

## WEBINAR: Investment update and market commentary

With exploding volatility, extensive business disruption, and unprecedented levels of uncertainty, it is more important than ever for financial planners and investors alike to educate themselves on market risks and opportunities from professional active managers who have the resources, research teams, and years of experience managing investments in their specialty categories to be able to provide clear and insightful commentary on the markets and how they are managing their respective portfolios.

In this webinar, the Pengana International Equities team will provide insight into their market outlook, and the risks and opportunities that have emerged for our portfolio in the current environment.

There will be ample time to ask questions following the presentation.
