8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: No, the Company had previously announced the proposed sale of the Granville Tin Mine, and whilst the anticipated sale to Ten Mining Pty Ltd did not settle the Company are pursuing alternative options for divestment. In the interim the project remains on care & maintenance incurring significantly lower costs than when operating.

From 1 March 2020, the Board and Management of the Company agreed to a 25% reduction of their remuneration through to 30 September, and continue to accrue the balance to be met by way of share issue from time to time as part of the Company's strategy to preserve its treasury. Administrative fees for back-office management also continue to be accrued.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company has announced a proposed Rights Issue to raise a minimum \$1.2 million in conjunction with the acquisition of the Ashford Coking Coal Project. Furthermore, the Company has announced an issue of convertible notes to provide general working capital and finance the costs of the Rights Issue.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, for the reasons outlined in Questions 1 and 2, the Company expects to have further working capital via the announced Convertible Note placement and the proposed rights issue to raise a minimum \$1.2M, sufficient to continue to fund its operations and meet its business objectives.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
