Since 30 June 2019 the Company has raised a further \$689k from the recently completed rights issue and this amount together with the directors and management capital injection of \$170k gives the Company an adjusted cash balance in excess of \$1.689m. The placement to directors and management, on the exact same terms as the recently completed rights issue, is subject to shareholder approval at the AGM on 30 August 2019.

Amplia's CEO Dr John Lambert noted that "We would again like to thank our shareholders for their ongoing support. The funds they have provided are to be used to position the Company's lead drug candidate AMP945 ready for an initial Phase I clinical study which is expected to provide the necessary safety, tolerability, pharmacokinetic, and pharmacodynamic data to support a Phase II program."
