

10 August 2020

Market Update: COVID-19

Operations in Victoria

Capral will continue to operate in Victoria during Stage 4 restrictions. Operations will be strictly conducted under a High Risk COVID Safe Plan. Capral manufactures and distributes aluminium products into a number of 'permitted to open' sectors including; residential building, heavy truck and transport equipment manufacturing, defence and security industries.

Victoria represents around 20% of Capral's total volume. As many customers are permitted to operate during Stage 4, we do not anticipate a dramatic impact on demand. We will close our three retail/trade centres during this period. However, customers will have on-line access to supply.

COVID-19 Cases

Six employees have tested positive to COVID-19 at our Campbellfield site in Melbourne over the past two weeks. Pleasingly, they have all recovered well and will be eligible to return to work later this week after receiving medical clearances. All other employees on this site have returned negative tests. We have worked closely with the Victorian Department of Health (DHHS) in managing return to work on the Campbellfield site.

We will continue to keep the market apprised of any material impacts related to COVID-19.

1H20 Results Announcement: Conference Call Details
