Note 1: Accounting policies and basis of preparation

Basis of preparation

The Preliminary Final Report has been prepared in accordance with ASX listing rule 4.3A, Australian Accounting Standards adopted by the Australian Accounting Standards Board and the Corporations Act 2001.

The Preliminary Final Report is presented in Australian dollars and has been prepared on the basis of historical costs except in accordance with relevant accounting policies where assets and liabilities are stated at their values in accordance with relevant accounting policies. The accounting policies adopted in this report are the same as those disclosed in the annual financial report for the year ended 30 June 2018.

The accounting policies adopted in this report have been consistently applied by each entity in the Consolidated Entity and are consistent with those of the previous year.

Various comparative balances have been reclassified to align with current year presentation. These amendments have no material impact on the Financial Statements.

This report is based on accounts which are in the process of being audited.

Going concern

The Consolidated Entity recorded an EBITDA loss of \$247,037 and a loss after tax of \$252,608 for the year ended 30 June 2019 (2018: loss after tax was \$194,559). The Consolidated Entity had a deficiency in cash generated from operating activities of \$97,108 (2018: \$95,142), net current liabilities of \$2,860,902 (2018: \$2,689,865) and a deficiency in net assets of \$3,414,395 (2018: \$3,153,526). The Consolidated Entity had cash of \$835 as at 30 June 2019.

These matters give rise to a material uncertainty that may cast significant doubt upon the Consolidated Entity's ability to continue as a going concern. The ongoing operation of the Consolidated Entity is dependent upon it:

- (a) achieving cash flow positive trading operations from its existing business; and
- (b) continued financial support from its current financiers.

In the event that the future cash flows do not result in the short term, the directors are confident that they will be able to obtain funding to enable the continuation of operations until sales reach a volume that will ensure continued profitability and positive cash flows. In this event, the Consolidated Entity will be required to rely on the financial support of its major shareholder and its major creditor. The directors have received confirmations from both of these parties, stating that they will continue to support the operations of the business so that it can continue as a going concern.

No adjustments have been made to the financial statements relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the Consolidated Entity not continue as a going concern.

Note 2: Segment information

Identification of reportable operating segments

The Consolidated Entity is organised into two operating segments: Australia and Malaysia.

These operating segments are based on internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The information reported to the CODM is on at least a monthly basis.

Types of products and services

The principal products and services of each of these operating segments are as follows:

- Australia represents the holding company operations only. No trading income is generated in this segment.
- UK this is a former segment. World.Net Services (UK) Limited, a wholly owned UK subsidiary of World.Net Services Limited, was dissolved on 9 August 2016.
- Malaysia develops, provides and sells information technology products and services. It provides services in connection with the
 implementation, hosting and maintenance and support of its core product Travel.World.Net ('TWN') (an integrated multi-user
 reservations and distributions system for use by suppliers and buyers of travel and tourism products).

Accounting policies

Segment revenues and expenses are those directly attributable to the segments and include any joint revenue and expenses where a reasonable basis of allocation exists. Segment assets include all assets used by a segment and consist principally of cash, receivables, and plant and equipment, net of allowances and accumulated depreciation and amortisation. While most such assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two or more segments is allocated to the segments on a reasonable basis.

Segment liabilities consist principally of payables, employee benefits, accrued expenses, provisions and borrowings. Segment assets and liabilities do not include deferred income taxes. The accounting policies adopted in the determination of segment information are consistent with those disclosed in Note 1 to the financial statements.

Intersegment transfers

Segment revenues, expenses and results include transfers between segments. The prices charged on intersegment transactions are the same as those charged for similar goods to parties outside of the Consolidated Entity at an arm's length. These transfers are eliminated on consolidation.

Intersegment receivables, payables and loans

Intersegment loans are initially recognised at the consideration received and are eliminated on consolidation.

Geographical information

All revenue attributable to the Malaysia segment are revenues generated from Malaysia-domiciled external customers. Non-current assets of \$7,998 (2018: \$9,879) reside in Malaysia.

Sole customer

Revenue attributable to one customer amounts to \$185,969 (2018: \$374,212), being the total sales revenue for the year, and is reported in the Malaysia segment.

In March 2019, PYO Travel Sdn Bhd (PYO) shut down all of its web services and embarked on an internal restructuring program, and consequently World.Net Services Sdn Bhd (a wholly owned subsidiary of World.Net Services Limited) and PYO terminated their Sales and Services Agreement. As a result, World.Net Services Sdn Bhd ceased providing services to PYO, and ceased generating revenue from PYO. The Company has since terminated the services of all of its technical staff, while it explores options to revitalise its operations. World.Net is also considering options to recapitalise the Company.

Other factors which have affected results in the period or which are likely to affect results in the future (Item 14.6)

No other factors to report.

Audit status (Items 15, 16 and 17)

This report is based on accounts which are in the process of being audited.

The auditors observed that material uncertainty exists that may cast a significant doubt on the Company's ability to continue as a going concern, and expect this to be reflected in their audit report when issued.
