

# Net Tangible Assets & Monthly Investment Report

## Company commentary

- Markets sell off on fears of a global pandemic
- Opportunities are showing signs of emerging

As investors are well aware, markets fell sharply in the last week of February. Equity market declines were experienced broadly, taking in industries and markets globally.

In accordance with our prior statements, our invested position had been reducing prior to the market falls. Specifically, however, amid the market turmoil in the month we added to a number of positions, one of which was European testing and inspection provider Applus Services.

Applus is a recent addition to the portfolio and provides a good case-in-point of how market fear can create

investment opportunities for those with a longer term horizon. During the last week of February Applus reported strong year-end results, rising over 7% on the day, but nonetheless the stock got caught up in the negative market sentiment and ended the week down 6%.

We believe Applus is unlikely to be severely affected by the coronavirus outbreak. Testing, inspection and certification is a relatively stable business as government legislation often mandates the need for the service. An example is statutory vehicle inspection for safety and environmental compliance, for which Applus is the second largest competitor globally.

Net Tangible Asset (NTA) backing per ordinary share (After fees and expenses, all figures are unaudited) <sup>1</sup>	February 2020 (cum) <sup>4</sup>
NTA before tax accruals <sup>2</sup>	<b>\$ 1.3313</b>
NTA after tax <sup>3</sup>	<b>\$ 1.2795</b>

Company performance (net of fees) <sup>4</sup>	1 Month	1 Year	3 Years p.a.	5 Years p.a.	Since inception p.a.	Total Return
PM Capital Global Opportunities Fund	<b>-4.7%</b>	<b>9.0%</b>	<b>11.5%</b>	<b>8.4%</b>	<b>11.0%</b>	<b>91.7%</b>

1. Past performance is not a reliable indicator of future performance. 2. NTA before tax accruals does not include franking credits. Franking credits per share are \$0.053. 3. <sup>^^^</sup> Stated as effective exposure.

PM Capital Limited (‘the Manager’), founded in 1998, is a leading Australian based fund manager that has successfully achieved its goal of building long term wealth for its clients by investing in global markets with patience and conviction.

#### Company profile

The PM Capital Global Opportunities Fund Limited (ASX:PGF, ACN 166 064 875), which began trading of the ASX on 12 December 2013, provides investors with an opportunity to invest in global equities via an Australian Securities Exchange (ASX) listed investment company.

Managed by PM Capital (AFSL 230222), the aim is to create long term wealth through a concentrated portfolio of around 40 global companies that it believes are trading at prices different to their intrinsic values.

PM Capital has been operating its global investment strategy via an unlisted fund since October 1998. This unlisted fund's performance adjusted to reflect PGF's fee structure has produced a total pre-tax return of 691% vs the MSCI World Net Total Return Index (AUD) of 194% to 29 February 2020.

#### Manager's comparable track record

#### Who manages the Company's portfolio?

The Portfolio Manager for the Fund and CIO is Paul Moore. Paul is supported by a team of experienced investment analysts.

#### Investment philosophy

PM Capital aims to build long term wealth together with our co-investors by finding

and exploiting investment anomalies around the world. Using a focused, patient and considered approach to finding simple investment ideas produces the best environment for creating that long term wealth.

Our experience has shown us that while the market is largely efficient, it can, and regularly does, misprice a small proportion of companies. Our unique process is based on scanning the world for those companies (hence the radar in our logo), discovering the associated valuation anomalies and extracting value from them. We buy good businesses at a good price; businesses that we believe are being valued differently to their long term intrinsic value, but will return to their correct value over time.

#### Why the PM Capital Global Opportunities Fund Limited?

**Established:** The Company's process has been shown to be effective, based on a philosophy developed by Paul Moore, over 34 years.

**Unrestricted:** We have an authentic investment process where our exposure to countries, industry sectors or market capitalisation is determined solely by our conviction in the risk/reward opportunities that we identify in individual stocks. No conviction at the stock level = no investment.

**Opportunistic and focused:** The Company's portfolio is not built around a general market benchmark or index - it is highly focused based on our fundamental, bottom-up investment process. The portfolio only holds those stocks that we believe give the best opportunity to produce strong long term returns.

**Co-investment:** The Manager has a significant investment in the Company - it invests with and for you.

#### Key Company Details

##### ASX Code

PGF

##### ACN

166 064 875

##### Trading commenced

12 December 2013
