**Freedom Foods Group Limited
Update on Victorian and New South Wales bushfires**

Freedom Foods Group Limited (**Freedom Foods** or the **Company**) (ASX: FNP) confirms today that none of its dairy farms or site operations have been directly affected by the recent Victorian and New South Wales bushfires.

All sites continue to remain fully operational.

The Company's milk supply remains in a strong position.

We have had no interruption to daily deliveries and we continue to monitor the situation. We are working closely with our farmers to ensure they are supported through this period to ensure that supply remains unaffected.

Australian Fresh Milk Holdings (AFMH) operations have also been unaffected by the recent bushfires. Freedom Foods has a 10% shareholding in AFMH, the largest producer of dairy milk in Australia.

Freedom Foods is also working closely with key retailers by increasing, as required, supply of UHT dairy beverages to help minimise the impact of any fresh milk shortage.

The Company has also donated to the fire-ravaged communities in NSW, VIC & SA via our partner Foodbank.

Our thoughts are with those that have been affected and Freedom is grateful for the efforts of the Rural Fire Service and other the services helping the communities impacted by these fires.
