

23 April 2020: ASX RELEASE

Appendix 4C – Q3 FY2020

MSL Solutions Limited (ASX: MPW) ("MSL or "the Company") has today lodged its Appendix 4C cash flow report for the quarter ended 31 March 2020.

The cash flow results for Q3 FY2020 are attached and shows positive cashflow from Operating Activities of \$37k and overall positive cashflow of \$13k for the quarter. These results represent strong progress during the quarter against the Company's stated objective to return the business to positive operating cashflow and profitability.

Q3 FY 2020 results are largely unaffected by the impact of COVID-19 on the broader economy and to the sectors in which MSL operates. The business right sizing and cash improvements undertaken by the Company during Q2 and Q3 FY20 allowed a rapid response to managing our cost base in line with an expected decrease in revenue as a consequence of COVID-19's economic impact. These responses were detailed in our announcements dated 20 and 26 March 2020 respectively.

Further to those announcements, the Golf business continues to remain largely unaffected with revenues generated by Golf membership rather than Golf activities. The Company has identified further reductions in its operating cost base with the permanent reduction in salary costs via the planned departure of a number of resources (including contracting staff located outside of Australia and UK), resulting in a monthly decrease of \$80K. A review of IT and infrastructure costs and the consolidation of property leases are expected to yield further reductions in operating expenses over the next two quarters.

The Company will continue to closely monitor developments in relation to COVID-19 across its global operations including its eligibility to Government subsidies and support across the countries in which we operate.

The Company intends to access the Australian Federal Government Job Keeper program and the UK Coronavirus Job Retention Scheme. As detailed in the attached Appendix 4C, the Company has also been granted a debt repayment deferral with Westpac for six months in relation to its loan facility.

The Company is confident its balance sheet and available working capital provides a solid financial position and operational flexibility to resume full operations when the current community and business restrictions begin to lift.

Approved for distribution by the Board of Directors of MSL Solutions Limited.
