# Independent Auditor's Review Report to the Members of Wameja Limited (formerly eServGlobal Limited)

We have reviewed the accompanying half-year financial report of Wameja Limited (formerly eServGlobal Limited), which comprises the condensed consolidated statement of financial position as at 30 June 2019, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the end of the half-year or from time to time during the half-year.

#### Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 30 June 2019 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Wameja Limited (formerly eServGlobal Limited), ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Wameja Limited (formerly eSev Global Limited), would be in the same terms if given to the directors as at the time of this auditor's review report.

# Deloitte.

#### Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Wameja Limited (formerly eServGlobal Limited) is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 30 June 2019 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

#### 1. Significant accounting policies

#### (a) Statement of compliance

The half year financial report is a general-purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half year financial report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report.

#### (b) Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The Company is a Company of the kind referred to in ASIC Corporations (Rounding in Financial / Directors' Reports) Instrument 2016/191 dated 24 March 2016, and in accordance with this Corporations Instrument amounts in the directors' report and the financial statements are rounded off to the nearest thousand dollars, unless otherwise indicated.

Following the receipt of all regulatory approvals, the Company changed its name to Wameja Limited on 30 July 2019 (formerly eServGlobal Limited).

The accounting policies and methods of computation adopted in the preparation of the half year financial report are consistent with those adopted and disclosed in the Company's 2018 annual financial report for the financial year ended 31 December 2018, except for the impact of the Standards and Interpretations described below. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

#### New, revised or amending Accounting Standards and Interpretations adopted

The Group adopted all of the relevant new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

#### AASB 16: 'Leases'

In the current year, the Group has adopted AASB 16 'Leases' which has come into effect 1 January 2019. The Group has applied AASB 16 in accordance with the modified approach. As such, comparatives have not been restated.

#### Impact of the new definition of a lease

The change to the definition of a lease mainly relates to the concept of control. AASB 16 determines whether a contract contains a lease on the basis of whether the customer has the right to control the use of an identified asset for the period of time in exchange for consideration.

#### Former operating leases

Former operating leases AASB 16 changes how the Group accounts for leases previously classified as operating leases under AASB 117, which were off-balance sheet.

Applying AASB 16, for all leases (except as noted below), the Group:

- Recognises right-of-use assets and lease liabilities in the consolidated statement of financial position, initially measured at the present value of future lease payments
- Recognises depreciation of right-of-use assets and interest on lease liabilities in the consolidated statement of profit or loss
- Separates the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within operating activities) in the consolidated statement of cash flows.

Lease incentives (e.g. free rent period) are recognised as part of the measurement of the right-of-use assets and lease liabilities whereas under AASB 117 they resulted in the recognition of a lease incentive liability, amortised as a reduction of rental expense on a straight-line basis.

#### 1. Significant accounting policies (continued)

New, revised or amending Accounting Standards and Interpretations adopted (continued)

#### AASB 16: 'Leases' (continued)

#### Impact of the new definition of a lease (continued)

Under AASB 16, right-of-use assets are tested for impairment in accordance with AASB 136 Impairment of Assets. This replaces the previous requirement to recognise a provision for onerous lease contracts. For short-term leases (lease term of 12 months or less) and leases of low value asset (such as personal computers and office furniture), the Group has opted to recognise a lease expense on a straight-line basis as permitted by AASB 16.

The directors of the Group reviewed and assessed the Group's operating leases as at 1 January 2019 and concluded that the new standard did not have a material impact on the Group's financial statements.

#### (c) Assets held for sale

Assets classified as held for sale are measured at the lower of carrying amount and fair value less cost to sell.

Assets are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale which should be expected to qualify for recognition as completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of the subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in its former subsidiary after the sale.

	Contract assets	-	2,527
	Less: Credit loss allowance	-	(357)
		-	2,170
	Total trade receivables and contract assets	-	4.159

The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors and the general economic conditions of the industry in which the debtors operate.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

Trade receivables and contracts assets have been reclassified as 'Assets held for sale' as at 30 June 2019. Refer Note 11 for details.

#### 3. Segment Information

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

The Group operates in a single segment being the telecommunications software solutions business. Accordingly, all reported information in the financial report relates to this single segment.
