

Zoono Group Limited (ASX: ZNO) ASX ANNOUNCEMENT

23rd March 2020

Zoono Update

The New Zealand Government has today ordered the shutdown of all non-essential businesses and services.

As Zoono's antimicrobial products and services are a vital and growing part of the fight against the COVID-19 virus across business and the wider community, including healthcare, aged care, food production, government and personal health and hygiene, Zoono falls into the category of being an essential service and therefore will not be shut down.

With demand for Zoono's products increasing globally, Zoono has now commenced manufacturing significant quantities of its products in the UK and USA. To date, there have been no significant delays or upsets to its supply chains. Zoono is expecting this scenario to continue, but as would be expected in the current circumstances, no guarantee can be given that this will remain the case.

This announcement has been authorised and approved for release to ASX by the Board of Zoono Group Limited.

About Zoono

Zoono Group Limited is a global biotech company that develops, manufactures and distributes a suite of scientifically-validated, long-lasting and environmentally-friendly antimicrobial solutions. Zoono's mission is to improve health and well-being through innovative, safe, non-toxic and durable germ protection.

Zoono produces sprays, wipes and foams suited for skin care, surface sanitisers, and mould remediation treatments. The products are based on the 'zoono molecule', a unique antimicrobial molecule that bonds to any surface and kills pathogens including bacteria, viruses, algae, fungi and mould.

Zoono's products have received numerous regulatory approvals and the company's technology claims are supported by independent testing conducted in laboratories worldwide. Zoono is headquartered in New Zealand and its products are available globally.
