Full Year Financial Statements and Dividend Announcement

Full Year financial statements on consolidated results for the year ended 31 December 2019 (These figures have not been audited)

INFORMATION REQUIRED FOR ANNOUNCEMENTS OF FULL YEAR RESULTS

The discussion that follows compares the Financial Performance for the 12 months to 31 December 2019 (FY2019) with that of corresponding year to 31 December 2018 (FY2018)

Revenue

Revenue for the year ended 31 December 2019 (FY2019) decreased by S\$16.4 million to S\$95.7 million as compared to the previous corresponding financial year (FY2018).

- 1. Revenue of Construction division decreased by 50.1% to S\$41.1 million in FY2019. This was mainly due to lower revenue recognition in FY2019 from the following:
 - a. completed projects such as sand mining and rock works at caisson quay wall at proposed reclamation at Tuas Finger One;
 - b. completing projects including (i) improvement to Sungei Pandan Kechil (West Coast Road to the sea) and (ii) earthworks and construction of roads, drains and sewers at Sengkang West; and
 - c. projects which were ceased or terminated during the year including (i) proposed design and build of vehicular bridge at Grade Road and other associated works at Pulau Punggol Barat and (ii) land preparation works for airport development project under POC-K JV.

The above decrease was partially offset by higher revenue recognition from the project for the new road connections at Seletar Link and widening of TPE between Jalan Kayu and Punggol West flyovers.

2. Revenue of Precast division increased by 76.6% to \$\$54.5 million in FY2019. This was mainly due to higher sales volume of precast products as compared to FY2018.

Gross (loss)/profit

The Group recorded a gross loss of \$\$52.9 million in FY2019. The loss was mainly due to the Construction division which recorded a gross loss of \$\$52.7 million due to delays in completion of projects and higher sub-contractor, material and labour costs. Additional provisions were also made for liquidated damages related to the early termination of a project, and the finalisation and cessation of other projects.

Other income

Other income increased by S\$14.7 million to S\$28.0 million in FY2019. The increase was mainly due to the reversal of provision for the Group's share of losses from the precast operation at Batam, Indonesia under Sindo-Econ Pte Ltd and its Indonesian subsidiary, PT. Sindomas Precas ("Sindo-Econ Group") of S\$10.4 million as the Group has assessed that it has no obligations in respect of the losses of the joint venture. The Group also recorded higher gain on disposal of property, plant and equipment, insurance claims, rental income, sale of scrap and sale of construction materials.

Administrative and other expenses

Administrative and other expenses decreased by S\$1.7 million to S\$12.4 million in FY2019 due to cost-cutting measures implemented by the Group.

Impairment losses on financial assets

Impairment losses on financial assets increased to S\$44.6 million due to: (i) impairment of trade and other receivables of S\$23.9 million, mainly arising from expected credit losses on receivables from Sindo-Econ Group of S\$22.2 million, and (ii) impairment of contract assets under the Precast and Construction division of S\$8.4 million and S\$12.3 million respectively.

As part of the Group's on-going restructuring and realignment exercise, the Group has novated or terminated certain loss-making contracts under the Precast division, and is in the process of novating or terminating the remaining loss-making contracts to cut further losses. The Group has recorded an impairment loss of S\$8.4 million on contract assets relating to these Precast contracts due to uncertainty of their recoverability.

The impairment of contract assets of S\$12.3 million under the Construction division was mainly due to contract remeasurement and finalisation of certain projects during the period such as the sand mining and rock works at caisson quay wall at proposed reclamation at Tuas Finger One and the land preparation works for airport development.

INFORMATION REQUIRED FOR ANNOUNCEMENTS OF FULL YEAR RESULTS

Impairment losses on non-financial assets

Impairment losses on non-financial assets increased to S\$12.2 million mainly due to impairment of property, plant and equipment of S\$8.3 million and impairment of assets held for sale of S\$3.7 million.

As part of the Group's on-going restructuring and realignment exercise, management has put forward a plan to dispose non-productive or idling plant and equipment held in the precast and construction segments. One of the component of this disposal exercise was to review the utilisation pattern of machinery and equipment to assess whether there is any indication of impairment. Management also performed an in-house valuation to determine the fair value less cost of disposal of these assets. The impairment charge was based on the recoverable amounts estimated by management.

Share of losses of joint ventures

Share of results of joint ventures mainly comprised the Group's 50% share of losses from Sindo-Econ Group. The Group did not record any share of losses of joint ventures in FY2019 as it has capped its share of losses from Sindo-Econ Group to its cost of investment.

Loss from continuing operations, net of tax

Due to operating loss and losses from impairment of financial and non-financial assets, which was partially offset by higher other income and S\$nil share of losses of joint ventures, the Group recorded a loss after tax of S\$96.2 million in FY2019 as compared to a loss after tax of S\$0.4 million in FY2018.

Discontinued operation

The Electric Power Generation division has been classified as held for sale in FY2019 and is classified as a discontinued operation with comparatives re-presented accordingly. Management is committed to the plan to sell this non-core business and expects the sale to be completed within the next twelve months.

Profit after tax from Electric Power Generation division increased by 41.3% to \$\$1.2 million in FY2019 due to higher revenue recorded arising from the increase in reserve capacity pricing set by Independent Market Operator of Western Australia.

The Company and its subsidiary, Koon Construction & Transport Co., Pte. Ltd. ("KCTC"), are proposing schemes of arrangements with their creditors, namely the Koon Holdings Limited Scheme ("KHL Scheme") and the ("KCTC Scheme"). The ability of the Company to continue as a going concern is dependent on the successful implementation of the Schemes.

Pursuant to section 210 of the Companies Act, a scheme would be binding on the creditors of the company if a majority in number (over 50%) representing at least three-fourths (75%) in value of the creditors in every voting class, voting in person or by proxy, voted in favour of the scheme at the scheme meeting. Alternatively, the scheme meeting would be adjourned if the abovementioned proportions of the company's creditors voted for an adjournment.

Before the commencement of the KHL Scheme Meeting on 25 February 2020, a major creditor requested that the KHL Scheme Meeting be adjourned as it would like to be provided with more information before committing to its vote. The proposed adjournment was put to the creditors present and voting, and the KHL Scheme Meeting was adjourned to a later date to be determined.

Separately, KCTC also held the KCTC Scheme Meeting on 25 February 2020. The KCTC Scheme was approved by a majority in number representing at least three-fourths in value of the creditors present and voting at the KCTC Scheme Meeting.

The Company will make arrangements to address the creditors' concerns / queries, and arrange for the adjourned KHL Scheme Meeting to be convened on a subsequent date before the moratorium expires in April 2020. The Company and KCTC will update the Company's creditors accordingly.

The discussion that follows compares the Financial Position as at 31 December 2019 with that of 31 December 2018

Current assets

Current assets decreased by \$\$35.1 million to \$\$95.4 million as at 31 December 2019.

The decrease was mainly due to the following:

- 1. Decrease in trade and other receivables of S\$30.0 million mainly due to impairment of trade and other receivables of S\$23.9 million, and collections during the year.
- Decrease in contract assets of S\$42.4 million mainly due to impairment loss of S\$20.7 million and billings to customers during the year.
- 3. Decrease in inventories of S\$3.1 million mainly due to sale of inventories during the year and inventories written down of S\$0.5 million under the Construction Division.

The above were partially offset by:

- 1. Increase in assets held for sale of S\$18.4 million which included one marine vessel (Reem Island) under Construction division and properties located in Johor, Malaysia which were previously classified as properties held for development under Property division.
- 2. Reclassification of non-current assets of Electric Power Generation division as current assets due to its classification as a disposal group held for sale in FY2019.

Non-current assets

Non-current assets decreased by S\$81.0 million to S\$15.1 million as at 31 December 2019 mainly due to the following:

- 1. Decrease in property, plant and equipment of S\$69.6 million. The decrease was mainly due to the following:
 - reclassification of property, plant and equipment of Electric Power Generation division to assets of disposal group classified as held for sale in FY2019;
 - b. disposal of property, plant and equipment including two marine vessels (Ogigo and Petra I),
 - c. reclassification of one marine vessel (Reem Island) as an asset held for sale; and
 - d. depreciation and impairment of property, plant and equipment.
- 2. Decrease in properties held for development by S\$14.2 million under the Property division due to reclassification to assets held for sale.

The above were partially offset by recognition of right-of-use assets of S\$3.0 million arising from the adoption of SFRS(I) 16 in FY2019.

INFORMATION REQUIRED FOR ANNOUNCEMENTS OF FULL YEAR RESULTS

Current liabilities

Current liabilities decreased by S\$1.5 million to S\$139.6 million as at 31 December 2019 mainly due to:

- 1. Decrease in current portion of finance lease obligations of S\$10.3 million mainly due to repayment of finance lease obligations during the year, including those relating to two marine vessels which were disposed during the year (Ogigo and Petra I).
- 2. Decrease in loans and borrowings of S\$5.6 million due to repayments made during the year.
- 3. Decrease in contract liabilities of S\$7.7 million mainly due to delivery of precast products during the year for which consideration had been received in advance from customers previously.
- Decrease in provision for share of a joint venture's losses of S\$10.4 million as the Group has capped its share of losses of Sindo-Econ Group to its cost of investment.

The above were partially offset by the following:

- Increase in provisions of S\$21.3 million mainly due to provisions for liquidated damages arising from the early termination of the project for the proposed design and build of vehicular bridge at Grade Road and other associated works at Pulau Punggol Barat.
- 2. Increase in lease liabilities of S\$1.5 million arising from the adoption of SFRS(I) 16 in FY2019.

Non-current liabilities

Non-current liabilities decreased by S\$19.4 million to S\$5.0 million as at 31 December 2019. This was mainly due to reclassification of non-current portion of finance lease obligations to current liabilities and repayments of finance lease obligations during the period. The decrease was partially offset by increase in lease liabilities of S\$1.6 million arising from the adoption of SFRS(I) 16 in FY2019.

The discussion that follows compares the Consolidated Statement of Cash Flows for the 12 months to 31 December 2019 (FY2019) with that of corresponding year to 31 December 2018 (FY2018)

Net cash flows from operating activities for FY2019 was S\$7.0 million. This was mainly due to working capital changes arising from operating activities.

Net cash flows from investing activities in FY2019 was S\$29.0 million. This was mainly due to cash inflow from disposal of property, plant and equipment and assets held-for-sale of S\$29.5 million, partially offset by purchase of property, plant and equipment of S\$0.4 million.

Net cash flows used in financing activities was \$\$33.5 million in FY2019. This was mainly due to net repayment of bank loans, bills payable, finance lease obligations and lease liabilities of \$\$31.4 million and interest payment of \$\$2.2 million.

Due to the above factors, the Group recorded cash and cash equivalents of S\$0.1 million as at 31 December 2019.

5. <u>If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of the change.</u>

The accounting policies adopted in the preparation of the financial statements for the current reporting period are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2018, except for the adoption of new standards and interpretations which are effective for annual periods beginning on or after 1 January 2019.

The Group has adopted the new Singapore Financial Reporting Standards (International) ("SFRS(I)") 16 Leases on 1 January 2019, using the modified retrospective approach. SFRS(I) 16 introduces a single, on-balance sheet lease accounting model. The rationale of the change is to better reflect the economic substance of lease transactions. It requires a lessee to recognise a right-of-use asset ("ROU") representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.

The Group has not restated comparatives for the 2018 reporting period as permitted under the specific transition provisions in SFRS(I) 16. The Group applied the practical expedient to grandfather the definition of lease on transition. This means that SFRS(I) 16 will be applied to all contracts entered into before 1 January 2019 which previously have been identified as "operating leases" under the principles of FRS 17 *Leases*.

ROU asset and its corresponding lease liability are recognised at the date at which the leased asset is available for use by the Group. They are measured at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate as at 1 January 2019.

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The ROU asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

In applying SFRS(I) 16 for the first time, the Group has used certain practical expedients permitted by the standard. On the adoption of SFRS(I) 16, the Group recognised ROU assets of S\$4.8 million and lease liabilities of S\$4.8 million on 1 January 2019 for the leases previously classified as operating leases. A depreciation expense on ROU assets of S\$1.6 million and finance cost of S\$0.2 million were charged to profit or loss of the Group for the financial year ended 31 December 2019.

The Group did not make any forecast or prospect statement previously disclosed to shareholders.

 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Building and Construction Authority estimated total construction demand in 2020 to range between S\$28.0 billion and S\$33.0 billion, comparable to the S\$33.4 billion awarded in 2019. Of this amount, public sector projects are expected to account for about 60% of total construction demand⁽¹⁾.

As at 31 December 2019, the Group's Construction and Precast divisions have outstanding order books of approximately \$\$43.8 million and \$\$2.6 million respectively.

The Construction and Precast divisions, the Group's two largest revenue contributors, continue to face a challenging operating environment, with intense competition and increased costs. This is exacerbated by the Group's tight liquidity which has resulted in higher costs and disruption to our various projects both in the Construction and Precast divisions.

In view of the current situation, the Group has embarked on a major restructuring and realignment exercise since mid 2019. The Group has appointed various professionals to assist in the implementation of such a restructuring and realignment exercise, and the sale of its two non-core businesses, namely the Property and Electric Power Generation divisions. Non-productive or idling plant and equipment have also been progressively disposed or have been scheduled to be disposed. These will free up cash which is needed as working capital for existing projects as well as for repayment to existing creditors.

In addition, in order to return to profitability and improve operating cash flow, the Group has also undergone various costscutting measures such as reduction of its headcount and streamlining of its operations to improve efficiency and effectiveness

The Company and its subsidiary, Koon Construction & Transport Co., Pte. Ltd. ("KCTC"), are proposing schemes of arrangements with their creditors, namely the Koon Holdings Limited Scheme ("KHL Scheme") and the ("KCTC Scheme").

Before the commencement of the KHL Scheme Meeting on 25 February 2020, a major creditor requested that the KHL Scheme Meeting be adjourned as it would like to be provided with more information before committing to its vote. The proposed adjournment was put to the creditors present and voting, and the KHL Scheme Meeting was adjourned to a later date to be determined.

Separately, KCTC also held the KCTC Scheme Meeting on 25 February 2020. The KCTC Scheme was approved by a majority in number representing at least three-fourths in value of the creditors present and voting at the KCTC Scheme Meeting.

The Company will make arrangements to address the creditor's concerns / queries, and arrange for the adjourned KHL Scheme Meeting to be convened on a subsequent date before the moratorium expires in April 2020. The Company and KCTC will update the Company's creditors accordingly.

The Group has also received expression of interests from various strategic parties and potential investors on possible restructuring exercises. Appropriate announcement(s) setting out details of the foregoing will be released once there are further details.

11. <u>In the review of performance, the factors leading to any material changes in contributions to turnover and earnings by the business or geographical segments.</u>

Business Segments: -

Revenue - Construction

Revenue of Construction division decreased by 50.1% to S\$41.1 million in FY2019. This was mainly due to lower revenue recognition in FY2019 from the following:

- a. completed projects such as sand mining and rock works at caisson quay wall at proposed reclamation at Tuas Finger One;
- b. completing projects including (i) improvement to Sungei Pandan Kechil (West Coast Road to the sea) and (ii) earthworks and construction of roads, drains and sewers at Sengkang West; and
- c. projects which were ceased or terminated during the year including (i) proposed design and build of vehicular bridge at Grade Road and other associated works at Pulau Punggol Barat and (ii) land preparation works for airport development project under POC-K JV.

The above decrease was partially offset by higher revenue recognition from the project for the new road connections at Seletar Link and widening of TPE between Jalan Kayu and Punggol West flyovers.

Revenue - Precast

Revenue of Precast division increased by 76.6% to S\$54.5 million in FY2019. This was mainly due to higher sales volume of precast products as compared to FY2018.

Earnings - Construction

Construction division recorded significant higher losses in FY2019 due to negative gross margin from construction contracts, and impairment of financial and non-financial assets.

Earnings - Precast

Precast division recorded significant higher losses in FY2019 due to impairment of financial and non-financial assets.
