MARKET ANNOUNCEMENT

Continuous Disclosure

Material Contract Disclosure: Largest deal in IR's Corporate History

Sydney, March 12, 2020

Integrated Research (**ASX: IRI**) is pleased to announce a significant renewal and extension software licence agreement with JP Morgan Chase, for a total contract value of US\$10 million. The contract is a binding agreement with a term of 5 years, for products in our Payments and Infrastructure portfolio.

JP Morgan Chase has been a customer of IR for over 25 years, with the IR Prognosis solution providing real-time payment transaction data to support business-critical decisions. Recent innovations and enhancements delivered in the 11.7 release of IR Prognosis, were instrumental in the decision by JP Morgan Chase to extend its relationship with IR.

“This contract is further validation of the mission critical nature of IR solutions with major enterprises.” said John Ruthven, Chief Executive Officer, IR. “We appreciate the trust that our customers place in IR as we help them simplify the complexities of delivering frictionless payment transactions to their customers.”

By authority of the Board

David C Purdue
Company Secretary
