AUSTRAL GOLD LIMITED CHAIRMAN'S MESSAGE

AUSTRAL GOLD LIMITED CHAIRMAN'S MESSAGE

Dear Shareholders,

I am pleased to report that 2019 was another solid year for Austral Gold Limited that created a strong foundation for the future of your Company. Our operations in Chile generated sound cash flows through the realisation of higher gold and silver prices, improved production and lower operating cash costs thanks to our management and employees. In addition, we accomplished key strategic objectives that added significant value to your Company which are discussed below.

As our main strategic objective is to extend the life of mine of our Guanaco/Amancaya mine complex, we made a considerable financial commitment to exploration in Chile with encouraging results which led to the identification of new attractive targets within our existing properties.

AUSTRAL GOLD LIMITED CHAIRMAN'S MESSAGE

The Guanaco/Amancaya mine complex is our primary cash generating asset after placing our Casposo mine in Argentina on care & maintenance in April 2019. However, we have a clear objective to recommence mining operations at Casposo. To accomplish this objective, we increased our brownfield exploration and drilling activities during the second half of 2019 and will continue to do so in 2020. Our commitment to grow our Argentinean mining operations is further reflected by the increase in our interest in Casposo to 100% in December 2019.

In addition, we continually assess opportunities to consolidate projects that surround Casposo and to source ore from third parties in the region. This is a work in progress, and we are pursuing several compelling opportunities.

AUSTRAL GOLD LIMITED CHAIRMAN'S MESSAGE

Further, we intend to advance the Pingüino project in Santa Cruz, Argentina by continuing with exploration activities and the potential acquisition of Sierra Blanca as announced on 1 April 2020.

In addition to improved operational and financial results, we met a key strategic objective by entering the North American mining sector through an equity investment in the Rawhide gold and silver mine located in the state of Nevada which gave us 22.5% of this potentially valuable asset (increased to 26.5% upon the exercise of options in 2020).

This investment strengthens our portfolio of mining projects by adding a potential new cash-flow generating asset in one of the most prominent jurisdictions for mining. The Rawhide mining operation is located in the Walker Lane's Regent mining district. We believe there is considerable production upside with this asset and our team is actively involved to maximise the return on our investment.

AUSTRAL GOLD LIMITED CHAIRMAN'S MESSAGE

In 2020 we plan to build upon the accomplishments we made this year. We forecast production to be at 55,000-60,000 gold equivalent ounces. However, we are currently unable to determine the potential impact on our annual 2020 production guidance from the measures taken to de-risk the impact of COVID-19 (announced on 9 April 2020) and the impact of the strike at Guanaco/Amancaya (announced on 12 May 2020).

Our Board is proud of key milestones that Austral Gold achieved this year, including:

- Production of 67K AuEq at Guanaco/Amancaya
- EBITDA of US\$33.6m with healthy C1 and AISC metrics at our mining operations in Chile
- Positive exploration results in Guanaco
- The continued support from our shareholders through a Rights offering which raised US\$1.4m
- Entry into the North America through the investment in the Rawhide gold and silver mine.

AUSTRAL GOLD LIMITED CHAIRMAN'S MESSAGE

Safety is a significant priority for Austral Gold. We are committed to the well-being of our employees and the communities in which we operate, and continue to promote the highest health, safety and environmental standards. We are very supportive of the local communities in which we operate through local hiring of personnel and community and education initiatives.

Our strategic acquisitions and organic growth opportunities, backed by an experienced management team with a proven operational and exploration track record, an exceptional understanding of the Chilean and Argentinean resources sector and the strategic equity investment in the Rawhide mine in Nevada, USA provides us with the foundation for continued growth.

In 2019 and early 2020, we saw a positive trend for gold and silver prices, and we expect fundamentals to remain strong in 2020 and in future years. Although we have improved our financial results in 2019, we continually strive to improve profit margins, while increasing the life and value of our mineral resources to ultimately increase shareholder value.

AUSTRAL GOLD LIMITED CHAIRMAN'S MESSAGE

I would like to thank our shareholders for their continued support, all of our employees and contractors, and our Board members for their hard work and dedication during this year.

Finally, we want to update our shareholders on negotiations with the Unions at the Guanaco and Amancaya mine complex as announced on 12 May 2020. We are making our best efforts to reach an agreement and resume operations as soon as practicable in the benefit of all the stakeholders.

Additionally, as the health of our employees are our top priority, we are closely monitoring the developments around COVID-19.

Eduardo Elsztain
Chairman
