

## ASX RELEASE

15 August 2019

### Kleos Market Update

Kleos Space S.A. (ASX: KSS, Frankfurt: KS1), (**Kleos** or **Company**), space enabled activity based intelligence Data as a Service (**DaaS**) company, provides a market update summarising the Company's current status highlighting the Company's progress toward launch of the Kleos' Scouting Mission<sup>1</sup> in Q4 2019.

#### Summary

- **Recent agreements with Spire Global and EarthLab** to expand commercial applications of Kleos data including through combining Kleos data with other GEOINT data sets
- **Pricing model for first Kleos DaaS Product Guardian Locate released** – Annual revenue per 'Single User' from A\$120,000 to A\$971,000 for 'Government User' with single cluster data, without accounting for increased daily data revisit from changes to KSM orbit
- **L3Harris (NYSE:LHX)** 6<sup>th</sup> largest US Defence Company to market Kleos DaaS Products on Government GSA portal
- **Scouting Mission (first Satellite cluster) to be launched in Q4 2019**, now on the Polar Satellite Launch Vehicle (**PSLV**), a reliable and respected launch operator – the Indian Space Research Organisation
- **PSLV launch to give Kleos a 37° inclination orbit**, resulting in more frequent data revisits within part of the World with the highest maritime activity globally – improving data collection and value.
- **Orbit change improves data collection of up to 4.5 times** within core maritime interest regions including the South China Sea, Strait of Hormuz, the Australian Coast, the East & Western African Coasts, Brazil Coast and the Southern US Coast
- **Negotiations continue** with other potential adopters of the technology – revised orbit expected to significantly increase demand

---

<sup>1</sup> The multi-satellite Scouting Mission system will form the foundation of a constellation that delivers a global picture of hidden maritime activity, enhancing the intelligence capability of government and commercial entities when AIS (Automatic Identification System) is defeated, imagery is unclear, or targets are out of patrol range. The first scouting mission is made up of 4x nano-satellites built by GomSpace in Denmark, each the size of a shoebox.

**About Kleos Space S.A. (ASX: KSS, FRANKFURT: KS1)**

Kleos Space S.A. is a Space enabled, Activity Based Intelligence, Data as a Service (DaaS) company based in Luxembourg. Kleos Space aims to guard borders, protect assets and save lives by delivering global activity-based intelligence & geolocation as a service. The first Kleos Space satellite system, known as Kleos Scouting Mission (KSM), will deliver commercially available data and perform as a technology demonstration. KSM will be the keystone for a later global high capacity constellation. The Scouting Mission will deliver targeted daily services with the full constellation delivering near-real-time global observation – [www.kleos.space](http://www.kleos.space).
