On 25 November 2019, the Company announced that it had entered into a binding but conditional Terms Sheet to acquire Sun Minerals Pty Ltd (**Sun Minerals**), an Australian proprietary company. The proposed acquisition by the Company of Sun Minerals is referred to in the Notice and this Memorandum as the **Transaction**.

A summary of the Terms Sheet is set out in Annexure A.

Sun Minerals holds an exclusive option (**Option**) to earn up to a 100% interest in the high grade Copalquin Gold Silver Project (**Copalquin** or the **Copalquin Project**) located in the Sierra Madre Trend, Durango State, western Mexico. The mining concessions forming the Copalquin Project are held by Compania Minera Copalquin S.A de C.V., a Mexican domiciled entity (**CMC**).

Further details with respect to Sun Minerals, the Option, CMC and the Copalquin Project are set out in this Memorandum and in the announcement released to ASX on 25 November 2019.

SUMMARY OF RESOLUTIONS IN THE NOTICE

The Notice and this Memorandum have been prepared primarily for the purposes of seeking shareholder approvals required for the Transaction. If shareholders do not approve any of Resolutions 1 to 3 inclusive (being the **Acquisition Resolutions**) then all the other Acquisition Resolutions will be withdrawn and any Acquisition Resolutions that had already been approved will not be acted upon by the Company.

Resolutions 4A to 4E will be withdrawn if any Acquisition Resolution(s) is not approved by shareholders, however the Acquisition Resolutions and Resolution 5 are not dependent on approval of any of Resolutions 4A to 4E.

Resolution 5 will be put to shareholders irrespective of the results of any other resolution(s) and none of the other resolutions (including the Acquisition Resolution) are dependent on approval of Resolution 5.

A summary of the Resolutions contained in the Notice is set out below:

- (a) **(Resolution 1):** The Company seeks shareholder approval for the issue of 673,852,281 fully paid ordinary shares to the shareholders of Sun Minerals (**Sun Vendors**) (and/or their respective nominee(s)) as consideration for the acquisition by the Company of all the issue share capital of Sun Minerals.

SUN MINERALS OVERVIEW

Sun Minerals is an Australian entity incorporated in 2017 to hold the Option to acquire and explore Copalquin. Shares issued by the Company to the shareholders of Sun Minerals (**Sun Vendors**) at, and subject to completion of, the Transaction will account for 40% of the expanded share capital of the Company.

Sun Minerals holds the Option to earn up to 100% of Copalquin. A summary of the Option (as proposed to be amended to accommodate the Transaction) is set out in Annexure B.

The Sun Minerals Directors have personally invested A\$2.5M in cash and time into Sun Minerals over the past two years, and have relevant technical backgrounds, having over 50 years of combined Mexico operating experience. The Sun Minerals Directors also have significant experience and success with public companies and developing gold-silver projects in Australia and overseas.

Sun Mineral's Exploration Director (Hall Stewart) and Managing Director (John Skeet) both played key roles in the exploration and development of the Palmarejo Silver Gold Mine which is located north of Copalquin within the Sierra Madre Trend, which is owned and operated by North American mining company Coeur Mining Inc.

In December 2018, after 9 years of production, Coeur Mining Inc. reported Canadian National Instrument 43-101 (**NI43-101**) (Qualifying Foreign Estimate) compliant proven reserves of 108,000 oz Au and 6.376 million oz Ag and probable reserves of 585,000 oz Au and 43.788 million oz Ag, plus significant NI 43-101 (Qualifying Foreign Estimate) resources remaining at the Palmarejo complex.

ABOUT THE COPALQUIN GOLD-SILVER PROJECT

The Copalquin Gold Silver Project (6 mineral concessions – 7,005 Ha) covers the entire Copalquin Mining District within the gold-silver trend of the Sierra Madre Occidental mountain range in Durango State, western Mexico. The gold silver trend is host to numerous gold and silver deposits, with multiple producing mines including; Coeur Mining's Palmarejo, Agnico Eagles' Pinos Altos, Goldcorp's El Sauzal Mine (now depleted), First Majestic Silver's San Dimas mine, Fresnillo's San Julian and La Cienega mines and the now closed Ocampo mine.

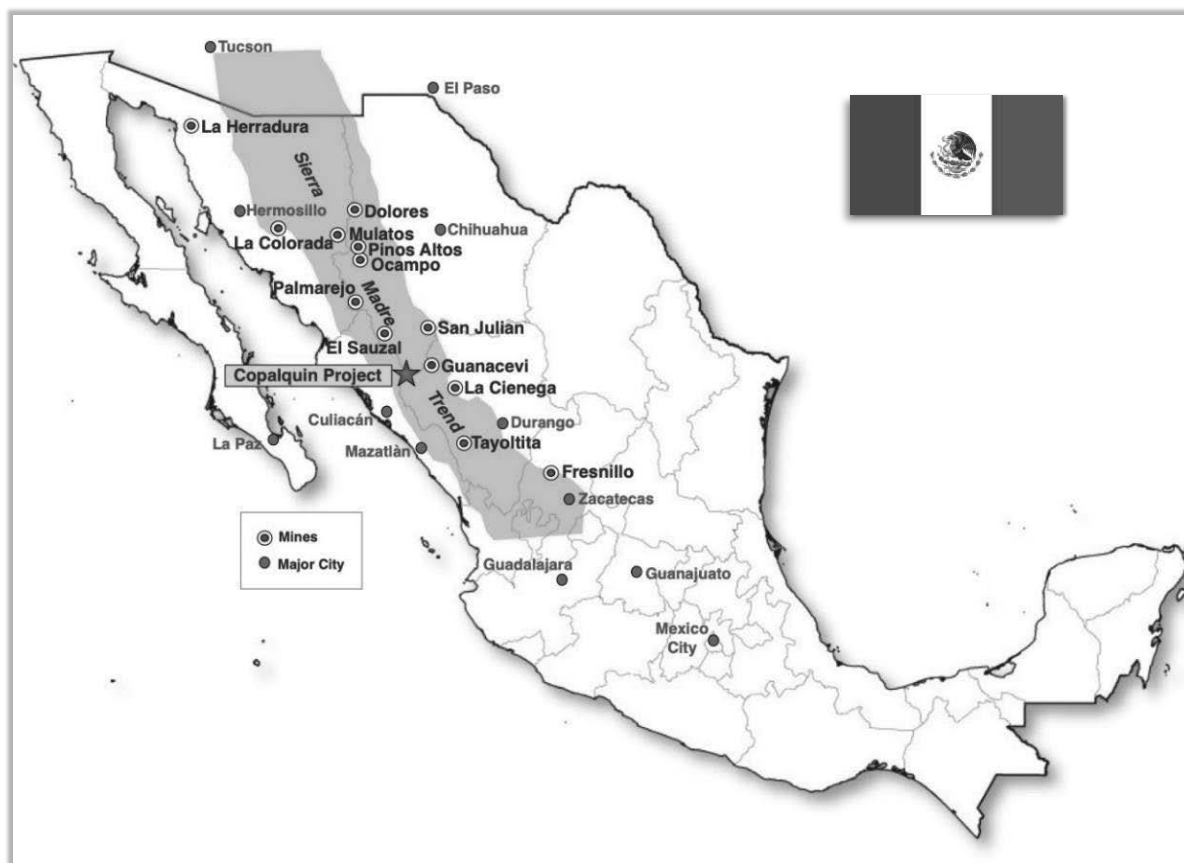

Figure 1: Copalquin Project location and surrounding major mines

Within the Copalquin Project boundaries there are 32 known historic gold and silver underground mines and surface workings plus historic drill intercepts. Mineralisation is typically associated with low-sulfidation epithermal veining and stockworks developed within an andesitic host rock sequence.

Data compilation, geological mapping and rock chip sampling undertaken by Sun Minerals over the past two years indicates that gold-silver mineralisation previously mined at Copalquin was of very high-grade

Historic drilling underneath and along strike from underground workings undertaken prior to Sun Minerals' involvement returned multiple high-grade intercepts including:

- 17.77m @ 45.16 g/t gold and 118.2 g/t silver from 30.98 metres in UC-03 (El Cometa Mine);
- 7.9m @ 6.54g/t gold and 140.g/t silver from 143.10 metres in UC-024 (El Refugio Mine); and
- 4.53m @ 28.99g/t gold and 2,350.3g/t silver from 138.00 metres in MP-07-101 (La Soledad Mine),

being the **Exploration Results**.

It should be noted that these intercepts are historic and not compliant with current JORC Code 2012. The following cautionary statement applies to the above Exploration Results:

- **The Exploration Results set out above have not been reported in accordance with the JORC Code 2012;**
- **A Competent Person has not done sufficient work to disclose the Exploration Results in accordance with the JORC Code 2012;**
- **It is possible that following further evaluation and/or exploration work that the confidence in the prior reported Exploration Results may be reduced when reported under the JORC Code 2012;**
- **Nothing has come to the attention of the Company or the Competent Person that causes it to question the accuracy or reliability of the historical Exploration Results; but**
- **The Company has not independently validated the Exploration Results and therefore is not to be regarded as reporting, adopting or endorsing those Exploration Results.**

The announcement of the Company released to ASX on 25 November 2019 included Table 1 of the JORC Code 2012 completed for the purposes of an assessment of the reliability of the Exploration Results by reference to the criteria in Table 1. The Company is not aware of any new information or data that materially affects the information included in the announcement of the Company released to ASX on 25 November 2019 but reiterates that it has not done sufficient work to disclose the Exploration Results in accordance with the JORC Code 2012.

Sun Minerals has advised the Company that it believes that the historic drilling at Copalquin was not carried out in a systematic manner with previous campaigns hindered by logistical difficulties and overly concentrated in areas where the first favourable intercepts were encountered.

Sun Minerals has obtained all statutory permits required to undertake a systematic drilling program at Copalquin and, upon satisfactory completion of the Transaction, a 4,500-metre diamond drilling program is planned to be undertaken.

The aim of the proposed drilling is to better understand the geological controls on mineralisation and demonstrate the potential for mineralisation beyond the limits of existing mined areas.

Importantly, Sun Minerals has strong "in-country" operating experience and has developed strong working relationships with local landowners, stakeholders, and contractors.

Further details regarding the Copalquin Project and the exploration plans for the Copalquin Project are set out in the announcement of the Transaction released by the Company on 25 November 2019.

Statements regarding the Copalquin Project are made on the basis of information and representations provided by Sun Minerals and its directors and officers, publicly available information, the preliminary due diligence enquiries of the Company and the information compiled by the competent person as set out in the announcement of the Company released to ASX on 25 November 2019.

As noted above, the Transaction remains subject to a number of conditions as set out in Annexure A.

ABOUT MEXICO

Mexico has a mining history extending almost 500 years and is among the world's largest metal producers. Mexico is the largest producer of silver in the world and a top global producer of gold, copper, zinc, amongst other minerals.

With its long mining tradition, Mexico has a largely favourable environment for the industry. The geological potential remains strong. The country's terrain is one of the most tectonically active and complex in the world. Orogenesis has pushed up mountain chains all across Mexico, including the Sierra Madre Oriental, Sierra Madre Occidental and Sierra Madre del Sur. These three regions have formed some of the key metallogenic areas. Gold and silver mineralisation is commonly linked to the two belts of hydrothermal veins and gaps that stretch out underneath both sides of the Sierra Madre Occidental.

Mexico contains outstanding geological potential for mining, which contributes to making Mexico the world's fourth-largest recipient of foreign direct investment (**FDI**) for mining and the second destination of such FDI in Latin America. The majority of this FDI is directed to mining gold, copper, zinc, and uranium. According to the Mexican Mining Chamber (Cámara Minera de México or CAMIMEX), Mexico leads the world's production of silver. Mexico was the ninth-largest producer of gold and seventh-largest producer of copper in 2018.

CONSIDERATION AND SUN VENDORS

The consideration payable by the Company for the purchase of all the issued share capital of Sun Minerals from the Sun Vendors comprises an aggregate 673,852,281 fully paid ordinary shares (**Consideration Shares**), which accounts for 40% of the expanded share capital of the Company following completion of the Transaction.

Shareholder approval for issue of the Consideration Shares to the Sun Vendors is sought under Resolution 1. Other than Dudley Leitch (who is proposed to be appointed as a Director on and from completion of the Transaction (refer below)) all the other Sun Vendors are unrelated to the Company.

BOARD AND MANAGEMENT CHANGES

Subject to and upon completion of the Transaction, Sun Minerals shall also have the right to nominate an individual to be appointed as a Director (Executive Chairman) of the Company (subject to receipt of a valid consent to act and shareholder approval (if required)) and to nominate an individual to be appointed to a lead management role in the Company in respect of exploration of the Copalquin Project.

Sun Minerals has indicated that it intends to nominate Dudley Leitch as the Executive Chairman of the Company on and from completion of the Transaction. A biography for Dudley Leitch is set out below:

Dudley Leitch has over 40 years (10 years in Mexico) developing projects and running ASX mining/exploration companies with projects in Australia, Mexico and the USA. Dudley Leitch has previously been a director or managing director of Perseverance Corporation, Mogul Mining, Valdora Minerals, King Minerals and Bolnisi Gold.

Shareholder approval for the appointment of Dudley Leitch as a director is sought under Resolution 3.

CAPITAL RAISING

As a condition of the Transaction, the Company proposes conducting a capital raising by way of an entitlement issue to existing shareholders on a record date to be determined of one (1) new fully paid ordinary Mithril share for every one (1) existing fully paid ordinary shares in the Company held at an issue price of \$0.01 (1 cent) per share to raise approximately \$4.9 million (before costs) (**Rights Issue**).

Funds raised are proposed to fund exploration of the existing Company projects and the Copalquin Project and otherwise to meet working capital requirements. An indicative use of funds is set out below table:

Use of Funds	Amount (AUD)
Expenditure on Copalquin	\$3,350,000 (net of expenditure of Exclusivity Payment – refer Annexure A)
Expenditure on existing projects	\$600,000
Additional working capital, raise fees	\$950,000
Total	\$4,900,000

The Company will release further details regarding the Rights Issue when available.

DIRECTOR/MANAGEMENT PERFORMANCE RIGHTS

Subject to completion of the Transaction, which will necessarily require shareholder approvals, Mithril intends to issue up to 199,999,999 performance rights convertible to fully paid ordinary shares to a combination of existing directors and the proposed incoming director, management and/or consultants described in this Memorandum (**Director/Management Performance Rights**).

The terms of the Director/Management Performance Rights are set out in full in Annexure C. Approval for the issue of the Director/Management Performance Rights is sought under Resolutions 4A to 4E. Details of proposed recipients of Director/Management Performance Rights are set out in pages 15 to 20 of this Memorandum.

Director/Management Performance Rights vest upon completion of the Transaction and, subject to vesting having occurred, convert to fully paid ordinary shares upon satisfaction of an Applicable Milestone (as described and defined in Annexure C).

DETAILS OF RESOLUTIONS

Resolution 1 – issue of shares to Sun Vendors

Resolution 1 seeks shareholder approval pursuant to ASX Listing Rule 7.1 for the issue of the Consideration Shares to the Sun Vendors (and/or their nominee(s)). Each of the Sun Vendors is unrelated to the Company other than Dudley Leitch, who is a related party of the Company under section 228(6) of the Corporations Act.

ASX Listing Rules

Dudley Leitch is only a related party of the Company due to Sun nominating him to join the board of the Company on and from completion of the Transaction. Accordingly and due to the operation of ASX Listing Rule 10.12 Exception 12, as Dudley Leitch is only becoming a related party of the Company due to the Transaction shareholder approval to issue him his respective proportion of the Consideration Shares for the purposes of Chapter 10 of the ASX Listing Rules is not required.

The Company therefore seeks shareholder approval for the purposes of ASX Listing Rule 7.1 for the issue of the Consideration Shares to the Sun Vendors.

ASX Listing Rule 7.1 provides that a company must not, subject to specified exceptions, issue or agree to issue during any 12-month period any equity securities, or other securities with rights to conversion to equity (such as an option), if the number of those securities exceeds 15% of the company's issued share capital at the commencement of that 12-month period. One circumstance where an action or an issue is not taken into account in the calculation of the 15% threshold is where the issue has the prior approval of shareholders at a general meeting.

If shareholders pass Resolution 1 then, subject to the other Acquisition Resolutions passing, the Company will be able to proceed with the Transaction and issue the Consideration Shares. The approval will also increase the Company's ongoing capacity to issue equity securities without shareholder approval under ASX Listing Rule 7.1. If shareholders do not pass Resolution 1 then the Consideration Shares will not be issued and the Transaction will not proceed.

ASX Listing Rule 7.3 requires that the meeting document concerning a proposed resolution to approve an issue of securities in accordance with ASX Listing Rule 7.1 must contain the following information:

- (a) The Consideration Shares are proposed to be issued to the Sun Vendors.
- (b) The maximum number of securities to be issued under the approval sought through this Resolution is 673,852,281 Consideration Shares.
- (c) The Company proposes issuing the shares the subject of Resolution 1 following satisfaction of all of the conditions precedent to the Transaction and in any event no later than 3 months after the date of the Meeting (or such later date as may be permitted by an ASX waiver of the Listing Rules, the Corporations Act and/or ASIC). If the Consideration Shares are not issued within 3 months after the date of the Meeting (or such other date as applicable) then the Company may at its discretion seek further shareholder approval to issue the Consideration Shares.
- (d) The shares will be issued for no cash consideration. The shares are to be issued in lieu of cash as consideration for the acquisition by the Company of all the issued capital of Sun Minerals.
- (e) Consideration Shares are proposed to be issued pursuant to the binding terms sheet executed by the Company, Sun Minerals and the Sun Vendors, a summary of which is set out in Annexure A.
- (f) A voting exclusion is contained in the Notice accompanying this Memorandum.
- (g) The directors recommend that shareholders vote in favour of Resolution 1.

Corporations Act – Chapter 2E

As an individual nominated by Sun Minerals to join the Board of the Company as a director, Dudley Leitch is considered a related party of the Company in accordance with section 228(6) of the Corporations Act.

Section 208 of the Corporations Act provides that a public company must not, subject to certain exceptions, give a financial benefit to a related party without approval of the company's members (shareholders). The issue of Consideration Shares to Dudley Leitch constitutes the giving of a financial benefit as defined under section 229 of the Corporations Act.

Section 210 of the Corporations Act provide an exception to the requirement to obtain shareholder approval for the giving of a financial benefit to a related party where the benefit is given on terms that would be reasonable if the company and the related party were dealing on arms' length or on terms less favourable to the related party than terms that would be reasonable if the company and the related party were dealing on arms' length terms.

The existing Directors of the Company have formed the view that the terms of the Transaction are reasonable, or less favourable to Dudley Leitch than terms that would be reasonable in circumstances if the Company and each of the respective parties were dealing on arms' length terms.

The existing Directors of the Company have formed this view having regard to the following:

- Dudley Leitch is not related to the Company other than by application of section 228(6) of the Corporations Act which arose solely due to Sun Minerals nominating him to join the Board of the Company as a director on and from completion of the Transaction.
- The parties were free from any undue influence, control or pressure and each has had the opportunity to seek and obtain independent advice with respect to the Transaction.

- The terms of the Transaction are a result of prolonged, robust negotiations between the Company and Sun Minerals.
- Dudley Leitch has not been, and will not prior to completion of the Transaction be, involved in any Board meetings of the Company or any internal discussions of the Company related to the Transaction.
- Dudley Leitch does not control Sun Minerals.
- Dudley Leitch is receiving Consideration Shares per share held in Sun Minerals in the same proportions as the other Sun Vendors, all of whom are unrelated to the Company.
- The entire Transaction is subject to and conditional upon receipt of shareholder approval.

Having regard to the above, the existing Directors of the Company consider the issue of Consideration Shares to Dudley Leitch is reasonable and on terms that would be (and in this case have been) offered to parties at arms' length from the Company having regard to the purpose of the issue and falls within the exception set out in section 210 of the Corporations Act.

Resolution 2 – issue of shares to CMC

Resolution 2 seeks shareholder approval for the issue of 10,000,000 fully paid ordinary shares to CMC (and/or its nominee(s)) at completion of the Transaction. CMC is not a related party of the Company. The shares are to be issued in connection with Sun Minerals acquiring an initial 10% interest in the Copalquin Project in accordance with the terms of the Option. Further details are set out in the summary of the Option in Annexure B.

ASX Listing Rules

ASX Listing Rule 7.1 provides that a company must not, subject to specified exceptions, issue or agree to issue during any 12-month period any equity securities, or other securities with rights to conversion to equity (such as an option), if the number of those securities exceeds 15% of the company's issued share capital at the commencement of that 12-month period. One circumstance where an action or an issue is not taken into account in the calculation of the 15% threshold is where the issue has the prior approval of shareholders at a general meeting.

If shareholders pass Resolution 2 then, subject to the other Acquisition Resolutions passing, the Company will be able to proceed with the Transaction and issue the 10,000,000 shares to CMC. The approval will also increase the Company's ongoing capacity to issue equity securities without shareholder approval under ASX Listing Rule 7. If shareholders do not pass Resolution 2 then the 10,000,000 shares to CMC will not be issued and the Transaction will not proceed.

ASX Listing Rule 7.3 requires that the meeting document concerning a proposed resolution to approve an issue of securities in accordance with ASX Listing Rule 7.1 must contain the following information:

- (a) The fully paid ordinary shares are proposed to be issued to CMC.
- (b) The maximum number of securities to be issued under the approval sought through this Resolution is 10,000,000 fully paid ordinary shares.
- (c) The Company proposes issuing the shares the subject of Resolution 2 following satisfaction of all of the conditions precedent to the Transaction and in any event no later than 3 months after the date of the Meeting (or such later date as may be permitted by an ASX waiver of the Listing Rules, the Corporations Act and/or ASIC). If the shares are not issued within 3 months after the date of the Meeting (or such other

date as applicable) then the Company may at its discretion seek further shareholder approval to issue the shares to CMC.

- (d) The shares will be issued for no cash consideration. The shares are to be issued in connection with the acquisition by Sun Minerals of an initial 10% interest in the Copalquin Project pursuant to the Option.
- (e) Shares are proposed to be issued pursuant to the Option, a summary of which is set out in Annexure B.
- (f) A voting exclusion is contained in the Notice accompanying this Memorandum.
- (g) The directors recommend that shareholders vote in favour of Resolution 2.

Resolution 3: Election of Dudley Leitch as a Director

The constitution of the Company provides that the shareholders may elect a person as a director by resolution passed in a general meeting. A director elected at a general meeting holds office until the next annual general meeting at which time they must retire and will be eligible for re-election.

The Company proposes that Dudley Leitch be elected as a director on and from completion of the Transaction.

A biography for Dudley Leitch is set out on page 10 of the Memorandum and is also set out below:

Dudley Leitch has over 40 years (10 years in Mexico) developing projects and running ASX mining/exploration companies with projects in Australia, Mexico and the USA. Dudley Leitch has previously been a director or managing director of Perseverance Corporation, Mogul Mining, Valdora Minerals, King Minerals and Bolnisi Gold.

It is proposed that the Company will issue a minimum of 25,000,000 up to a maximum of 33,333,333 Director/Management Performance Rights to each of Dudley Leitch, Hall Stewart and John Skeet (or their respective nominee(s)) under Resolutions 4C to 4E. The Company may issue further securities other than as set out in the Notice (including performance rights with the same terms as the Director/Management Performance Rights) after the Meeting, although the Company has no present intention to do so. It is expressly noted that such issue of further securities (if any) will not be made under the shareholder approvals sought under the Notice and/or as approved at the Meeting.

If shareholders approve Resolutions 4A and 4B, it is proposed that Director/Management Performance Rights the subject of Resolutions 4A and 4B will be issued shortly after the Meeting. Director/Management Performance Rights the subject of Resolutions 4C to 4E are proposed to be issued at, or immediately prior to, completion of the Transaction. The Company may, however, determine to issue Director/Management Performance Rights the subject of Resolutions 4C to 4E inclusive prior to completion of the Transaction (subject to the ASX Listing Rules).

ASX Listing Rules – Resolutions 4A and 4B

ASX Listing Rule 10.11 requires a company to obtain shareholder approval by ordinary resolution prior to the issue of securities to a related party of the company. For the purpose of Listing Rule 10.11, a related party includes a director of the company, an entity over which a Director has control and an entity which ASX believes, or has reasonable grounds to believe, is likely to become a related party of the company in the future.

Shareholder approval is being sought under Listing Rule 10.11 for each of Resolutions 4A and 4B and as such approval is not required under ASX Listing Rule 7.1.

If shareholders pass Resolutions 4A and 4B then, subject to the Acquisition Resolutions passing, the Company will be able to issue the Director/Management Performance Rights as set out in Resolutions 4A and 4B subject to completion of the Transaction. If those Director/Management Performance Rights convert to ordinary shares, the Company's capacity to issue equity securities under ASX Listing Rule 7.1 (and, subject to the relevant shareholder approval being held at the time, ASX Listing Rule 7.1A) will be increased. If shareholders do not pass Resolutions 4A and 4B then the Company will not be able to issue the Director/Management Performance Rights as set out in Resolutions 4A and 4B.

ASX Listing Rule 10.13 requires the meeting documents concerning a proposed resolution to approve an issue of securities in accordance with ASX Listing Rule 10.11 must include specific information which is set out below with respect to Resolutions 4A and 4B:

- (a) The proposed recipients and the maximum number of securities to be acquired by each person for whom approval under ASX Listing Rule 10.11 is sought under Resolutions 4A and 4B is set out in the table below:

Resolution	Name of recipient*	Number of Director/Management Performance Rights	Applicable Milestone(s)
4A	Stephen Layton	50,000,000	(i) determination by a geological consultant of an Inferred JORC Resource of 5.443Mt at a combined AuEq grade of not less than 4g/t for 700koz Au (or AuEq) on the Copalquin Project; or
4B	Adrien Wing	50,000,000	

			(ii) Mithril achieving a market capitalisation equal to or greater than A\$50,000,000 for a period of 20 consecutive trading days on which the securities of the Company traded.
Total		100,000,000	

** Director/Management Performance Rights may be issued to nominee(s) as advised to the Company*

- (b) Each of Stephen Layton and Adrien Wing are Directors of the Company and are therefore related parties for the purposes of ASX Listing Rule 10.11.1.
- (c) The terms of Director/Management Performance Rights are set out in full in Annexure C.
- (d) The Company proposes issuing the Director/Performance Rights the subject of Resolutions 4A and 4B shortly following the Meeting and in any event no later than 1 month after the date of the Meeting (or such later date as may be permitted by an ASX waiver of the Listing Rules, the Corporations Act and/or ASIC). If the Director/Management Performance Rights the subject of Resolutions 4A and 4B are not issued within 1 month after the date of the Meeting (or such other date as applicable) then the Company may at its discretion seek further shareholder approval to issue such Director/Management Performance Rights.
- (e) No funds are payable for issue of the Director/Management Performance Rights, which are being issued as performance based incentives to the directors proposed to receive them. Director/Management Performance Rights convert to fully paid ordinary shares upon achievement of the applicable milestone.
- (f) Details of the remuneration package of each of Stephen Layton and Adrien Wing are as set out below:
 - (i) Stephen Layton: \$4,000 per month as a director of the Company.
 - (ii) Adrien Wing: \$4,000 per month as a director of the Company and \$4,000 per month as the secretary of the Company (company secretary fees received via a corporate entity).
- (g) Director/Management Performance Rights are proposed to be issued as reasonable remuneration to each of the proposed recipients and otherwise in connection with the binding terms sheet, a summary of which is set out in Annexure A.
- (h) A voting exclusion for Resolutions 4A and 4B is contained in the Notice.

ASX Listing Rules – Resolutions 4C to 4E

As noted above, it is proposed that each of Dudley Leitch, Hall Stewart and John Skeet (or their respective nominee(s)) will be issued a minimum of 25,000,000 up to a maximum of 33,333,333 Director/Management Performance Rights under Resolutions 4C to 4E. Accordingly, if shareholders approve all of Resolutions 4C to 4E, an aggregate of between 75,000,000 and 100,000,000 Director/Management Performance Rights will be issued under Resolutions 4C to 4E collectively.

Dudley Leitch is a related party of the Company as a result of his nomination by Sun to be appointed as a Director of the Company on and from completion of the Transaction. Due to the operation of ASX Listing Rule 10.12 Exception 12, Dudley Leitch is only becoming a related party of the Company due to the Transaction and therefore shareholder approval for the purposes of Chapter 10 of the ASX Listing Rules is not required.

The Company therefore seeks shareholder approval for the purposes of ASX Listing Rule 7.1 for the issue of the Director/Management Performance Rights to Dudley Leitch, Hall Stewart and John Skeet (or their respective nominee(s)) as described above. It is proposed that Director/Management Performance Rights the subject of Resolutions 4C to 4E will be issued at, or immediately prior to, completion of the Transaction. The Company may, however, determine to issue Director/Management Performance Rights the subject of Resolutions 4C to 4E (or any of them) prior to completion of the Transaction (subject to the ASX Listing Rules).

ASX Listing Rule 7.1 provides that a company must not, subject to specified exceptions, issue or agree to issue during any 12-month period any equity securities, or other securities with rights to conversion to equity (such as an option), if the number of those securities exceeds 15% of the company's issued share capital at the commencement of that 12-month period. One circumstance where an action or an issue is not taken into account in the calculation of the 15% threshold is where the issue has the prior approval of shareholders at a general meeting.

If shareholders pass Resolutions 4C to 4E then, subject to the Acquisition Resolutions passing, the Company will be able to issue the Director/Management Performance Rights as set out in Resolutions 4C to 4E subject to completion of the Transaction. If those Director/Management Performance Rights convert to ordinary shares, the Company's capacity to issue equity securities under ASX Listing Rule 7.1 (and, subject to the relevant shareholder approval being held at the time, ASX Listing Rule 7.1A) will be increased. If shareholders do not pass Resolutions 4C to 4E then the Company will not be able to issue the Director/Management Performance Rights as set out in Resolutions 4C to 4E.

ASX Listing Rule 7.3 requires that the meeting document concerning a proposed resolution to approve an issue of securities in accordance with ASX Listing Rule 7.1 must contain the following information:

- (a) The Director/Management Performance Rights are proposed to be issued to the incoming director, management and/or consultants as set out in the table below:

Resolution	Name of recipient*	Number of Director/Management Performance Rights (minimum)	Number of Director/Management Performance Rights (maximum)	Applicable Milestone(s)
4C	Dudley Leitch	25,000,000	33,333,333	(i) determination by a geological consultant of an Inferred JORC Resource of 5.443Mt at a combined AuEq grade of not less than 4g/t for 700koz Au (or AuEq) on the Copalquin Project; or (ii) Mithril achieving a market capitalisation equal to or greater than A\$50,000,000 for a period of 20 consecutive trading days on which the securities of the Company traded.
4D	Hall Stewart	25,000,000	33,333,333	
4E	John Skeet	25,000,000	33,333,333	
	Total	75,000,000	99,999,999	

* Director/Management Performance Rights may be issued to nominee(s) as advised to the Company

- (b) The maximum number of securities to be issued under the approvals sought through Resolutions 4C to 4E is 99,999,999 Director/Management Performance Rights as set out in the table above.
- (c) The Company proposes issuing the Director/Performance Rights the subject of Resolutions 4C to 4E following satisfaction of all of the conditions precedent to the Transaction (subject to change) and in any event no later than 3 months after the date of the Meeting (or such later date as may be permitted by an ASX waiver of the Listing Rules, the Corporations Act and/or ASIC). If the Director/Management Performance Rights are not issued within 3 months after the date of the Meeting (or such other date as applicable) then the Company may at its discretion seek further shareholder approval to issue the Director/Management Performance Rights.
- (d) No funds are payable for issue of the Director/Management Performance Rights, which are being issued as performance based incentives. Director/Management Performance Rights convert to fully paid ordinary shares upon achievement of the applicable milestone.
- (e) Director/Management Performance Rights are proposed to be issued as reasonable remuneration to the incoming director, management and consultants and otherwise in connection with the binding terms sheet, a summary of which is set out in Annexure A.
- (f) A voting exclusion is contained in the Notice accompanying this Memorandum.
- (g) The directors recommend that shareholders vote in favour of Resolution 4C to 4E.

Corporations Act – Chapter 2E

Under Chapter 2E of the Corporations Act, a public company cannot give a “financial benefit” to a “related party” unless one of the exceptions to the section apply or shareholders have in a general meeting approved the giving of that financial benefit to the related party.

Each of the proposed recipients of Director/Management Performance Rights under Resolutions 4A to 4C are related parties of the Company as defined under the Corporations Act and the issue of the Director/Management Performance Rights constitute the giving of a financial benefit. The Board (with each Director who is proposed to receive Director/Management Performance Rights not participating in or being present during consideration of the proposed issue of Director/Management Performance Rights to them) considers the issue of Director/Management Performance Rights to be reasonable remuneration and therefore within the exception in Section 211 of the Corporations Act. Notwithstanding this position, the Board has determined to seek shareholder approval for the purposes of Chapter 2E of the Corporations Act to provide shareholders the opportunity to cast their vote with the benefit of the further information set out below in this Memorandum.

Recipients of Director/Management Performance Rights

The proposed related party recipients of Director/Management Performance Rights and the maximum number of be received by each is set out in the table below:

Recipient*	Number of Director/Management Performance Rights	Applicable Milestone(s)
Stephen Layton	50,000,000	(i) determination by a geological consultant of an Inferred JORC Resource of 5.443Mt at a combined AuEq grade of not less than 4g/t for
Adrien Wing	50,000,000	
Dudley Leitch	33,333,333 (maximum)	

		700koz Au (or AuEq) on the Copalquin Project; or (ii) Mithril achieving a market capitalisation equal to or greater than A\$50,000,000 for a period of 20 consecutive trading days on which the securities of the Company traded.
Total	133,333,333 (maximum)	

**may also be issued a nominee of the above recipient(s) as advised to the Company.*

Stephen Layton and Adrien Wing are current Directors of the Company and Dudley Leitch is proposed to be appointed as a Director upon and subject to completion of the Transaction.

Nature of the financial benefit

Each of the above named related parties will have a relevant interest and a financial benefit in the number of Director/Management Performance Rights set out against their name in the above table.

Full terms of the Director/Management Performance Rights are set out in Annexure C.

The Director/Management Performance Rights are proposed to be issued to incentivise the proposed recipients in connection with their respective involvement in the development of the current and proposed projects of the Company. The Board believes that limiting the cash remuneration of its management and retaining cash reserves for the purposes of advancing its exploration activities and projects is an effective strategy to incentivise its Board and management and aligning their interests with shareholders of the Company.

The proposed number of Director/Management Performance Rights to be issued was determined having regard to the post-Transaction management structure of the Company and the desire to provide balanced incentives to the parties most likely to influence the future success of the Company and its projects.

Valuation

The Board has sought advice in respect of the methods for valuing the Director/Management Performance Rights. That advice, which considered the market applicable milestones only, indicated a value of **\$0.0063 (0.63 cents)** per Director/Management Performance Right. This advice was provided on the basis of a grant date share price of \$0.0085 (0.85 cents), being the average share price on the most recent days on which trades were made prior to 18 December 2019.

It is expressly noted that the advice did not take into account 'non-market conditions', namely the completion of the Transaction and the achievement of an inferred JORC resource of 5.443Mt at a combined AuEq grade of not less than 4g/t for 700koz Au (or AuEq) on the Copalquin Project – both of which were assumed to have occurred for the purposes of the indicative value of the Director/Management Performance Rights referred to above. The Board understands that a market based valuation will not account for the probability of these commercial milestones, the probability of which are inherently difficult to predict and, in the view of the Board, the non-market conditions add considerable uncertainty to the Director/Management Performance Rights and would result in a lower valuation if they were able to be considered.

With respect to the market capitalisation applicable milestone, the table below demonstrates the market capitalisation of the Company having regard to the average share price used in the valuation (\$0.0085), the proposed price at which shares are proposed to be issued under the Rights Issue (\$0.01) and the price at which the shares of the Company would need to trade to achieve the market capitalisation applicable milestone).

It is noted that the below table has been prepared on the basis that the Company will have 1,664,630,703 fully paid ordinary shares on issue, which accounts for only 10,000,000 shares being issued to CMC:

Deemed price	\$0.0085 (0.85 cents)	\$0.01 (1 cent)	\$0.03 (3 cents)
Market capitalisation (1,664,630,703 multiplied by the deemed price)	\$14,149,360	\$16,646,307	50,000,000

The figures in the above table is subject to rounding.

On the basis of the assumptions set out above, and having regarding for the market capitalisation milestone terms, the share price of the Company would need to maintain a minimum price of \$0.03 for 20 consecutive trading days in order for the relevant Director/Management Performance Rights to vest. That price is significantly higher than the current share price as at the date of the Notice and the price at which shares are proposed to be issued under the Rights Issue.

Director (and proposed Director) remuneration

As set out on page 18:

- Stephen Layton receives \$4,000 per month as a director of the Company.
- Adrien Wing receives \$4,000 per month as a director of the Company and \$4,000 per month as the secretary of the Company (company secretary fees received via a corporate entity).

The remuneration to be received by Dudley Leitch following his appointment as a Director of the Company has yet to be determined and will be subject to negotiation between the Company and Dudley Leitch. It is noted, however, that such remuneration payable to Dudley Leitch shall not exceed \$10,000 per month for at least the first six (6) months following completion of the Transaction.

Related party's existing interest

The existing interests, interests following completion of the Transaction and interests following conversion of Director/Management Performance Rights of each of the related parties proposed to receive Director/Management Performance Rights is set out in the table below:

Recipient	Existing Shares	%	Post-Transaction Shares	Post-Transaction %	Post-conversion Shares	Post-conversion %
Stephen Layton	21,000,000	4.28%	42,000,000	2.25%	92,000,000	4.93%
Adrien Wing	21,000,000	4.28%	42,000,000	2.25%	92,000,000	4.93%
Dudley Leitch	Nil	0%	90,717,862	5.45%	124,051,195	6.66%
Total	42,000,000	9.56%	174,717,862	9.95%	308,051,195	16.52%

All percentages are subject to rounding.

The above table assumes that Adrien Wing and Stephen Layton will subscribe for their full entitlement in shares under the Rights Issue (refer column titled “post-Transaction interest”), however it is noted for the benefit of shareholders that no commitment has been made by either or both of Adrien Wing and/or Stephen Layton to subscribe for their full entitlement under the Rights Issue.

Dilutive effect of the issue of Director/Management Performance Rights

The issue of Director/Management Performance Rights will not result in the dilution of the shareholders of the Company prior to the conversion of such Director/Management Performance Rights to fully paid ordinary shares (which is subject to vesting and satisfaction of an applicable milestone).

The potential dilutive impact of the conversion of Director/Management Performance Rights is set out in the table below. The table assumes that the example shareholder subscribes for their full entitlement under the Rights Issue. If a shareholder does not subscribe for their full entitlement then their interest in the shares in the Company will be diluted by completion of the Rights Issue:

Example Shareholder Post-Transaction Shares	Post-Transaction %	Post-conversion %
10,000,000	0.60%	0.54%
20,000,000	1.20%	1.07%
40,000,000	2.40%	2.15%
60,000,000	3.60%	3.22%
80,000,000	4.81%	4.29%
100,000,000	6.01%	5.36%

All percentages are subject to rounding.

Director recommendations

The Directors do not make any recommendation with respect to the issue of Director/Management Performance Rights to Stephen Layton and Adrien Wing, as such recommendation regarding the remuneration of the Directors of the Company may be a conflict of interest (as set out in ASIC guidance set out on page 25 of ASIC Regulatory Guide 76).

All Directors recommend shareholders vote in favour of Resolution 4C and the issue of Director/Management Performance Rights to Dudley Leitch on the basis the proposed issue has a nexus to the Transaction which Dudley Leitch helped facilitate and is reasonable in the context of the relevant vesting condition and applicable milestone(s) to the Director/Management Performance Rights.

Resolution 5 – Amendment to constitution

It is proposed that the Constitution of the Company be amended as set out in Annexure D. The amendment is proposed to update the Constitution of the Company to reflect changes made to the ASX Listing Rules, which are proposed to take effect on 1 December 2019.

In particular, the amendment is proposed to specifically address the new terms of ASX Listing Rule 15.12 which, subject to transitional arrangements for existing listed entities, provides that the constitution of a listed entity must include specific text. This specific text is set out in full in Annexure D. An outline of the impact of these changes is set out below:

- adding that, if restricted securities are in the same class as quoted securities, the holder will be taken to have agreed in writing that the restricted securities are to be kept on the entity's issuer sponsored sub-register and to have a holding lock applied for the duration of the escrow period applicable to those securities. This formalises prior requirements of ASX that each holder of restricted securities must sign a written restriction agreement with respect to those restricted securities;
- adding that a holder of restricted securities will not be entitled to participate in any return of capital on those securities during the escrow period applicable to those securities except as permitted by the listing rules of ASX. This amendment contains similar content to ASX Listing Rule 7.24A which provides an entity must not return capital to holders of restricted securities; and
- other consequential drafting changes to clarify the application of ASX Listing Rule 15.12.

As the Company is already listed, any existing restricted securities on issue are subject to transitional arrangements. However, if the Company:

- undertakes a transaction requiring re-compliance with Chapters 1 & 2 of the ASX Listing Rules under ASX Listing Rule 11.1.3 (full re-compliance) involving the issue of restricted securities;
- issues restricted securities to a party referred to in ASX Listing Rule 10.1 for the acquisition of a substantial classified asset from that party,

it will be required to comply with the new terms of ASX Listing Rule 15.12 in respect of any of its restricted securities following the above transaction(s).

Noting the above, the Company considers the Meeting an opportunity to update its Constitution to address the upcoming changes to the ASX Listing Rules as described above.

Currently rule 164 of the Constitution paraphrases the existing wording of parts of Listing Rule 15.12 and includes requirements or limitations not contained in the Listing Rules. Rule 165 of the Company's Constitution contains a provision required by ASX to the effect that if the Constitution contains a provision that is inconsistent with the Listing Rules, the Constitution is deemed not to contain that provision. Therefore, to the extent that requirements or limitations not contained in the Listing Rules are included in the existing rule 164, those requirements or limitations would not be effective. Accordingly, the requirements or limitations not contained in the Listing Rules will not be retained.

In addition to the above, it is proposed to amend the constitution of the Company to clarify the definitions therein by amending the definition of "ASX" to read "ASX means ASX Limited" and replacing all references in the constitution to "Australian Stock Exchange" with "Australian Securities Exchange".

Resolution 5 is a special resolution and therefore requires approval of 75% of the votes cast by Shareholders present and eligible to vote (in person, by proxy, by attorney or, in the case of a corporate shareholder, by a corporate representative).

The proposed amendment to the Constitution is set out in Annexure D.

The Directors of the Company unanimously recommend shareholders vote in favour of Resolution 5.

Note: unless otherwise specified, all monetary amounts are in Australia dollars.

The parties will act in good faith and provide reasonable assistance to each other as necessary to seek to enter into formal documentation required and satisfy the Conditions and complete the Transaction as expediently as possible. Unless otherwise agreed by the parties, where a Condition is not satisfied (or waived) by its required date then either Mithril or Sun Minerals may terminate the Terms Sheet by written notice to the other parties, provided that a party may not terminate the Terms Sheet under this paragraph (and must agree to reasonable extensions of the timeframes for satisfaction of the relevant Condition/s) where that party's actions or inactions are the substantive cause of the non-satisfaction of the relevant Condition/s.

2. Purchase Price

The consideration payable by Mithril for the purchase of all the issued share capital of Sun Minerals comprises an aggregate total of 673,852,281 fully paid ordinary Mithril shares (being the Consideration Shares), which will account for 40% of the expanded share capital of Mithril following completion of the Transaction (including full subscription of the Rights Issue).

Pending completion of the Transaction, Sun Minerals agrees (amongst other things) to manage, operate and conduct Sun Minerals' business with all due care in accordance with normal practice and in compliance with all applicable laws and use its best endeavours to maintain the value of the Sun Minerals' business and assets. Sun Minerals also agrees not to enter into any material contract or incur any material liability, declare any dividends or vary its capital structure without the prior written consent of Mithril.

5. Exclusivity payment

Mithril agrees, within 3 business days of the satisfaction of Conditions (a) and (b) by the Due Diligence Date, to pay Sun Minerals the cash sum of \$150,000 (**Exclusivity Payment**) to an account nominated by Sun Minerals in writing. Sun Minerals agrees that the Exclusivity Payment shall be used solely for, and form part of, expenditure on Copalquin as set out under the Option in **Annexure B**.

Otherwise, the Terms Sheet contains clauses typical for binding agreements of this nature including provisions with respect to confidentiality and the law of Victoria, Australia governing the Terms Sheet.

ANNEXURE B

SUMMARY OF THE OPTION

A summary of the Option held by Sun Minerals (or its subsidiary) is set out below. The summary includes variations that are anticipated to be required to be made to the Option to accommodate the Transaction.

References in this summary to “Sun Minerals” includes any subsidiary of Sun Minerals who holds the rights under the Option.

The below summary has been prepared on the basis of information provided by Sun Minerals to Mithril.

Upon completion of the Transaction, Mithril will (indirectly through its ownership of Sun Minerals) acquire an Option to earn up to a 100% interest in the concessions forming Copalquin as set out below:

- (a) At completion of the Transaction, Mithril shall pay US\$200,000 and issue 10 million fully paid Mithril shares to CMC, upon which Sun Minerals will hold a 10% interest in the concessions forming Copalquin.
- (b) If, on or before 7 August 2023, Sun Minerals:
 - (i) incurs expenditure of US\$4 million on Copalquin, and procures the issue of 10 million fully paid Mithril shares to CMC (and/or its nominee), Sun Minerals will hold a 25% interest in the concessions forming Copalquin; and
 - (ii) incurs further expenditure of US\$4 million (aggregate expenditure of US\$8 million) on Copalquin, and procures the issue of 10 million fully paid Mithril shares to CMC (and/or its nominee), Sun Minerals will hold a 50% interest in the concessions forming Copalquin.

The interest of CMC in the concessions forming Copalquin shall be free-carried until the earlier of Sun Minerals completing the acquisition of 100% of the concessions forming Copalquin or Sun Minerals electing to withdraw from the concessions forming Copalquin.

- (c) At any time on or before 7 August 2023, Sun Minerals may make a cash payment of US\$10 million to CMC (and/or its nominee) to acquire the remaining interests then held by CMC. CMC may, subject to necessary shareholder approvals and other authorisations (including regulatory consents and/or approvals), elect to receive the US\$10 million (in whole or in part) through the issue of fully paid Mithril shares at a deemed issue price per share that is the higher of:
 - (i) a 10% discount for the then 20-day VWAP of fully paid Mithril shares on ASX, ending on the trading day immediately before any such election; or
 - (ii) \$0.01 (1 cent),

and Sun Minerals will procure that Mithril issues those fully paid Mithril shares (subject to any required approvals and authorisations) as soon as reasonably practicable.

Following payment of the US\$10 million (in cash, fully paid Mithril shares or a combination of both) Mithril will (either itself or via Sun Minerals) hold a 100% interest in the concessions forming Copalquin.

The variation to the documentation underpinning the Option to accommodate the Transaction and the earn-in structure set out above forms a condition of completion of the Transaction.

Further details of the other terms of the Option are set out below:

- (a) Sun Minerals is required to make bi-annual payments to the vendors of US\$150,000 during the term of the earn-in as a means to preserve the option.
- (b) Failure to pay all mining duties and other payments due under the Option following acquisition of a 50% interest in the concessions forming Copalquin will be a breach of the Option and require surrender of the interest held by Sun Minerals in the concessions forming Copalquin.
- (c) Upon Sun Minerals acquiring a 100% interest in the concessions forming Copalquin, it grants to CMC a right to receive a royalty of the net smelter returns of 2.5%, calculated and paid for all the sales of minerals and products of the concessions (**NSR**). Sun Minerals may exercise a right to reduce the NSR to 1% by paying CMC US\$4.5 million at any time prior to 6 August 2022. During the term of the royalty until production commences Sun Minerals is required to make bi-annual payments of US\$75,000 to CMC. This payment is not required to be made if Sun Minerals exercises its right to reduce the NSR.
