### 3 CHAIRMAN'S LETTER

Dear Shareholder,

On 20 May 2020 the Company announced a capital raising comprising a two-tranche placement (**Placement**) and a non-renounceable rights issue (**Offer**) to raise together up to approximately \$1.18 million (before costs) through the issue of Shares for \$0.003, with 1 New Option (\$0.003, expiring 31 December 2021) for every 3 Shares issued. Funds will be used primarily for exploration, including completing a Scoping Study at its Steam Engine Gold Deposit, and for working capital.

The capital raising follows the positive market response to the recent upgrade of Steam Engine's gold resource (refer ASX announcement 4 May 2020) and strong investor support for the fully subscribed placement, amid record high Australian dollar gold prices.

Tranche 1 of the Placement is for 111,812,810 Shares (\$335,438.43) and is made using the Company's 15% capacity. Tranche 1 is expected to complete on 27 May 2020. The remaining 33,087,190 Shares (\$99,261.57) and 48,300,000 New Options will be issued subject to Shareholder approval to be sought at a meeting in late June 2020.

We have been very pleased with the level of support and strong demand received during the placement. This has given us confidence that we will be sufficiently funded to complete a Scoping Study on the Steam Engine Gold Deposit and establish a maiden high grade copper resource at Wyandotte.

Given the forecasts for sustained high gold prices, a near-term development focus at Steam Engine, potentially supplemented by Wyandotte, is an ideal strategy to realise and retain the substantial value potential presented by our Tier-1 projects.

In addition to Steam Engine and Wyandotte, we are planning a low-cost maiden exploration program at the high-impact Big Mag sulphide nickel-copper target, which at about 80 square kilometres in size represents enormous potential.

These are exciting times for Superior and I would like to thank shareholders for their support as we look ahead to reaching new milestones in 2020 and increasing shareholder value.

There are risks in investing in the Company, including that the Company's projects are early stage exploration projects which carry significant exploration risk, the risk that the Company may raise less than full subscription under the Offer, and ongoing requirements for additional funding. See section 6 for details.

Directors will be participating in the Offer.

I recommend the Offer to you.

Carlos Fernicola  
Chairman  
Superior Resources Limited

## 6 RISK FACTORS

This section identifies the major risks the Board has identified regarding an investment in the Company. The Company's business is subject to risk factors, both specific to its business activities, and risks of a general nature. Individually, or in combination, these might affect the future operating performance of the Company and the value of an investment in the Company. There can be no guarantee that the Company will achieve its stated objectives or that any forward looking statements will be achieved. An investment in the Company should be considered in light of relevant risks, both general and specific. Each of the risks set out below could, if it eventuates, have a material adverse impact on the Company's prospects, and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

Before deciding to invest in the Company, potential investors should:

- (a) read the entire Prospectus;
- (b) consider the assumptions underlying any forward looking statements;
- (c) review these factors in light of their personal circumstances; and
- (d) seek professional advice from their accountant, stockbroker, lawyer or other professional adviser before deciding whether to invest.

### 6.2 Risk specific to the Offer

- (a) No minimum subscription

The Offer is not subject to a minimum subscription. Whilst the Directors believe funds raised under the Placement will be sufficient for the Company to carry out some of its exploration objections, there is a risk that these funds may not be sufficient.

- (b) Future funding and ability to continue as a going concern

Funds raised from the Offer will be used for the purposes mentioned under section 5.2 of the prospectus. Whilst the Company believes that the amount raised under the Placement will be sufficient to carry out certain exploration and development activities, additional funding will be required to continue both existing and proposed activities. Raising additional capital may be dilutive to existing Shareholders.

- (c) Dilution

Shareholders who do not take up their Entitlement will have their holding in the Company diluted. Details of dilution are set out in section 5.6 above.

- (d) Completion of Placement

Tranche 1 of the Placement is for 111,812,810 Shares and is made using the Company's 15% capacity. Tranche 1 is expected to complete on 27 May 2020. The remaining 33,087,190 Share and 48,300,000 New Options will be issued subject to Shareholder approval to be sought at a meeting in late June 2020, and after the Offer has closed.

The Offer is not conditional upon the Placement completing and whilst considered unlikely there is a risk that the Placement may not complete.

### **6.3 Specific Investment Risks**

#### **(a) Exploration success**

To date, the Company has undertaken varying degrees of limited exploration work on its Greenvale and North West Queensland Projects. The exploration work can be summarily described as investigative and follow-up mineral exploration work. With respect to the Steam Engine Gold Deposit and the Cockie Creek Prospect, more advanced stage mineral resource estimation work has been undertaken, resulting in the establishment of mineral resource estimates.

No assurance can be given that further exploration work will be successful or that a commercial mining operation will eventuate.

The ultimate success and financial viability of the Company depends on the discovery and delineation of economically recoverable Ore Reserves, design and construction of efficient mining and processing facilities and competent operational and managerial performance.

There is no assurance that exploration and development of the mineral interests held by the Company, or any other projects that may be acquired by the Company in the future, will result in the discovery of an economic deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be profitably exploited.

The development of a commercial mining operation is also dependent on the Company's ability to obtain necessary titles and governmental and other regulatory approvals.

#### **(b) Mineral Resource estimates**

The Company has announced Mineral Resource Estimates in respect of its Steam Engine Gold Deposit (reported in compliance with the JORC Code 2012) and Cockie Creek Prospect (reported in compliance with the JORC Code 2004).

These are expressions of judgement based on knowledge, experience and industry practice (refer to the JORC Code for further information on resource estimation). Estimates that were valid when originally made may alter significantly when additional information obtained from further resource drilling and modelling becomes available.

In addition, by their very nature, resource estimates are imprecise and depend on interpretations which may prove to be inaccurate, and whilst the Company will employ industry-standard techniques including compliance with the JORC Code to reduce the resource estimation risk, there is no assurance that this approach will alter the risk. As further information becomes available, resource estimates may change. This may result in alterations to mining and development plans which may in turn adversely affect the Company.

#### **(c) Native Title and access risk**

The Company's exploration and mining activities in Australia are derived from rights and interests that are provided by validly granted mining and exploration tenements

that it holds. The valid grant and renewal of these tenements are subject to compliance with statutory procedures under the *Native Title Act 1993* (Cth) and associated laws relating to Native Title and aboriginal land. The exercise of rights under the tenements may be affected by laws relating to aboriginal cultural heritage, such as the *Aboriginal Cultural Heritage Act 2003* (Qld) and the *Aboriginal and Torres Strait Islander Heritage Protection Act 1984* (Cth).

The Company's current and future exploration and mining activities can be affected by native title claims and determinations, aboriginal land claims and related compensation claim considerations.

The Company may also be required to comply with conditions imposed on the exploration and mining tenement titles or separately negotiated cultural heritage agreements, which require heritage survey work to be undertaken ahead of the commencement of exploration and mining activities. It is possible that aboriginal sites of cultural significance may be found within tenements held by the Company, which may preclude, delay or introduce additional costs in respect of the conduct of the exploration and mining activities.

In addition, before mining operations can be conducted, the Company will need to hold or be granted a mining lease granted under the *Mineral Resources Act 1989* (Qld). Before a mining lease can be granted validly with respect to native title, the Company must comply with statutory procedures under the *Native Title Act 1993* (Cth), which provide registered native title claimants and registered native title holders with a right to negotiate about the grant of the mining lease. This statutory procedure may introduce delays or additional costs to the grant of the mining lease.

(d) Environmental risks

The operations and proposed activities of the Company are subject to State and Federal laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are likely to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety, damage to the environment and the disposal of waste products. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in delay to anticipated exploration programs or mining activities.

(e) Commodity prices

As an explorer for gold, copper, zinc, lead, cobalt and potentially other minerals, any earnings of the Company are expected to be closely related to the price of these commodities.

Commodities prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include worldwide and regional supply and demand for commodities, general world economic conditions and the outlook for interest rates, inflation and other economic factors on both a regional and global basis. These factors may have a positive or negative effect on the Company's exploration, project development and production plans and activities, together with the ability to fund those plans and activities.

(f) Future capital needs and additional funding

The Company recorded a net loss of \$459,381 and a net outflow from operating activities of \$233,792 for the half year ending 31 December 2019. As at 31 December 2019, it had approximately \$214,123 cash on hand.

The Company's ability to raise further capital (equity or debt) within an acceptable time, of a sufficient amount and on terms acceptable to the Company will vary according to a number of factors, including exploration success and market (equity and commodity) conditions.

If the Company is required, or chooses, to advance the Company's projects beyond the completion of those stated objectives, the Company will require additional funding to progress its projects beyond the work programs identified in this Prospectus. There is no assurance that the Company will be able to access this funding on favourable terms or at all. If adequate funds are not available on acceptable terms the Company may not be able to further develop its projects and it may impact on the Company's ability to continue as a going concern.

(g) Reliance on key personnel and consultants

The Company's success largely depends on the core competencies of its Directors, management and third party consultants and their familiarisation with, and ability to operate in, the exploration industry. The financial performance of the Company and the value of an investment in the Company partly depend on the ability of the Company to retain these key personnel and consultants.

(h) Insurance

The Company, where economically feasible, insures its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance, if obtained, may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a negative effect on the financial performance of the Company and the value of an investment in the Company.

(i) Speculative Nature of Investment

Any potential investor should be aware that subscribing for Shares involves various risks. The Shares to be issued pursuant to the Offer carry no guarantees with respect to the payment of dividends, return of capital or market value. The success of the Company is dependent on exploration success and the completion of technical studies that demonstrate the economic viability of its exploration assets. An investment in the Company should therefore be considered speculative in nature.

#### **6.4 General Investment Risks**

##### **(a) Share Market Investments**

It is important to recognise that the price of Shares may rise or fall, and they might trade at prices below or above the Offer Price. There can also be no assurance that an active trading market will develop for the Shares.

Factors affecting the price at which the Shares are traded on ASX could include domestic and international economic conditions. In addition, the prices of many listed entities' securities are affected by factors that might be unrelated to the operating performance of the relevant company. Those fluctuations might adversely affect the price of the Shares.

##### **(b) General Economic Conditions**

The Company's operating and financial performance is influenced by a variety of general economic and business conditions including the level of inflation, interest rates and government fiscal, monetary and regulatory policies. Prolonged deterioration in general economic conditions, including an increase in interest rates, could be expected to have a corresponding adverse impact on the Company's operating and financial performance.

##### **(c) Taxation Risks**

Changes to the rate of taxes imposed on the Company (including in overseas jurisdictions in which the Company operates now or in the future) or tax legislation generally may affect the Company and its Shareholders. In addition, an interpretation of Australian taxation laws by the Australian Taxation Office that differs to the Company's interpretation may lead to an increase in the Company's taxation liabilities and a reduction in Shareholder returns.

Personal tax liabilities are the responsibility of each individual investor. the Company is not responsible either for taxation or penalties incurred by investors.

## **7.2 Subscribe for all or part of your Entitlement**

Applicants should read this Prospectus in its entirety in order to make an informed decision on the prospects of the Company and the rights attaching to the New Shares and attaching Options offered by this Prospectus before deciding to apply for New Shares. If you do not understand this Prospectus you should consult your stockbroker, accountant or other professional adviser in order to satisfy yourself as to the contents of this Prospectus.

If you wish to subscribe for all or part of your Entitlement, complete the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on that form. The Entitlement and Acceptance Form sets out the number of New Shares you are entitled to subscribe for.

## **7.3 Subscribe for all of your Entitlement and apply for Shortfall Shares**

Eligible Shareholders who take up their Entitlement in full may, in addition to their Entitlement, apply for Shortfall Shares regardless of the size of their present holding by completing the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on that form. See section 8.5 for details of the manner in which Shortfall Shares will be allocated.

A cheque, bank draft or money order should be used for the application money for your Entitlement and the number of Shortfall Shares you wish to apply for as stated on the Entitlement and Acceptance Form.

Alternatively, if you are paying by BPAY®<sup>1</sup>, refer to your personalised instructions on your Entitlement and Acceptance Form. Shareholders who wish to pay by BPAY must ensure that payment is received by no later than 5pm AEST on the Closing Date.

Any refund of application monies will be returned to Applicants as soon as practicable following the issue of all Shortfall Shares.

## **7.4 Allow all or part of your Entitlement to lapse**

If you are an Eligible Shareholder and do not wish to accept all or part of your Entitlement, you are not obliged to do anything.

If you take no action, your Entitlement will lapse. You will receive no benefit or New Shares and your Entitlement will become Shortfall Shares.

The number of Existing Shares you hold as at the Record Date and the rights attached to those Existing Shares will not be affected if you choose not to accept any of your Entitlement.

## **7.5 Payment methods**

### ***BPAY***

If you are paying by BPAY, refer to your personalised instructions on your Entitlement and Acceptance Form. Shareholders who wish to pay by BPAY do not need to complete and return the Entitlement and Acceptance Form; however must ensure that payment is received by no later than 5.00pm AEST on the Closing Date.

---

<sup>1</sup> Registered to BPAY Pty Ltd ABN 69 079 137 518

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY are received by 5.00pm AEST on the Closing Date.

If you have more than one shareholding and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those shareholdings only use the Customer Reference Number specific to that shareholding as set out in the applicable Entitlement and Acceptance Form. Do not use the same Customer Reference Number for more than one of your shareholdings. This can result in your application monies being applied to your Entitlement in respect of only one of your shareholdings (with the result that any application in respect of your remaining shareholdings will not be recognised as valid).

The Company shall not be responsible for any postal or delivery delays or delay in the receipt of the BPAY payment.

#### **Cheque, bank draft or money order**

Alternatively, if you are paying by cheque, bank draft or money order, the completed Entitlement and Acceptance Form must be accompanied by a cheque, bank draft or money order made payable to 'Superior Resources Limited' and crossed 'Not Negotiable' for the appropriate application money in Australian dollars calculated at \$0.003 per New Share accepted. Your cheque, bank draft or money order must be paid in Australian currency and be drawn on an Australian branch of an Australian financial institution. The Company will present the cheque or bank draft on the day of receipt of the Entitlement and Acceptance Form. You must ensure that your cheque account has sufficient funds to cover your payment, as your cheque will be presented for payment on receipt. If your bank dishonours your cheque your application will be rejected. Dishonoured cheques will not be represented.

If the amount of your cheque(s), bank draft(s) or money order(s) for application money (or the amount for which those cheque(s) or bank draft(s) clear in time for allocation) is insufficient to pay for the number of New Shares you have applied for in your Entitlement and Acceptance Form, you may be taken to have applied for such lower number of New Shares as your cleared application money will pay for (and to have specified that number of New Shares in your Entitlement and Acceptance Form) or your Application may be rejected.

The Entitlement and Acceptance Form must be received by the Company at the following addresses by no later than 5.00pm (AEST) on the Closing Date:

#### **7.6 Entitlement and Acceptance Form is binding**

Receipt of a completed and lodged Entitlement and Acceptance Form together with a cheque, bank draft or money order for the application monies, or by making a payment in respect of

an Application by BPAY, constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Prospectus and, once lodged, cannot be withdrawn.

By completing and returning your Entitlement and Acceptance Form with the requisite application monies, or by making a payment in respect of an Application by BPAY, you will be deemed to have represented that you are an Eligible Shareholder. In addition, you will also be deemed to have represented and warranted on behalf of yourself or each person on whose account you are acting that the law in your place of residence and/or where you have been given the Prospectus, does not prohibit you from being given the Prospectus and that you:

- (a) agree to be bound by the terms of the Offer;
- (b) declare that all details and statements in the Entitlement and Acceptance Form are complete and accurate;
- (c) declare that you are over 18 years of age and have full legal capacity and power to perform all your rights and obligations under the Entitlement and Acceptance Form;

- (e) declare that you are the current registered holder of Shares and are an Australian or New Zealand resident, and you are not in the United States or a US Person, or acting for the account or benefit of a US Person;
- (f) acknowledge that the information contained in, or accompanying, the Prospectus is not investment or financial product advice or a recommendation that New Shares are suitable for you given your investment objectives, financial situation or particular needs; and
- (g) acknowledge that the New Shares have not, and will not be, registered under the securities laws in any other jurisdictions outside Australia and New Zealand and accordingly, the New Shares may not be offered, sold or otherwise transferred except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of applicable securities laws in particular the US Securities Act.

The Entitlement and Acceptance Form does not need to be signed to be a valid application. An Application will be deemed to have been accepted by the Company upon the issue of the New Shares.

If the Entitlement and Acceptance Form is not completed correctly or if the accompanying payment of the application monies is for the wrong amount, it may still be treated as a valid application for New Shares. The Directors' decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final. However, an Applicant will not be treated as having applied for more Shares than is indicated by the amount of the application monies received by the Company.

## **8 DETAILS OF THE OFFER**

### **8.1 Shares offered for subscription**

By this Prospectus the Company makes a non-renounceable pro rata offer to Eligible Shareholders on the basis of 1 New Share for every 3 Existing Shares held as at the Record Date at a price of \$0.003 per New Share, with 1 New Option for every 3 New Shares issued, to raise up to approximately \$745,000 before issue costs. Fractional entitlements will be rounded down to the nearest whole number.

The Offer is only open to Eligible Shareholders. The Company reserves the right to reject any application that it believes comes from a person who is not an Eligible Shareholder.

Details of how to apply for New Shares are set out at section 7.

All New Shares offered under this Prospectus will rank equally with Existing Shares. The rights and liabilities of the New Shares offered under this Prospectus are summarised in section 9.

### **8.2 Minimum subscription**

The Offer is not subject to a minimum subscription.

### **8.3 Acceptances**

This Offer may be accepted in whole or in part prior to the Closing Date subject to the rights of the Company to extend the Offer period or close the Offer early.

Instructions for accepting your Entitlement are set out in section 7 and on the Entitlement and Acceptance Form which accompanies this Prospectus.

### **8.4 Entitlement to Offer**

The Offer is made to Eligible Shareholders, who are those Shareholders that:

- (a) are the registered holder of Shares as at 7.00pm (AEST) on the Record Date; and
- (b) have a registered address in Australia or New Zealand.

### **8.5 Shortfall**

Any New Shares not applied for under the Offer will become Shortfall Shares. The Directors reserve the right to issue any Shortfall Shares at an issue price of no less than the Price at their discretion within 3 months after the Closing Date (**Shortfall Offer**).

The Shortfall Offer is, to the extent it is made in Australia, made under this Prospectus. To the extent the Shortfall Offer is made outside Australia, the Shortfall Offer is made without disclosure, a prospectus, lodgement, filing or registration, or other requirements of any applicable securities law, and only in circumstances where it is lawful to do so (such as to institutional or sophisticated investors).

Eligible Shareholders may apply for Shortfall Shares by completing the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on that form. Other investors who are not Eligible Shareholders may apply for Shortfall Shares using the Shortfall Application Form attached to this Prospectus. Persons outside Australia doing so

represent to the Company that they can apply for Shortfall Shares in circumstances which do not require the offer for Shortfall Shares or this Prospectus to be registered.

It is possible that there may be no Shortfall Shares available for issue.

Subject to the above, the Directors reserve the right at their absolute discretion and subject to the Corporations Act and Listing Rules, to:

- (a) issue Shortfall Shares at their discretion by applying a policy of allocating Shortfall Shares in a manner that is in the Company's best interests; and
- (b) to reject any application for Shortfall Shares or to issue a lesser number of Shortfall Shares than that applied for.

It is an express term of the Shortfall Offer that applicants for Shortfall Shares will be bound to accept a lesser number of Shortfall Shares allocated to them than applied for. If a lesser number is allocated, excess application money will be refunded without interest as soon as practicable after the Closing Date.

#### **8.6 New Zealand Shareholders**

The Offer contained in this Prospectus to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the Securities Act (Overseas Companies) Exemption Notice 2013 (New Zealand). Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any New Shares. This Prospectus has not been registered, filed or approved by any New Zealand regulatory authority. This Prospectus is not an investment statement or prospectus under New Zealand law and is not required to, and may not, contain all the information that an investment statement or prospectus under New Zealand law is required to contain.

#### **8.7 Treatment of Ineligible Shareholders and sale for Ineligible Shareholders' Entitlement**

Given the small number of Ineligible Shareholders and the cost of complying with applicable regulations outside Australia and New Zealand, the Company has decided that it would be unreasonable to extend the Offer to Ineligible Shareholders. The Prospectus will not be sent to those Shareholders.

This Prospectus does not constitute an offer of securities in any jurisdiction where, or to any person to whom, it would not be lawful to issue the Prospectus or make the Offer. No action has been taken to register or qualify the New Shares or the Offer or otherwise to permit an offering of the New Shares in any jurisdiction other than as set out in this section.

This document is not for publication or distribution, directly or indirectly, in or into the United States of America (including its territories and possessions, any state of the US and the District of Columbia). This document is not an offer of securities for sale into the United States or to, or for the account or benefit of, US Persons. The securities referred to herein have not been and will not be registered under the US Securities Act, and may not be offered or sold in the United States or to, or for the account or benefit of, US Persons. No public offering of securities is being made in the United States.

Recipients may not send or otherwise distribute this Prospectus or the Entitlement and Acceptance Form to any person outside Australia or New Zealand (other than to Eligible Shareholders).

## **8.8 Beneficial holders, nominees, trustees and custodians**

The foreign selling restrictions under the Offer summarised in section 8.7 of this Prospectus apply to the underlying beneficial holder. Nominees, trustees and custodians must not apply on behalf of any beneficial holder that would not itself be an Eligible Shareholder. Shareholders who are nominees, trustees or custodians are advised to seek independent advice as to how they should proceed. Shareholders who hold Shares on behalf of persons whose registered address is not in Australia or New Zealand are responsible for ensuring that applying for New Shares does not breach securities laws in the relevant overseas jurisdictions.

Nominees and custodians that hold Shares should note that the Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of securities. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offer is compatible with applicable foreign laws.

## **8.9 Allotment and application money**

New Shares will be issued only after all application money has been received and ASX has granted permission for the New Shares to be quoted. It is expected that New Shares will be issued on 25 June 2020 and normal trading of the New Shares on ASX is expected to commence on 26 June 2020.

All application monies will be deposited into a separate bank account of the Company and held in trust for Applicants until the Shares are issued or application monies returned. Any interest that accrues will be retained by the Company and will not be paid to Applicants.

## **8.10 Quotation**

The Company will apply to ASX within 7 days after the date of this Prospectus for quotation of the New Shares offered by this Prospectus on ASX. If ASX does not grant permission for the quotation of the New Shares offered under this Prospectus within 3 months after the date of this Prospectus, or such longer period as modified by ASIC, none of the New Shares offered by this Prospectus will be allotted or issued. In these circumstances, all Applications will be dealt with in accordance with the Corporations Act including the return of all application monies without interest.

A decision by ASX to grant official quotation of the New Shares is not to be taken in any way as an indication of ASX's view as to the merits of the Company or of the New Shares.

Quotation, if granted, of the New Shares offered by this Prospectus will commence as soon as practicable after statements of holdings of the New Shares are dispatched.

## **8.11 Market prices of Existing Shares on ASX**

The highest and lowest market sale price of the Existing Shares, which are on the same terms and conditions as the New Shares being offered under this Prospectus, during the 3 months immediately preceding the lodgement of this Prospectus with the ASIC, and the last market sale price on the date before the lodgement date of this Prospectus, are set out below.

3 month high	3 month low	Last market sale price
--------------	-------------	------------------------

Price (\$)	\$0.005	\$0.002	\$0.004
Date	5 May 2020	23 March 2020	8 May 2020

#### 8.12 CHESS

The Company participates in the Clearing House Electronic Subregister System (**CHESS**). CHESS is operated by ASX Settlement Pty Ltd (**ASPL**), a wholly owned subsidiary of ASX.

Under CHESS, the Company does not issue certificates to investors. Instead, security holders will receive a statement of their holdings in the Company, including New Shares issued under this Prospectus. If an investor is broker sponsored, ASPL will send a CHESS statement.

The CHESS statement will set out the number of New Shares issued under this Prospectus, provide details of your holder identification number and give the participation identification number of the sponsor.

If you are registered on the issuer sponsored sub register, your statement will be dispatched by the Company's share registrar and will contain the number of New Shares issued to you under this Prospectus and your security holder reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

#### 8.13 Taxation and duty implications

The Directors do not consider that it is appropriate to give Shareholders advice regarding the taxation consequences of the Company conducting the Offer or Shareholders applying for New Shares under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation positions of Shareholders. The Company, its advisers and officers, do not accept any responsibility or liability for any taxation consequences to Shareholders in the Offer. Shareholders should, therefore, consult their own professional tax adviser in connection with the taxation implications of the Offer.

No brokerage or stamp duty is payable by Applicants in respect of Applications for New Shares under this Prospectus.

#### 8.14 Privacy

The Company collects information about each Applicant provided on an Entitlement and Acceptance Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant's security holding in the Company.

By submitting an Entitlement and Acceptance Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Entitlement and Acceptance Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related body corporates, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

The Corporations Act requires the Company to include information about the Shareholder (including name, address and details of the Shares held) in its public register. The information contained in the Company's public register must remain there even if that person ceases to be a Shareholder. Information contained in the Company's register is also used to facilitate distribution payments and corporate communications (including the Company's financial results, annual reports and other information that the Company may wish to communicate to its security holders) and compliance by the Company with legal and regulatory requirements.

If you do not provide the information required on the Entitlement and Acceptance Form, the Company may not be able to accept or process your Application. An Applicant has the right to gain access to the information that the Company holds about that person subject to certain exceptions under law. A fee may be charged for access. Such requests must be made in writing to the Company's registered office.

- (j) Winding up

Subject to the Corporations Act, the ASX Listing Rules and any rights or restrictions attached to a class of shares, on a winding up of the Company any surplus must be divided among the shareholders of the Company.

(k) Shareholder liability

As the Shares offered under the Prospectus are fully paid Shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(l) Alteration to the Constitution

The Constitution can only be amended by a special resolution passed by at least three quarters of shareholders present and voting at the general meeting. At least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

If the Company is admitted to trading on the Official List, then despite anything in the Constitution, if the Listing Rules prohibit an act being done, the act must not be done. Nothing in the Constitution prevents an act being done that the Listing Rules require to be done. If the Listing Rules require an act to be done or not to be done, authority is given for that act to be done or not to be done (as the case may be). If the Listing Rules require the Constitution to contain a provision and it does not contain such a provision, the Constitution is deemed to contain that provision. If the Listing Rules require the Constitution not to contain a provision and it contains such a provision, the Constitution is deemed not to contain that provision. If a provision of the Constitution is or becomes inconsistent with the Listing Rules, the Constitution is deemed not to contain that provision to the extent of the inconsistency.

The Notice

of Exercise must state the number of Options exercised, the consequent number of Shares to be issued and the identity of the proposed subscribers. The Notice of Exercise by an Option holder must be accompanied by payment in full for the relevant number of Shares being subscribed, being an amount of the exercise price per Share.

- (m) In the event of any reconstruction (including consolidation, subdivisions, reduction or return) of the authorised or issued capital of the Company, all rights of the Option holder shall be reconstructed (as appropriate) in accordance with the ASX Listing Rules.

## **10 ADDITIONAL INFORMATION**

### **10.1 Continuous disclosure obligations**

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares which will be issued pursuant to this Prospectus are in the same class of Shares that have been quoted on the Official List during the 12 months prior to the issue of this Prospectus.

This Prospectus is a "transaction specific prospectus" to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the issue of New Shares on the Company and the rights attaching to the New Shares. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. ## 10.6 Litigation

As at the date of this Prospectus and other than as set out below, the Company is not involved in any other legal proceedings of a material nature and the Directors are not aware of any other legal proceedings pending or threatened against the Company.

Whilst undertaking due diligence for the Placement and Offer, the Company became aware that the cleansing notice given with respect to a share placement made by the Company in

August 2019 (**August 2019 Placement**) was lodged prior to shares being issued under the August 2019 Placement. The cleansing notice was therefore an invalid notice and as a result, those shares could not be offered for sale. Certain shares issued under the August 2019 Placement have been sold and on 18 May 2020 the Company applied to the Federal Court for orders to validate the sales.

On 19 May 2020 The Honorable Justice Jackson made orders validating the sales. A copy of the orders will be announced to ASX on 20 May 2020.

The prospectus lodged with ASIC earlier today contains an offer for the purposes of section 708A(11) of the Corporations Act. There are no restrictions on trading shares issued under the August 2019 placement.

Persons with any queries in relation to the August 2019 Placement and Federal Court application are urged to contact the Company.

#### **10.7 Offer for the purposes of section 708A(11) of the Corporations Act**

Under this Prospectus the Company offers one Share to an unrelated person nominated by the Company Secretary. The purpose of this offer is to comply with section 708A(11) of the Corporations Act and allow Shares issued under the August 2019 Placement and Placement to be offered for sale without disclosure. Section 708A(11) provides that an offer of quoted securities issued without disclosure does not require disclosure if either:

- (a) a prospectus is lodged with ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
- (b) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and

the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.
