SPECIAL BUSINESS

Resolution 5 - Approval to issue options to a related party: Mr Michael Kim Lindsay

Mr Michael Lindsay is an Executive Director and Chief Executive Officer of the Company. Mr Lindsay is a related party of the Company by virtue of him being a director. Prior shareholder approval is therefore required for the issue of options to him or his related entities. Accordingly, the Company seeks Shareholder approval pursuant to both the Listing Rules and the *Corporations Act 2001* (Cth) to grant 400,000 options to Mr Michael Kim Lindsay (or his nominee).

The options shall be issued under and subject to the terms of the Company's LTI Plan.

The Board has decided to grant these options as part of Mr Lindsay's remuneration package, and in recognition of his contribution to the Company. The Board considers the grant of options to be a cost effective long term incentive method and to further align the interests of directors with shareholders by linking long term incentives as a portion of total rewards to the share price of the Company.

Once approval is obtained pursuant to Listing Rule 10.14, the Company is entitled to rely on Listing Rule 10.12 as an exception to any requirement that may otherwise apply requiring shareholder approval under Listing Rule 10.11. Similarly, approval will not be required under Listing Rule 7.1.

Key terms of the options

The options will be subject to the following terms and conditions:

- each option is to acquire one ordinary share in the Company;
- the options will be issued to Mr Lindsay for nil consideration;
- subject to Mr Lindsay remaining an employee of the Company during the vesting period:
 - the exercise price to acquire a share is \$nil;
 - the options will vest if the Company:
 - firstly achieves its Net Profit After Tax Target of \$9.53million for the financial year 2019-20 (NPAT Hurdle); and
 - secondly achieve its Earnings Per Share Target of 11.54c over the next 3 years – (EPS Hurdle), with a further retest at 4 years against a 4 year target (to be determined by the Board) if the hurdle is not met at the 3 year mark;
- notwithstanding the vesting conditions outlined above, in accordance with the LTI Plan rules, the Board may, in its absolute discretion, waive some or all of the vesting conditions such that the options may vest despite a vesting condition not being satisfied;
- the options will not be transferrable other than with the written consent of the Board;
- the options will expire on the date which is seven years after the issue date; and
- in the event Mr Lindsay ceases to be an employee of the Company, the Board will determine his status as a good leaver or bad leaver and determine the treatment of any equity instruments in accordance with the Plan rules.

Other general terms of the options

It is intended that the options will be issued within five days after the annual general meeting, but in any event will be issued no later than twelve months after the meeting.

Mr Michael Lindsay, as the Company's only current executive director, is the only director potentially eligible to participate in the LTI Plan. As at today's date, Mr Lindsay has received the following securities under the LTI Plan (which were approved by Shareholders at the Company's 2017 and 2018 AGM).

Recipient	Number of securities	Type of securities	Acquisition Price	Exercise price	Expiry Date	Vesting terms
Mr Michael Lindsay	400,000	Options issued 2017	Nil	Nil	The date that is 7 years from the issue date	The options will vest if the Company: <ul style="list-style-type: none">• firstly achieves its underlying Net Profit After Tax of \$7.53 million for the financial year 2017-2018 (NPAT Hurdle); and• secondly, achieves its earnings per share target of 8.09c over the 3 years (EPS Hurdle), with a further retest at 4 years against a 4 year target (to be determined by the board) if the hurdle is not met at the 3 year mark.
Mr Michael Lindsay	400,000	Options issued 2018	Nil	Nil	The date that is 7 years from the issue date	The options will vest if the Company: <ul style="list-style-type: none">• firstly achieves its underlying Net Profit After Tax of \$9.01 million for the financial year 2018-2019 (NPAT Hurdle); and• secondly, achieves its earnings per share target of 11.54c over the 3 years (EPS Hurdle), with a further retest at 4 years against a 4 year target (to be determined by the board) if the hurdle is not met at the 3 year mark.

There are no loan arrangements with Mr Lindsay in relation to the acquisition of the options.

The other general terms for the options are:

- should the Company undergo any reorganisation of capital, the number of options or shares will be adjusted in accordance with the Listing Rules as applicable to options at the time of the reorganisation;
- all shares issued pursuant to the exercise of options will, subject to the Constitution of the Company, rank in all respects (other than in respect of dividends, rights issues or bonus issues declared prior to allotment) pari passu with the existing shares at the date of issue and allotment;
- the options do not entitle the holder to participate in any new issues by the Company without exercising the options; and
- the options will not be quoted on ASX. The Company intends to apply to ASX for quotation of any shares acquired on exercise of the options.

General Information

Consistent with the accounting standards, the Company discloses the following information concerning the value of the options to be issued. Following the classifications under accounting standard AASB 2 *Share Based payments* the options have a nil exercise price, a three year vesting period where they do not participate in dividends, and two performance criteria (year 1 NPAT and year three EPS). There are no direct market criteria incorporated in valuing the option. Under this criteria both the Black Scholes and a discounted cash model produce a similar result, and are permitted methodologies under ASIC Regulatory Guide 76. The Board believes this valuation model to be appropriate to the circumstances and has not used any other valuation or other models in proposing the terms of the options.

Under these valuation methods one option is \$0.2825 at 21 August 2019 based on a number of assumptions, set out below, with an adjustment to the expected life of the options to take account of limitations on transferability. This valuation imputes a total value of \$79,098 after tax for the proposed options over the three year vesting period.

The models used the following assumptions:

- risk free rate set at 0.94% which is based on the Australian Government bond 10-year bond rate as at 21 August 2019, the valuation date;
- the date of valuation for the purposes of setting the current market value of a share and the exercise price of an option is 21 August 2019;
- a share price of A\$0.3400 being the most recent traded price on ASX on 21 August 2019 before the valuation was completed;
- The option exercise price on 30 June 2022 is zero;
- volatility of 5.4% is based on the standard deviation of the monthly Company's share price movement over the last 4 years; and
- no discount has been applied to reflect the fact the options will be unlisted and non-transferrable.

The Board draws shareholders' attention to the fact the stated valuation does not constitute and should not be taken as audited financial information. The reportable value of the employee benefit expense in subsequent financial periods may vary due to a range of timing and other factors. The calculation of the options value is summarised further in the table below:

Exercise (strike) price	Zero
Life of the option (vesting period)	3 years
Underlying share price at the Grant date	\$0.34
Volatility	5.4% (disclosed but no impact for zero strike price)
Dividend yield (estimate)	6.2%
Risk free rate	0.94%
Option value – per option	\$0.2825
Number of options to be granted	400,000
Employee benefit expense per year	\$37,666*

*Employee benefit expense per tax will vary each year based on the probability reaching the EPS target. The expense above is the maximum possible employee expense.

Remuneration

Excluding the value of the proposed options, Mr Michael Lindsay currently receives the following emoluments for his position as Executive Director and Chief Executive Officer. The amount stated is per annum comprising salary, superannuation contributions and known short and long-term incentive payments for the 2019/2020 financial year:

- Executive Director's fees of \$NIL
- Fixed remuneration of \$845,518 (made up of salary plus super plus car); and
- Short-term incentive between 0% and 60% of Fixed remuneration based on the achievement of set KPI's
- Long Term incentive excluding options above - Nil.

Termination Benefits

Sections 200B and 200E of the Corporations Act prohibit the Company from giving a benefit to a person who holds (or has held in the previous 3 years) a managerial or executive office with the Company or its subsidiaries, if that benefit is given in connection with that person's retirement from office and is in excess of that person's average annual base salary over the relevant period, unless the benefit is approved by shareholders.

Early vesting of Mr Lindsay's options upon his cessation of employment may amount to the giving of a termination benefit requiring shareholder approval in accordance with the Corporations Act. Approval is therefore sought under sections 200B and 200E of the Corporations Act that the grant of the options to Mr Lindsay does not count towards the maximum termination amounts payable without Shareholder approval to the extent that the benefits are deliverable on the cessation of Mr Lindsay's employment. Details of Mr Lindsay's remuneration are set out above and in the Company's remuneration report.

Subject to shareholders approving this Resolution 5, the maximum number of options that may vest and be exercised upon cessation of Mr Lindsay's employment is up to 1,200,000. However, the actual number of options that may vest upon cessation of Mr Lindsay's employment will depend on a range of factors. Accordingly, the value of any termination benefit that may be received as a result of the early vesting of the options upon cessation of employment cannot be ascertained at the present time. Apart from the future share price being unknown, the following are matters which will or are likely to affect the value of the benefit:

- the number of unvested options held by Mr Lindsay prior to cessation of employment;
- the reasons for cessation of employment; and
- the exercise of the Directors' discretion at the relevant time.

The Company will calculate the value of the benefit as being equal to the value of the number of options that vest early, where that value is determined on the basis of the prevailing share price of the Company at the time.

Financial Benefit – Details and reasons

Approval has been sought for the giving of a financial benefit to related party, under section 208 of the Corporations Act. Section 229(3)(e) of the Corporations Act provides that the 'issuing of securities or granting of an option to a related party' (which includes a director of an entity) is an example of the giving of a financial benefit.

Under Resolution 5 as noted above, options will be issued to a director of the Company. The amount, terms and value (subject to the stated assumptions) of those options are set out above.

The giving of this financial benefit is designed to incentivise Mr Lindsay to maximise the Company's development and growth and to retain his services within the Company. The Company also considers that equity based incentives, such as options, assist the alignment of shareholders and director's interests.

On this basis the Company believes the giving of the financial benefits, as constituted by the issue of the options to Mr Lindsay, is in the best interests of the Company and its shareholders.

Existing interests and the dilutionary effect on other shareholders' interests

The effect that the exercise of the options will have on the interests of Mr Lindsay relative to other shareholders' interests is set out in the following table. The table assumes no further issues of shares in, or reconstruction of the capital of the Company, during the time between issue and exercise of the options.
