ASX ANNOUNCEMENT – ONEVIEW HEALTHCARE CLARIFIES 2019 REVENUE GUIDANCE

Oneview Healthcare PLC (ASX:ONE) Following a regularly scheduled quarterly board meeting, and in the absence of any formal research coverage, Oneview Healthcare Plc wishes to update the company's 2019 revenue outlook.

Recurring revenue is now forecast to grow by between 30% and 35% for the year. Certain hardware orders which were anticipated to be delivered in 2019 have been delayed impacting **total revenue** which is now expected to be comparable to 2018 levels. Total 2019 operating expenses are expected to be materially lower than 2018 with further reductions budgeted for 2020.

We remain in formal contract negotiations with a major provider in the aged care industry for the deployment of its care management solution. Should this contract proceed we expect it to have a material positive impact on the company's 2020 revenue and cash-flows. The company will provide further details in its regularly scheduled 4C cash-flow report on October 31st.
