

ASX Release

Key Executive Appointments

2 June 2020

Key Highlights:

- › Key executive appointments – CFO and COO
- › Completes key integration milestone – strengthening leadership team
- › Company well positioned for post-integration growth phase

Environmental technology company **Envirosuite Limited (ASX:EVS) (Company or Group)** is pleased to advise that, following the successful integration of its acquisition of EMS Bruel & Kjaer Pty Ltd (**EMS**), it has made two senior executive appointments to the positions of Chief Financial Officer, and a newly created position of Chief Operations Officer.

The new appointments significantly strengthen the Company's leadership team and position it for a new phase of growth in its global operations as it helps companies and communities harness the power of environmental data and intelligence using its broadened suite of technology solutions.

Effective today, June 2, Mr. Matthew Patterson will take up the role of CFO. Matthew joins the Group following a 9-month secondment to EMS from Macquarie Group. Matthew is an experienced and highly regarded financial services leader with more than 20 years' experience with Macquarie and Ernst & Young.

During his time at Macquarie Group, Matthew was a Division Director with experience leading Finance teams globally, including being CFO for the Macquarie Capital business, where he was responsible for the finance approval and oversight of Macquarie Capital's portfolio of investments.

Other roles he performed included that of Regional Controller for the Americas region, where he oversaw Macquarie's regulatory, tax and legal entity compliance. Prior to that he held the role of Head of Macquarie's Group Capital & Funding team, which provided Finance oversight for Group Treasury, Macquarie's capital and hybrid structures, and performed the Group's hedge accounting.

Prior to joining Macquarie, Matthew worked at Ernst & Young in their Boston, Auckland and Sydney offices where he led financial statement audit, transaction advisory and consulting engagements for technology and financial services clients.

Matthew brings a diverse skillset in corporate finance, due diligence, and financial analysis, and has experience across a range of industries with particular focus on technology, infrastructure and renewables sectors. Matthew has a Master of Finance (Investment Banking) with Distinction from INSEAD.

Mr. Jason Cooper has been appointed to the role of COO commencing 1st July 2020. Jason is a highly regarded and well-respected industry leader with more than 20 years' experience in the technology sector. He has had broad experience working in senior executive roles in both multi-national and start-up environments. During his career he has held senior roles across sales, operations and general management.

Jason is returning to Australia from Silicon Valley to take up the COO role. His current role is as VP of Global Sales at IoTium, a SaaS company providing software for the IoT Network infrastructure sector. In this GE Capital backed start-up Jason applied his entrepreneurial skills to take their infrastructure software to all IoT verticals and aggressively grow the business across global markets.

Before moving to the US Jason had held senior sales and regional management roles for 15 years at Siemens, Honeywell and Tyco. His major focus was on business development and in making the operations more effective through a sustained focus on innovation and customer experience.

Jason has proven leadership capabilities and extensive experience in sales, marketing and operations in bringing digital and hardware technology to a global stage. Jason holds an Executive MBA in Entrepreneurship and Innovation from HEC, France.

Peter White, CEO of Envirosuite commented:

"These key appointments help to strengthen the executive leadership team and will be instrumental in the Company's performance in the coming years as we expand into the global Environmental Intelligence space. We are delighted to have such high-calibre people joining the team as we move on from the integration process into a new global growth phase."

The Company will now release its Group Presentation that introduces the "new Envirosuite" to the market on Thursday 4th June 2020.

Ends

Authorised for the release by the Board of Envirosuite Limited

About Envirosuite

Envirosuite (ASX:EVS) is a global leader in environmental intelligence, using proprietary technology and real-time localised data to help communities and industries thrive.

Through a unique combination of science, software and technology, Envirosuite delivers flexible solutions and actionable data to address challenges with air and water quality, and with noise and vibration, making the world a better place through improved environmental performance.

Founded in Australia, Envirosuite now spans more than 15 countries and is a trusted partner to many of the world's leading operators in airports, cities, construction, mining, heavy industry, waste and water. We believe environmental intelligence has the power to transform our world and can help enable our customers to realise their full potential in all the communities in which they operate.

By harnessing the power of environmental intelligence, we can help build a better world.
