

# Net Tangible Assets & Monthly Investment Report

## Company commentary

- Portfolio sees broad appreciation
- Siemens up 13% on strong results

In September we highlighted the disconnect between our on-the-ground observations of Europe and the prevailing market sentiment. Despite the doom and gloom, we found in our research trips that the European business environment was relatively healthy. The market sentiment has since improved and in November many of our European holdings appreciated by mid-single digit percentages.

Among the best performers was German-based industrial conglomerate Siemens. With over 350,000 employees globally and a diverse range of business, Siemens had a

reputation (like other European conglomerates) for being too complex and slow to adapt, and consequently has traded on a multiple equal to that of a low-quality industrial.

Despite its low multiple, Siemens houses world-leading businesses in factory automation, advanced healthcare equipment and mobility - all of which have strong structural tailwinds. A clear catalyst for Siemens to realise its full value is management's commitment to spin off the energy-related businesses in 2020 and create a more focused industrial business.

PM Capital Limited ('the Manager'), founded in 1998, is a leading Australian based fund manager that has successfully achieved its goal of building long term wealth for its clients by investing in global markets with patience and conviction.

#### Company profile

The PM Capital Global Opportunities Fund Limited (ASX:PGF, ACN 166 064 875), which began trading of the ASX on 12 December 2013, provides investors with an opportunity to invest in global equities via an Australian Securities Exchange (ASX) listed investment company.

Managed by PM Capital (AFSL 230222), the aim is to create long term wealth through a concentrated portfolio of around 40 global companies that it believes are trading at prices different to their intrinsic values.

PM Capital has been operating its global investment strategy via an unlisted fund since October 1998. This unlisted fund's performance adjusted to reflect PGF's fee structure has produced a total pre-tax return of 728% vs the MSCI World Net Total Return Index (AUD) of 199% to 30 November 2019.

#### Manager's comparable track record

#### Who manages the Company's portfolio?

The Portfolio Manager for the Fund and CIO is Paul Moore. Paul is supported by a team of experienced investment analysts.

#### Investment philosophy

PM Capital aims to build long term wealth together with our co-investors by finding

and exploiting investment anomalies around the world. Using a focused, patient and considered approach to finding simple investment ideas produces the best environment for creating that long term wealth.

Our experience has shown us that while the market is largely efficient, it can, and regularly does, misprice a small proportion of companies. Our unique process is based on scanning the world for those companies (hence the radar in our logo), discovering the associated valuation anomalies and extracting value from them. We buy good businesses at a good price; businesses that we believe are being valued differently to their long term intrinsic value, but will return to their correct value over time.

#### Why the PM Capital Global Opportunities Fund Limited?

**Established:** The Company's process has been shown to be effective, based on a philosophy developed by Paul Moore, over 32 years.

**Unrestricted:** We have an authentic investment process where our exposure to countries, industry sectors or market capitalisation is determined solely by our conviction in the risk/reward opportunities that we identify in individual stocks. No conviction at the stock level = no investment.

**Opportunistic and focused:** The Company's portfolio is not built around a general market benchmark or index - it is highly focused based on our fundamental, bottom-up investment process. The portfolio only holds those stocks that we believe give the best opportunity to produce strong long term returns.

**Co-investment:** The Manager has a significant investment in the Company - it invests with and for you.
