#### **Explanation of Investment income/(loss)**

The Fund maintains its investment strategy in S&P/ASX 200 Index securities, and the investment policy of the Fund continues to be that detailed in the current Product Disclosure Statement and in accordance with the provisions of the governing documents of the Fund.

The Fund earns revenue predominantly from the following elements:

- · Net gains/(losses) on financial instruments held at fair value through profit or loss, and
- Investment income such as dividend and interest.

The principal accounting policies applied in the preparation of these financial statements are set out on the following page. These policies have been consistently applied to all years presented, unless otherwise stated in the following text: AASB 132 [Financial Instruments: Presentation] and AASB 9 [Financial Instruments].

#### SPDR S&P/ASX 200 Fund Year ended 30 June 2019 (Previous corresponding period – year ended 30 June 2018) (continued)

#### (i) Classification

Assets

The Funds classify their investments based on their business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed and their performance are evaluated on a fair value basis in accordance with the Funds' documented investment strategies. The Funds use fair value information to assess performance of the portfolios and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Funds' policies are for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business models' objective. Consequently, the debt securities are measured at fair value through profit or loss.

Investments in financial assets previously designated at fair value through profit or loss

SPDR S&P/ASX 200 Fund holds equity securities of \$3,627,409,300 (2018: \$3,504,468,915) and unit trusts of \$271,882,300 (2018: \$251,426,915) which had previously been designated at fair value through profit or loss.

On adoption of AASB 9 these securities are now mandatorily classified as fair value through profit or loss.

Liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

#### (ii) Recognition/derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in the fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or have been transferred and the Funds have transferred substantially all of the risks and rewards of ownership.

#### (iii) Measurement

At initial recognition, the Funds measure financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the Statements of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statements of comprehensive income within 'net gains/(losses) on financial Information Classification: General

#### SPDR S&P/ASX 200 Fund Year ended 30 June 2019 (Previous corresponding period – year ended 30 June 2018) (continued)

instruments at fair value through profit or loss' in the period in which they arise.

#### Explanation of Operating profit/(loss)

Refer to above commentary.

#### Explanation of Profit/(loss)

Given the adoption of AASB132 and the recognition of net assets attributable to unitholders as a liability, the (increase)/decrease in net assets attributable to unitholders and distributions to unitholders are reflected as a financing cost.

As a result of this accounting policy, profit/(loss) after financing costs is nil.

#### **Explanation of Distributions**

In accordance with the Fund's Constitution, the Fund distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestments. Distributable income is determined by reference to the taxable income of the Fund. The distributions are payable at the end of June and December each year and recognised in profit or loss as finance costs attributable to unitholders.

#### SPDR S&P/ASX 200 Fund Preliminary abridged statement of changes in equity For the year ended 30 June 2019

|  | Year ended<br>30 June<br>2019<br>\$ | Year ended<br>30 June<br>2018<br>\$ |
|--|-------------------------------------|-------------------------------------|
| Total equity at the beginning of the financial year Profit/(loss) for the year Other comprehensive income Total comprehensive income | <u>-</u>                            | <u>-</u>                            |
| Transactions with owners in their capacity as owners   |                                     | -                                   |
| Total equity at the end of the financial year  | 146                                 |                                     |

Under Australian Accounting Standards, net assets attributable to unitholders are classified as a liability rather than equity. As a result, there was no equity at the beginning or end of the year.

#### SPDR S&P/ASX 200 Fund Preliminary abridged statement of cash flows For the year ended 30 June 2019

#### SPDR S&P/ASX 200 Fund Notes to the preliminary abridged financial statements For the year ended 30 June 2019

# Material factors affecting the revenues and expenses of the economic entity for the current period

The revenues are largely driven by the underlying performance of the constituent stocks of the S&P/ASX 200 Index. The performance is determined by the market prices and the dividend yields of those stocks. Expenses are accrued at 19 basis points per annum of the net asset value on a daily basis. Certain transaction costs are expensed in addition to the aforementioned expense accruals.

# Material factors affecting the assets, liabilities and equity of the economic entity for the current period

The assets of the Fund comprise the constituent stocks, cash proceeds for open sell trades not yet received, accrued dividends not yet received and other sundry receivables. Liabilities consist of open buy trades not yet paid, accrued expenses not yet paid, the unpaid distribution based on the taxable income of the Fund and sundry items.

# Material factors affecting the cash flows of the economic entity for the current period

No material factors outside of the normal operational process of investment affect the cash flows.

# Correction of errors, changes in accounting policies and revision of accounting estimates

N/A

#### Reconciliation of income tax expense

Under current income tax legislation, the Fund is not subject to income tax as unitholders are presently entitled to the income of the Fund.

Under current legislation, the Fund is not subject to income tax as unitholders are presently entitled to the income of the Fund. As a result the Fund does not have a franking account and therefore the distributions are not franked. Unitholders receive imputation credits (if any) attached to distributions.

#### Distribution reinvestment plans

Investors can elect to reinvest at the net asset value of the Fund under the terms of the current Distribution Reinvestment Plan. No discount applies to the issue of units under the Distribution Reinvestment Plan. An application to participate in the plan will be effective in respect of the first Distribution after receipt of the application form provided it is received on or before the books closing date for that Distribution.

#### SPDR S&P/ASX 200 Fund Supplementary Appendix 4E information For the year ended 30 June 2019

#### Commentary on results

#### Operating profit per unit attributable to unitholders

Operating profit per unit was 618.97 cents per unit.

The Fund allocates net operating profit to unitholders on a daily basis for the purpose of determining daily unit prices. Net operating profit per unit is represented by the movement in the Fund's daily unit redemption price for the year plus distributions per unit.

Because net operating profit has been allocated to unitholders on a daily basis, the actual daily number of units on issue has been used in the calculation of earnings per unit. This approach does not require the calculation of a weighted average number of units on issue for the year.

#### Returns to unitholders

In accordance with the Fund Constitution, the Fund distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestments. Distributable income is determined by reference to the taxable income of the Fund. The distributions are payable at the end of June and December each year.

#### Significant features of operating performance

N/A

#### Results of segments

The Fund operates solely in the business of investment management within Australia. The Fund operates in Australia and holds investments in Australia.

#### Trends in performance

Investment performance has tracked to the performance of the S&P/ASX 200 Index.

Other factors that affected results in the period or which are likely to affect results in the future

No other factors affect the current year's results.

#### **Audit**

This report is based on accounts which are currently being audited. The audit report will be made available with the Fund's financial statements.

Approved by the directors of State Street Global Advisors, Australia Services Limited on 27 August 2019.

#### Explanation of Investment income/(loss)

The Fund maintains its investment strategy in S&P/ASX 50 Index listed securities, and the investment policy of the Fund continues to be that detailed in the current Product Disclosure Statement and in accordance with the provisions of the governing documents of the Fund.

The Fund earns revenue predominantly from the following elements:

- Net gains/(losses) on financial instruments held at fair value through profit or loss, and
- Investment income such as dividend and interest.

The principal accounting policies applied in the preparation of these financial statements are set out on the following page. These policies have been consistently applied to all years presented, unless otherwise stated in the following text: AASB 132 [Financial Instruments: Presentation] and AASB 9 [Financial instruments].

#### SPDR S&P/ASX 50 Fund Year ended 30 June 2019 (Previous corresponding period – year ended 30 June 2018) (continued)

#### (i) Classification

#### Assets

The Funds classify their investments based on their business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed and their performance are evaluated on a fair value basis in accordance with the Funds' documented investment strategies. The Funds use fair value information to assess performance of the portfolios and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Funds' policies are for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business models' objective. Consequently, the debt securities are measured at fair value through profit or loss.

Investments in financial assets previously designated at fair value through profit or loss

SPDR S&P/ASX 50 Fund holds equity securities of \$532,929,681 (June 30, 2018: 474,828,420) and unit trusts of \$41,597,046 (2018: \$36,950,244) which had previously been designated at fair value through profit or loss.

On adoption of AASB 9 these securities are now mandatorily classified as fair value through profit or loss.

#### Liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

#### (ii) Recognition/derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in the fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or have been transferred and the Funds have transferred substantially all of the risks and rewards of ownership.

#### (iii) Measurement

At initial recognition, the Funds measure financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the Statements of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statements of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

SPDR S&P/ASX 50 Fund Year ended 30 June 2019 (Previous corresponding period – year ended 30 June 2018) (continued)

#### **Explanation of Operating profit/(loss)**

Refer to above commentary.

#### Explanation of Profit/(loss)

Given the adoption of AASB 132 and the recognition of net assets attributable to unitholders as a liability, the (increase)/decrease in net assets attributable to unitholders and distributions to unitholders are reflected as a financing cost.

As a result of this accounting policy, profit/(loss) after financing costs is nil.

#### **Explanation of Distributions**

In accordance with the Fund's Constitution, the Fund fully distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestment. Distributable income is determined by reference to the taxable income of the Fund. The distributions are payable at the end of June and December each year, and recognised in profit or loss as finance costs attributable to unitholders.

#### SPDR S&P/ASX 50 Fund Notes to the preliminary abridged financial statements For the year ended 30 June 2019

# Material factors affecting the revenues and expenses of the economic entity for the current period

The revenues are largely driven by the underlying performance of the constituent stocks of the S&P/ASX 50 Index. The performance is determined by the market prices and the dividend yields of those stocks. Expenses are accrued at 28.6 basis points per annum of the net asset value on a daily basis. Certain transaction costs are expensed in addition to the aforementioned expense accruals.

# Material factors affecting the assets, liabilities and equity of the economic entity for the current period

The assets of the Fund comprise the constituent stocks, cash proceeds for open sell trades not yet received, accrued dividends not yet received and other sundry receivables. Liabilities consist of open buy trades not yet paid, accrued expenses not yet paid, the unpaid distribution based on the taxable income of the Fund and sundry items.

# Material factors affecting the cash flows of the economic entity for the current period

No material factors outside of the normal operational process of investment affect the cash flows.

# Correction of errors, changes in accounting policies and revision of accounting estimates

N/A.

#### Reconciliation of income tax expense

Under current income tax legislation, the Fund is not subject to income tax as unitholders are presently entitled to the income of the Fund.

Under current legislation, the Fund is not subject to income tax as unitholders are presently entitled to the income of the Fund. As a result the Fund does not have a franking account and therefore the distributions are not franked. Unitholders receive imputation credits (if any) attached to distributions.

#### Distribution reinvestment plans

Investors can elect to reinvest at the net asset value of the Fund under the terms of the current Distribution Reinvestment Plan. No discount applies to the issue of units under the Distribution Reinvestment Plan. An application to participate in the plan will be effective in respect of the first Distribution after receipt of the application form provided it is received on or before the books closing date for that Distribution.

#### SPDR S&P/ASX 50 Fund Supplementary Appendix 4E information For the year ended 30 June 2019 (continued)

#### Commentary on results

#### Operating profit per unit attributable to unitholders

Operating profit was 757.48 cents per unit.

The Fund allocates net operating loss to unitholders on a daily basis for the purpose of determining daily unit prices. Net operating loss per unit is represented by the movement in the Fund's daily unit redemption price for the year plus distributions per unit.

Because net operating loss has been allocated to unitholders on a daily basis, the actual daily number of units on issue has been used in the calculation of earnings per unit. This approach does not require the calculation of a weighted average number of units on issue for the year.

#### Returns to unitholders

In accordance with the Fund Constitution, the Fund distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestments. Distributable income is determined by reference to the taxable income of the Fund. The distributions are payable at the end of June and December each year.

#### Significant features of operating performance

N/A

#### Results of segments

The Fund operates solely in the business of investment management within Australia and the Fund operates in Australia and holds investments in Australia.

#### Trends in performance

Investment performance has tracked to the performance of the S&P/ASX 50 Index.

## Other factors that affected results in the period or which are likely to affect results in the future

No other factors affect the current year's results.

#### Explanation of Investment income/(loss)

The Fund maintains its investment strategy in S&P/ASX 200 A-REIT Index securities, and the investment policy of the Fund continues to be that detailed in the current Product Disclosure Statement and in accordance with the provisions of the governing documents of the Fund.

The Fund earns revenue predominantly from the following elements:

- Net gains/(losses) on financial instruments held at fair value through profit or loss.
- Investment income such as dividends and interest.

The principal accounting policies applied in the preparation of these financial statements are set out on the following page. These policies have been consistently applied to all years presented, unless otherwise stated in the following text: AASB 132 [Financial Instruments: Presentation] and AASB 9 [Financial instruments].

#### SPDR S&P/ASX 200 Listed Property Fund Preliminary abridged statement of comprehensive income For the year ended 30 June 2019

#### (i) Classification

Assets

The Funds classify their investments based on their business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed and their performance are evaluated on a fair value basis in accordance with the Funds' documented investment strategies. The Funds use fair value information to assess performance of the portfolios and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Funds' policies are for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business models' objective. Consequently, the debt securities are measured at fair value through profit or loss.

Investments in financial assets previously designated at fair value through profit or loss

SPDR S&P/ASX 200 Listed Property Fund holds unit trusts of \$617,910,385 (2018: \$546,509,468) which had previously been designated at fair value through profit or loss.

On adoption of AASB 9 these securities are now mandatorily classified as fair value through profit or loss.

Liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

#### (ii) Recognition/derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in the fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or have been transferred and the Funds have transferred substantially all of the risks and rewards of ownership.

#### (iii) Measurement

At initial recognition, the Funds measure financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the Statements of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statements of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

#### SPDR S&P/ASX 200 Listed Property Fund Year ended 30 June 2019 (Previous corresponding period – year ended 30 June 2018) (continued)

#### **Explanation of Operating profit/(loss)**

Refer to above commentary.

#### **Explanation of Profit/(loss)**

Given the adoption of AASB 132 and the recognition of net assets attributable to unitholders as a liability, the (increase)/decrease in net assets attributable to unitholders and distributions to unitholders are reflected as a financing cost.

As a result of this accounting policy, profit/(loss) after financing costs is nil.

#### **Explanation of Distributions**

In accordance with the Fund's Constitution, the Fund distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestment. Distributable income is determined by reference to the taxable income of the Fund. The distributions are payable at the end of June, September, December and March each year and recognised in profit or loss as finance costs attributable to unitholders.

# SPDR S&P/ASX 200 Listed Property Fund Notes to the preliminary abridged financial statements For the year ended 30 June 2019

# Material factors affecting the revenues and expenses of the economic entity for the current period

The revenues are largely driven by the underlying performance of the constituent stocks of the S&P/ASX 200 A-REIT Index. The performance is determined by the market prices and the dividend yields of those stocks. Expenses are accrued at 40 basis points per annum of the net asset value on a daily basis. Certain transaction costs are expensed in addition to the aforementioned expense accruals.

# Material factors affecting the assets, liabilities and equity of the economic entity for the current period

The assets of the Fund comprise the constituent stocks, cash proceeds for open sell trades not yet received, accrued dividends not yet received and other sundry receivables. Liabilities consist of open buy trades not yet paid, accrued expenses not yet paid, the unpaid distribution based on the taxable income of the Fund and sundry items.

# Material factors affecting the cash flows of the economic entity for the current period

No material factors outside of the normal operational process of investment affect the cash flows.

# Correction of errors, changes in accounting policies and revision of accounting estimates

N/A

#### Reconciliation of income tax expense

Under current income tax legislation, the Fund is not subject to income tax as unitholders are presently entitled to the income of the Fund.

Under current legislation, the Fund is not subject to income tax as unitholders are presently entitled to the income of the Fund. As a result the Fund does not have a franking account and therefore the distributions are not franked. Unitholders receive imputation credits (if any) attached to distributions.

SPDR S&P/ASX 200 Listed Property Fund Supplementary Appendix 4E information For the year ended 30 June 2019 (continued)

#### Commentary on results

#### Operating profit per unit attributable to unitholders

Operating profit per unit was 228.87 cents per unit.

The Fund allocates net operating profit to unitholders on a daily basis for the purpose of determining daily unit prices. Net operating profit per unit is represented by the movement in the Fund's daily unit redemption price for the year plus distributions per unit.

Because net operating profit has been allocated to unitholders on a daily basis, the actual daily number of units on issue has been used in the calculation of earnings per unit. This approach does not require the calculation of a weighted average number of units on issue for the year.

#### Returns to unitholders

In accordance with the Fund Constitution, the Fund distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestments. Distributable income is determined by reference to the taxable income of the Fund. The distributions are payable at the end of June, September, December and March each year.

#### Significant features of operating performance

N/A

#### Results of segments

The Fund operates solely in the business of investment management within Australia. The Fund operates in Australia and holds investments in Australia.

#### Trends in performance

Investment performance has tracked to the performance of the S&P/ASX 200 A-REIT Index.

Other factors that affected results in the period or which are likely to affect results in the future

No other factors affect the current year's results.

#### **Audit**

This report is based on accounts which are currently being audited. The audit report will be made available with the Fund's financial statements.

Approved by the directors of State Street Global Advisors, Australia Services Limited on 27 August 2019.

#### Significant changes in the state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Funds that occurred during the financial year.

#### Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect:

- (i) the operations of the Funds in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Funds in future financial years.

#### Likely developments and expected results of operations

The Funds will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Funds and in accordance with the provisions of the Funds' Constitution.

#### Likely developments and expected results of operations (continued)

The results of the Funds' operations will be affected by a number of factors, including the performance of investment markets in which the Funds invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

The Funds' investment objectives and strategies remain unchanged which are to track the performance of their underlying indexes. Accordingly the future returns of the Funds are dependent on the performance of their underlying indexes.

#### Indemnity and insurance of officers

No insurance premiums are paid for out of the assets of the Funds in regards to insurance cover provided to either the officers of State Street Global Advisors, Australia Services Limited or the auditors of the Funds. So long as the officers of State Street Global Advisors, Australia Services Limited act in accordance with the Funds' Constitution and the *Corporations Act 2001*, the officers remain indemnified out of the assets of the Funds against losses incurred while acting on behalf of the Funds.

#### Indemnity of auditors

The auditors of the Funds are in no way indemnified out of the assets of the Funds.

#### Fees paid to and interests held in the Funds by the Responsible Entity or its associates

Fees paid to the Responsible Entity and its associates out of Funds' properties during the year are disclosed in note 17 to the financial statements.

No fees were paid out of Funds' properties to the directors of the Responsible Entity during the year.

The number of interests in the Funds held by the Responsible Entity or its associates as at the end of the financial year are disclosed in note 17 to the financial statements.

#### Interests in the Funds

The movements in units on issue in the Funds during the year are disclosed in note 10 to the financial statements.

The value of the Funds' assets and liabilities is disclosed on the Statements of financial position and derived using the basis set out in note 2 to the financial statements.

#### **Environmental regulation**

The operations of the Funds are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

#### Rounding of amounts to the nearest dollar

The Funds are entities of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the Directors' report. Amounts in the Directors' report have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

#### Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 7.

This report is made in accordance with a resolution of the directors.

# Auditor's Independence Declaration for SPDR Core Equity ETFs

- SPDR S&P/ASX 200 Listed Property Fund
- SPDR S&P/ASX 50 Fund
- SPDR S&P/ASX 200 Fund

As lead auditor for the audit of SPDR Core Equity ETFs for the year ended 30 June 2019, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

#### 1 General information

These financial statements cover SPDR S&P/ASX 200 Listed Property Fund, SPDR S&P/ASX 50 Fund and SPDR S&P/ASX 200 Fund (the "Funds") as individual entities.

SPDR S&P/ASX 200 Listed Property Fund was constituted on 24 January 2002 and will terminate on 13 February 2082 unless terminated earlier in accordancewith the provisions of the Funds' Constitution.

SPDR S&P/ASX 50 Fund and SPDR S&P/ASX 200 Fund were constituted on 31 July 2001 and will terminate on 22 August 2081 unless terminated earlier in accordance with the provisions of the Funds' Constitution.

The Responsible Entity of the Funds is State Street Global Advisors, Australia Services Limited ("Responsible Entity"), Level 17, 420 George Street, Sydney NSW 2000. The Responsible Entity must operate the Scheme and perform the functions conferred on it by the Funds' Constitution and, as required by the Corporations Act, and has appointed the following agents to perform various functions on its behalf:

Investment Manager and Promoter: State Street Global Advisors, Australia, Limited

Custodian and Administrator: State Street Australia Limited

Unit Registrar: Link Market Services Limited

The Responsible Entity is responsible for the oversight of the performance of its agents and has arrangements in place to review and monitor their performance.

The financial statements are presented in Australian currency.

SPDR S&P/ASX 200 Listed Property Fund invests funds in S&P/ASX 200 listed property securities in accordance with the provisions of the Funds' Constitution.

SPDR S&P/ASX 50 Fund generally invests in securities that are constituents of the S&P/ASX 50 securities in accordance with the provisions of the Fund's Constitution.

SPDR S&P/ASX 200 Fund invests in S&P/ASX 200 Index listed equities in accordance with the provisions of the Fund's Constitution.

The financial statements were authorised for issue by the directors on 27 August 2019. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

#### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

#### (a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001* in Australia. The Funds are for-profit funds for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Statements of financial position are presented on a liquidity basis.

Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets at fair value through profit or loss and net assets attributable to unitholders.

#### (a) Basis of preparation (continued)

The Funds invest in financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unitholders, the units are redeemable by unitholders that are Qualifying Australian Residents (as defined in the Product Disclosure Statement ("PDS")), and use a stock broker acting as principal, on demand at the unitholder's option. Other unitholders can sell on the Australian Securities Exchange. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards

The financial statements of the Funds also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

(ii) New and amended standards adopted by the Funds

AASB 9 Financial Instruments became effective for annual periods beginning on or after 1 January 2018. It addresses the classification, measurement and derecognition of financial assets and liabilities and replaces the multiple classification and measurement models in AASB 139.

Classification and measurement of debt securities is driven by the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

A debt instrument is measured at amortised cost if the objective of the business model is to hold the financial asset for the collection of the contractual cash flows and the contractual cash flows under the instrument represent solely payments of principal and interest (SPPI). A debt instrument is measured at fair value through other comprehensive income if the objective of the business model is to hold the financial asset both to collect contractual cash flows from SPPI and to sell.

All other debt instruments must be recognised at fair value through profit or loss. An entity may however, at initial recognition, irrevocably designate a financial asset as measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency.

Derivative and equity instruments are measured at fair value through profit or loss unless, for equity instruments not held for trading, an irrevocable option is taken to measure at fair value through other comprehensive income. AASB 9 also introduces a new expected credit loss (ECL) impairment model.

AASB 9 has been applied retrospectively by the Funds without the use of hindsight and they have determined that adoption did not result in a change to the classification or measurement of financial instruments in either the current or prior periods. The Funds have elected to restate the comparative period presented to comply with AASB 9. The Funds' investment portfolios continue to be classified as fair value through profit or loss and other financial assets which are held for collection continue to be measured at amortised cost. There was no material impact on adoption from the application of the new impairment model.

AASB 15 Revenue from Contracts with Customers became effective for annual periods beginning on or after 1 January 2018. The adoption of this standard did not have a material impact on the Funds' accounting policies nor the amounts recognised in the financial statements.

There are no other standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2018 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

(iii) New standards, amendments and interpretations effective after 1 January 2019 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2019, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Funds.

#### (b) Financial assets and liabilities at fair value through profit or loss

#### (i) Classification

#### Assets

The Funds classify their investments based on their business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed and their performance are evaluated on a fair value basis in accordance with the Funds' documented investment strategies. The Funds use fair value information to assess performance of the portfolios and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Funds' policies are for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business models' objective. Consequently, the debt securities are measured at fair value through profit or loss.

Investments in financial assets previously designated at fair value through profit or loss

SPDR S&P/ASX 200 Listed Property Fund holds unit trusts of \$617,910,385 (2018: \$546,509,468) which had previously been designated at fair value through profit or loss.

SPDR S&P/ASX 50 Fund holds equity securities of \$532,929,681 (June 30, 2018: \$474,828,420) and unit trusts of \$41,597,046 (2018: \$36,950,244) which had previously been designated at fair value through profit or loss.

SPDR S&P/ASX 200 Fund holds equity securities of \$3,626,438,563 (2018: \$3,504,468,915) and unit trusts of \$272,852,955 (2018: \$251,426,915) which had previously been designated at fair value through profit or loss.

On adoption of AASB 9 these securities are now mandatorily classified as fair value through profit or loss.

#### Liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

#### (ii) Recognition/derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in the fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or have been transferred and the Funds have transferred substantially all of the risks and rewards of ownership.

#### (iii) Measurement

At initial recognition, the Funds measure financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the Statements of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statements of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair values of financial instruments are determined please see note 5 to the financial statements.

#### (c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. Refer to note 4 to the financial statements for further information.

#### (d) Net assets attributable to unitholders

Units are redeemable and are classified as financial liabilities due to mandatory distributions. The units can be put back to the Funds at any time by unitholders that are Qualifying Australian Residents (as defined in the PDS) and use a Stockbroker acting as principal.

#### (e) Cash and cash equivalents

For the purpose of presentation in the Statements of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are classified as liabilities in the Statements of financial position.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Funds' main income generating activities.

#### (f) Margin accounts

Margin accounts comprise cash held as collateral for derivative transactions. The cash is held by the broker and is only available to meet margin calls. It is not included as a component of cash and cash equivalents.

#### (g) Investment income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities.

Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 2(b) to the financial statements.

#### (h) Expenses

All expenses, including Responsible Entity's fees and the Investment Manager's fees, are recognised in the Statements of comprehensive income on an accruals basis.

#### (i) Income tax

Under current legislation, the Funds are not subject to income tax as unitholders are presently entitled to the income of the Funds.

Financial instruments at fair value may include unrealised capital gains. Should such a gain be realised, that portion of the gain that is subject to capital gains tax will be distributed so that the Funds is not subject to capital gains tax.

Realised capital losses are not distributed to unitholders but are retained in the Funds to be offset against any realised capital gains. If realised capital gains exceed realised capital losses, the excess is distributed to unitholders.

#### (i) Income tax (continued)

The benefits of tax credits paid are passed on to unitholders.

The Funds currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the Statements of comprehensive income.

#### (j) Distributions

In accordance with the Funds' Constitution, the Funds distribute their distributable (taxable) income and any other amounts determined by the Responsible Entity, to unitholders by cash or reinvestment. The distributions are payable in accordance with the Constitution and recognised in the Statements of comprehensive income as finance costs attributable to unitholders.

#### (k) Increase/decrease in net assets attributable to unitholders

Income not distributed is included in net assets attributable to unitholders. Movements in net assets attributable to unitholders are recognised in the Statements of comprehensive income as finance costs attributable to unitholders.

#### (I) Foreign currency translation

#### (i) Functional and presentation currency

Items included in the Funds' financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Funds compete for funds and is regulated. The Australian dollar is also the Funds' presentation currency.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statements of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities at fair value are reported in the Statements of comprehensive income on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

#### (m) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and consequently measured at amortised cost.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

#### (n) Receivables

Receivables may include amounts for dividends, trust distributions and interest. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment. Amounts are generally received within 30 days of being recorded as receivables.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds shall measure the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

#### (o) Payables

Payables include liabilities and accrued expenses owing by the Funds which are unpaid as at the end of the reporting period.

#### (p) Applications and redemptions

Application amounts must be in the form of a parcel of prescribed securities transferred to the Responsible Entity's custodian and may not be wholly paid in cash. The parcel of securities related to in-specie applications generally reflect the characteristics of the Funds' underlying indexes. Investors may purchase units by trading on the Australian Securities Exchange ("ASX").

Unitholders can only redeem units if they are a "Qualifying Australian Resident" as defined in the PDS and use a stockbroker acting as principal. Investors may sell units by trading on the ASX.

Unit prices are determined by reference to the net assets of the Funds divided by the number of units on issue. For unit pricing purposes, net assets are determined using the last reported trade price for securities. These prices may differ from the market.

#### (q) Transaction Fee

Under the Funds constitution, a transaction fee is charged in connection with applications and redemptions. Transaction fees are recognised upon application and redemption date in the Statements of comprehensive income as other operating income.

#### (r) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Funds by third parties such as Custodial and Administration services, Responsible Entity services and Investment Management services have been passed onto the Funds. The Funds qualify for Reduced Input Tax Credits ("RITC"). Hence Responsible Entity fees, Investment Management fees, Custody and Administrator fees and other expenses have been recognised in the Statements of comprehensive

#### (r) Goods and Services Tax (GST) (continued)

income net of the amount of GST recoverable from the Australian Taxation Office ("ATO"). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the Statements of financial position. Cash flows relating to GST are included in the Statements of cash flow on a gross basis.

#### (s) Use of estimates

The Funds may make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Funds' financial instruments, quoted market prices are readily available.

For certain other financial instruments, including amounts due from/to brokers, accounts payable and accrued expenses, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments.

The adoption of AASB 9 introduced a new expected credit loss (ECL) impairment model, which has not materially impacted the Funds. Please see note 3(c) for more information on credit risk.

#### (t) Segment reporting

A business segment is identified for a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different to those of other business segments. A geographical segment is identified when products or services are provided within a particular economic environment subject to risks and returns that are different from those of segments operating in other economic environments.

#### (u) Rounding of amounts

The Funds are entities of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

#### (v) Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

#### 3 Financial risk management

The Funds' activities expose them to a variety of financial risks: market risk (including price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Funds' overall risk management programme focuses on ensuring compliance with the Funds' PDS and seeks to maximise the returns derived for the level of risk to which the Funds are exposed. The Funds may use derivative financial instruments to alter certain risk exposures.

Financial risk management is carried out by the Investment Manager under an Investment Mandate approved by the Board of Directors of the Responsible Entity (the "Board").

The Funds use different methods to measure different types of risk to which they are exposed. These methods are explained below.

#### (a) Market risk

#### (i) Price risk

The Funds invest in various investments including securities on ASX, cash instruments, derivatives. The Funds are exposed to equity securities and derivatives securities price risk. The risk is that the value of the Funds' investment portfolio will fluctuate as a result of changes in market prices. The risk is influenced by economic, technological, political, legal conditions and sentiment, all of which can change. This can mean that assets held by the Funds in these markets may fall in value. Growth assets are generally considered to have a higher risk/return profile than income producing assets such as fixed interest securities and cash.

The Investment Manager manages the price risk by following a clearly established investment mandate for the Funds' investments. The Funds' equity investments are listed securities that are constituents of the S&P/ASX 200 Listed Property Index, S&P/ASX 200 and S&P/ASX 50 Index respectively, while the cash instruments are at a minimum rating of A1 or higher as rated by Standard & Poor's. The use of derivatives is limited to a small level of the total value of the Funds. Compliance with the Funds' PDS and investment mandate is monitored on a daily basis and reports are provided to the Board and Compliance Committee on a regular basis.

The table on page 28 shows the impact on net asset value of the SPDR S&P/ASX 200 Listed Property Fund of a reasonably possible shift in the S&P/ASX 200 A-REIT Index, assessed as an increase of 25% (2018: 23%) and decrease of 25% (2018: 23%) in the S&P/ASX 200 A-REIT Index (with all other variables held constant).

The tables on page 28 shows the impact on net asset value of the SPDR S&P/ASX 50 Fund and SPDR S&P/ASX 200 Fund of a reasonably possible shift in the S&P/ASX 50 Index and S&P/ASX 200 Index respectively assessed as an increase of 18% (2018: 18%) and decrease of 18% (2018: 18%) in the S&P/ASX 50 Index and S&P/ASX 200 Index respectively (with all other variables held constant).

#### (ii) Foreign exchange risk

Foreign exchange risk arises as the value of monetary assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates.

The Funds/Trusts have no significant direct foreign exchange risk exposure as the Funds operate solely in Australia and the majority of the Funds' assets and liabilities are denominated in Australian currency.

#### (iii) Interest rate risk

Interest rate risk is the risk that interest rate movements will have a negative impact on investment value or returns. Interest rate risk is managed in accordance with the underlying investment strategy of the Funds.

The Funds' policies are to maintain derivative adjusted exposure to cash instruments, at any point in time of no more than 5% of the Funds' value.

Compliance with the value of cash investments held is monitored daily and reported to the Board and Compliance Committee on a regular basis.

# (a) Market risk (continued)

(iii) Interest rate risk (continued)

The tables below summarise the Funds' direct exposure to interest rate risks.

#### SPDR S&P/ASX 200 Listed Property Fund

An analysis of financial liabilities by maturities is provided in note 3 paragraph (d).

The tables in note 3 paragraph (b) summarise the impact of an increase/decrease of interest rates on the Funds' operating profit and net assets attributable to unitholders through changes in future cash flows. The analysis is based on the assumption that interest rates changed by +/- 200 basis points (2018: +/- 200 basis points) from the year end rates with all other variables held constant. The impact mainly arises from changes in the fair value of cash and cash equivalents

#### (b) Summarised sensitivity analysis

The following tables summarise the sensitivity of the Funds' operating profit and net assets attributable to unitholders to the various market risks. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical correlation of the Funds' investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be

#### (b) Summarised sensitivity analysis (continued)

greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Funds invest. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

| SPDR S&P/ASX 200 Listed Property Fund | Price          | risk               | Interest           | rate risk        |

The sensitivity factors for 30 June 2018 were +/- 18% for price risk and +/- 200bps for interest rate risk.

| SPDR S&P/ASX 200 Fund | 00 Fund Price risk  |             |           | rate risk |  |  |
|-----------------------|---|-------------|-----------|-----------|--|--|
|                       | Impact on operating profit/Net assets attributable to unitholders |             |           |           |  |  |
|                       | -18%  | -18% +18%   |           | +200bps   |  |  |
|                       | \$  | \$          | \$        | \$        |  |  |
| 30 June 2019          | (703,854,203)   | 703,854,203 | (788,975) | 788,975   |  |  |
| 30 June 2018          | (681,645,876)   | 681,645,876 | (702,923) | 702,923   |  |  |

The sensitivity factors for 30 June 2018 were +/- 18% for price risk and +/- 200bps for interest rate risk.

In determining the impact of an increase/decrease in net assets attributable to unitholders arising from market risk, the Responsible Entity has considered prior period and expected future movements of the portfolio based on market information in order to determine a reasonably possible shift in assumptions.

#### (c) Credit risk

Credit risk primarily arises from investments in debt securities and derivative financial instruments. Other credit risk arises from cash and cash equivalents, deposits with banks and other financial institutions and amounts due from brokers. None of these assets are impaired nor past due but not impaired.

Credit risk is the risk that a counterparty will fail to perform contractual obligations, either in whole or part. Credit risk is managed primarily by:

- Ensuring counterparties, together with the respective credit limits, are approved in accordance with the Investment Manager's criteria; and
- Ensuring that transactions are undertaken with a range of counterparties.

#### (c) Credit risk (continued)

For derivative financial instruments, the Investment Manager has established limits such that, at any time, the maximum exposure of the Funds to derivative instruments shall be limited to 25% for SPDR S&P/ASX 200 Listed Property Fund, 15% for SPDR S&P/ASX 50 Fund and 15% for SPDR S&P/ASX 200 Fund.

Compliance with the Funds' mandate is monitored on a daily basis and reported to the Board and Compliance Committee on a regular basis.

The maximum exposure to credit risk at the end of each reporting period is the carrying amount of the financial assets.

The clearing and depositary operations of the Funds' security transactions are mainly concentrated with one counterparty namely State Street Australia Limited. At 30 June 2019, State Street Australia Limited had a credit rating of A (2018: A). As at 30 June 2019, substantially all cash and investments are held in custody by State Street Australia Limited.

#### (d) Liquidity risk

The Funds have no significant liquidity risk exposure as the redemptions of redeemable units by unitholders are made through in specie asset transfers and not payable wholly in the form of cash.

The Funds' listed securities are considered readily realisable, as they are listed on ASX.

#### (i) Maturities of non-derivative financial liabilities

The tables below analyse the Funds' non-derivative financial liabilities into relevant maturity groupings based on the remaining period to the earliest possible contractual maturity date at the year end date. The amounts in the tables are contractual undiscounted cash flows.

Units are redeemed on demand at the unitholder's option. It is not expected that the contractual maturity disclosed in the tables below will be representative of the actual cash outflows.

# 4 Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the Statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the Statements of financial position are disclosed in the first three columns of the tables below.

| SPDR S&P/ASX 200 I  | Listed Property                                 | Fund  |   |  |                                       |                             |

#### 4 Offsetting financial assets and financial liabilities (continued)

(i) Master netting arrangement – not currently enforceable

Agreements with derivative counterparties are based on the ISDA Master Agreement. Under the terms of these arrangements, only where certain credit events occur (such as default), the net position owing/receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the Funds do not presently have a legally enforceable right of set-off, these amounts have not been offset in the Statements of financial position, but have been presented separately in the above tables.

#### 5 Fair value measurement

The Funds measure and recognise the following assets and liabilities at fair value on a recurring basis:

- Financial assets / liabilities at fair value through profit or loss (see note 7 and 8)
- Derivative financial instruments (see note 9)

The Funds have no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).
- (i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their last traded prices at the end of the reporting period without any deduction for estimated future selling costs.

The Funds value their investments in accordance with the accounting policies set out in note 2 to the financial statements.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Funds would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

(ii) Valuation techniques used to derive level 2 and level 3 fair value (continued)

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Funds hold. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

#### Recognised fair value measurement

The tables below set out the Funds' financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 30 June 2019 and 30 June 2018.

The Funds' policies are to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

#### (i) Transfers between levels

There were no transfers between the levels for the fair value hierarchy for the year ended 30 June 2019 and 30 June 2018. There were also no changes made to any of the valuation techniques applied as of 30 June 2019.

(ii) Fair value measurements using significant unobservable inputs (level 3)

The Funds did not hold any financial instruments with fair value measurements using significant unobservable inputs during the year ended 30 June 2019.

# Recognised fair value measurement (continued)

(ii) Fair value measurements using significant unobservable inputs (level 3) (continued)

The following tables present the movement in level 3 instruments for the year ended 30 June 2018 by class of financial instrument.

#### Recognised fair value measurement (continued)

#### (iii) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities. Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

#### (iv) Fair values of other financial instruments

The Funds did not hold any financial instruments which were not measured at fair value in the Statements of financial position. Due to their short-term nature, the carrying amounts of receivables and payables are assumed to approximate fair value.

#### 6 Net gains/(losses) on financial instruments at fair value through profit or loss

Net gains/(losses) recognised in relation to financial instruments at fair value through profit or loss:

An overview of the risk exposures relating to financial liabilities at fair value through profit or loss is included in note 3.

#### 9 Derivative financial instruments

Total financial liabilities at fair value through profit or loss

Derivatives (note 9)

In the normal course of business the Funds enter into transactions in various derivative financial instruments with certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments, such as forwards, futures, options and swaps. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Funds' portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and may include:

- hedging to protect an asset or liability of the Funds against a fluctuation in market values or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Funds.

The Funds hold the following derivative instruments:

# 9 Derivative financial instruments (continued)

#### (a) Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are settled daily with the exchange. Index futures are contractual obligations to receive or pay a net amount based on changes in indices at a future date at a specified price, established in an organised financial market.

The Funds' derivative financial instruments at year end are detailed below:

#### Risk exposures and fair value measurements

Information about the Funds' exposure to credit risk, foreign exchange risk, interest rate risk and about the methods and assumptions used in determining fair values is provided in note 3 and note 5 to the financial statements. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of derivative financial instruments disclosed above.

#### 10 Net assets attributable to unitholders

Movements in number of units and net assets attributable to unitholders during the year were as follows:

#### Capital risk management

Closing balance

The Funds consider their net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as liabilities. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Funds are subject to daily applications and redemptions at the discretion of unitholders.

#### Unaudited information on capital gains/losses

#### SPDR S&P/ASX 200 Listed Property Fund

#### (a) Unrealised capital gains/losses

At the end of the reporting period, the Fund had unrealised capital gains of \$105,823,090 (2018: capital gains: \$77,503,499), which if realised, and after any offset of realised capital losses, would be assessable.

# 10 Net assets attributable to unitholders (continued)

#### SPDR S&P/ASX 200 Listed Property Fund (continued)

#### (b) Realised capital gains/losses

At the end of the reporting period, the Fund had realised capital gains of \$23,759,770 (2018: capital gains: \$40,862,844) which were distributed to the unitholders.

#### (c) Realised capital gains distributed in specie

The Fund had realised capital gains of \$7,901,223 (2018: \$14,090,681), which were distributed to redeeming unitholders by way of in specie asset redemptions.

#### SPDR S&P/ASX 50 Fund

#### (a) Unrealised capital gains/losses

At the end of the reporting period, the Fund had unrealised capital gains of \$55,808,029 (2018: capital gains: \$34,403,766), which if realised, and after any offset of realised capital losses, would be assessable.

#### (b) Realised capital gains/losses

At the end of the reporting period, the Fund had realised capital gains of \$2,615,030 (2018: capital gains: \$3,910,190) which were distributed to the unitholders.

#### (c) Realised capital gains distributed in specie

The Fund had realised capital gains of \$2,222,981 (2018: \$1,427,986), which were distributed to redeeming unitholders by way of in specie asset redemptions.

#### SPDR S&P/ASX 200 Fund

#### (a) Unrealised capital gains/losses

At the end of the reporting period, the Fund had unrealised capital gains of \$277,397,661 (2018: capital gains: \$201,051,045), which if realised, and after any offset of realised capital losses, would be assessable.

#### (b) Realised capital gains/losses

At the end of the reporting period, the Fund had realised capital gains of \$79,548,682 (2018: capital gains: \$119,223,236) which were distributed to the unitholders.

#### (c) Realised capital gains distributed in specie

The Fund had realised capital gains of \$72,622,666 (2018: \$120,404,394), which were distributed to redeeming unitholders by way of in specie asset redemptions.

# 11 Distributions to unitholders

The distributions for the year were as follows:

#### Investments

The Funds did not hold any investments in State Street Global Advisors, Australia Services Limited, their related parties or other funds managed by State Street Global Advisors, Australia Services Limited during the year (2018: Nil).

### 18 Segment information

The Funds are organised into one main segment which operates solely in the business of investment management within Australia.

The Funds operate in Australia and hold investments in Australia.

# 19 Events occurring after the reporting period

No significant events have occurred since the end of the reporting period which would impact the financial position of the Funds disclosed in the Statements of financial position as at 30 June 2019 or the results and cash flows of the Funds for the year ended on that date.

# 20 Contingent assets and liabilities and commitments

There are no outstanding contingent assets, liabilities or commitments as at 30 June 2019 or 30 June 2018.

#### Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) the financial statements and notes set out on pages 8 to 59 are in accordance with the *Corporations Act 2001*, including:
  - complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the Funds' financial position as at 30 June 2019 and of their performance for the financial year ended on that date.
- (b) there are reasonable grounds to believe that the Funds will be able to pay their debts as and when they become due and payable; and
- (c) Note 2(a) confirms that the financial statements comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

James MacNevin

and Manying

Director

Sydney 27 August 2019

# Independent auditor's report

To the unitholders of:

- SPDR S&P/ASX 200 Listed Property Fund
- SPDR S&P/ASX 50 Fund
- SPDR S&P/ASX 200 Fund

referred to collectively as SPDR Core Equity ETFs

# Report on the audit of the financial reports

# Our opinion

In our opinion:

The accompanying financial report of SPDR Core Equity ETFs (the Funds) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Funds' financial positions as at 30 June 2019 and of their financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the Corporations Regulations 2001.

#### What we have audited

The financial report comprises:

- the statements of financial position as at 30 June 2019
- the statements of comprehensive income for the year then ended
- the statements of changes in equity for the year then ended
- the statements of cash flows for the year then ended
- the notes to the financial statements, which include a summary of significant accounting policies, but excluding the unaudited information on capital gains/losses included in Note 10
- the Directors' declaration.

# Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Independence**

We are independent of the Funds in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant

Liability limited by a scheme approved under Professional Standards Legislation.

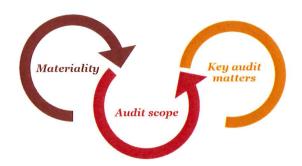

to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

# Our audit approach

An audit is designed to provide reasonable assurance about whether the financial report is free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial report as a whole, taking into account the geographic and management structure of the Funds, their accounting processes and controls and the industry in which they operate.

# Materiality Audit scope Key audit matters

- For the purpose of our audit we used 1% of each Fund's net assets to set overall materiality for each Fund.
- We applied this threshold, together with qualitative considerations, to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements on the financial report as a whole.
- We chose net assets as the benchmark because, in our view, it is the metric against which the Funds' performance is most commonly measured and is a generally accepted benchmark in the fund industry.
- We selected 1% based on our

- Our audit focused on where the directors of the Responsible Entity made subjective judgements; for example, significant accounting estimates involving assumptions and inherently uncertain future events.
- Our audit approach reflects the nature of the investments held by the Funds and the consideration of the work undertaken by third party service providers. The key service provider relevant to our audit is the administrator/custodian who maintains the accounting records of the Funds and provides custodian services for the investments.
- Amongst other relevant topics, we communicated the following key audit matter to the Board of Directors:
  - Existence and valuation of investments
- These are further described in the *Key audit matters* section of our report.

professional judgement, noting that it is also within the range of commonly acceptable net asset related thresholds in the industry.

# Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the current period. The key audit matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Further, any commentary on the outcomes of a particular audit procedure is made in that context.

#### Key audit matter

# Existence and valuation of investments Refer to note 2 (Summary of significant accounting policies) and note 5 (Fair value measurement)

At 30 June 2019, the investment in financial assets and financial liabilities comprised primarily of investments in equity securities, unit trusts, and derivatives.

The existence and valuation of investments was a key audit matter because financial assets and liabilities represent the principal elements of the Statements of Financial Position, accounting for the majority of net assets. A discrepancy in the valuation or existence of investments could cause the net assets attributable to unitholders to be materially misstated. This could also impact the Funds' performance as the valuation of financial assets and liabilities is the main driver of movement in the profit of the Funds.

#### How our audit addressed the key audit matter

We performed the following procedures, amongst others over the investments:

- We obtained the most recent reports issued by the provider of administrator and custody services setting out the controls in place at that service organisation (including those over the valuation and existence of investments). These reports included an independent audit opinion over the design and operating effectiveness of those controls. We assessed the reports by: obtaining an understanding of the control objectives and associated control activities; evaluating the tests undertaken by the auditor; and evaluating the results of these tests and the conclusions formed by the auditor on the design and operational effectiveness of controls to the extent relevant to our audit of the Funds.
- We obtained price data from independent third party price vendors for a sample of the investments of the Funds and compared it to the prices used by the Funds to value the investments at year end.

For investments held in custody at the custodian:

 We obtained a confirmation from the custodian of the investment holdings at year end and reconciled the investment holdings per the custodian confirmation to the holdings per the Funds'

# Key audit matter How our audit addressed the key audit matter accounting records. • Where there were material reconciling items, we

For investments not held in custody at the custodian:

differences noted.

selected a sample of the largest reconciling items and obtained supporting evidence to explain the

 We obtained confirmations for all material investments from the relevant third party and compared the confirmed balances to the Funds' accounting records.

# Other information

The directors of the Responsible Entity are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2019, including the Directors' Report, Corporate Directory, Unitholder Information and the Unaudited information on capital gains/losses included in Note 10 to the financial report, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity of the Funds are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Funds to continue as a going concern, disclosing, as applicable, matters related to

going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Funds or to cease operations, or have no realistic alternative but to do so.

# Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

http://www.auasb.gov.au/auditors\_responsibilities/ar2.pdf. This description forms part of our auditor's report.

# **Unitholder Information (continued)**

#### Substantial holder

Substantial holder in the SPDR S&P/ASX 200 Fund is set out below:

Number held Percentage of

6,807,613

units on issue

10.67

%

HSBC CUSTODY NOMINEES (AUSTRALIA) LIMITED

The information set out above is summarised from substantial holder notices received by the RE during the year to 30 June 2019. This information may not accurately reflect current holdings. Unitholders in the Funds have been granted relief by ASIC so that they are only required to file substantial holder notices twice per year (within 2 business days of each 1 July and 31 December). Please see the current PDS for the Funds for further information.

There is currently no on-market buy-back in operation.

#### **Voting rights**

Unitholders in the Funds are entitled to:

- On a show of hands each member of the Funds has 1 vote;
- On a poll each member of the Fund has 1 vote for each dollar value of the total interests they hold in the Funds.

Subject to the Corporations Act, ASX Listing Rules and the Funds Constitution, at meetings of unitholders of the Funds, SSGA, ASL as the RE, is entitled to vote in respect of units it holds for other registered managed investment schemes.
