## SciDev awarded long term MaxiFlox<sup>®</sup> Sales Contract with Iluka Resources

### Highlights

- **SciDev and Iluka have agreed to a three year sales contract for Iluka's flagship Jacinth-Ambrosia site for its MaxiFlox<sup>®</sup> chemistry**
- **Revenue to SciDev is expected to be AUD \$8M – AUD \$12M over the duration of the contract for supply of the MaxiFlox<sup>®</sup> chemistry**
- **The contract follows a comprehensive period of evaluation of SciDev's technology on site by the SciDev technical team in parallel with the Company's OptiFlox<sup>®</sup> technology**

SciDev Limited (ASX:SDV; **SciDev**, or the **Company**) is delighted to advise that it has signed a three (3) year agreement for the supply and service of its MaxiFlox<sup>®</sup> chemistry. The annual value of the contract over the term is likely to be between AUD \$2.6M – AUD \$4.0M. There are no conditions precedent to the transaction.

During an extensive evaluation period on site, the company was able to build a knowledge base allowing for the design of bespoke chemistry specifically for the Jacinth Ambrosia operation.

Additional discussions are underway to integrate the SciDev OptiFlox<sup>®</sup> system into the Jacinth-Ambrosia operation.

SciDev Managing Director and CEO Lewis Utting said; *"This agreement is further validation of the commercial utility of our MaxiFlox<sup>®</sup> chemistry in the mine tailings space. Just as importantly, it highlights the calibre of the SciDev team in executing the technical and commercial evaluations over an extended period with a tier one Australian mining company"*.

###

### **About SciDev**

SciDev is a leader in the development and application of both chemistry and process control for solids-liquid separation. SciDev brings together world-class technology, chemistry, management and manufacturing capabilities to solve pressing operational and environmental issues for the minerals processing, tailings, water treatment and Oil & Gas markets.

### **About OptiFlox®**

OptiFlox® is a patent pending technology that continuously analyses and measures key parameters in industrial process streams. The OptiFlox® system improves the clarification of water, improves the addition of chemistry allowing for optimal utilisation of several industrial processes including mineral processing and water treatment.

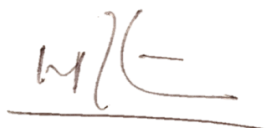

### **About MaxiFlox®**

Our MaxiFlox® flocculants and coagulants are made to SciDev specification in house by Nuoer Group and cover a broad range of conventional and advanced flocculant and coagulant products. Our MaxiFlox® proprietary technology is specifically optimised for application with our OptiFlox® control technology across most applications. It provides highly effective solution based approach at treatment costs up to 30% less than our competitors.
