

ESHUYS JOINS NTM'S BOARD

SUMMARY

- Experienced mining executive Eduard Eshuys joins NTM's board as a Non-Executive Director
- This follows DGO Gold Limited becoming a substantial shareholder with 12% stake in NTM

NTM Gold Ltd (ASX: NTM) ("NTM" or "the Company") is pleased to announce the appointment of Mr Eduard Eshuys as a Non-Executive Director. NTM welcomes Mr Eshuys as the board representative of DGO Gold Limited (ASX: DGO) ("DGO"). Mr Eshuys is DGO's Executive Chairman and his appointment follows DGO's shareholding in NTM increasing to above 10% (see ASX announcement 13 March 2019).

Mr Eshuys is a highly regarded geologist with several decades of exploration experience and success in Western Australia. In the late 1980's and 1990's, Mr Eshuys led the teams that discovered the Plutonic, Bronzewing, Jundee Rosemont and Quarters gold deposits and the Cawse lateritic nickel deposit. He was earlier involved with the discovery of nickel sulphides at Maggie Hays and Mariners in the 1970's. More recently, he was the Managing Director and CEO of St Barbara Limited from 2004 to 2009. During this time Mr Eshuys was instrumental in substantially increasing the resources and reserves at the Sons of Gwalia mine and its redevelopment.

Mr Eshuys joined DGO in 2010 as Executive Chairman. DGO is focused on building long term shareholder value by investing in brownfield gold discovery opportunities and through exploration success of its portfolio of strategic land positions

NTM welcomes Mr Eshuys to its board and looks forward to drawing on his wealth of experience as the company aggressively explores the Company's 100%-owned Redcliffe Gold Project near Leonora, in WA's Goldfields.

NTM Gold Managing Director Andrew Muir commented:

"The appointment of Mr Eshuys to the board is the next step in the continuing alignment of NTM and DGO with respect to aggressively exploring the Redcliffe Gold Project. Both companies recognise the potential of Redcliffe to yield a sizeable gold resource base."

"NTM's 2019 exploration program is in full swing, with an RC campaign and diamond drilling program and near-term commencement of an aircore program to test for strike extensions of current resources."

About NTM

NTM Gold Ltd (ASX: NTM) is an emerging Perth-based explorer focused on the Leonora region, in the heart of Western Australia's Eastern Goldfields. The Leonora Laverton Terrane has produced more than 50 million ounces of gold historically and is considered to be one of Australia's most prospective provinces. NTM owns 100% of the Redcliffe Gold Project, a major developing project with established resources close to existing infrastructure and mines (Sons of Gwalia: St Barbara Ltd, Thunderbox: Saracen Mineral Holdings Ltd, and Darlot: Red 5 Limited).

The Redcliffe Gold Project is a 170km² tenement holding covering the Mertondale Shear Zone over some 40km length. The Mertondale Shear Zone is an interpreted major crustal structure important for gold mineralisation.

NTM has an experienced team who are committed to developing the Redcliffe Gold Project. An aggressive exploration program is under way, which has delivered drilling success across much of the Redcliffe project area. NTM's ambition is to upgrade the Redcliffe resource base to fast-track commercialisation options.
