#### ANNUAL GENERAL MEETING

Date: Thursday, 24 October 2019 Time: 5:00pm Venue: HopgoodGanim Lawyers Level 7 Waterfront Place 1 Eagle Street Brisbane, QLD, 4000

#### **EXPLANATION OF RESULTS**

The Company reports revenue on a net revenue inflow basis where it considers that it acts more as an Agent than as a Principal such as with the sale of lottery tickets. The gross amount received for the sale of goods and rendering of services is advised as Total Transaction Value ("TTV") for information purposes.

TTV, Revenue and Profit increased compared to the same period last year. Continuing improved customer activity stemming from the release of the new software platform together with increased large jackpot activity (both number and average value) in Australia during the financial year were the main reasons for the increased TTV and Revenue. For the 12 month period to 30 June 2019, the number of new online accounts increased 106% to 444,004 and the number of active online customers increased 74% to 761,863. During the financial year, there were 49 (2018: 32) large jackpots with an average value of \$38.4 million (2018: \$28.4 million). This is 53.1% higher in number and 35.2% higher in average value compared to the previous period.

#### Consolidated results

The higher TTV and Revenue together with continued focus on cost management (although expenses increased by 22.9%, which was mainly associated with the increased TTV and Revenue), have resulted in the 117.9% increased Profit.

The Company continues to invest in the three main pillars that support the ongoing growth of the Company with \$4,839,000 (2018: \$4,567,000) on its proprietary software platform (intangible assets), \$6,956,000 (2018: \$4,637,000) in marketing activities primarily to acquire new and retain existing customers, and \$8,731,000 (2018: \$8,119,000) on employees who provide the software development and marketing skills, customer support services, and management.

Profit after tax attributable to members	26,420	12,127	14,293	117.9

TTV increased largely due to an increase in the Australia Lotteries segment resulting mainly from increased customer activity and large jackpot activity.

This increase in TTV resulted in an increase in Revenue at a lower rate, due to a lower margin of 20.3% (2018: 21.7%) which reduced as a result of a change in the product mix driven by the large jackpot activity.

The increase in Group expenses is primarily in relation to; (i) expenses directly linked to the increase in TTV and Revenue in the Online Lottery Segment and (ii) increased share registry related activity in the Corporate Segment. Overall expense increases in the Australia Lotteries segment were mainly through increases in marketing, electronic ID verification and merchant fees associated with the higher levels of customer activity and large jackpot activity, an increase in depreciation and amortisation with ongoing investment in the software platform, an increase in employee benefits, and other administration costs, and expenses in the Sorporate segment increased largely from higher share registry related activity with an increase in the size of the share register and market capitalisation.

The above has resulted in the increase in earnings and profits.

The level of customer activity, together with large jackpot activity, is an important driver of sales. The level over the last three financial year periods is summarised as follows:

	FY 2019	FY 2018	FY 2017
TTV – Internet Lotteries Australia	\$319.7 million	\$182.3 million	\$144.5 million
Reported Revenue – Internet Lotteries Australia	\$64.3 million	\$38.8 million	\$31.6 million

#### **Financial position**

The net assets of the Group have increased by \$30,167,000 from 30 June 2018 to \$77,378,000.

The Group's working capital, being current assets less current liabilities, has increased from \$33,236,000 in 2018 to \$61,870,000 in 2019 mainly as a result of increased cash and cash equivalents of \$36,664,000. \$23,385,000 of this increase was from the issue of shares as a result of exercise of options.

Non-current assets increased by \$1,687,000 to \$16,126,000 due mainly to the investment in the software platform.

The Directors believe the Group is in a sound financial position to expand and grow its current operations.

#### **Review of Operations**

#### (a) Online Lottery Segment

This segment consists of Australia only.

#### Australia

There was a significant increase in customer activity (see Marketing KPIs below) as well as higher levels of large jackpot activity with 17 more in number (+53.1%) and \$10.0 million higher in average value (+35.2%) of large jackpots compared to FY2018, contributing to the 65.3% increase in Revenue to \$64,283,000 (2018: \$38,897,000). Other income increased to \$1,409,000 (2018: \$918,000) mainly due to increased interest revenue with higher average balances outweighing the lower average interest rates. Net profit before tax increased by 113.2% to \$40,403,000 (2018: \$18,948,000) largely due to the higher customer and jackpot activities, notwithstanding an increase in expenses of 23.3%.

The increase in expenses of 23.3% or \$4,381,000 was mainly related to increased TTV and Revenue with (i) increased marketing \$2,340,000, (ii) decreased occupancy \$145,000, (iii) increased administration expenses – largely increased depreciation and amortisation \$253,000, increased employee benefits \$216,000, and increased merchant fees \$1,321,000.

TTV for the financial year increased by 75.4% to \$319,730,000 (2018: \$182,268,000), which includes an increase of 27.5% in charity lottery sales to \$7,770,000 (2018: \$6,092,000), at 2.4% of TTV (2018: 3.3%).

Jumbo invests extensively in online marketing to grow and activate the customer database who transact via its website (<u>www.ozlotteries.com</u>) and associated mobile apps (iOS & Android). The following key performance indicators (KPIs) are used to track the effectiveness of these campaigns:

- 1. Number of new online accounts defined by new customers creating an account in a given period.
- 2. Number of Active Online Customers defined as customers who have spent money on tickets in a given period.
- 3. Average spend per active online customer defined as the total spent by active online customers divided by the number of active online customers in a given period.
- 4. Cost per Lead (new online accounts) defined as total cost to acquire these new accounts divided by the number of new accounts in a given period. New accounts potentially become active customers after the account has been established.

The following table summarizes the Marketing KPI's:

www.ozlotteries.com and mobile apps	FY 2019	FY 2018
Number of new online accounts	444,004	214,908
Number of active online customers	761,863	437,540
Average spend per active online customer	\$385.44	\$371.13
Cost per Lead	\$13.81	\$17.28

The 106.6% increase in new online accounts and 74.1% increase in active online customers are due mainly to the release of the new software platform. This enabled increased marketing activity on the back of a substantial increase in large jackpot activity (53.1% increase in number and 35.2% increase in average value) and re-engagement of existing customers. The 3.9% increase in average spend per active customer is largely due to the increase in large jackpot activity and charity lottery sales growth, and the marketing initiatives. The 20.1% decrease in CPL is mostly due to the marketing mix and increased interest generated by the higher large jackpot activity.

#### (b) All Other Segments

This segment consists of the sale of non-lottery products and services. TTV and Revenue and other income increased to \$929,000 (2018: \$878,000) and net profit before tax increased to \$494,000 (2018: \$476,000).

#### (c) Corporate

The net loss increased by 15.3% or \$355,000 to NLBT \$2,678,000 (2018: NLBT \$2,323,000) mainly due to increased administration expenses of \$626,000 or 24.4% largely from increased employee benefits in salaries

#### Appendix 4E - Preliminary Final Report

and share-based payments from the exercise of staff options during the financial year, increased share registry related expenses with an increase in the size of the share register and market capitalisation, and increased directors' remuneration with the appointment of a further director on 1 January 2019, partly offset by increased revenue of 84.7% or \$242,000 from higher average balances that outweighed lower average interest rates.
