ACN 059 950 337

## Quarterly Report for the three months ended 30 September 2019 (Quarter)

Resource Generation Limited (the "Company" or "Resgen") is an emerging ASX and JSE-listed energy company, currently developing the Boikarabelo Coal Mine ("the mine") in South Africa's Waterberg coalfield. The Waterberg coalfield accounts for around 40% of the country's currently known coal resources. The Coal Resources and Coal Reserves for the Boikarabelo Coal Mine, held through the Company's operating subsidiary Ledjadja Coal, were updated in 2016 based upon a new mine plan and execution strategy. The Boikarabelo Coal Resources total 995Mt and the Coal Reserves total 267Mt applying the JORC Code 2012 (ASX Announcement 23 January 2017 - In accordance with Listing Rule 5.23.2 the Company confirms that it is not aware of any new information that would impact on the reported Coal Resources and Coal Reserves). Stage 1 of the mine development targets saleable coal production of 6 million tonnes per annum. Ledjadja Coal is a Black Economic Empowerment (BEE) subsidiary operating under South Africa's Broad-based Black Economic Empowerment Act, Section 9(5): Codes of Good Practice.

Resgen's primary shareholders are the Public Investment Corporation of South Africa (PIC), Noble Group and Altius Investment Holdings.

#### **Project Funding**

During the quarter, the Company and members of the proposed Lending Syndicate worked cooperatively to finalise common terms which include the separate credit approved proposals received in late June 2019 (ASX Announcement: 24 June 2019). Once the common terms are agreed and are available for incorporation into the base case financial model, the Board will be in a position to consider the mine construction funding proposal for approval.

Rail link negotiations for a funding package of R750m (Approx. A\$75m) are at an advanced stage. The funding is required to construct the 44km rail infrastructure linking the mine to the Transnet main line. Conclusion of a binding funding package for the rail link will be a condition precedent to first drawdown of funds (**Financial Close**) under the mine construction funding proposal.

An approved mine construction funding package will also require tabling for approval by Shareholders at an EGM called for this purpose. It had been hoped to coordinate the timing of such meeting with the 2019 AGM to be held in late November, however delays in finalising common terms have not made this possible. The Company is now targeting this meeting for late January 2020.

Due to delays in agreeing common terms, and hence the target date for Financial Close, the Company has secured conditional approval from Noble Group to provide additional working capital to its partially owned subsidiary, Ledjadja Coal (Pty) Ltd to cover projected needs through to 28 February 2020. This conditional approval involves the extension of up to an additional US\$2.5 million under the Facility Agreement (Facility) with Noble Group and amendment of the first repayment date from 30 September 2019 to 28 February 2020. These terms are now in an advanced stage of being incorporated into a Seventh Deed of Amendment to the Facility Agreement. A further ASX Listing Rule 10.1 waiver will also be

required for extending the share pledge securing the increase in the Facility as Noble is a related party.

Assuming that common terms are finalised shortly, the Company envisages that Financial Close could be achieved by 28 February 2020. In the interim, the Board and Management remain focused on strategies to conserve cash and/or secure any required additional financial support.

#### **Capital Structure and Cash Position)**

The Company's summarised capital structure at 30 September 2019 is as follows:

Issued fully paid ordinary shares: 581,380,338
Performance share rights: 3,000,000
Cash at bank: \$1.16 million
Noble Facility – undrawn \$US0.5 million

Shareholders and potential investors should also review the Company's 2019 Annual Report and the audited Financial Report for the year ending 30 June 2019 to fully appreciate the Company's financial position.

#### **Mining Tenements**

The coal mining rights and exploration tenements held at the end of the quarter were as follows:

- MPT 169 MR (74%)
- PR678/2007 (74%)

The Company has no interest in farm-in or farm-out agreements.

The Mining Right Application for Waterberg #1 was lodged at the end of 2015 and the Company is awaiting the outcome of this process. Waterberg #1 encompasses the farm Koert Louw Zyn Pan (PR678/2007) and is adjacent to the Boikarabelo Coal Mine.
