

Overview and Investment Philosophy

The Manager's risk-adjusted return philosophy is implemented through three key tenets:

VG1, the Company, provides investors with access to a concentrated portfolio, predominately comprised of Long investments and Short positions in global listed securities; and the investment expertise of VGI Partners, the Manager.

01

Capital preservation

The Manager believes that risk comes from not properly understanding your investments and places a great deal of importance on assessing downside risk.

02

Superior long-term compound growth

The Manager believes that great businesses purchased with a 'margin of safety' held for the long term are best placed to provide superior compound returns.

03

Concentration

The Manager aims to be concentrated enough in its best ideas so as not to dilute overall returns but hold enough Long investments in order to provide an appropriate level of diversification. The Top five Long investments typically represent 40-50% of the portfolio NAV.

Commentary

The portfolio's return (net of all fees and expenses) for the month of June 2019 was +1.3%. The portfolio's Long investments added 2.4% to performance for the month of June 2019 and the Short portfolio, consisting of single stock Short positions, detracted -0.2% from performance during the month. The Australian Dollar appreciated against the US Dollar during June, which detracted -0.9% from the return.

The \$300 million raised during the recent Placement and Entitlement Offer was immediately transferred from A\$ to US\$. The Manager has begun prudently deploying the capital.
