- Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: At this time the sole focus of Invion activities is the development and commercialisation of the Photosoft™ technology. The development of Photosoft™ is funded via an R&D agreement with the technology licensor, The Cho Group. Under this agreement, which was approved by Invion shareholders at the 2017 AGM, The Cho Group funds the fully burdened costs of development - including research, development and associated overhead costs - to meet pre-agreed development milestones. Funding and milestones are agreed on a quarterly basis by a Steering Committee between the parties.

The Company held cash reserves of 119k at the end of December, with net cash outflows from operating activities during the quarter of 447k. The negative operating cashflow for the December quarter was related to timing of invoicing for activities. This timing was pre-agreed by the parties, as calendar year-end reconciliation of projects was being undertaken.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Subsequent to the end of the quarter, Invion invoiced The Cho Group for reimbursement of fully burdened costs of activities undertaken in December 2019. In accordance with the R&D services agreement, Invion also invoiced The Cho Group in advance for activities anticipated to be undertaken in the March 2020 quarter.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. This is based on the expected continued funding under the R&D agreement as referred above.
