QUARTERLY REPORT

EXPLORATION & CORPORATE HIGHLIGHTS

- Completion of the IronRinger acquisition
- Board Changes including appointment of David Chapman, Paul Chapman and Dean Tuck
- Change of company name to Dreadnought Resources Limited

CORPORATE:

As announced during the quarter, Dreadnought Resources Limited (ASX:DRE, 'Dreadnought' or 'the Company') has been actively pursuing the acquisition of IronRinger Resources Pty Ltd which will provide substantial exploration opportunities in the Kimberley and Kalgoorlie regions of Western Australia. The acquisition was approved by shareholders at the Company's Extraordinary General meeting held on 15 February 2019. This meant obtaining the Tarraji-Yampi project located 95kms north-east of Derby with numerous high priority nickel, copper and gold targets in the west Kimberley and the Rocky Dam gold project located 55km east of Kalgoorlie where bedrock gold mineralisation has been defined by previous drilling.

Subsequent to the quarter, highly experienced mining executives, Paul Chapman and David Chapman joined the Board of Dreadnought as Non-executive Directors and Dean Tuck joined as Managing Director. Paul Payne and Ian Gordon remain on the Company's Board and Duncan Gordon resigned as Non-executive Chairman. The Board thanks Duncan for his contribution to the Company during his time as a Non-executive Director.

Dreadnought completed a non-renounceable Entitlement issue to shareholders of 1 new share for every 3 existing shares which sought to raise up to \$577,000 before costs ('Rights issue'). Approximately \$350,000 was raised through the Right issue. Funds will be used to progress work on the Tarraji-Yampi Ni-Cu-Au and for working capital purposes.

The Company's name changed to Dreadnought Resources Limited which will better reflect the Company's goals to take calculated risks while applying current technology to find large mineral deposits.

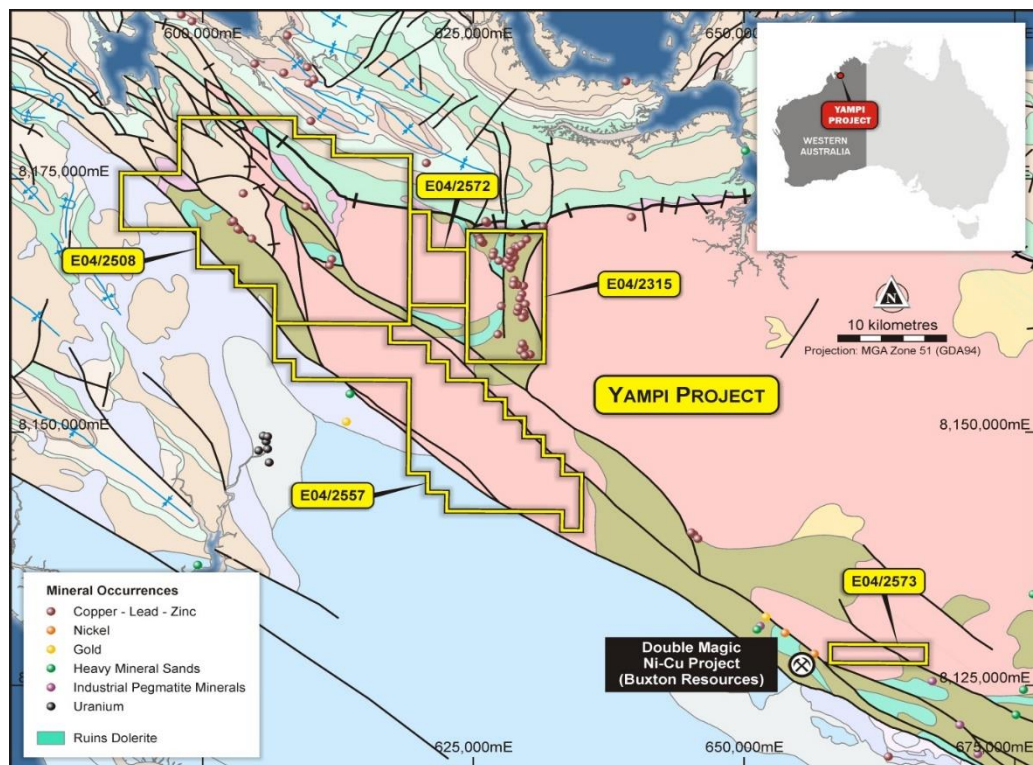

Figure 1: Yampi and Rocky Dam project locations

CURRENT EXPLORATION ACTIVITIES:

Tanami Joint Venture (NT) – Ramelius 85%, Tychean 15%.

During the quarter there was no field work performed by Ramelius Resources Limited (ASX: RMS) relating to the Tanami Joint Venture. Dreadnought maintains its 15% free-carried interest such that future involvement either through further contribution to the project, or by converting the interest to a 1.5% NSR royalty, will be determined upon a decision to mine.

CONCLUDING COMMENTS

Dreadnought Resources is extremely pleased to be able to acquire the Tarraji-Yampi Ni-Cu-Au project within a proven terrain that has had limited exploration completed and numerous outcropping and walk up drill targets.

In addition, the Rocky Dam project provides the opportunity to add gold and base metal massive sulphides to the Company's commodity mix.

Dreadnought has planned an aggressive exploration strategy for the remainder of 2019 including:

- May: Reconnaissance exploration and FLEM over priority targets
- May/June: Corporate Roadshow
- May/June: Surface assay results and FLEM conductors refine drill targets
- June/July: Receive approvals for drilling
- July/August: Commence diamond drilling of priority targets
- August/September: Drilling assay results
- August/September: Corporate Roadshow
- September/October: Follow up drilling, pending results
- October-December: Rocky Dam exploration

Dreadnought looks forward to exploring these highly prospective projects over the coming months.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
