Business update- All store locations re-opened

Story-I Limited is pleased to advise that all its store locations have re-opened following the partial lifting of COVID-19 restrictions from 15 June 2020. All store locations are open while observing strict COVID-19 control measures of hygiene involving frequent and regular washing of hands, social distancing, temperature screening and the mandatory wearing of masks.

Staff have been instructed to disinfect all demo units and the store regularly. Prior to entry into the mall, all customers are checked by the security staff of the mall for personal details to facilitate contact tracing and temperatures are taken before they are allowed to enter the mall.

Michael Chan, Executive Director said "With the easing of COVID-19 controls all our store locations are now operational. We have observed that the number of shoppers in the malls have increased and this is reflected in our sales which have been very encouraging in the past few days."
