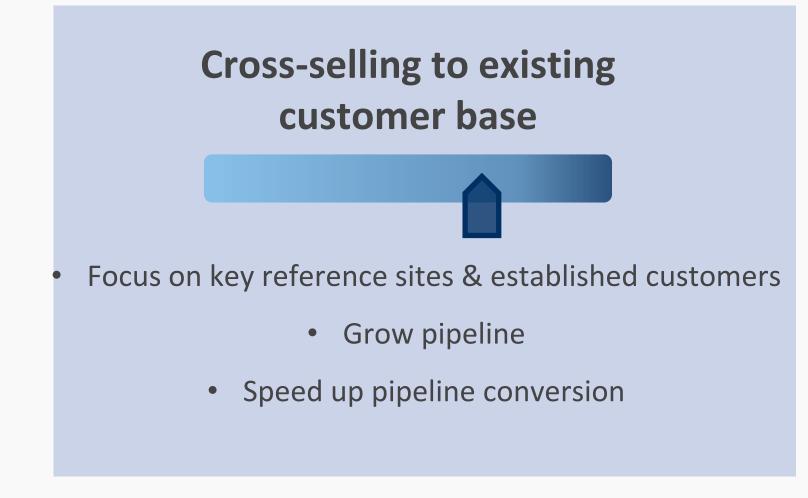

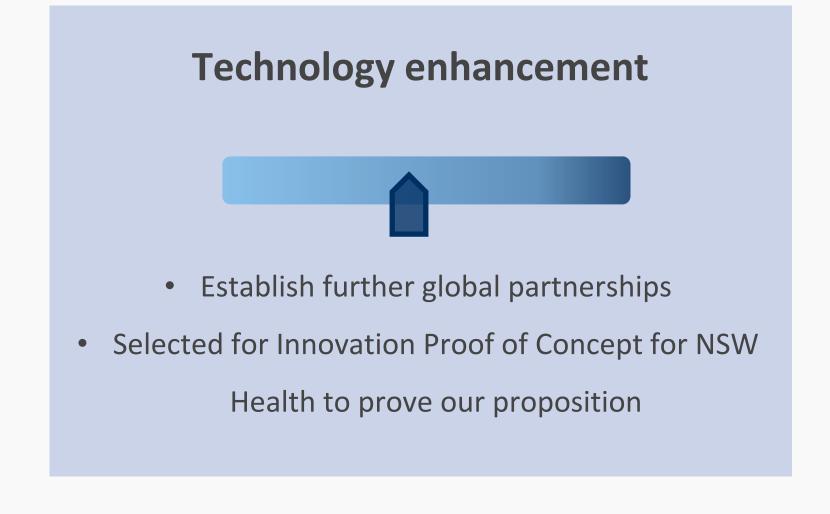

Growth strategy

Why invest in Alcidion

- Large market opportunity and the right context digital patient data is driving demand for better healthcare analytics
- A leading-edge technology suite increasingly looked upon as a strategic solution for improving healthcare delivery
- Differentiated offering meets a range of needs for the healthcare organisation from improved safety to productivity
- Track record of delivering commercial results management brings deep specialist healthcare IT + deep industry relationships
- Near-term value creation as contracted revenue pipeline grows and crossselling opportunities are leveraged across the UK, Australia and New Zealand
- Clear pathway to cash flow generation and profitability
